SECTION III – RISK FACTOR

An investment in the Equity Shares involves a high degree of risk. You should carefully consider all the information in this Draft Red Herring Prospectus, including the risks and uncertainties described below, before making an investment in the Equity Shares. In making an investment decision, prospective investors must rely on their own examination of us and the terms of the Issue including the merits and risks involved. The risks described below are not the only ones relevant to us, our Equity Shares, the industry or the segment in which we operate. Additional risks and uncertainties, not presently known to us or that we currently deem immaterial may arise or may become material in the future and may also impair our business, results of operations and financial condition. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business, results of operations, cash flows and financial condition could be adversely affected, the trading price of our Equity Shares could decline, and as prospective investors, you may lose all or part of your investment. You should consult your tax, financial and legal advisors about particular consequences to you of an investment in this Issue. The financial and other related implications of the risk factors, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are certain risk factors where the financial impact is not quantifiable and, therefore, cannot be disclosed in such risk factors.

To obtain a complete understanding, you should read this section in conjunction with the sections “Industry Overview”, “Our Business” and “Management’s Discussion and Analysis of Financial Position and Results of Operations” on pages 91, 102 and 167 of this Draft Red Herring Prospectus, respectively. The industry-related information disclosed in this section that is not otherwise publicly available is derived from industry sources as well as Government Publications. Industry sources as well as Government Publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but that their accuracy and completeness and underlying assumptions are not guaranteed and their reliability cannot be assured.

This Draft Red Herring Prospectus also contains forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and, in the section titled “Forward-Looking Statements” on page 24 of this Draft Red Herring Prospectus.

Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implications of any of the risks described in this section. Unless the context requires otherwise, the financial information of our Company has been derived from the Restated Financial Information.

Materiality:

The Risk Factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality of Risk Factors:

- *Some events may not be material individually but may be found material collectively;*
- *Some events may have material impact qualitatively instead of quantitatively; and*
- *Some events may not be material at present but may have a material impact in future.*

The financial and other related implications of risks concerned, whether quantifiable have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence, the same has not been disclosed in such risk factors. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk over another.

In this Draft Red Herring Prospectus, any discrepancies in any table between total and sums of the amount listed are due to rounding off.

In this section, unless the context requires otherwise, any reference to “we”, “us” or “our” refers to Freshara Agro Exports Limited.

The risk factors are classified as under for the sake of better clarity and increased understanding.

INTERNAL RISK FACTORS

1. ***We derive significant portion of our revenue from sell of Gherkins as accounted for 84.90%, 93.50%, and***

90.90 of our revenue from operations in Fiscal 2022, 2023 and 2024 respectively. An inability to anticipate and adapt to evolving consumer preferences and demand for particular products, or ensure product quality may adversely impact demand for our products and consequently our business, results of operations, financial condition and cash flows.

Our financial performance is dependent primarily on the sale of Gherkins. The following table sets forth information on our product mix in the periods indicated:

Product	2023-2024		2022-2023		2021-2022	
	Value (in ₹ lakhs)	In %	Value (in ₹ lakhs)	In %	Value (in ₹ lakhs)	In %
Gherkins	16,444.02	84.9%	11,782.45	93.5%	10,708.57	96.2%
Baby Corns	400.49	2.1%	158.02	1.3%	279.11	2.5%
Banderilla	352.98	1.8%	149.08	1.2%	41.63	0.4%
Chilies	82.18	0.4%	77.82	0.6%	-	-
Bell Pepper	128.21	0.7%	24.59	0.2%	55.29	0.5%
Jalapeno	198.49	1.0%	254.12	2.0%	43.29	0.4%
Mixed (Gherkins, Chilies, Banderillas)	1,772.24	9.1%	153.34	1.2%	-	-
Other Revenue	-	-	-	-	611.44	5.4%

We derive substantial revenue from the sale of Gherkins.

Any decrease in demand for Gherkins can have an adverse impact on our business, results of operations, financial conditions and cash flows. Further, any disruption in the supply chain for these Gherkins, such as delays in delivery or quality issues, may impact our ability to meet customer demand and result in loss of sales. While there has not been any instance of any disruption in the supply chain of Gherkins in the last three Fiscals, we cannot assure you that such instance will not arise in the future.

- Improper storage, processing or handling of whole products of Gherkins, Baby Corns, Banderilla, Chilies, Bell Pepper and other products may result in spoilage of, and damage to, such whole Gherkins, Baby Corns, Banderilla, Chilies, Bell Pepper and other products which may adversely affect our business prospects, results of operations and financial condition.***

We process a range of farming products such as Gherkins, Baby Corns, Banderilla, Chilies, Bell Pepper and other products etc. Each such farming products involves specific temperatures and other conditions of storage depending on the nature of the product. In the event that the procured Gherkins, Baby Corns, Banderilla, Chilies, Bell Pepper and other products are not appropriately processed, stored, handled and transported under specific temperatures and other food safety conditions, the quality of such Gherkins, Baby Corns, Banderilla, Chilies, Bell Pepper and other products may be affected, resulting in spoilage or contamination. Any accident or negligence in the procurement, production or storage of our products under sub-optimal conditions may result in non-compliance with applicable regulatory standards or quality standards and storage conditions specified by our customers for such products. Any sale of such noncompliant product may be harmful to the health of end consumers of our products, and any such event may expose us to liabilities and claims which could adversely affect our brand image and reputation. Any such event may have a material and adverse effect on our business prospects, results of operations and financial condition.

- Real or perceived product contamination could result in reduced sales, product liability and damage to our reputation, and subject us to regulatory action.***

We are subject to various regulations relating to product liability, including in particular relating to food safety of our products. We sell products for human consumption, which involves risks such as product contamination or spoilage, product tampering and other adulteration of our products. Although we conduct various tests before procurement of our products there can be no assurance that such testing and verification on quality of the raw milk checks conducted by us will be accurate at all times. Maintaining high standards of quality in our processing activities is critical to our growth and success.

We have implemented quality assurance systems across our manufacturing facility that cover the full product lifecycle for ensuring consistent quality, efficacy and safety of our products.

If our products are found to be contaminated or reported to be associated with any contamination incidents, our reputation, business, prospects, financial condition and results of operations could be materially and adversely affected. In addition, our products are used in our manufacturing customers' end-products. There can be no assurance that we will succeed in avoiding any such incident of contamination during the production and transportation of our products in the future.

In addition to product liability claims, if our products are found to be contaminated, we may be subject to regulatory actions. Furthermore, the mere allegations that our products contain or has contained any contaminants could damage our reputation and have a material adverse effect on our business, regardless of whether these reports have any factual basis. Although we have not experienced any significant product liability claims in the past, there can be no assurance that our customers, or unrelated third parties, will not bring claims against us in the future that may result in adverse publicity.

4. *We are highly dependent on our management team and certain management personnel, any loss of such team members or the inability to attract or retain research and development personnel may materially adversely affect our business performance and research and development efforts.*

Our business and the implementation of our strategy is dependent upon our management team, who oversee our day-to-day operations, strategy and growth of our business. If one or more members of such management team are unable or unwilling to continue in their present positions, such persons would be difficult to replace and our business, prospects and results of operations could be materially adversely affected.

In addition, our success in expanding our business will also depend, in part, on our ability to attract, retain and motivate mid-to-senior management personnel. In particular, we are investing significantly in our research and development capabilities in order to support our growth and business strategy, which includes hiring and retaining dedicated personnel for our research and development team. Our failure to successfully manage our personnel needs could adversely affect our business prospects and results of operations. These risks could be heightened to the extent we invest in businesses or geographical regions in which we have limited experience. If we are not able to address these risks, our business, results of operations and financial condition could be materially adversely affected.

5. *Our revenues are dependent on our exports to our international customers. We generate our sales from our operations in certain countries especially Russia, Spain, Iraq, Chile, Italy, France, Canada, Croatia, Algeria, Saudi Arabia, Mexico, Germany, Kazakhstan China and Belarus. Any failure to fulfil the requirements of our international customers may adversely affect our revenues, result of operations and cash flows.*

We generate major portion of our sales from our customers situated overseas majorly Russia, Spain, Iraq, Chile, Italy, France, Canada, Croatia, Algeria, Saudi Arabia, Mexico, Germany, Kazakhstan China and Belarus. For the year ended March 31, 2024, 2023 and 2022, our Company has generated 95.25%, 88.87% and 93.11% of our net revenue from operations cumulatively from these countries. Such geographical concentration of our business in these countries heightens our exposure to adverse developments related to competition, as well as economic and demographic changes in these countries which may adversely affect our business prospects, financial conditions and results of operations. One primary concern is vulnerability to regional economic conditions and fluctuations. Economic downturns, geopolitical events, or changes in regulatory environments within the concentrated geographical areas can have a profound impact on consumer purchasing power, market demand, and our ability to sustain or grow sales. The aforementioned countries and European markets in general, to which the Company exports its products are facing increasing inflationary pressure and economic contraction. Our inability to expand into other countries may adversely affect our business prospects, financial conditions and results of operations. However, our Company has started strengthening its customer base in other countries such as Denmark, Netherlands and France etc., but we are yet to scale our operations in such countries. Such external factors may result in a decline in revenues, posing challenges to our financial stability and profitability. While our management believes that the Company has requisite expertise to mark its presence in other markets going forward, investors should consider our business and prospects in light of the risks, losses and challenges that we may face and should not rely on our results of operations for any prior periods as an indication of our future performance. Our operations are also impacted by various risks inherent in international sales and operations, including: i. currency exchange rate fluctuations; ii. regional economic or political uncertainty; iii. currency exchange controls; iv. differing accounting standards and interpretations; v. differing domestic and foreign customs, tariffs and taxes; vi.

current and changing regulatory environments; vii. coordinating and interacting with local representatives and counterparties to fully understand local business and regulatory requirements; and viii. To the extent that we are unable to effectively manage our global operations and risks such as the above (in particular, as we implement our strategy to enter into new markets where we do not have local knowledge and resources), we may be unable to grow or maintain our sales and profitability, or we may be subject to additional unanticipated costs or legal or regulatory action. As a consequence, our business, financial condition, results of operations and cash flows may be adversely affected.

6. *Our company is recently converted to the public company from the partnership firm and subject to compliance certain provision of the Companies Act 2013.*

We have been recently converted into public limited company and any non-compliance with the provisions of Companies Act, 2013 may attract penalties against our Company which could impact our financial and operational performance and reputation. Our Company has been incorporated pursuant to the conversion of the Erstwhile Partnership firm under Part I Chapter XXI of the Companies Act, 2013 on 22/11/2023. Prior to conversion, the provisions of the Companies Act were not applicable to us. However, consequent to the aforesaid conversion, our Company is subject to compliance of various provisions of the Companies Act such as repayment of amounts falling under the definition of deposits under Section 73 of the Companies Act, 2013, prior approval for entering into related party transactions, filing of relevant RoC forms, rules pertaining to declaration of dividends etc. Though our Company will endeavor to take all possible steps to comply with the provisions of the Companies Act, but in case of our inability to do so or in case of any delay, we may be subject to penal action from the appropriate authorities which may have an adverse effect on our financial and operational performance and reputation

7. *We face foreign exchange risks that could adversely affect our results of operations and cash flows.*

We are 100% Export Oriented Unit and for that reason our total revenue from operations is denominated in currencies other than Indian Rupees. We monitor our exposure to foreign currencies and selectively enter into hedging transactions in an attempt to reduce the risks of currency fluctuations. We have not any protection against incurring potential losses if currencies fluctuate significantly. We cannot assure you that we will not be subject to foreign exchange losses in the future. In addition, the policies of the RBI may also change from time to time, which may have an adverse effect on our results of operations and cash flows.

8. *Our top ten customers contribute majority of our revenues from operations. Any loss of business from one or more of them may adversely affect our revenues and profitability.*

Our top ten customers have contributed 42%, 42% and 53% of our revenues for the year ended March 31, 2024, March 31, 2023 and March 31, 2022 respectively based on Restated Financial Statements. However, our top customers may vary from period to period depending on the demand and thus the composition and revenue generated from these customers might change as we continue to add new customers in normal course of business. Since our business is concentrated among relatively few significant customers, we could experience a reduction in our results of operations, cash flows and liquidity if we lose one or more of these customers or the amount of business, we obtain from them is reduced for any reason, including but not limited on account of any dispute or disqualification. While we believe we have maintained good and long-term relationships with our customers, there can be no assurance that we will continue to have such long-term relationship with them. We cannot assure that we shall generate the same quantum of business, or any business at all, from these customers, and loss of business from one or more of them may adversely affect our revenues and profitability.

For further details of our Business, please refer chapter titled “*Our Business*” on Page 121 of Draft Red Herring Prospectus.

9. *The discontinuation of, the loss of business with respect to, or a lack of commercial success of, a particular product for which we are a significant supplier could affect our business and results of operations.*

We received our orders from many of Wholesale customers, these orders generally provide for the supply of a customer's requirements, which may range from one month to one year, for particular products are renewable for the same time periods, rather than for the purchase of a specific quantity of products. Therefore, the discontinuation of, loss of business with respect to, or a lack of commercial success of, a particular product, for which we are a significant supplier could reduce our sales and affect our estimates of anticipated sales, which could have an adverse effect on our business and results of operations.

- 10. Our individual Promoters plays key role in our functioning and we heavily rely on their knowledge and experience in operating our business and therefore, it is critical for our business that our Promoter and Executive Directors remain associated with us. Our success also depends upon the services of our key managerial personnel and our ability to attract and retain key managerial personnel and our inability to attract them may affect our operations.**

We benefit from our relationship with our individual Promoters and our success depends upon the continuing services of our Promoters and executive Directors who have been responsible for the growth of our business and is closely involved in the overall strategy, direction and management of our business. Our Promoters and executive Directors have been actively involved in the day-to-day operations and management. Accordingly, our performance is heavily dependent upon the services of our Promoters and executive Directors. If our Promoters and executive directors are unable or unwilling to continue in their present position, we may not be able to replace them easily or at all. Further, we rely on the continued services and performance of our key executives and senior management for continued success and smooth functioning of the operations of the Company. If we lose the services of any of our key managerial personnel, it may take reasonable time to locate suitable or qualified replacements and may incur additional expenses to recruit and train new personnel, which could adversely affect our business operations and affect our ability to continue to manage and expand our business. Our Promoters and executive Directors, along with the key managerial personnel, have over the years-built relations with various customers and other persons who form part of our stakeholders and are connected with us. The loss of their services could impair our ability to implement our strategy, and our business, financial condition, results of operations and prospects may be materially and adversely affected.

- 11. Any slowdown or work stoppages at our factory sites may have effect on our business, financial condition and results of operations**

Our projects are subject to various operational risks including, among various factors, the breakdown or failure of equipment, delay in shutdown of existing lines or processes, labour disputes, natural disasters, accidents and the need to comply with applicable legal and regulatory requirements. The occurrence of any of these factors could significantly affect our results of operations and financial condition. Any disruption in our operations due to disputes or other issues with our employees or contract labour work force may adversely affect our business and results of operations. Long periods of business disruption could result in a loss of customers. Although we take precautions to minimize the risk of any significant operational problems at our operation sites, there can be no assurance that we will not face such disruptions in the future.

However no such incident happened till the date of the filing of this Draft Red Herring Prospectus .

- 12. There are outstanding legal proceedings involving our Company. Any adverse decision in such proceedings may have a material adverse effect on our business, results of operations and financial condition.**

As on the date of this Draft Red Herring Prospectus, our Company is involved in certain legal proceedings. The amounts claimed in these proceedings have been disclosed to the extent ascertainable and include amounts claimed jointly and/or severally from us and/or other parties, as the case may be. We cannot assure you that these legal proceedings will be decided in favour of our Company or that no further liability will arise out of these proceedings. Any adverse decision may adversely affect our business, results of operations and financial condition.

13. We may be unable to grow our business in international markets, which may adversely affect our business prospects and results of operations.

Our company seek to expansion into international markets is important to our long-term prospects. Competing successfully in international markets requires additional management attention and resources to tailor our services

to the unique aspects of each new country. We may face various risks, including legal and regulatory restrictions, increased advertising and brand building expenditure, challenges caused by distance, language and cultural differences, in addition to our limited experience with such markets and currency exchange rate fluctuations. International markets require a very high standard of quality of products and our Company may not be able to match the international standards thereby failing to make a brand presence in the international markets. If we are unable to make long-lasting relations with the major customers in the overseas market or if we are unable to justify the quality of our products to them, it may make it difficult for us to enter into such markets. These and other risks, which we do not foresee at present, could adversely affect any international expansion or growth, which could have an adverse effect on our business, results of operations and financial condition.

14. Any failure in our quality control processes may adversely affect our business, results of operations and financial condition. We may face product liability claims and legal proceedings if the quality of our products does not meet our customers' expectations.

Our products may contain certain quality issues or undetected errors, due to defects in packaging of products or raw materials which are used in the products. We have implemented quality control processes for our raw materials and finished goods on the basis of internal quality standards. However, we cannot assure you that our quality control processes or our product will pass the quality tests and inspections conducted by various agencies as per their prescribed standards will not fail. Any shortcoming in the raw materials procured by us or in the production of our products due to failure of our quality control procedures, negligence and human error or otherwise, may damage our products and result in deficient products. It is imperative for us to meet the regulatory quality standards set by regulatory agencies and our customers as deviation from the same can cause them to reject our products and can also cause damage to our reputation, market standing and brand value.

In the event the quality of our products is sub-standard or our products suffer from defects and are returned by our customers due to quality complaints, we might be compelled to take back the sub-standard products and reimburse the cost paid by our customers. Such quality lapses could strain our longstanding relationship with our customers and our reputation and brand image may suffer, which in turn may adversely affect our business, results of operations and financial condition. Our customers may lose faith in the quality of our products and could in turn refuse to further deal in our products, which could have a severe impact on our revenue and business operations. We also face the risk of legal proceedings and product liability claims being brought against us by our customers for defective products sold. We cannot assure you that we will not experience any material product liability losses in the future or that we will not incur significant costs to defend any such claims. A product liability claim may adversely affect our reputation and brand image, as well as entail significant costs.

15. We do not have firm commitment agreements with our customers. If our customers choose not to source their requirements from us, our business and results of operations may be adversely affected.

We do not have firm commitment long-term supply agreements with our customers and instead rely on purchase orders to govern the volume and other terms of our sales of products. Many of the purchase orders we receive from our customers specify a price per unit and delivery schedule, and the quantities to be delivered are determined closer to the date of delivery.

However, such orders may be amended or cancelled prior to finalisation, and should such an amendment or cancellation take place, it may adversely impact our production schedules. Further, where we have contracts with customers, such contracts do not bind our customers to provide us with a specific volume of business and can be terminated by our customers with or without cause, with little or no advance notice and without compensation. Consequently, there is no commitment on the part of the customer to continue to place new work orders with us and as a result, our sales from period to period may fluctuate significantly as a result of changes in our customers' vendor preferences. Further, we may not find any customers or purchasers for the surplus or excess capacity, in which case we would be forced to incur a loss.

Additionally, our customers have high and stringent standards for product quantity and quality as well as delivery schedules. Any failure to meet our customers' expectations could result in the cancellation or non-renewal of contracts or purchase orders. There are also a number of factors, other than our performance that could cause the loss of a customer. Customers may demand price reductions, set-off any payment obligations, require indemnification for themselves or their affiliates, change their outsourcing strategy by moving more work in-house, or replace their existing products with alternative products, any of which may have an adverse effect on our business, results of operations and financial condition.

16. *Our ability to attract, train and retain executives and other qualified employees is critical to our business, results of operations and future growth.*

Our business and future growth is substantially dependent on the continued services and performance of our key executives, senior management and skilled personnel, especially personnel with experience in our industry. In particular, our executive directors and our senior management are critical to the overall management of our Company. Their inputs and experience are also valuable for the development of our services, our work culture and the strategic direction taken by our Company. Further, our business depends upon our employees for its successful execution. Some of our key management has been with our Company since long; however, any of them may choose to terminate their employment with us at any time. We cannot assure you that we will be able to retain these employees or find equally qualified and experienced replacements in a timely manner, or at all. We may require a long period of time to hire and train replaced personnel when skilled personnel terminate their employment with our Company. Our ability to compete effectively depends on our ability to attract new employees and to retain and motivate our existing employees. We may be required to increase our levels of employee compensation more rapidly than in the past to remain competitive in attracting skilled employees that our business requires. If we do not succeed in attracting well-qualified employees or retaining or motivating existing employees, our business and prospects for growth could be adversely affected.

17. *An inability to comply with repayment and other covenants in the financing agreements or otherwise meet our debt servicing obligations could adversely affect our business, financial condition, cash flows and credit rating.*

Our Company has entered into agreements in relation to financing arrangements with certain banks for meeting business requirements. As of March 31, 2024, we had total outstanding borrowings of Rs. 10,755 lakhs. The agreements with respect to our borrowings contain restrictive covenants, including, but not limited to, requirements that we obtain consent from the lenders prior to undertaking certain matters including, among others, effecting a merger, amalgamation or scheme of arrangement, change in capital structure of our Company subject to the threshold prescribed for the shareholding of certain shareholders of our Company and effecting change in the constitutional documents or management of our Company. For further details, see “*Financial Indebtedness*” beginning on page 167. As on March 31, 2024 our total secured borrowings amounted to Rs. 8839.89 lakhs, comprising of 82.18 % of our total indebtedness. Under the terms of our secured borrowings, we are required to create a charge by way of hypothecation on the assets of our Company, together with cash in hand and bank accounts. As these assets are hypothecated in favour of lenders, our rights in respect of transferring or disposing of these assets are restricted. Many of our financing agreements also include various conditions and covenants that require us to obtain lender consents prior to carrying out certain activities or entering into certain transactions. Typically, restrictive covenants under our financing documents relate to obtaining prior consent of the lender for, among others, change in the capital structure, availing additional borrowings, change in ownership or management control, changes in shareholding pattern and management set-up including its constitution and composition, amalgamation, demerger, merger, acquisition, corporate or debt restructuring or similar action. Our Company is yet to receive consent from lenders in relation to a borrowing availed by us. If we fail to meet our debt service obligations or covenants (or do not receive approvals from our lenders to undertake certain transactions) under the financing agreements, the relevant lenders could declare us to be in default of our agreements, accelerate the maturity of our obligations, enforce security, take possession of the assets. As a result, we may be forced to sell some or all of our assets if we do not have sufficient cash or credit facilities to make these repayments. Our Company intends to obtain the necessary consents in relation to the Issue from aforementioned lenders prior to the filing of the Red Herring Prospectus with the RoC, and Stock Exchange.

18. *Our Company has availed certain unsecured loans.*

Our Company has availed certain unsecured loans of which an amount of ₹ 1,916.09 lakhs in period of January 24, 2024 to March 31, 2024. In the event, any of such unsecured lenders seek a repayment of any these loans, our Company would need to find alternative sources of financing, which may not be available on commercially reasonable terms, or at all. If we are unable to arrange for any such financing arrangements, we may not have adequate working capital to undertake new projects or complete our ongoing projects. Therefore, any such demand may adversely affect our business, financial condition and results of operations. For further details, see “*Financial Indebtedness*” on page 167 of this Draft Red Herring Prospectus.

19. *Any non-compliance or delays in GST Return Filings and EPF Payments may expose us to penalties from the regulators.*

As a Company, we are required to file GST returns and make payments in respect of Employee Provident Fund with the respectively authorities. However, there are certain inadvertent delays in relation to filling of GST returns and EPF payments in the past for which the Company have paid the penalties and taken the steps to improve the internal system for payment of GST to mitigate the technical difficulties and the Company has appointed an external consultant to ensure timely payment of towards EPF. However, we cannot assure that we will not be subject to any legal proceeding or regulatory actions, including monetary penalties by statutory authorities on account of any inadvertent discrepancies in our GST filling or EPF payment in future, which may adversely affect our business, financial condition, and reputation.

20. *We have significant power requirements for continuous running of our manufacturing units. Any disruption to our operations on account of interruption in power supply or any irregular or significant hike in power tariffs may have an effect on our business, results of operations and financial condition.*

Our manufacturing unit's significant electricity requirements and any interruption in the supply of power may temporarily disrupt our operations. Since, we have a high-power consumption, any unexpected or unforeseen increase in the tariff rates can increase the operating cost of our manufacturing units and thereby cause an increase in the production cost which we may not be able to pass on to our customers. There are limited number of electricity providers in the areas from where we operate due to which in case of a price hike, we may not be able to find a cost-effective substitute, which may negatively affect our business, financial condition, cash flows and results of operations.

For further details, please refer to the chapter titled "**Our Business**" on page 1027 of this Red Herring Prospectus.

21. *We have in the past entered into related party transactions and may continue to do so in the future, which may potentially involve conflicts of interest with the equity shareholders.*

Our Company has entered into related party transactions with our Promoter and Promoter Group amounting to Rs. 2,653.37 lacs, Rs. 950.70 lacs, Rs. 224.90 lacs and Rs. 327.69 lacs in for the period from January 24, 2024 to March 31, 2024, for the period from April 01, 2023 to January 23, 2024 and the Financial Years ended on March 31, 2023, 2022 respectively. While our Company believes that all such transactions have been conducted on an arm's length basis and we confirm that the related party transactions entered into by the company are in compliance with the applicable laws. However, there can be no assurance that we could not have achieved more favourable terms had such transactions not been entered into with related parties. Furthermore, it is likely that we may enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operations.

For further information, relating to our related party transactions, see "*Restated Financial Information*" and "*Management's Discussion and Analysis of Financial Condition and Results of Operations*" beginning on pages 133 and 167 respectively.

22. *We are subject to performance risk from third-party contractors, and operational risks associated with the engagement of third-party contractors and our employees.*

We also rely on third-party contractors and our employees for the development, construction and operation of our projects as well as other business operations. While we maintain a diversified set of vendors, we remain subject to the risk that the third-party contractors will not perform their obligations. If the third-party contractors do not perform their obligations or if they deliver any components that have a manufacturing defect or do not comply with the specified quality standards and technical specifications, we may have to enter into new contracts with other contractors at a higher cost or suffer schedule disruptions. Changing a contractor may incur additional costs in finding a replacement service provider or experience significant delays.

In addition, if any of our employees or third-party contractors take, convert, or misuse funds, documents, or data, or fail to follow protocol when interacting with consumers and regulators, we could be liable for damages and subject to regulatory actions and penalties. We could also be subject to civil or criminal liability. It is not always possible to identify and deter misconduct or errors by employees or third-party contractors, and the precautions we take to detect and prevent these activities may not be effective in controlling unknown or unmanaged risks or losses. Our resources, technologies and fraud prevention tools may be insufficient to accurately detect and prevent fraud. Any of these occurrences could diminish our ability to operate our business, increase our potential liabilities to consumers and merchants, and may lead to an inability to attract future projects, cause reputational

damage, attract regulatory intervention, and cause financial harm, any or all of which could negatively impact our business, cash flows, financial condition, prospects and results of operations.

23. *Our business is manpower intensive and any unavailability of our employees or shortage of contract labour or any strikes, work stoppages, increased wage demands by workmen or changes in regulations governing contractual labour may have an adverse impact on our cash flows and results of operations.*

Our business is manpower intensive and we are dependent on the availability of our permanent employees and the supply of a sufficient pool of contract labourers at our project locations. Unavailability or shortage of such a pool of workmen or any strikes, work stoppages, increased wage demands by workmen or changes in regulations governing contractual labour may have an adverse impact on our cash flows and results of operations. The number of contract labourers employed by us varies from time to time based on the nature and extent of work contracted to us and the availability of contract labour. We may not be able to secure the required number of contractual labourers for the timely execution of our projects for a variety of reasons including, but not limited to, possibility of disputes with sub-contractors, strikes, less competitive rates to our sub-contractors as compared to our competitors or changes in labour regulations that may limit availability of contractual labour.

We are subject to laws and regulations relating to employee welfare and benefits such as minimum wage, working conditions, employee insurance, and other such employee benefits and any changes to existing labour legislations, including upward revision of wages required by such state governments to be paid to such contract labourers, limitations on the number of hours of work or provision of improved facilities, such as food or safety equipment, may adversely affect our business and results of our operations.

Further, there can be no assurance that disruptions in our business will not be experienced if there are strikes, work stoppages, disputes or other problems with sub-contractors or contract labourers deployed at our projects. This may adversely affect our business and cash flows and results of operations.

24. *We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.*

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and cause serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

25. *We require certain approvals and licenses in the ordinary course of business and the failure to successfully obtain/renew such registrations would adversely affect our operations, results of operations and financial condition.*

We require several statutory and regulatory permits, NOCs, licenses and approvals in the ordinary course of our business, some of which our Company has either received, applied for or is in the process of application in case of renewal as and when required in the ordinary course. Previously we were a partnership firm in the name of M/s Freshara Picklz Exports after complying with the relevant provisions and procedures of Companies Act 2013, the firm was converted into public limited company followed by the name change of the company to "Freshara Agro Exports Limited". Any failure to apply for and obtain the required approvals, licences, NOCs, registrations or permits in a timely manner, or any suspension or revocation of any of the approvals, licences, registrations and permits would result in a delay in our business operations which could otherwise adversely affect our financial condition, results of operations and prospects of the Company. We cannot assure you that the approvals, licences, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. In addition to same, our failure to comply with existing or increased regulations, or the introduction of changes to existing regulations, could adversely affect our business and results of operations.

These laws and regulations governing us are increasingly becoming stringent and may in the future create substantial compliance or liabilities and costs. While we endeavor to comply with applicable regulatory requirements, it is possible that such compliance measures may restrict our business and operations, result in increased cost and onerous compliance measures, and an inability to comply with such regulatory requirements may attract penalty.

For further details regarding the material approvals, licenses, registrations and permits, which have not been obtained by our Company or are, pending renewal, see “*Government and Other Approvals*” on page 193 of this Draft Red Herring Prospectus.

Furthermore, we cannot assure you that the approvals, licenses, registrations and permits issued to us will not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. Any suspension or revocation of any of the approvals, licenses, registrations and permits that has been or may be issued to us may affect our business and results of operations.

26. *Our Promoters and Executive Directors hold Equity Shares in our Company and are therefore interested in the Company’s performance in addition to their remuneration and reimbursement of expenses.*

Our Promoters and Directors are interested in our Company, in addition to regular remuneration or benefits and reimbursement of expenses, to the extent of their shareholding in our Company. We cannot assure you that our Promoters will exercise their rights as shareholders to the benefit and best interest of our Company. Our Promoters may take or block actions with respect to our business which may conflict with the best interests of the Company or that of minority shareholders. For further information on the interest of our Promoters and Directors of our Company, other than reimbursement of expenses incurred or normal remuneration or benefits, see “*Our Management*” and “*Our Promoters and Promoter Group*” on pages 145 and 158 respectively of this Draft Red Herring Prospectus.

27. *Further, pursuant to Section 27 of the Companies Act 2013, any variation in the objects would require a special resolution of the Shareholders and our Promoters or controlling Shareholders will be required to provide an exit opportunity to the Shareholders of our Company who do not agree to such proposal to vary the objects, in such manner as may be prescribed in future by the SEBI.*

Accordingly, prospective investors in the Issue will need to rely upon our management’s judgment with respect to the use of Net Proceeds. If we are unable to enter into arrangements for utilization of Net proceeds as expected and assumed by us in a timely manner or at all, we may not be able to derive the expected benefits from the proceeds of the Issue and our business and financial results may suffer.

28. *The average cost of acquisition of Equity Shares held by our Promoters could be lower than the Issue Price.*

Our Promoters’ average cost of acquisition of Equity Shares in our Company may be lower than the Issue Price which is proposed to be determined on a fixed price basis. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoters in our Company, please refer to the chapter titled “*Capital Structure*” on page 62 of this Red Herring Prospectus.

29. *The requirement of funds in relation to the objects of the Issue has not been appraised.*

We intend to use the proceeds of the Issue for the purposes described in the section titled “*Objects of the Issue*” on page 72. The objects of the Issue have not been appraised by any bank or financial institution. These are based on management estimates and current conditions and are subject to changes in external circumstances or costs, or in other financial condition, business or strategy. Based on the competitive nature of the industry, we may have to revise our management estimates from time to time and consequently our funding requirements may also change. The deployment of the funds towards the objects of the issue is entirely at the discretion of the Board of Directors/Management and is not subject to monitoring by external independent agency. However, the deployment of funds is subject to monitoring by our Audit Committee. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financials.

30. *The deployment of funds is entirely at our discretion and as per the details mentioned in the chapter titled “Objects of the Issue”.*

As the issue size shall be less than ₹10,000 lacs, under Regulation 262 of the SEBI ICDR Regulations it is not required that a monitoring agency be appointed by our Company, for overseeing the deployment and utilization of funds raised through this Issue. Therefore, the deployment of the funds towards the Objects of this Issue is entirely at the discretion of our Board of Directors and is not subject to monitoring by external independent agency. Our Board of Directors along with the Audit Committee will monitor the utilization of Issue proceeds and shall have the flexibility in applying the proceeds of this Issue. However, the management of our Company shall not have the power to alter the objects of this Issue except with the approval of the Shareholders of the

Company given by way of a special resolution in a general meeting, in the manner specified in Section 27 of the Companies Act, 2013. Additionally, the dissenting shareholders being those shareholders who have not agreed to the proposal to vary the objects of this Issue, our Promoters shall provide them with an opportunity to exit at such price, and in such manner and conditions as may be specified by the SEBI, in respect to the same. For further details, please refer to the chapter titled — “Objects of the Issue” on page 72 of this Draft Red Herring Prospectus.

31. *Our funding requirements and proposed deployment of the Net Proceeds are based on management estimates and have not been independently appraised, and may be subject to change based on various factors, some of which are beyond our control*

Our funding requirements and deployment of the Net Proceeds are based on internal management estimates based on current market conditions, and have not been appraised by any bank or financial institution or other independent agency. Furthermore, in the absence of such independent appraisal, our funding requirements may be subject to change based on various factors which are beyond our control. For further details, please see the section titled “Objects of the Issue” beginning on page 72 of this Prospectus.

32. *The requirements of being a public listed company may strain our resources and impose additional requirements.*

With the increased scrutiny of the affairs of a public listed company by shareholders, regulators and the public at large, we will incur significant legal, accounting, corporate governance and other expenses that we were not required to incur in the past. We will also be subject to the provisions of the listing agreements signed with the Stock Exchange. In order to meet our financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management’s attention may be diverted from other business concerns, which could have an adverse effect on our business and operations.

There can be no assurance that we will be able to satisfy our reporting obligations. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge and we cannot assure that we will be able to do so in a timely manner. Failure of our Company to meet the listing requirements of stock exchange, if any, could lead to imposition of penalties, including suspension of trading in shares of the Company.

33. *Our insurance coverage may not be adequate to protect us against all potential losses to which we may be subject and this may have a material effect on our business and financial condition.*

While we maintain insurance coverage, in amounts which we believe are commercially appropriate, including related to our registered office, our movable property and employees, provide appropriate coverage in relation to fire, explosions, floods, inundations, earthquakes, landslides we may not have sufficient insurance coverage to cover all possible economic losses, including when the loss suffered is not easily quantifiable and in the event of severe damage to our business. Even if we have made a claim under an existing insurance policy, we may not be able to successfully assert our claim for any liability or loss under such insurance policy. Additionally, there may be various other risks and losses for which we are not insured either because such risks are uninsurable or not insurable on commercially acceptable terms. The occurrence of an event for which we are not adequately or sufficiently insured could have an effect on our business, results of operations, financial condition and cash flows. In addition, in the future, we may not be able to maintain insurance of the types or at levels which we deem necessary or adequate or at rates which we consider reasonable. The occurrence of an event for which we are not adequately or sufficiently insured or the successful assertion of one or more large claims against us that exceed available insurance coverage, or changes in our insurance policies (including premium increases or the imposition of large deductible or co-insurance requirements), could have an effect on our business, results of operations, financial condition and cash flows.

34. *Non-compliance with amendment in Safety, Health and Environmental laws and other applicable regulations, may adversely affect the Company’s results of operations and its financial condition.*

Our company is in business of agriculture sector. Due to nature of Business, the company is subject to various rules and regulations in relation to safety, health and environmental protection including Air Prevention and Control of Pollution Act, and Water Prevention and National Environmental Policy, 2006, Environment (Protection) Act, 1986 as amended (“EPA”), The Code on Wages, 2019, The Occupational Safety, Health and Working Conditions Code, 2020, The Industrial Relations Code, 2020, The Code on Social Security, 2020, Employees State Insurance Act, 1948, Contract Labour Act, Employees Provident Fund Act, Bonus Act etc.

Further, the company is subjected to the jurisdiction and is governed by Indian Law, rules and regulations in relation to safety, health and environmental protection due to the nature of the business of the company. These safety, health and environmental protection laws and regulations inter alia impose controls on air and water discharge, employee exposure to hazardous substances and other aspects of the Company's operations and products. Failure to comply with any existing or future regulations applicable to the Company may result in levy of fines, penalties, commencement of judicial proceedings and/or third-party claims, and may adversely affect the results of operations and financial condition.

For further details regarding applicable laws to the company, please refer to the chapter titled "*Key Industrial Regulations and Policies*" beginning on page 133 of this Draft Red Herring Prospectus.

35. *We have not independently verified certain data in this Draft Red Herring Prospectus.*

We have not independently verified data from the industry and related data contained in this Draft Red Herring Prospectus and although we believe the sources mentioned in the report to be reliable, we cannot assure you that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regards to other countries. Therefore, discussions of matters relating to India, its economy or the industries in which we operate that is included herein are subject to the caveat that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete, inaccurate or unreliable. Due to incorrect or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, we cannot assure you that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

36. *Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.*

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities may differ from those that would apply to a company in another jurisdiction. Investors may have more difficulty in asserting their rights as shareholders in an Indian company than as shareholder of a corporation in another jurisdiction. Shareholders' rights under Indian law may not be as extensive as shareholders' rights under the laws of other jurisdictions. Under the Companies Act, prior to issuance of any new equity shares, a public limited company incorporated under Indian law must offer its equity shareholders pre-emptive rights to subscribe to a proportionate number of equity shares to maintain existing ownership, unless such pre-emptive rights are waived by a special resolution by a three-fourths majority of the equity shareholders voting on such resolution. If you are a foreign investor and the law of the foreign jurisdiction that you are in does not permit the exercise of such pre-emptive rights without our filing an offering document or registration statement with the applicable authority in such foreign jurisdiction, you will be unable to exercise such pre-emptive rights, unless we make such a filing. If we elect not to file an offering document or a registration statement, the new securities may be issued to a custodian, who may sell the securities for your benefit. The value such custodian receives on the sale of any such securities and the related transaction costs cannot be predicted. To the extent that you are unable to exercise pre-emptive rights granted in respect of our Equity Shares, your proportional interest in our Company would decline.

37. *We will continue to be controlled by our Promoter and Promoter Group after the completion of the Issue, which will allow them to influence the outcome of matters submitted for approval of our shareholders.*

As on the date of this Draft Red Herring Prospectus, our Promoter and Promoter Group hold 86.50% of the issued and outstanding paid-up share capital of our Company. As a result, they will have the ability to influence matters requiring shareholders' approval, including the ability to appoint Directors to our Board and the right to approve significant actions at Board and at shareholders' meetings, including the issue of Equity Shares and dividend payments, business plans, mergers and acquisitions, any consolidation or joint venture arrangements, any amendment to our Memorandum of Association and Articles of Association, and any other business decisions. We cannot assure you that our Promoters and Promoter Group will not have conflicts of interest with other shareholders or with our Company. Any such conflict may adversely affect our ability to execute our business strategy or to operate our business.

For further details regarding our shareholding, please refer to chapter titled "*Capital Structure*" beginning on Page 62 of this Draft Red Herring Prospectus.

38. *We are susceptible to risks relating to unionization of our employees employed by us.*

None of our employees are currently represented by a recognized collective bargaining agreement. We cannot assure you that our employees will not unionize, or attempt to unionize in the future, that they will not otherwise seek higher wages and enhanced employee benefits. We also cannot assure you that we will not experience disruptions in our work due to disputes or other problems with our workforce. If not resolved in a timely manner, these risks could limit our ability to provide our services to our clients, or result in an increase in our cost of employee benefits and other expenses. If any of these risks materialize, our business, results of operations and financial condition could be affected.

39. *Any future issuance of Equity Shares may dilute your shareholdings, and sale of the Equity Shares by our major shareholders may adversely affect the trading price of our Equity Shares.*

Any future equity issuances by our Company may lead to the dilution of investors' shareholdings in our Company. In addition, any sale of substantial Equity Shares in the public market after the completion of this Issue, including by our major shareholders, or the perception that such sales could occur, could adversely affect the market price of the Equity Shares and could significantly impair our future ability to raise capital through offerings of the Equity Shares. We cannot predict what effect, if any, market sales of the Equity Shares held by the major shareholders of our Company or the availability of these Equity Shares for future sale will have on the market price of our Equity Shares.

40. *Our inability to effectively implement our business and growth strategy may have an adverse effect on our operation and growth.*

The success of our business will largely depend on our ability to effectively implement our business and growth strategy. In the past we have generally been successful in execution of our business but there can be no assurance that we will be able to execute our strategy on time and within the estimated budget in the future. If we are unable to implement our business and growth strategy, this may have an adverse effect on our business, financial condition and results of operations.

41. *In the event there is any delay in the completion of the Offer, or delay in schedule of implementation, there would be a corresponding delay in the completion of the objects of this offer which would in turn affect our revenues and results of operations.*

The funds that we receive would be utilized for the objects of the offer as has been stated in the chapter titled "Objects of The Issue" on Page no. 72 of this Draft Red Herring Prospectus. The proposed schedule of implementation of the objects of the Offer is based on our management 's estimates. If the schedule of implementation is delayed for any other reason whatsoever, including any delay in the completion of the Issue, it may adversely affect our revenues and results of operations.

42. *There are restrictions on daily movements in the price of the Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point in time*

Following the Offer, we will be subject to a daily "Circuit Breaker" imposed by NSE, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based, market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on our circuit breakers will be set by the stock exchange based on the historical volatility in the price and trading volume of the Equity Shares.

43. *There is no guarantee that the Equity Shares issued pursuant to the Issue will be listed on the Emerge Platform of National Stock Exchange of India Limited in a timely manner, or at all.*

In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the offer will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the Emerge Platform of National Stock Exchange of India Limited. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

EXTERNAL RISK FACTOR

44. *Natural calamities and force majeure events may have an adverse impact on our business.*

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war in India or globally may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighboring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

45. *The Indian tax regime is currently undergoing substantial changes which could adversely affect our business.*

The goods and service tax (“GST”) that has been implemented with effect from July 1, 2017 combines taxes and levies by the GoI and state governments into a unified rate structure, and replaces indirect taxes on goods and services such as central excise duty, service tax, customs duty, central sales tax, state VAT, Cess and surcharge and excise that were being collected by the GoI and state governments.

As regards the General Anti-Avoidance Rules (“GAAR”), The general anti avoidance rules (“GAAR”) provisions have been made effective from assessment year 2018-19 onwards, i.e.; financial Year 2017-18. The GAAR provisions intend to declare an arrangement as an “impermissible avoidance arrangement”, if the main purpose or one of the main purposes of such arrangement is to obtain a tax benefit, and satisfies at least one of the following tests (i) creates rights, or obligations, which are not ordinarily created between persons dealing at arm’s length; (ii) results, directly or indirectly, in misuse, or abuse, of the provisions of the Income Tax Act, 1961; (iii) lacks commercial substance or is deemed to lack commercial substance, in whole or in part; or (iv) is entered into, or carried out, by means, or in a manner, that is not ordinarily engaged for bona fide purposes. If GAAR provisions are invoked, the tax authorities will have wider powers, including denial of tax benefit or a benefit under a tax treaty. In the absence of any precedents on the subject, the application of these provisions is uncertain. As the taxation regime in India is undergoing a significant overhaul, its consequent effects on economy cannot be determined at present and there can be no assurance that such effects would not adversely affect our business, future financial performance and the trading price of the Equity Shares.

46. *Political, economic or other factors that are beyond our control may have an adverse effect on our business, results of operations and cash flows.*

We currently operate only in India and are dependent on domestic, regional and market conditions. Our performance, growth and market price of our Equity Shares are and will be dependent on the power industry of the Indian economy. There have been periods of slowdown in the economic growth of India. For instance, the present situation of lock-down is prevailing in India due to pandemic Covid-19 spread in India and all other parts of world. If such condition prevail for longer time the Demand for our services may be adversely affected by an economic downturn in domestic, regional and global economies. India’s economic growth is also affected by various other factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports, global economic uncertainty and liquidity crisis, volatility in exchange currency rates. Consequently, any future slowdown in the Indian economy could harm our business, results of operations, cash flows and financial condition. Also, a change in the Government or a change in the economic and deregulation policies could affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins.

47. *Our business is substantially affected by prevailing economic, political and other prevailing conditions in India.*

Our Company is incorporated in India, and the majority of our assets and employees are located in India. As a result, we are highly dependent on prevailing economic conditions in India and our results of operations are significantly affected by factors influencing the Indian economy. Factors that may adversely affect the Indian economy, and hence our results of operations, may include:

- the macroeconomic climate, including any increase in Indian interest rates or inflation;

- any exchange rate fluctuations, the imposition of currency controls and restrictions on the right to convert or repatriate currency or export assets;
- Any scarcity of credit or other financing in India, resulting in an adverse impact on economic conditions in India and scarcity of financing for our expansions;
- Prevailing income conditions among Indian consumers and Indian corporations;
- volatility in, and actual or perceived trends in trading activity on, India's principal stock exchanges;
- changes in India's tax, trade, fiscal or monetary policies;
- political instability, terrorism or military conflict in India or in countries in the region or globally, including in India's various neighboring countries;
- occurrence of natural or man-made disasters;
- prevailing regional or global economic conditions, including in India's principal export markets;
- other significant regulatory or economic developments in or affecting India or its ER&D sector; international business practices that may conflict with other customs or legal requirements to which we are subject, including anti-bribery and anti-corruption laws;

48. *Any downgrading of India's debt rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings international debt by international rating agencies may adversely affect our ability to raise additional overseas financing and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our ability to fund our growth on favourable terms or at all, and consequently adversely affect our business and financial performance and the price of our Equity Shares.

49. *We are subject to risks arising from interest rate fluctuations, which could adversely impact our business, financial condition and operating results.*

Changes in interest rates could significantly affect our financial condition and results of operations. If the interest rates for future borrowings increase significantly, our cost of servicing such debt will increase. This may negatively impact our results of operations, planned capital expenditures and cash flows.

50. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

Illustration of the Book Building and Price Discovery Process: Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids

from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Company in consultation with the BRLM, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

GLOBAL ECONOMY

Macroeconomic Environment

As per the International Monetary Fund's (IMF) World Economy Outlook, April 2024, report, global growth estimated at 3.2% in 2023, is projected to continue at the same pace in 2024 and 2025. The forecast for 2024 is revised up by 0.1% point from January 2024 *World Economy Outlook (WEO) Update*, and by 0.3% point from the October 2023 WEO. The pace of expansion is low by historical standards, owing to both near-term factors, such as still-high borrowing costs and withdrawal of fiscal support, and longer-term effects from the COVID-19 pandemic and Russia's invasion of Ukraine; weak growth in productivity; and increasing geoeconomic fragmentation. Global headline inflation is expected to fall from an annual average of 6.8% in 2023 to 5.9% in 2024 and 4.5% in 2025, with advanced economies returning to their inflation targets sooner than emerging market and developing economies.

Global GDP Growth

Src: World Economic Outlook, April 2024

Economic activity was surprisingly resilient through the global disinflation of 2022-23. As global inflation descended from its mid-2022 peak, economic activity grew steadily, defying warnings of stagflation and global recession. Growth in employment and incomes held steady, reflecting supportive demand developments including greater-than-expected government spending and household consumption-and a supply-side expansion amid, notably, an unanticipated boost to labor force participation. The unexpected economic resilience, despite significant central bank interest rate hikes aimed at restoring price stability, also reflects the ability of households in major advanced economies to draw on substantial savings accumulated during the pandemic.

INDIAN ECONOMY

India to stay the fastest-growing large economy in 2024 among key nations

After a better-than-expected 7.6% this fiscal, India's real GDP growth will likely moderate to 6.8% in fiscal 2025. The next seven fiscals will see the Indian economy crossing the US\$ 5 trillion mark and inching closer to US\$ 7 trillion. The transmission of the rate hikes effected by the Monetary Policy Committee (MPC) of the Reserve Bank of India (RBI) between May 2022 and February 2023 still continues and is likely to weigh on demand next fiscal. On the other hand, regulatory actions to tame unsecured lending will have a bearing on credit growth.

Among the major economies, India with a growth rate of 9.1% was the fastest growing economy in 2021, followed by China at 8.4%. The country also overtook the UK as the fifth-largest economy in the world in the April-June quarter of 2022 and registered GDP growth of 6.8% in 2022. India is expected to grow faster than China in 2023 and 2024 as per the IMF forecast.

India's macroeconomic assessment

India's capital formation story has begun to unfold

The Indian government's economic growth strategy rests on two pillars: growth through infrastructure buildout, and inclusion through empowerment. Overall, public sector spending on capital investment rose from ₹7.9 lakh crore in fiscal 2017 to a budgeted ₹18.6 lakh crore in fiscal 2024. As we begin the countdown to the next decade, the Indian economy is expected to achieve some key milestones:

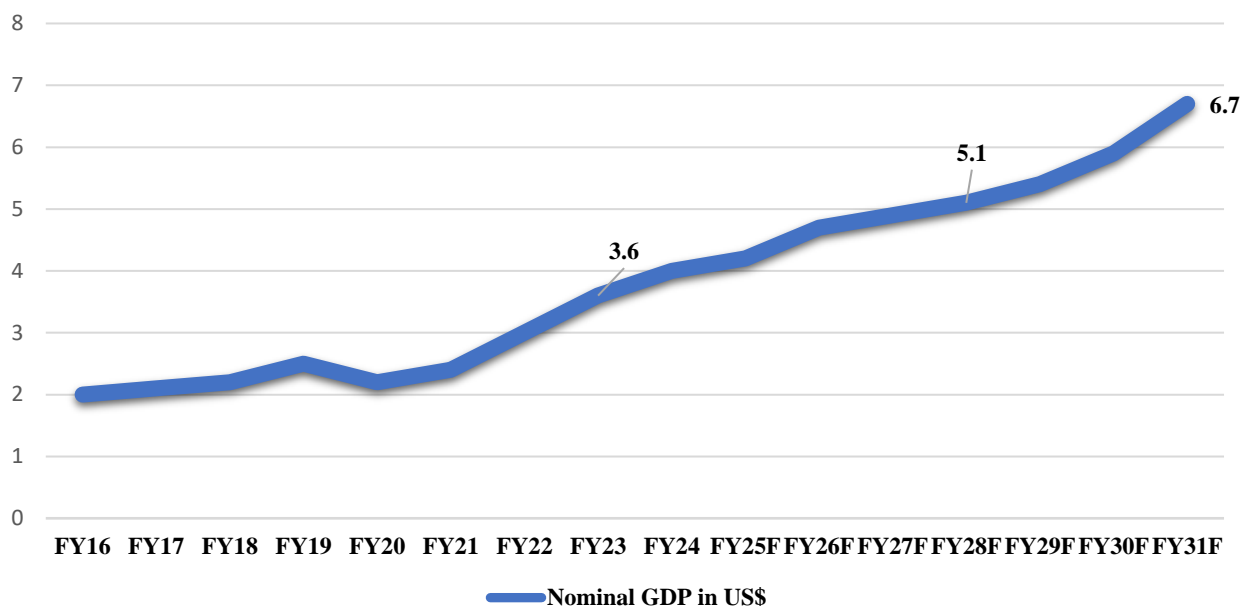

1. Over a seven-year period (fiscal 2025-2031), economist expect India to sustain average GDP growth of 6.7%. This, over a similar growth rate seen in the past decade (pre-pandemic), is expected to compound the gains for the economy.
2. The economy is expected to expand to US\$ 6.7 trillion by fiscal 2031 from US\$ 3.6 trillion this fiscal. That would mark a growth of 1.9 times in the next seven fiscals.
3. Fiscal 2031 will mark the year when India enters the upper middle-income country club with per capita income rising to US\$4,500. Such a shift augurs well for consumption. India's close peers that are currently in this club include Indonesia, South Africa, Thailand and Brazil.

US\$ 7 trillion now in sight for India's GDP

The Indian economy will close this fiscal at US\$3.6 trillion. It is interesting to note that the pandemic years did not materially deflect the economy's march towards US\$ 5 trillion and subsequently US\$ 7 trillion for the following two reasons: -

- Nominal GDP was only 2.8% below its pre-pandemic trend level in fiscal 2024 (the pre-pandemic trend level is the forecast value of nominal GDP for fiscal 2024 in the absence of the pandemic).
- A slower pace of rupee weakening. The rupee weakened 4% on average over fiscals 2021-2024, compared with 4.3% in the pre-pandemic decade.

Nominal GDP in US\$ trillions

This forecast is based on India's improved growth premium, investor confidence and inclusion in global bond indexes, which will help keep the balance of payment comfortable and moderate the pace of currency depreciation. S&P Global estimates suggest that just the inclusion of India's bond indexes could attract an initial inflow of US\$20-40 billion, which could increase to US\$180 billion over the next decade.

At US\$6.7 trillion, the economy is expected to be 1.9 times in seven years.

Make in India

Indian government launched the 'Make in India' initiative in 2014 to boost local manufacturing and to make India a global manufacturing hub. The scheme involved focused investments to increase innovation and intellectual property, develop best-in-class manufacturing infrastructure and promote favorable policy initiatives. The scheme currently focuses on improving twenty-seven key sectors, fifteen of which are manufacturing sectors with tailored 'Action Plans'. The Department for Promotion of Industry & Internal Trade (DPIIT), which also manages 'Invest India' to facilitate foreign investments into the country, has chosen twenty-four sub-sectors (including automobile, chemicals, medical devices, auto-components, defence manufacturing, electronic systems etc.) to boost local manufacturing based on local competency, potential for import substitution, opportunities for export and potential for increased employment opportunities.

Atma Nirbhar Bharat Abhiyan

In the midst of the COVID-19 epidemic, the Government of India announced the Atma Nirbhar Bharat Abhiyan (or 'Self-reliant India') in May 2020. The campaign's principal goal was to recover from the economic impact of the pandemic and become self-sufficient on five key pillars: economy, technology-driven infrastructure, infrastructure, demand, and demographics. The Indian government unveiled a combined economic package worth INR 20 trillion (approximately 10% of India's GDP) to support a variety of projects aimed at benefiting enterprises, MSMEs, farmers, and the agriculture sector.

Reducing import dependence and promoting the growth of domestic manufacturing industry was one of the key emphases of the government in this scheme. Under Atma Nirbhar Bharat, the government also plans to introduce parameters for better quality of output to meet international standards so that Indian products can compete in the global market.

Production-Linked Incentive (PLI) scheme

India introduced the PLI scheme in 2020 to promote domestic production through subsidies and encourage exports while cutting down on cheap imports. The scheme is available across fourteen key manufacturing sectors

including specialty steel, telecom, auto components, drone components etc. It is designed to provide incentives which are linked to investment and turnover size. The government sanctioned over INR 1.9 lakh crore to be periodically utilized for the scheme.

Ease of doing business

India ranks 63rd in the 'Ease of Doing Business' ranking by World Bank. This is a massive improvement over its position just a decade back, when it stood at 142nd rank in 2014. The improvement in ranking is driven by simplification of the business ecosystem through government initiatives such as 'Make in India', 'National Single Window System (NSWS)' etc. The government has been focusing on initiatives to empower India as an export destination and capitalizing on the opportunities arising out of global China plus one strategy. Thus, improving the overall ease of doing business in the country is a major milestone on the path towards manufacturing success.

The government's commitment to increasing farmers' income can be seen through the significant rise witnessed in Agri-exports by giving thrust on boosting exports. Various initiatives taken by the government through APEDA such as organizing B2B exhibitions in different countries and exploring new potential markets through product-specific and general marketing campaigns have worked as catalysts for the growth of exports. The food processing sector is one of the largest sectors in India in terms of production, growth, consumption, and export. India's food processing sector covers fruit and vegetables; spices; meat and poultry; milk and milk products, alcoholic beverages, fisheries, plantation, grain processing and other consumer product groups like confectionery, chocolates and cocoa products soya-based products, mineral water, high protein foods, etc. Since liberalization in August 1991 proposals for projects have been proposed in various segments of the food and Agro-processing industry. Besides this, Govt. has also approved proposals for joint ventures; foreign collaboration, industrial licenses and 100% export-oriented units envisaging an investment. The foreign direct investment in food processing sector in 2022-23 is estimated to be ₹7194.13 crores/ US\$ 895.34 Million.

India's exports of Processed Food were Rs. 62,562.90 Crores/ 7,778.97 USD Millions in 2022-23, which including the share of products like Mango Pulp (Rs. 1189.66 Crores/ 147.60 USD Millions), Processed Vegetables (Rs. 4987.39 Crores/ 620.11 USD Millions), Cucumber and Gherkins (Prepd. & Presvd.) (Rs. 1761.10 Crores/ 218.74 USD Millions), Processed Fruits, Juices & Nuts (Rs. 4754.83 Crores/ 590.21 USD Millions), Pulses (Rs. 5397.85 Crores/ 672.32 USD Millions), Groundnuts (Rs. 6735.25 Crores/ 831.60 USD Millions), Guar gum (Rs. 4944.60 Crores/ 617.14 USD Millions), Jaggery & Confectionary (Rs. 4330.07 Crores/ 537.01 USD Millions), Cocoa Products (Rs. 1242.13 Crores/ 154.54 USD Millions), Cereal Preparations (Rs. 6051.60 Crores/ 752.13 USD Millions), Alcoholic Beverages (Rs. 2546.44 Crores/ 316.24 USD Millions), Miscellaneous Preparations (Rs. 8889.18 Crores/ 1106.42 USD Millions), Milled Products (Rs. 2223.94 Crores/ 282.31 USD Millions), Prepared Animal Feeder (Rs. 3587.04 Crores/ 445.60 USD Millions), Other Oil Cake/Solid Residues (Rs. 939.66 Crores/ 116.70 USD Millions) and Cashew and its products (Rs. 2982.19 Crores/ 370.31 USD Millions).

The Indian food processing industry is sunrise industry. India's geographical situation gives it the unique advantage of connectivity to Europe, the Middle East, Japan, Singapore, Thailand, Malaysia and Korea. One such example indicating India's location advantage is the value of trade in agriculture and processed food between India and the Gulf region.

Retail (food & grocery retail market), one of the largest sectors in the global economy, is going through a transition phase in India. It is expected to grow at a Compound Annual Growth Rate (CAGR) of 3.0% from 2022 to 2030. One of the prime factors for non-competitiveness of the food processing industry is because of the cost and quality of marketing channels. Globally more than 72% of food sales occur through superstores. India presents a huge opportunity and is all set for a big retail revolution. India is the least saturated of global markets with small, organized retail and also the least competitive of all global markets.

The key objectives of the AEP are to diversify export basket and destinations, to boost high value-added agricultural exports, to promote indigenous, organic, traditional and non-traditional Agri products exports, to provide an institutional mechanism for pursuing market access and to enable farmers to get the benefit of export opportunities in overseas market.

Financial Assistance Scheme (FAS)

FAS is the export promotion scheme by the Agriculture and Processed Food products Export Development Authority (APEDA). It is part of the Finance Commission Cycle for the years 2021-22 to 2025-26. The primary aim of this scheme is to assist businesses in export infrastructure development, quality development and market development. The financial assistance under the scheme will range from ₹5 lakhs to ₹5 crores.

Ministry of Commerce & Industry scheme

The Department of Commerce under the Ministry of Commerce & Industry has also initiated several schemes to promote exports, including the Trade Infrastructure for Export Scheme (TIES), the Market Access Initiatives (MAI) Scheme, etc. In addition, assistance to the exporters of agricultural products is also available under the Export Promotion Schemes of APEDA, Marine Products Export Development Authority (MPEDA), Tobacco Board, Tea Board, Coffee Board, Rubber Board and Spices Board. Further, to boost honey exports, India has made NMR (Nuclear Magnetic Resonance) testing mandatory for honey exported to the USA.

About APEDA (Agriculture and Processed Food Products Export Development Authority)

INDIAN GHERKINS & PICKLED VEGETABLE EXPORT INDUSTRY

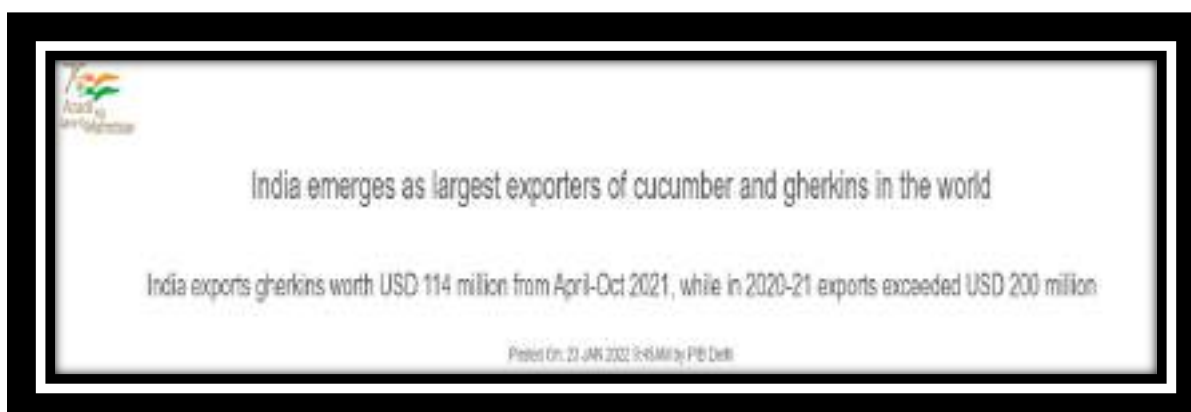

Overview

Gherkins, often referred to as “cucumber on steroids,” are small cucumbers that are harvested before reaching maturity and pickled in vinegar or brine. These tangy, crunchy delights have gained immense popularity in international cuisines, particularly as condiments, toppings, or ingredients in salads, sandwiches and hamburgers.

Gherkins are exported under two categories—cucumbers and gherkins, which are prepared and preserved by vinegar or acetic acid and cucumbers and gherkins, which are provisionally preserved. Gherkin cultivation, processing and exports started in India during the early 1990s with a modest beginning in Karnataka and later extended to the neighboring states of Tamil Nadu, Andhra Pradesh and Telangana. Nearly 15% production of the world’s gherkin requirement is grown in India. Gherkins are currently exported to more than 20 countries, with major destinations being North America, European countries and Oceanic countries such as USA, France, Germany, Australia, Spain, South Korea, Canada, Japan, Belgium, Russia, China, Sri Lanka and Israel. Apart from its export potential, the gherkin industry plays a key role in the creation of rural employment. In India, cultivation of gherkins is carried out under contract farming by around 90,000 small and marginal farmers with an annual production area of 65,000 hectares. Processed gherkins are exported in bulk as industrial raw material and in jars as ready to eat. The bulk production is still occupying a high percentage of the gherkin market. In India there are about 51 major companies producing and exporting gherkins in drums and ready-to-eat consumer packs.

APEDA has played a significant role in promotion of export of processed vegetables and it has been providing financial assistance for development of infrastructure and enhancing quality of processed gherkins, products promotion in the international market and implementation of food safety management systems in the processing

units. On an average, a gherkin farmer produces 4 metric tonne per acre crop and earns about ₹80,000 with a net income of ₹40,000. Gherkin has a 90-day crop and the farmers take two crops annually. Processing plants of international standards have been established here to cater to the requirement of foreign buyers. All the gherkin manufacturing and exporting companies are either ISO, BRC, IFS, FSSC 2000 certified or possess all the certifications. Many of the companies have adopted social audits. This ensures all statutory benefits are given to the employees. The APEDA is also focusing on value-addition of gherkins to increase the export value of the product.

In the year 2020-21, India had shipped 2,23,515 metric tonnes of cucumber and gherkins with a value of US\$ 223 million and in 2022 India emerged as largest exporters of cucumbers and gherkins in the world.

In Europe, imports have surged in Germany, Spain, United Kingdom, Netherlands, France, Italy and Greece. Exports surged 10% to US\$ 218.76 million in 2022-23 from US\$ 199.38 million in 2021-22. In the 10 months to January in FY24, India has exported gherkins to the tune of US\$189.08 million. Until January, 2024, India exported gherkins worth US\$ 15.66 million to Germany, making it the top importer after the USA.

Why Gherkins and Cucumbers are so popular globally?

According to Dr. Yudhyavir Singh, Associate Professor in the critical care department at All India Institute of Medical Sciences (AIIMS), New Delhi, “Gherkins are rich in antioxidants, vitamins and minerals, making them an excellent choice for those looking to improve their health. It is suggested that it is helpful in regulating blood sugar level, aging, and decreasing the pain by preventing the cell damage. As the world embraces healthier eating habits, Indian gherkins are sure to remain a popular choice for those seeking a tasty and nutritious snack that promotes good health as it is rich in antioxidants and anti-inflammatory properties.”

Current Export Scenario

Spanish imports increased marginally at \$13.55 million until January FY 24, compared with \$13.43 million in FY23. The export of gherkins to the UK increased from \$6.18 million in 2022-23 to \$8.11 million until January 2024, a significant increase of 31.2%. Iraqi purchases increased 25% from \$3.69 million in 2022-23 to \$4.61 million until January 2024. Other countries that reported a rise in the import of Indian gherkins include the Netherlands, Chile, China, Saudi Arabia, Italy, South Korea, Brazil, Kazakhstan and Greece.

India is the world's largest supplier of gherkins, having exported 2,44,243.54 metric tonnes to over 90 countries as of January in FY2024. Nearly 15% production of the world's gherkin requirement is met by India.

Product-wise revenue bifurcation for the FY 2021-2022

We are also planning to expand our distribution channels by partnering with popular retail chains in Middle-Eastern countries which will increase our product visibility and accessibility. And for our export expansion, we have identified and planned to enter new geographic markets where there is a demand for preserved and pickled vegetables and conducting market research to tailor our products to local tastes and preferences.

To cater all these product and export expansions, we are also ensuring that we our products meet the regulatory standards of the new markets we are entering which includes understanding labeling requirements, food and safety standards, and import regulations. By implementing these strategies, we want to leverage our industry expertise to diversify our customer base and increase the wallet share among existing customers through a more extensive and appealing product portfolio.

Expand our product reach globally and increase our production capacity

We believe that to achieve new milestones and increase our revenue, gain market share and increase in profit margins, expanding our product reach globally more and increase our manufacturing capacity are crucial steps which we are working on it. Entering new geographical markets allows us diversify our revenue streams and reduce our reliance on already established markets. Access to broader and more diverse markets expands the possible consumer base, resulting in increased sales volume, improves our brand awareness and reputation, resulting in higher trust and sales. We are increasing our production capacity by building a new manufacturing facility at *Survey No. 30/12A1A, Sengilikuppam Village, Ambur Taluk, Tirupattur District, Tamil Nadu -635751.*

Where we are ensuring that our manufacturing facility are scalable and can handle growing production volumes without compromising on efficiency and use new manufacturing technology to boost the productivity and maintain excellent quality. Our new manufacturing facility equipped with advanced machinery and technologies can significantly boost production volumes, enabling us to meet higher demand in peak seasons and also our new manufacturing facility was designed with scalability in mind, allowing us for future expansion and the addition of new production lines as needed.

Adding more contract-farmers in different states to ensure the availability of raw material in every season

We want to expand our network of contract-farmers in different states where climatic conditions are favorable which will yield numerous benefits and positive end-results, impacting various aspects of our operations from raw material supply to market-positioning. This step will ensure continuous availability of raw materials by leveraging different growing seasons across states and minimizing the impact of regional climate variations, pest outbreaks, and other disruptions on our supply chain. Diversified sourcing of crops reduces dependency on any single region, making our supply-chain more resilient to disruptions. This will also help us to quickly adapt to changing market conditions, consumer preferences and environmental challenges.

Sourcing crops from multiple regions closer to our processing facilities reduces transportation expenses and bulk procurement and consistent supply can lead to lower per-unit costs and better pricing negotiations with suppliers. This enables us to consistently meet customer demand and expand product offerings which increases market share. Ensuring strong, ethical and sustainable supply-chain practices which sets us apart from competitors, attracting more customers.

Further reduce operating costs, improving operating efficiencies and deploy new technologies

Increasing production capacity enable us bulk purchasing of raw materials, lowering per-unit prices and increased production volumes can result in more efficient utilization of equipment and our human resources, lowering overhead costs. Enhanced and stable raw material supply supports higher production volumes, allowing us to scale up operations and meet growing demand. This results in cost-efficiencies and economies of scale improve profit margins, contributing to better financial health.

Foreign Exchange Management Act 1999

Foreign Exchange Management Act is a parliamentary act that empowers the Reserve Bank (RBI) and the Government of India to manage and regulate foreign exchange. The FEMA definition not only regulates but also facilitates the exchange in India. It ensures that the foreign exchange market is maintained correctly and allows for easy foreign exchange transactions.

- This act, enacted on June 1, 2000, replaced the previous FERA act.
- It aimed to revise and unite the foreign exchange rules to facilitate the development of the Forex market.
- The new FEMA Act is more liberal and less restrictive than the FERA Act.
- The Reserve Bank of India (RBI) is crucial in FEMA's management and administration. It devises many rules and regulations of the FEMA Act and the Government of India.
- FEMA has 49 sections and subsections divided into seven chapters

The FEMA act paved the way for a more free and liberal foreign exchange market and transactions in India. While there were strict restrictions in the FERA Act, FEMA is more transparent in applicability. The salient features of FEMA have been explained in detail.

- The FEMA Act does not apply to Indian citizens outside India. It follows the same guidelines as the Income Tax Act to recognize a person as an Indian Resident.
- The FEMA Act gave the power to the central government to supervise these three areas: Forex, payments, receipts to any person outside India, and Foreign Security deals.
- FEMA described the areas in Foreign Exchange holding or acquisition requiring RBI or Central government permissions.
- It empowers the government to control and oversee the payment flow to and from the country.
- It allows the government to restrict any authorized person or a capital account in the interest of the country from carrying out forex transactions.
- It allows Indian citizens to hold immovable property in a different country or carry out forex transactions in case the citizen acquires or inherits foreign property.
- Under the FEMA act, RBI controls capital account transactions.

It provides a framework of rules and regulations that govern formation and performance of contract. The contracting parties themselves decide the rights and duties of parties and terms of agreement.

The Specific Relief Act, 1963

The Specific Relief Act is complimentary to the provisions of the Contract Act and the Transfer of Property Act, as the Act applies both to movable property and immovable property. The Act applies in cases where the Court can order specific performance of a contract. Specific relief can be granted only for purpose of enforcing individual civil rights and not for the mere purpose of enforcing a civil law. 'Specific performance' means Court will ask the party to perform his part of agreement, instead of asking him to pay damages to other part.

Trade Marks Act, 1999

Indian trademark law permits the registration of trademarks for goods and services. The Trade Marks Act, 1999 (“**Trade Mark Act**”) governs the statutory protection of trademarks and for the prevention of the use of fraudulent marks in India. An application for trademark registration may be made by individual or joint applicants and can be made on the basis of either use or intention to use a trademark in the future. Once granted, trademark registration is valid for ten years, unless cancelled, and may be renewed indefinitely upon payment of renewal fees every ten years. If not renewed after ten years, the mark lapses and the registration has to be restored. The Trade Mark (Amendment) Act, 2010 has been enacted by the Government to amend the Trade Mark Act to enable Indian nationals as well as foreign nationals to secure simultaneous protection of trademark in other countries. It also seeks to simplify the law relating to transfer of ownership of trademarks by assignment or transmission and to align the law with international practice.

In March 2017, the Trade Marks Rules, 2017 (“**Trade Mark Rules**”) were notified, in supersession of the Trade Marks Rules, 2002. The Trade Marks Rules brought with them some changes in the application process, in terms

of an increase in application fees and common formats for multiple kinds of applications. However, the e-filing process has been incentivized by providing lower application fees.

Copyright Act, 1957

The Copyright Act, 1957, governs copyright protection in India. Under the Copyright Act, a copyright may subsist in original literary, dramatic, musical or artistic works, cinematograph films, and sound recordings. Following the issuance of the International Copyright Order, 1999, subject to certain exceptions, the provisions of the Copyright Act apply to nationals of all member states of the World Trade Organisation. While copyright registration is not a prerequisite for acquiring or enforcing a copyright, registration creates a presumption favouring the ownership of the copyright by the registered owner. Copyright registration may expedite infringement proceedings and reduce delay caused due to evidentiary considerations. Once registered, the copyright protection of a work lasts for 60 years.

The remedies available in the event of infringement of copyright under the Copyright Act include civil proceedings for damages, account of profits, injunction and the delivery of the infringing copies to the copyright owner. The Copyright Act also provides for criminal remedies, including imprisonment of the accused and the imposition of fines and seizures of infringing copies.

D. FOREIGN TRADE RELATED LAWS

Foreign Trade (Development and Regulation) Act, 1992 ("FTDRA"), the Foreign Trade (Regulation) Rules, 1993 ("FTRR") and the Foreign Trade Policy 2015-2020 ("Foreign Trade Policy")

The FTDRA provides for the development and regulation of foreign trade by facilitating imports into, and augmenting exports from, India. The IEC may be suspended or cancelled if the person who has been granted such IEC contravenes, amongst others, any of the provisions of the FTDRA, or any rules or orders made thereunder, or the foreign policy or any other law pertaining to central excise or customs or foreign exchange. The FTDRA also prescribes the imposition of penalties on any person violating its provisions. The FTRR prescribes the procedure to make an application for grant of a license to import or export goods in accordance with the foreign trade policy, the conditions of such license, and the grounds for refusal of a license. The FTDRA empowers the Central Government to, from time to time, formulate and announce the foreign trade policy. The Foreign Trade Policy came into effect in 2017 and requires all importers and exporters to obtain an IEC. Further, pursuant to the policy, the Director General of Foreign Trade may impose prohibitions or restrictions on the import or export of certain goods, for reasons including the protection of public morals, protection of human, animal or plant life or health, and the conservation of national resources. The Foreign Trade Policy also prescribes restrictions on imports or exports in relation to specific countries, organisations, groups, individuals or products. The Foreign Trade Policy also provides for various schemes, including the export promotions capital goods scheme and duty exemption/remission schemes. India's current Foreign Trade Policy (2015-20) (as extended until September 30, 2022 and thereafter, extended till March 31, 2023) envisages helping exporters leverage benefits of GST, closely monitoring export performances, increasing ease of trading across borders, increasing realization from India's agriculture-based exports and promoting exports from MSMEs and labour-intensive sectors.

STATEMENT OF PROVISION FOR GRATUITY AS RESTATED

ANNEXURE-34

Gratuity - The Present value of obligation is determined based on actuarial valuation using the Projected Unit Credit Method. This method considers each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation.

Interest cost - It is the increase in the Plan liability over the accounting period resulting from the operation of the actuarial assumption of the interest rate.

Current Service Cost - is the discounted present value of the benefits from the Plan's benefits formula attributable to the services rendered by employees during the accounting period.

Actuarial Gain or Loss - occurs when the experience of the Plan differs from that anticipated from the actuarial assumptions. It could also occur due to changes made in the actuarial assumptions.

Phased implementation of Unified Payments Interface

SEBI has issued UPI Circulars in relation to streamlining the process of public issue of equity shares and convertibles. Pursuant to the UPI Circulars, UPI has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by RIIs through intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to upto three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the UPI Circulars proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

- a) Phase I: This phase was applicable from January 01, 2019 and lasted till June 30, 2019. Under this phase, a Retail Individual Bidder, besides the modes of Bidding available prior to the UPI Circulars, also had the option to submit the Bid cum Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

- b) Phase II: This phase has commenced with effect from July 01, 2019 and will continue for a period of three months or floating of five main board public issues, whichever is later. Under this phase, submission of the Bid cum Application Form by a Retail Individual Investor through intermediaries to SCSBs for blocking of funds has been discontinued and has been replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continues to be six Working Days during this phase. SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice.
- c) Phase III: Subsequently, the time duration from public issue closure to listing would be reduced to be three Working Days.
- d) SEBI pursuant to its circular bearing reference number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 has reduced the time taken for listing of specified securities after the closure of public issue to 3 working days (T+3 days) as against the present requirement of 6 working days (T+6 days); 'T' being issue closing date. The provisions of this circular shall be applicable, on voluntary basis for public issues opening on or after September 1, 2023 and on mandatory basis for public issues opening on or after December 1, 2023. Our Company may choose to close this Issue within three (03) working days, in accordance with the timeline provided under the aforementioned circular.

Pursuant to the UPI Circular, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked not later than one day from the date on which the Basis of Allotment is finalized. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors complaints in this regard, the relevant SCSB as well as the post – Issue BRLM will be required to compensate the concerned investor.

All SCSBs offering the facility of making applications in public issues shall also provide the facility to make application using UPI. The Company will be required to appoint one of the SCSBs as a Sponsor Bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and/ or payment instructions of the Retail Individual Bidders using the UPI.

The processing fees for applications made by Retail Individual Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI Circular No: SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI Circular No: SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

Illustration of the Book Building and Price Discovery Process: Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue, it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer, in consultation with the BRLM, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

Anchor Investors are not allowed to withdraw their Bids after Anchor Investors bidding date.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 (“**FEMA**”). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made.
