INTERNAL RISK FACTORS

- 1) ***Our company has issued the bonus share on March 04, 2023 on the basis of the half year audited balance sheet dated September 30, 2022 issued by our statutory auditors, where the UDIN is not generated on the signing date.***

The company capitalized reserves worth Rs. 1600.00 lakhs on March 04, 2023, out of the total free reserve and surplus of Rs. 1665.89 lakh. The audit report for this Bonus issue was issued by K E K and Associates Chartered Accountants, the Statutory Auditors of the company, on September 30, 2022. The audit report was erroneously issued without the UDIN (Unique Document Identification Number).

The company was not required to file the balance sheet with the Registrar of Companies (ROC) which is prepared for the interim period. Therefore it was not noticed by the Company that the Balance Sheet is provided without the UDIN. However, during the due diligence process for the company's initial public offering (IPO), the deficiency was noticed. The company immediately asked the auditor to rectify the deficiency and generate the UDIN. The UDIN was generated on May 07, 2023, after the balance sheet was signed.

The company has also taken corrective measures and has filed a compounding application with the ROC to comply with the provisions of the applicable law. The compounding application is currently pending with ROC.

We cannot assure you that any of these matters will be settled in our favor or that no additional liability will arise out of these proceedings. An adverse outcome in any of these proceedings could have an adverse effect on our business, results of operations, cash flows, and financial condition.

- 2) ***Our Company has delayed in compliances with some statutory provisions of the Companies Act, and delayed compliance may attract penalties against our company which could impact the financial position of us to that extent.***

In the past, there have been certain instances of delays in filing statutory forms as per the reporting requirements under the Companies Act, 2013 with the RoC such as delay in filing of e-forms PAS-3 pursuant to Section 39(4) and 42(9) of the Companies Act, 2013 and rule 12 and 14 Companies (Prospectus and Allotment of Securities) Rules, 2014; e-form DPT-3 pursuant to Rule 16 of the Companies (Acceptance of Deposits) Rules; e-form ADT-1 and ADT-3 regarding Appointment of Statutory Auditor. Subsequently, these forms have been filed by making the payment of an additional fee of Rs. 36,000 in total, as specified by RoC.

No show-cause notice in respect to the above has been received by our Company till date and except as stated in this Prospectus, no penalty or fine has been imposed by any regulatory authority in respect to the same. It cannot be assured, that there will not be such instances in the future our Company will not commit any further delays or defaults in relation to its reporting requirements, or any penalty or fine will not be imposed by any regulatory authority in respect to the same. The happening of such event may cause a material effect on our results of operations and financial position.

- 3) ***Our Company operates in the constantly evolving VFX market, which is subject to rapidly changing clients' behaviour and tastes, and depends on audience acceptance of content for which the Company provides VFX services and the long-term popularity of the brands.***

Our Company operates in the entertainment industry which involves a substantial degree of risk, including as a result of rapidly evolving changes in technology, digital content platforms and consumer tastes. The Company's business requires it to quickly react to changing technologies, market dynamics and clients' behaviour and preference. In particular, the convergence of high-definition portable devices, high-speed wireless internet and complementary digital content services, all of which are becoming widely available and more affordable, has created a market in which consumers can watch their favourite shows when, how and where they want. As a result, the industry has seen high demand for OTT content, which has resulted in increased opportunities for VFX services providers. The Company's success at winning opportunities to provide VFX services for content producers depends on our ability to effectively adapt its services to the changes content producers develop in response to evolving consumer preferences. If we fail to keep pace with its customers' needs or fails to respond to changes in technology, we may be unable to compete effectively which could have a material adverse effect on its business, financial condition, cash flow and results of operations.

3. ***If we are unable to attract new clients or our existing clients do not renew their contract, the growth of our business and cash flows will be adversely affected.***

Our top five clients contributed approximately Rs. 1054.50 Lakhs, Rs.969.29 Lakhs and Rs. 3230.82 our revenue from operations based on Restated Standalone Financial Statements for the period ended 31st March, 2021, 31st March 2022 and 31st March 2023 which is 61%, 41% and 46% of our total revenue respectively. To increase our revenue and cash flows, we must regularly add new clients. If we are unable to generate sufficient sales leads through our marketing programs, or if our existing or new clients do not perceive our services to be of sufficiently high value and quality, we may not be able to increase sales and our operating results would be adversely affected. In addition, our existing clients have no obligation to repeat contracts / award new projects to us due to various factors including clients' satisfaction with our services, acceptance of our creative work by the viewers, changing preference of viewers, our prices and the prices of competing service providers. If we fail to achieve repetitive projects from existing clients or to add new clients, our operating results will suffer, and our revenue growth, cash flows and profitability may be materially and adversely affected.

4. ***The Objects of the Issue for which funds are being raised, are based on our management estimates and any bank or financial institution or any independent agency has not appraised the same. The deployment of funds in the project is entirely at our discretion, based on the parameters as mentioned in the chapter titles Objects of the Issue***

The fund requirement and deployment, as mentioned in the "Objects of the Offer" on page 70 of this Prospectus is based on the estimates of our management and has not been appraised by any bank or financial institution or any other independent agency. These fund requirements are based on our current business plan. We cannot assure that the current business plan will be implemented in its entirety or at all. In view of the highly competitive and dynamic nature of our business, we may have to revise our business plan from time to time and consequently these fund requirements. The deployment of the funds as stated under chapter "Objects of the Issue" is at the discretion of our Board of Directors and is not subject to monitoring by any external independent agency. Further, we cannot assure that the actual costs or schedule of implementation as stated under chapter "Objects of the Issue" will not vary from the estimated costs or schedule of implementation. Any such variance may be on account of one or more factors, some of which may be beyond our control. Occurrence of any such event may delay our business plans and/or may have an adverse bearing on our expected revenues and earnings.

5. ***Our Company is subject to foreign exchange control regulations and foreign currency transactions which can impose a risk of currency fluctuations.***

Our Company is involved in business transactions with international clients and has conducted the same in accordance with the rules and regulations prescribed under FEMA. It may be noted that the Company has instances of loss recorded due to exchange rate fluctuation amounting to Rs.1.20 lacs in the year 2023. There has been no penalty imposed against the Company in past for any business transactions with international clients and the Company have duly adhered to the rules and regulations under FEMA in this regard. Further, our international operations make us susceptible to the risk of currency fluctuations, which may directly affect our operating results. In case we are unable to adhere to the timelines prescribed under the applicable laws or are unable to mitigate the risk of currency fluctuation, it could adversely affect our business, results of operations, financial conditions and cash flows."

6. ***There are outstanding litigations involving our Company, Promoters and Directors which, if determined adversely, may affect our business and financial condition.***

- 13. *Intensified competition may restrict our ability to access content and/or talent.***

Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company. In addition, our Promoters will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or other shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

- 16. *We may require additional working capital in the future. A failure in obtaining such additional financing at all or on terms favourable to us could have an adverse effect on our results of operations and financial condition.***

Further, we have high outstanding amount due from our debtors which may adversely affect our cash flows and our business operations.

We also depend significantly on our Key Managerial Personnel for executing our day to day activities. The loss of any of our Promoters and Key Management Personnel, or failure to recruit suitable or comparable replacements, could have an adverse effect on us. The loss of service of the Promoters and other senior management could seriously impair the ability to continue to manage and expand the business efficiently. If we are unable to retain qualified employees at a reasonable cost, we may be unable to execute our growth strategy. For further details of our Directors and Key Managerial Personnel, please refer to chapter — “Our Management” beginning on page 122.

18. *If we are unable to attract new clients or our existing clients do not renew their contract, the growth of our business and cash flows will be adversely affected.*

Our top five clients contributed approximately Rs. 1054.50 Lakhs, Rs.969.29 Lakhs and Rs. 3230.82 our revenue from operations based on Restated Standalone Financial Statements for the period ended 31st March, 2021, 31st March 2022 and 31st March 2023 which is 61%, 41% and 46% of our total revenue respectively. To increase our revenue and cash flows, we must regularly add new clients. If we are unable to generate sufficient sales leads through our marketing programs, or if our existing or new clients do not perceive our services to be of sufficiently high value and quality, we may not be able to increase sales and our operating results would be adversely affected. In addition, our existing clients have no obligation to repeat contracts / award new projects to us due to various factors including clients’ satisfaction with our services, acceptance of our creative work by the viewers, changing preference of viewers, our prices and the prices of competing service providers. If we fail to achieve repetitive projects from existing clients or to add new clients, our operating results will suffer, and our revenue growth, cash flows and profitability may be materially and adversely affected.

19. *We may not be able to sustain effective implementation of our business and growth strategy.*

The success of our business will largely depend on our ability to effectively implement our business and growth strategy. In the past we have generally been successful in execution of our business plan but there can be no assurance that we will be able to execute our strategy on time and within the estimated budget in the future. If we are unable to implement our business and growth strategy, this may have an adverse effect on our business, financial condition and results of operations.

As the Orders have not yet been placed, we cannot assure you that we will be able to undertake such expenditure within the cost indicated by such quotations or that there will not be cost escalations. Therefore, any such demand may adversely affect our business, financial condition and results of operations. For further details, see Financial Indebtedness on page 147 of this Prospectus.

28. *Our ability to remain competitive may be adversely affected by rapid technological changes and our ability to access such technology*

The Indian media and entertainment industry is rapidly evolving, and the use of technology is becoming increasingly important. We rely on technology for a number of our core activities, including the creation, production, and distribution of our visual effects. We may not be successful in adopting new visual effect methods or may lose market share to our competitors if the methods that we adopt are not as technologically sound, user-friendly, widely accessible or appealing to consumers as those adopted by our competitors. Further, advances in technologies or alternative methods or changes in consumer behaviour driven by these or other technologies, could have a negative effect on our business. Other competitor companies may have greater financial strength to adopt new growing technological trends ahead of us. In order to remain competitive, we would be required to upgrade our technology, and any failure to do so could have a material adverse effect on our business, prospects, financial condition and results of operations.

29. *We may be unable to adequately protect our intellectual property and may be subject to risks of infringement Claims*

We own and registered trade mark  under the Trade Mark Act, 1999. Our Company has filed application on 17th July, 2023 for  which is currently pending with the Authority. There can be no assurance that we will be able to successfully obtain or renew our registration in a timely manner or at all, which may affect our ability to use the brand in the future. We may not be able to prevent infringement of our trademarks and a passing off action may not provide sufficient protection until such time that this registration is granted.

The measures we take to protect our intellectual property include relying on Indian laws and initiating legal proceedings, which may not be adequate to prevent unauthorised use of our intellectual property by third parties. We may also incur significant costs in connection with legal actions relating to such rights. Notwithstanding the precautions we take to protect our intellectual property rights, it is possible that third parties may copy or otherwise infringe on our rights, which may have an adverse effect on our business, results of operations and financial condition. Our failure to detect counterfeiting or imitation of our own brand products and trademarks and to mitigate the adverse impact from such counterfeiting and imitation could result in a decrease in our sales volume or market share.

While we take care to ensure that we comply with the intellectual property rights of others, we cannot determine with certainty whether we are infringing any existing third-party intellectual property rights, which may force us to alter our offerings. We may also be susceptible to claims from third parties asserting infringement and other related claims. If similar claims are raised in the future, these claims could result in costly litigation, divert management’s attention and resources, subject us to significant liabilities and require us to enter into potentially expensive royalty or licensing agreements or to cease certain offerings. business, results of operations and financial condition

At present, our company has taken insurance policies as given in chapter “Our Business” beginning on page no. 98, for our assets including properties, software and equipment. Any risk of damage may be controlled, but not eliminated. We cannot assure you that there will not be any incidents which may result in liability claims or negative publicity. Although we have liability insurance cover for stocks and properties for certain of our businesses, we cannot assure you that this insurance coverage is adequate or that any losses will be adequately compensated by our insurers in the event of a product liability claim. The amount of our future dividend payments, if any, will depend upon various factors including our future earnings, financial condition, cashflows and requirement to fund operations and expansion of the business. There can be no assurance that we will be able to declare dividends. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors. For further details, please refer “Dividend Policy” on page 143 of this Prospectus.

There can be no assurance that our Equity Shares will appreciate in value. For details regarding our dividend policy, please see “Dividend Policy” on page no 143 of this Prospectus.

33. *In case of any inability arise to source business opportunities effectively, we may not achieve our financial objectives.*

Our ability to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business, we will need to hire, train, supervise and manage new employees, expand our sales channel and to implement systems capable of effectively accommodating our growth. However, we cannot assure that any such employees or marketing agents will contribute to the success of our business or that we will implement such systems effectively. Our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It is also possible that the strategies used by us in the future may be different from those presently in use. No assurance can be given that our analysis of market conditions and other data or the strategies that we may use in future to use will be successful under various market conditions.

34. *The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the issue price and you may not be able to*

sell your Equity Shares at or above the Issue Price.

The issue price of the equity shares have been based on many factor and may not be indicative of the market price of our Equity Shares after the Issue. For further information please refer the section titled “Basis for Offer Price” beginning on page 84. The market price of our Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price.

35. ***The Objects of the Issue for which funds are being raised, are based on our management estimates and any bank or financial institution or any independent agency has not appraised the same. The deployment of funds in the project is entirely at our discretion, based on the parameters as mentioned in the chapter titles “Objects of the Issue”.***

The fund requirement and deployment, as mentioned in the “Objects of the Offer” on page 72 of this Prospectus is based on the estimates of our management and has not been appraised by any bank or financial institution or any other independent agency. These fund requirements are based on our current business plan. We cannot assure that the current business plan will be implemented in its entirety or at all. In view of the highly competitive and dynamic nature of our business, we may have to revise our business plan from time to time and consequently these fund requirements. The deployment of the funds as stated under chapter “Objects of the Issue” is at the discretion of our Board of Directors and is not subject to monitoring by any external independent agency. Further, we cannot assure that the actual costs or schedule of implementation as stated under chapter “Objects of the Issue” will not vary from the estimated costs or schedule of implementation. Any such variance may be on account of one or more factors, some of which may be beyond our control. Occurrence of any such event may delay our business plans and/or may have an adverse bearing on our expected revenues and earnings.

36. ***There is no monitoring agency appointed by Our Company and the deployment of funds are at the discretion of Our Management and our Board of Directors, though it shall be monitored by our Audit Committee.***

The issue proceeds is entirely at the discretion of the issuer/management. As per SEBI (ICDR) Regulations, 2018, appointment of monitoring agency is required only if Issue size exceeds ₹ 10,000 Lakhs. Hence, we have not appointed any monitoring agency to monitor the utilization of Issue proceeds. However, as per the Section 177 of the companies Act, 2013 the Audit Committee of our Company would be monitoring the utilization of the Issue Proceeds.

37. ***Our future funds requirements, in the form of fresh issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.***

We may require additional capital from time to time depending on our business needs. Any fresh issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favourable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

38. ***The requirements of being a public listed company may strain our resources and impose additional requirements.***

With the increased scrutiny of the affairs of a public listed company by shareholders, regulators and the public at large, we will incur significant legal, accounting, corporate governance and other expenses that we were not required to incur in the past. We will also be subject to the provisions of the listing agreements signed with the Stock Exchange. In order to meet our financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management’s attention may be diverted from other business concerns, which could have an adverse effect on our business and operations.

There can be no assurance that we will be able to satisfy our reporting obligations. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge and we cannot assure that we will be able to do so in a timely manner. Failure of our Company to meet the listing requirements of stock exchange, if any, could lead to imposition of penalties, including suspension of trading in shares of the Company.

39. ***We are exposed to the risk of delays or non-payment by our clients and other counter parties, which may also result in cash flow mismatches.***

We are exposed to counter party credit risk in the usual course of our business dealings with our clients or other

counterparties who may delay or fail to make payments or perform their other contractual obligations. The financial condition of our clients, business partners, suppliers and other counterparties may be affected by the performance of their business which may be impacted by several factors including general economic conditions. We cannot assure you of the continued viability of our counterparties or that we will accurately assess their creditworthiness. We also cannot assure you that we will be able to collect the whole or any part of any overdue payments. Any material non-payment or non-performance by our clients, business partners, suppliers or other counterparties could affect our financial condition, results of Operations and cash flows. For further details of our business and clients, please refer chapter titled “Our Business” and “Management Discussion & Analysis Conditions and Result of Operation” beginning on page 98 and 145 of this Prospectus.

40. *Our growth will depend on our ability to build our brand and failure to do so will negatively impact our ability to effectively compete in this industry.*

We believe that we need to continue to build our brand, “Basilic”, which will be critical for achieving widespread recognition of our services. Promoting and positioning our brand will depend largely on the success of our marketing efforts and our ability to provide high quality services. The brand promotion activities that we may undertake may not yield increased revenues, and even if they do, any increased revenues may not offset the expenses we incur in building our brand. If we are unable to promote and maintain our brand, our business, financial condition and results of operations could be adversely affected.

41. *Our operations could be adversely affected by disputes with employees.*

We believe we maintain good relationships with our workforce, there can be no assurance that the Company will not experience future disruptions to its operations due to disputes or other problems with its work force.

42. *Interest rate fluctuations may adversely affect the Company's business.*

The Company may enter into certain borrowing arrangements to finance its capital requirements in the ordinary course of business for general working capital purposes. In the event interest rates increase, the Company's costs of borrowing will increase, and its profitability and results of operations may be adversely affected.

43. *If we are unable to source business opportunities effectively, we may not achieve our financial objectives.*

Our capacity to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business there is significant importance to find, hire, train, supervise and manage efficient employees and also to establish such process of business operations which is proficient enough to effectively achieve our growth. Instead of putting keen efforts, as mentioned here, we cannot assure that any such employees will contribute to the success of our business or that we will implement such systems effectively. Our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It is also possible that the strategies used by us in the future may be different from those presently in use.

44. *Our inability to manage growth could disrupt our business and reduce profitability.*

A principal component of our strategy is to continuously grow by expanding the capacity, size and geographical scope of our businesses. This growth strategy will place significant demands on our management, financial and other resources. It will require us to continuously develop and improve our operational, financial and internal controls. Continuous expansion increases the challenges involved in financial management, recruitment, training and retaining high quality human resources, preserving our culture, values and entrepreneurial environment, and developing and improving our internal administrative infrastructure. Any inability on our part to manage such growth could disrupt our business prospects, impact our financial condition and adversely affect our results of operations.

45. *The price of our Equity Shares may be volatile, or an active trading market for our Equity Shares may not develop.*

Prior to this Issue, there has been no public market for our Equity Shares. Share India Securities Limited is acting as Market Maker for the Equity Shares of our Company. However, the trading price of our Equity Shares may fluctuate after this Issue due to a variety of factors, including our results of operations and the performance of our business, competitive conditions, general economic, political and social factors, the performance of the Indian and global economy and significant developments in India's fiscal regime, volatility in the Indian and global securities market, performance of our competitors, the Indian Capital Markets, changes in the estimates of

our performance or recommendations by financial analysts and announcements by us or others regarding contracts, acquisitions, strategic partnerships, joint ventures, or capital commitments. In addition, if the stock markets experience a loss of investor confidence, the trading price of our Equity Shares could decline for reasons unrelated to our business, financial condition or operating results. The trading price of our Equity Shares might also decline in reaction to events that affect other companies in our industry even if these events do not directly affect us. Each of these factors, among others, could materially affect the price of our Equity Shares. Any instance of disinvestments of equity shares by our Promoters or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur. There can be no assurance that an active trading market for our Equity Shares will develop or be sustained after this Issue, or that the price at which our Equity Shares are initially offered will correspond to the prices at which they will trade in the market subsequent to this Issue. For further details of the obligations and limitations of Market Maker, please refer to the section titled “General Information” for this offer beginning on page 42.

49. *After this Issue, the price of the Equity Shares may be highly volatile, or an active trading market for the Equity Shares may not develop.*

Under current Indian tax laws, capital gains arising from the sale of equity shares within 12 months in an Indian company are classified as short-term capital gains and generally taxable. Any gain realized on the sale of listed equity shares on a stock exchange that are held for more than 12 months is considered as long-term capital gains and is taxable at 10%, in excess of Rs.1,00,000. Any long-term gain realized on the sale of equity shares, which are sold other than on a recognized stock exchange and on which no STT has been paid, is also subject to tax in India. - Income Tax
- Custom duties on of raw materials and components;

These taxes and levies affect the cost and prices of our services. An increase in any of these taxes or levies, or the imposition of new taxes or levies in the future, may have a material adverse effect on our business, profitability and financial condition.

60. *Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.*

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, and taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

61. *We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and industry in which we operate contained in the Prospectus...*

While facts and other statistics in the Prospectus relating to India, the Indian economy and the industry in which we operate has been based on various web site data and IBEF that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled "Industry Overview" beginning on page 90 of this Prospectus. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

62. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

63. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no

assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

64. *The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.*

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

65. *Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

66. *Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.*

India has experienced natural calamities such as earthquakes, tsunamis, floods etc. in recent years. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

67. *Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.*

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks in India, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

Illustration of the Book Building and Price Discovery Process: Bidders should note that this example is solely for illustrative purposes and is not specific to the Offer. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Offer size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%

2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Offer the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Company and the Selling Shareholders in consultation with the BRLM, may finalise the Offer Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Offer Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

GLOBAL OUTLOOK

The global animation and visual effects market size was estimated at USD 168 billion in 2021 and is projected to grow to USD 290 Bn by 2024 at a CAGR of 10.94% between 2020 and 2026 . One of the main factors leading to the development of the VFX market worldwide is the introduction of Augmented Reality (AR). The increasing demand for digital content has created a need for innovation in visual effects for new experiences like AR. The global gaming market was valued at USD 198.4 Bn in 2020 and is expected to reach USD 314.4 billion by 2026, growing at a CAGR of 9.64% between 2021 and 2026. 5 As per estimates for 2021, there are 2.7 billion gamers across the world with China, Japan, US, and UK combined representing 47% of all gamers globally and 64% of all direct consumer spend on gaming. 6 Asia-Pacific is anticipated to hold the largest market share in the gaming industry, with India, Japan, China, and South Korea showing high potential for market growth.

Demand is certainly not an issue but a lack of skilled talent could pose a challenge. However, there is no dearth of dreamers in this industry. If the government and the industry come together to ensure up-skilling and better infrastructure, the sky is the limit.

Visual effects (VFX) significantly benefit the media and entertainment industry. It enhanced the quality and experience of videos, movies, and series. However, adapting visual effects is expensive and may hamper the market growth. Visual effects require skilled people with training and experience. It includes a large amount of labour and a significant amount of time. For large scale projects may require more than 200 skilled people (trained and experienced). They need a high-cost of salary as well. Additionally, the visual effects studio requires a larger area and a room with racks to keep all electronic instruments. Moreover, it also needs extraordinary power and air conditioning, which makes them very costly, and increases the final cost as well.

Visual effects (VFX) are a crucial part of today's media and entertainment industry. About 90 percent of films, videos, and series use visual effects. Visual effects (VFX) have come a long way in innovation and technology. Although most visual effects are finished in post-production using various tools and technologies like artificial intelligence, machine learning, graphic design, modelling, animation, and related software, visual effects are essential to a movie's plot and appeal. The trend of digitalization is increasing with advanced technologies, creating a lucrative growth opportunity for the future visual effects (VFX) market.

GLOBAL VFX INDUSTRY OVERVIEW

The global visual effects (VFX) market attained a value of USD 9.95 billion in 2022. The market is further expected to grow in the forecast period of 2023-2028 at a CAGR of 10.4% to reach almost USD 18.02 billion by 2028. The global market is being led by North America, majorly being driven by the increasing use of VFX in Hollywood movies.

One of the main factors driving the rise of the global VFX market is the growing demand for high-quality content. With the increasing use of digital video streaming outlets like Amazon Prime Video, Netflix and Hulu, high-quality content and VFX are becoming more important. Smart devices like smartphones, tablets, laptops, and HD TVs are increasingly being used to promote the development of digital video streaming services. Many video services and studios utilize VFX in films and TV shows. Moreover, studios are stiffly competitive with providers of video streaming services by designing high-quality feature content, such as VFX. Consumers who are increasingly looking for high-definition (HD) VFX experiences will have huge business opportunities in the VFX market in the next few years.

One of the main factors leading to the development of the worldwide VFX development is the introduction of augmented reality (AR). The increasing demand for digital content creates a need for innovation in visual effects for new experiences like AR. In addition, film production units integrate AR in ongoing cameras to identify problems with VFX shots and to speed up the post-production process. The integrated AR cameras provide previews for filmmakers in order to identify the best scene. Due to the growing potential of AR in the media and entertainment industries, the increasing number of visual effects service providers are taking AR. Movies are majorly dominating the application sector.

In the last 5 years, the VFX industry has grown 6.2x times than the previous decades. Most popularly there are some of the big Hollywood studios outsourcing video editing work to some of the professional companies in cities like Bangalore, Pune, Mumbai, Chennai, etc. According to the recent survey conducted by FICCI reported by KPMG, the VFX industry has been growing alone to 51.1%. While every year, there are more than 15,000 professionals required in this industry. One of the key indicators of growth of this industry is that the government initiative 'Make in India' has been actively investing in this industry through their 'Digital India' scheme. Also the fact is the government is making extra efforts to train & groom the people that increase the employment opportunities. Considering the fact, the VFX industry is currently valued at Rs. 121 billion and will almost double up by the year 2025. Nevertheless, the VFX is not only used in film making but also the corporate presentation, websites, gaming, APP development and other branding materials. It is expected to grow at the several areas in the last couple of years & contributes to a huge economic growth.

Statistics by the recent FICCI EY report confirm the exponential growth of India's M&E space with VFX and post production facilities moving up the value chain.

In 2023, the Indian VFX sector grew by 120 per cent to reach Rs 42.6 billion, while post-production grew by 54 per cent to reach Rs 18.2 billion. Jointly the animation, VFX and post-production sector is expected to reach Rs.180 billion by 2024. Key drivers of growth for the sector will include:

However, the key risk remains availability of quality talent, for which much needs to be done around training and up skilling.

Visual Effects (VFX) industry stands as a crucial pillar of modern filmmaking, breathing life into fantastical worlds, epic battles, and breathtaking sequences. This multi-billion-dollar industry operates through a complex interplay of creativity, technology, and collaboration. The VFX industry functions through a collaborative framework involving major production houses and specialized VFX studios. The industry's workflow, outsourcing practices, and specialization within production houses & studios shape its landscape.

Workflow

The VFX process begins during pre-production, where filmmakers plan and conceptualize scenes requiring digital enhancement. Once shooting starts, the production team captures live-action footage, often with green screens or tracking markers to facilitate later integration of VFX elements. During post-production, specialized teams work on different aspects of VFX, including 3D modeling, animation, compositing, and digital matte painting. This phase involves careful coordination and iteration between directors, visual effects supervisors, and the VFX teams.

Outsourcing to Production Houses:

Given the intricacy and scale of VFX work, many studios choose to outsource certain aspects to specialized teams. These teams are equipped with the expertise, infrastructure, and technology to manage large-scale VFX projects. Outsourcing often occurs when a studio lacks in-house capabilities or needs to meet tight deadlines. Outsourced work can include complex simulations (e.g., fluid dynamics), character animation, crowd simulations, and more. Productions often outsource VFX tasks due to their intricate nature. This outsourcing process ensures high-quality effects in an efficient manner.

Industry-Wise Outsourcing:

Production houses make informed decisions about which studios to outsource to based on their specialization. The VFX landscape is diverse, with studios excelling in different areas, such as character animation, environment creation, particle effects, or motion capture. For example, Studio A might have a reputation for creating realistic creatures, while Studio B specializes in crafting expansive digital environments. This industry-wide specialization enables production houses to tap into the strengths of different studios, ensuring that each aspect of a project receives top-notch treatment. Studios focus on strengths, allowing production houses to leverage expertise without handling VFX internally. The specialization of studios within the industry streamlines work distribution, enhancing overall credibility.

The Specialization Factor:

Studios within the VFX industry often emerge as leaders in specific domains due to their accumulated expertise. This specialization stems from years of experience, a skilled workforce, and investments in research and development. Some studios might focus on photorealistic effects, pushing the boundaries of digital artistry, while others might excel in stylized or fantastical elements. This specialization not only defines a studio's identity but also ensures that projects are assigned to the most capable hands.

During pre-production, production houses identify scenes demanding VFX and collaborate with VFX supervisors to envision effects. They select VFX studios based on expertise. Each studio specializes in areas like creature design, environments, or simulations.

The process involves shot breakdown, asset creation (3D models, animations), rendering, and compositing. Rigorous quality checks and directorial reviews maintain alignment with the film's vision. Approved VFX shots are seamlessly integrated into the final film.

This outsourcing maximizes efficiency and quality. Studios focus on strengths, allowing production houses to leverage expertise without handling VFX internally. The specialization of studios within the industry streamlines work distribution, enhancing overall credibility.

Gratuity - The Present value of obligation is determined based on actuarial valuation using the Projected Unit Credit Method. This method considers each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation.

Interest cost: It is the increase in the Plan liability over the accounting period resulting from the operation of the actuarial assumption of the interest rate.

Current Service Cost: is the discounted present value of the benefits from the Plan's benefit formula attributable to the services rendered by employees during the accounting period.

Actuarial Gain or Loss: occurs when the experience of the Plan differs from that anticipated from the actuarial assumptions. It could also occur due to changes made in the actuarial assumptions.

The restated summary financial information has been prepared by applying necessary adjustments to the financial statements ('financial statements') of the Company. The consolidated financial statements of the Company have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the accounting standards specified under section 133 of the Companies Act, 2013, of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013 ("the 2013 Act"), as applicable and Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) regulations 2009, as amended (the "Regulations"). The consolidated financial statements have been prepared on accrual basis under the historical cost convention. The accounting policies adopted in the preparation of the consolidated financial statements are consistent with those followed in the previous year of the holding Company.

Basis of Consolidation:

The financial statements of the Group are consolidated on a line-by-line basis and intra-group balances and transactions, including unrealized gain / loss from such transactions, are eliminated upon consolidation.

These financial statements are prepared by applying uniform accounting policies in use at the Group.

Minority interests which represent part of the net profit or loss and net assets of subsidiaries that are not, directly or indirectly, owned or controlled by the Company, are disclosed separately.

Revenue recognition:

The Group derives its revenues primarily from Sale of Visual effects (VFX) Service contracts.

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured in accordance with AS-9, Revenue Recognition. Sales are recognized on accrual basis, and only after transfer of services to the customer.

The Group provides services of visual special effects (VFX) and two dimensions to three-dimension (2D to 3D) conversion.

Revenue from services provided under fixed price contracts, where the outcome can be estimated reliably, is recognized following the proportionate completion method, where revenue is recognized in proportion to the progress of the contract activity. The progress of the contract activity is usually determined as a proportion of efforts incurred up to the balance sheet date, which bears to the total hours / days estimated for the contract.

Revenue on time-and-material contracts are recognized as the related services are performed and the revenues from the end of the last billing to the balance sheet date are recognized as unbilled revenues.

Interest Income: Revenue is recognized on the time proportion basis after taking into account the amount outstanding and the rate applicable.

Dividend Income: Dividend Income is recognised when the owners right to receive payment is established.

Other Income : Other items of income and expenditure are recognized on accrual basis and as a going concern basis, and the accounting policies are consistent with the generally accepted accounting policies.

Property Plant and Equipment including Intangible assets:

Property Plant and Equipments are stated at cost, less accumulated depreciation. Cost includes cost of acquisition including material cost, freight, installation cost, duties and taxes, and other incidental expenses, incurred up to the installation stage, related to such acquisition. Property Plant and Equipments purchased in India in foreign currency are recorded in Rupees, converted at the exchange rate prevailed on the date of purchase.

Intangible assets that are acquired by the Company are measured initially at cost. After initial recognition, an intangible asset is carried at its cost less any accumulated amortisation and any accumulated impairment loss.

Depreciation & Amortisation:

The Group has applied the estimated useful lives as specified in Schedule II of the Companies Act 2013 and calculated the depreciation as per the Written Down Value (WDV) method. Depreciation on new assets acquired during the year is provided at the rates applicable from the date of acquisition to the end of the financial year. In respect of the assets sold during the year, depreciation is provided from the beginning of the year till the date of its disposal.

Intangible assets are amortised on a straight-line basis over the estimated useful life as specified in Schedule II of the Companies Act 2013. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss. In respect of the assets sold during the year, amortisation is provided from the beginning of the year till the date of its disposal.

The estimated useful lives of assets are as follows:

Useful life of Property, Plant and Equipments

Category	Useful life	
	Parent	Subsidiary- Basilic Fly Studio UK Private Limited
Computer & Accessories	3-6 years	5 years
Furniture & Fittings	10 years	-
Office Equipments	5 years	-
Plant & Machinery	15 years	-
Printers & Scanners	13 years	-
Vehicles	8 years	-

Impairment of assets:

The Management periodically assesses using, external and internal sources, whether there is an indication that an asset may be impaired. An impairment loss is recognised wherever the carrying value of an asset exceeds its recoverable amount. The recoverable amount is higher of the asset's net selling price and value in use, which means the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. Reversal of impairment loss is recognised immediately as income in the profit and loss account.

Use of estimates:

The preparation of the consolidated financial statements in conformity with Generally Accepted Accounting Principles requires the Management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent assets and liabilities as at the date of the financial statements and the reported amounts of income and expenses during the year. Examples of such estimates include provisions for doubtful debts, income taxes, post - sales customer support and the useful lives of Property Plant and Equipments and intangible assets.

Foreign currency transactions:**Domestic Operation:****I . Initial recognition :**

A foreign currency transaction is recorded, on initial recognition in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

II . Measurement :

Foreign currency monetary items are reported using the closing rate.

Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

Non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

III . Treatment of Foreign exchange :

Exchange differences arising on settlement/restatement of foreign currency monetary assets and liabilities of the Company are recognised as income or expenses in the Statement of Profit and Loss.

For the purposes of presenting these consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into Indian Rupees using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates for the dates of the transactions are used. Exchange differences arising, if any, are recognised in foreign currency translation reserve.

Exchange difference arising on an intra-group monetary item, whether short-term or long-term, cannot be eliminated against corresponding amount arising on other intra-group balances because the monetary item represents a commitment to convert one currency into another and exposes the reporting enterprise to a gain or loss through of the reporting enterprise, such an exchange difference continues to be recognised as income or an expense.

Employee Benefits:**A Short - term employee benefits:****Leave encashment:**

The leave encashment liability upon retirement would not arise as the accumulated leave is reimbursed every year and accounted at actual.

B Post-Employment benefits:**Defined benefit plan:**

Gratuity liability is a defined benefit obligation and is unfunded. The Company accounts for liability for future gratuity benefits based on the actuarial valuation using Projected Unit Credit Method carried out as at the end of each financial year.

Defined contribution Plan:

Taxes on Income:**A Current Tax:**

Provision for current tax is made in accordance with the provisions of the Income Tax Act, 1961.

B Deferred Tax:

Deferred tax is recognised, subject to the consideration of prudence, as the tax effect of timing difference between the taxable income and accounting income computed for the current accounting year using the tax rates and tax laws that have been enacted or substantially enacted by the balance sheet date.

Deferred tax assets are recognised and carried forward to the extent that there is a reasonable certainty, except arising from unabsorbed depreciation and carried forward losses, that sufficient future taxable income will be available against which such deferred tax assets can be realised.

Provisions and Contingent Liabilities:

A provision is recognised if, as a result of past event, the Company has a present legal obligation that can be estimated reliably and it is probable that an outflow of economic benefit will be required to settle the obligation. Provisions are determined by the best estimate of outflow of economic benefits required to settle the obligation at the reporting date. Where no reliable estimate can be made, a disclosure is made as contingent liability. A disclosure for a contingent liability is also made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is possible obligation or present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Earnings Per Share:

Basic Earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the net profit after tax by the weighted average number of shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The diluted potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value which is the average market value of the outstanding shares. Dilutive potential equity shares are deemed converted as at the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

Investments:

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

STATEMENT OF PROVISION FOR GRATUITY AS RESTATED

ANNEXURE -31

Gratuity - The Present value of obligation is determined based on actuarial valuation using the Projected Unit Credit Method. This method considers each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation.

Interest cost: It is the increase in the Plan liability over the accounting period resulting from the operation of the actuarial assumption of the interest rate.

Current Service Cost: is the discounted present value of the benefits from the Plan's benefit formula attributable to the services rendered by employees during the accounting period.

Actuarial Gain or Loss: occurs when the experience of the Plan differs from that anticipated from the actuarial assumptions. It could also occur due to changes made in the actuarial assumptions.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL POSITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis of financial condition and results of operations together with our financial statements included in this Red hearing Prospectus. The following discussion relates to our Company and is based on our restated financial statements. Our financial statements have been prepared in accordance with Indian GAAP, the accounting standards and other applicable provisions of the Companies Act.

Note: Statement in the Management Discussion and Analysis Report describing our objectives, outlook, estimates, expectations or prediction may be "Forward looking statement" within the meaning of applicable securities laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to our operations include, among others, economic conditions affecting demand/supply and price conditions in domestic and overseas market in which we operate, changes in Government Regulations, Tax Laws and other Statutes and incidental factors.

BUSINESS OVERVIEW

The Promoters of the company had started the business operations in form of a partnership firm incorporated in the year 2013 which was subsequently dissolved in 2019, while in the year 2016 the company Basilic Fly Studio Private Limited was incorporated., We are a visual effects (VFX) studio headquartered in Chennai, India with subsidiaries operating at Canada and UK which specialize in creating visual experiences that captivate audiences around the world.

We hold proficiency in the VFX industry and have delivered high-quality VFX solutions for movies, TV, net series, and commercials.

FACTORS AFFECTING OUR RESULT OF OPERATIONS

Except as otherwise stated in the Prospectus and the Risk Factors given in the Prospectus, the following important factors could cause actual results to differ materially from the expectations include, among others:

Regulatory Framework

We have obtained all regulatory permissions which are necessary to run our business, Further, some of the approvals are granted for fixed periods of time and need renewals, which are obtained in the course of business, however, there may be change in statutory regulations at any time which cannot be predicted by us. There can be no assurance that the change in regulations will not impact our operations in the future but as a company we have all competent teams in place to keep track of new legislations that may come up & we shall undertake best possible steps to do necessary compliances.

Ability of Management and Key Team

Our success depends on the continued services and performance of the members of our management team and other key employees. Competition for senior management in the industry is intense, and we may not be able to retain our existing key team members in the future but we have adequately sized HR team who is back & front in working to get on roll for the company the best of available talents so that we continue to serve our clients in the best possible manner. The loss of the services of our Promoters could seriously impair our ability to continue to manage and expand our business. Further, the loss of any other member of our senior management or other key personnel may adversely affect our business, results of operations and financial condition.

Market & Economic conditions

In this globalised economy, all the businesses face an uncertain level of volatility from unexpected global events which ranges from global pandemics to wars, to weather changes to supply chain disruption, which may change the economic dynamics and the purchasing capability of the end customers. At the time of market slowdown, the demand falls which has adverse impact on our business. We being a 100% export of services business are prone to such risk but we are a company working for clients stationed at multiple geographical locations thereby mitigating possible risks.

Competition

We operate in a competitive atmosphere. Our competition varies by market, geographic areas and type of services. Our Company may face stiff competition from domestic as well as global market as the dynamic changes. Some of our competitors may have greater resources than those available to us. While service quality, technical ability, performance records, etc are key factors in client decisions among competitors, however, price & quality are the deciding factor in most cases. Further, this industry is fragmented with many small and medium sized companies and entities, which like any other business at various levels, which may adversely affect our business operation and financial condition. Further, there stands an entry barrier to get TPN certifications if at all a business desires to work for global clients and any expansion in capacity of existing service providers would further intensify competition. Moreover, as we seek to diversify into new geographical areas, new territories, new emerging markets, we face competition from competitors that

have a global presence and also from competitors that have a strong presence in regional markets. The markets in which we compete and intend to compete are undergoing, and are expected to work on certain specific type of services to continue to undergo, rapid and significant change. We expect competition to intensify as technological advances and consolidations continue. These competitive factors may force us to reduce rates, and to pursue new market opportunities. Increased competition could result in reduced demand for our services, increased expenses, reduced margins and loss of market share. Failure to compete successfully against current or future competitors could harm our business, operating cash flows and financial condition.

Significant Developments after March 31, 2023 that may affect our Future Results of Operations

The Directors confirm that there have been no other events or circumstances since the date of the last financial statements as disclosed in the Prospectus which materially or adversely affect or is likely to affect the business or profitability of our Company or the value of our assets, or our ability to pay liabilities within next twelve months.

Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer, in consultation with the BRLM, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy upto any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India ("RBI") and Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India ("DPIIT").

The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy 2020 will be valid until the DIPP issues an updated circular.
