CERTAIN CONVENTIONS, USE OF FINANCIAL INFORMATION AND MARKET DATA AND CURRENCY OF PRESENTATION

Certain Conventions

All references to "India" contained in this Prospectus are to the Republic of India and its territories and possessions and all references herein to the "Government", "Indian Government", "GOI", Central Government" or the "State Government" are to the Government of India, central or state, as applicable.

Unless otherwise specified, any time mentioned in this Prospectus is in Indian Standard Time ("IST"). Unless indicated otherwise, all references to a year in this Prospectus are to a calendar year.

Unless stated otherwise, all references to page numbers in this Prospectus are to the page numbers of this Prospectus.

Financial Data

Unless stated otherwise or the context otherwise requires, the financial information and financial ratios in this Prospectus has been derived from our Restated Financial Information. For further information, please see the section titled "*Financial Information*" on Page No. 207 of this Prospectus.

Our Company's financial year commences on April 1 and ends on March 31 of the next year. Accordingly, all references to a particular financial year, unless stated otherwise, are to the twelve (12) month period ended on March 31 of that year.

The Restated Financial Statements of our Company for the period ended November 30, 2025 and Financial Years ended March 31, 2025, 2024, 2023 which comprise restated summary statement of assets and liabilities, the restated summary statement of profit and loss, the restated summary statement of cash flow and restated summary statement of changes in equity together with the annexures and notes thereto and the examination report thereon, as compiled from the Indian GAAP financial statements for respective period/year and in accordance with the requirements provided under the provisions of the Companies Act, SEBI ICDR Regulations and the Guidance Note on "*Reports in Company Prospectuses (Revised 2019)*" issued by ICAI.

There are significant differences between Ind AS, Indian GAAP, U.S. GAAP and IFRS. Our Company does not provide reconciliation of its financial information to IFRS or U.S. GAAP. Our Company has not attempted to explain those differences or quantify their impact on the financial data included in this Prospectus and it is urged that you consult your own advisors regarding such differences and their impact on our financial data. Accordingly, the degree to which the financial information included in this Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting policies and practices, the Companies Act, Ind AS, the Indian GAAP and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting policies and practices on the financial disclosures presented in this Prospectus should, accordingly, be limited.

Unless the context otherwise indicates, any percentage amounts, as set forth in *"Risk Factors*", "*Our Business*" and "*Management's Discussion and Analysis of Financial Position and Results of Operations*" on Page Nos. 26, 98 and 224 respectively, of this Prospectus, and elsewhere in this Prospectus have been calculated on the basis of the Restated Financial Statements of our Company, prepared in accordance with GAAP, and the Companies Act and restated in accordance with the SEBI ICDR Regulations.

In this Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding off. All figures in decimals have been rounded off to the second decimal and all the percentage figures have been rounded off to two decimal places including percentage figures in "*Risk Factors*", "*Industry Overview*" and "*Our Business*" on Page Nos. 26, 98 And 98 respectively, this Prospectus.

Currency and Units of Presentation

All references to:

- "Rupees" or "₹" or "INR" or "Rs." Are to Indian Rupee, the official currency of the Republic of India; and
- "USD" or "US$" or "$" are to United States Dollar, the official currency of the United States of America.

Our Company has presented all numerical information in is Prospectus in "Lakhs" units or in whole numbers where the numbers have been too small to represent in Lakhs. One lakhs represents 1,00,000 and one million represents 10,00,000.

Exchange rates

This Prospectus contains conversions of certain other currency amounts into Indian Rupees that have been presented solely to comply with the SEBI ICDR Regulations. These conversions should not be construed as a representation that these currency amounts could have been, or can be converted into Indian Rupees, at any particular rate or at all.

The following table sets forth, for the year indicated, information with respect to the exchange rate between the Indian Rupee and other foreign currencies:

Industry and Market Data

Unless stated otherwise, the industry and market data and forecasts used throughout this Prospectus has been obtained from industry sources as well as Government Publications. Industry sources as well as Government Publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but that their accuracy and completeness and underlying assumptions are not guaranteed and their reliability cannot be assured.

The extent to which the market and industry data used in this Prospectus is meaningful depends on the reader's familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which the business of our Company is conducted, and methodologies and assumptions may vary widely among different industry sources. Accordingly, investment decisions should not be based solely on such information.

In accordance with the SEBI ICDR Regulations, "*Basis for Issue Price*" on Page No. 89 of this Prospectus includes information relating to our peer group entities. Such information has been derived from publicly available sources, and neither we, nor the BRLM have independently verified such information. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in "*Risk Factors*" on Page No. 26 of this Prospectus.

FORWARD – LOOKING STATEMENTS

This Prospectus contains certain "forward-looking statements". These forward-looking statements generally can be identified by words or phrases such as "aim", "anticipate", "believe", "expect", "estimate", "intend", "objective", "plan", "propose", "project", "will", "will continue", "will pursue" or other words or phrases of similar import. Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. All forward-looking statements are subject to risks, uncertainties, expectations and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. These forward-looking statements, whether made by us or a third party, are based on our current plans, estimates and expectations and actual results may differ materially from those suggested by such forward-looking statements.

Actual results may differ materially from those suggested by forward-looking statements due to risks or uncertainties associated with expectations relating to and including, regulatory changes pertaining to the industries in India in which we operate and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India which have an impact on its business activities or investments, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes and changes in competition in the industries in which we operate.

Certain important factors that could cause actual results to differ materially from our Company's expectations include, but are not limited to, the following:

1. We generate our major portion of sales from our operations in certain geographical regions and any adverse developments affecting our operations in these regions could have an adverse impact on our revenue and results of operations.

2. We are primarily dependent upon few key suppliers within limited geographical location for procurement of raw materials. Any disruption in the supply of the raw materials or fluctuations in their prices could have a material adverse effect on our business operations and financial conditions.

3. Some percentage of our revenue depends on acceptance of the bids submitted to the government and other agencies. Our performance could be affected in case majority of the bids are not accepted/ awarded.

4. Our Registered Office from where we operate, is on rental basis and is not owned by us. If we are unable to renew or continue the lease arrangements on commercially acceptable or favorable terms in the future, it may adversely impact our operations

5.We operate in the Gabion manufacturing industry where there are low entry barriers and is highly competitive. Our failure to successfully compete may adversely affect our business, financial condition, results of operations and prospects.

For further discussion of factors that could cause the actual results to differ from our estimates and expectations, please refer "*Risk Factors*", "*Our Business*" and "*Management's Discussion and Analysis of Financial Position and Results of Operations*" beginning on Page Nos. 26, 98 and 224, respectively, of this Prospectus. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual gains or losses could materially differ from those that have been estimated.

We cannot assure investors that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements as a guarantee of future performance.

Forward-looking statements reflect current views as on the date of this Prospectus and are not a guarantee of future performance. These statements are based on our management's beliefs and assumptions, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect. Neither our Company, our Directors, the Promoters, the Syndicate nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition.

In accordance with the SEBI ICDR Regulations, our Company, the Promoters and the Book Running Lead Manager will ensure that the Bidders in India are informed of material developments until the time of the grant of listing and trading permission by the Stock Exchange for the Issue.

SECTION III – RISK FACTORS

An investment in the Equity Shares involves a high degree of risk. You should carefully consider all the information in this Prospectus, including the risks and uncertainties described below, before making an investment in the Equity Shares. In making an investment decision, prospective investors must rely on their own examination of us and the terms of the Issue including the merits and risks involved. The risks described below are not the only ones relevant to us, our Equity Shares, the industry or the segment in which we operate. Additional risks and uncertainties, not presently known to us or that we currently deem immaterial may arise or may become material in the future and may also impair our business, results of operations and financial condition. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business, results of operations, cash flows and financial condition could be adversely affected, the trading price of our Equity Shares could decline, and as prospective investors, you may lose all or part of your investment. You should consult your tax, financial and legal advisors about particular consequences to you of an investment in this Issue. The financial and other related implications of the risk factors, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are certain risk factors where the financial impact is not quantifiable and, therefore, cannot be disclosed in such risk factors.

To obtain a complete understanding, you should read this section in conjunction with the sections "Industry Overview", "Our Business" and "Management's Discussion and Analysis of Financial Position and Results of Operations" on pages 98, 117 and 224 of this Prospectus, respectively. The industry-related information disclosed in this section that is not otherwise publicly available is derived from industry sources as well as Government Publications. Industry sources as well as Government Publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but that their accuracy and completeness and underlying assumptions are not guaranteed and their reliability cannot be assured.

This Prospectus also contains forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and, in the section titled "Forward-Looking Statements" on page 19 of this Prospectus.

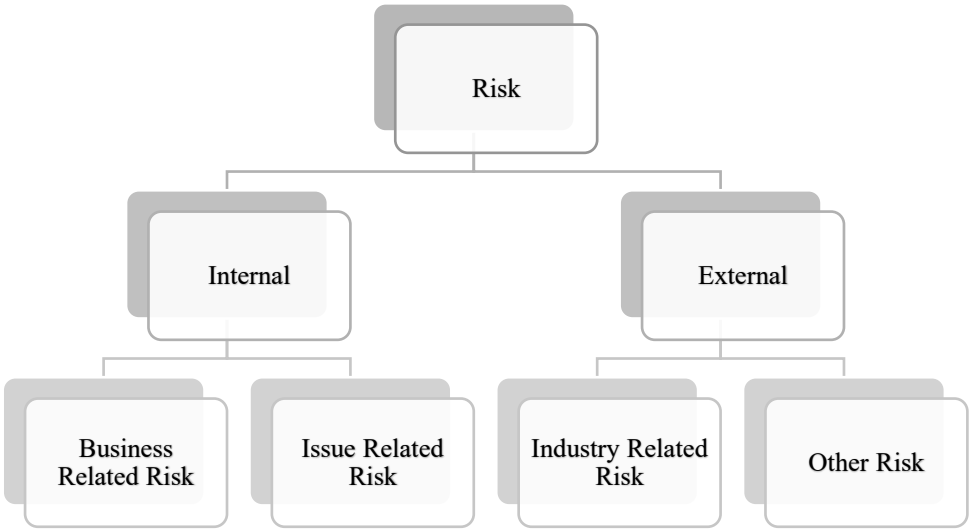
Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implications of any of the risks described in this section. Unless the context requires otherwise, the financial information of our Company has been derived from the Restated Financial Information.

Materiality:

The Risk Factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality of Risk Factors:

- *Some events may not be material individually but may be found material collectively;*
- *Some events may have material impact qualitatively instead of quantitatively; and*
- *Some events may not be material at present but may have a material impact in future.*

Classification of Risk Factors



The financial and other related implications of risks concerned, whether quantifiable have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence, the same has not been disclosed in such risk factors. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk over another.

In this Prospectus, any discrepancies in any table between total and sums of the amount listed are due to rounding off.

In this section, unless the context requires otherwise, any reference to "we", "us" or "our" refers to Gabion Technologies India Limited.

The risk factors are classified as under for the sake of better clarity and increased understanding.

INTERNAL RISK FACTORS

Risk relating to the Company's Business

1. ***We generate our major portion of sales from our operations in certain geographical regions and any adverse developments affecting our operations in these regions could have an adverse impact on our revenue and results of operations.***

Currently, we market our products to 29 States & Union Territories in India of which majority portion of the revenue comes from the state of Northern and Eastern India. Our revenue from Northern and Eastern India for the period ended November 30, 2025 and financial year ended 2025, 2024 and 2023 was ₹ 3,927.93, ₹ 7,646.18 Lakhs, ₹ 7,691.37 lakhs and ₹ 6,731.60 lakhs respectively which constitutes 66.23%, 76.99%, 73.95%, and 85.73 % for the period ended November 30, 2025, and financial year ended March 2025, March 2024 and March 2023 of our total revenue from operations for the respective fiscal.

We carry our entire manufacturing operations from our manufacturing unit situated at Village Puruwala, Tehsil Paonta Sahib, District Sirmour, Himachal Pradesh. Due to the geographical concentration of our manufacturing operations at Himachal Pradesh, our operations are prone to local, regional and environmental factors, such any materially adverse social, political or economic development, civil disruptions, or changes in the policies of the state government or local governments and require a modification of our business strategy, or require us to incur significant capital expenditure or suspend our operations. Any such adverse development affecting continuing operations at our manufacturing facilities could result in significant loss due to an inability to meet customer contracts and production schedules, which could materially affect our business reputation within the industry. Additionally, we have a subsidiary in Nepal (GTN), which plays a key role in supplying finished goods to GTI for further sale to customer in the region of India and efficiently distributing it to meet market demands. This strategic presence enhances our supply chain flexibility and enables us to better serve our customers' requirements. However, the occurrence of or

our inability to effectively respond to, any such events or effectively manage the competition in the region, could have an adverse effect on our business, results of operations, financial condition, cash flows and future business prospects.

Further, as we enter into new markets and geographical areas, we are likely to compete with not only national players, but also Will the local players, who might have an established local presence, and are more familiar with local business practices and have stronger relationships with local distributors, dealers, relevant government authorities, suppliers or are in a stronger financial position than us, all of which may give them a competitive advantage over us. Our inability to expand into other areas may adversely affect our business prospects, financial conditions and results of operations. While our management believes that the Company has requisite expertise and vision to grow and mark its presence in other markets going forward, investors should consider our business and prospects in light of the risks, losses and challenges that we face and should not rely on our results of operations for any prior periods as an indication of our future performance.

2. ***We are primarily dependent upon few key suppliers within limited geographical location for procurement of raw materials. Any disruption in the supply of the raw materials or fluctuations in their prices could have a material adverse effect on our business operations and financial conditions.***

We procure a large portion of raw material from a few key suppliers, with whom we do not have any long-term supply contracts and therefore, we cannot assure you that we shall always have a steady supply of raw material at prices favourable to us. The principal raw materials used in our manufacturing process are steel wire, hot-dip galvanized, PVC-coated, or zinc- aluminium (Galfan) coated wire etc. The raw materials we use are subject to price volatility and unavailability caused by external conditions, such as commodity price fluctuations, weather conditions, supply and demand dynamics, logistics and processing costs, our bargaining power with the suppliers, inflation and governmental regulations and policies.

Major portion of our raw material purchase for the period ended November 2025 is from the state of Himachal Pradesh which is 53.29% of the total raw material purchase. We do not have any long-term agreements with any of our suppliers and we acquire raw materials pursuant to our purchase orders from suppliers.

There can be no assurance that demand, capacity limitations or other problems experienced by our suppliers will not result in occasional shortages or delays in their supply of raw materials. There was no past instance company had face. However, if we were to experience a significant or prolonged shortage of raw materials from any of our suppliers, and we cannot procure the raw materials from other sources, we would be unable to meet our production schedules for our key products and to deliver such products to our customers in a timely manner, which would adversely affect our sales, margins and customer relations. While we may find additional suppliers to supply these raw materials, any failure of our suppliers to deliver these raw materials in the necessary quantities or to adhere to delivery schedules, credit terms or specified quality standards and technical specifications may adversely affect our production processes and our ability to deliver orders on time and at the desired level of quality. As a result, we may lose customers which could have a material adverse effect on our business, financial condition and results of operations.

3. ***Some percentage of our revenue depends on acceptance of the bids submitted to the government and other agencies. Our performance could be affected in case majority of the bids are not accepted/ awarded.***

As at November 30, 2025, 21.70% of our company's revenue is reliant on projects undertaken by government authorities and other government-funded entities. Contracts awarded by central, state, or local government authorities are based on a tendering process. We compete with various infrastructure companies when submitting tenders to the government and other agencies. If we do not qualify or fail to be the lowest bidder, we risk losing the business. We cannot guarantee that any of the bids we submit will be accepted or awarded, making it essential for us to secure business by bidding at competitive rates. To maximize our chances of success, the company strives to prepare the most competitive tenders and issue the most attractive pricing.

While we aim to succeed with every bid, there is no assurance that we will win all the projects we bid for. The number of bids we have participated in, along with those that have been awarded or not assigned, as of the filing of the Prospectus for the past three financial years, are outlined below.

Particulars	For Period Ended December 30,2025	March 31, 2025	March 31, 2024	March 31, 2023
No. of Bids Participated	45	61	87	86
No. of Bids Accepted	10	18	27	30
No. of Bids Lost	20	30	47	44
No. of Bids Cancelled by the Department	2	2	2	3

4. ***Our Registered Office from where we operate, is on rental basis and is not owned by us. If we are unable to renew or continue the lease arrangements on commercially acceptable or favorable terms in the future, it may adversely impact our operations.***

Our registered office premises situated at 38, S/F, Near MCD Park, Mohammadpur, New Delhi, Delhi, India, 110066, India and is not owned by us, it is taken on rental basis from third party, being the owner of the property. The rent agreement is for 11 months and renewal thereafter. For further details on the terms and tenure, please refer "Immoveable Properties" under "Our Business" on 117 of this Prospectus. We cannot assure you that we will be able to continue the above arrangement on commercially acceptable / favourable terms in future. If we are required to vacate the current premises, we would be required to make alternative arrangements for new office and other infrastructure, and we cannot assure that the new arrangements will be on commercially acceptable/favourable terms. If we are required to relocate our business operations during this period, we may

suffer a disruption in our operations or have to pay higher charges, which could have an adverse effect t on our business, prospects, results of operations and financial condition. However, we own a corporate office at Ground Floor, W-121-A, Greater Kailash – I, South Delhi, New Delhi – 110048, which we may use in case of such exigencies.

5. ***We operate in the Gabion manufacturing industry where there are low entry barriers and is highly competitive. Our failure to successfully compete may adversely affect our business, financial condition, results of operations and prospects.***

Our business operates in the highly competitive Gabion manufacturing industry, which is characterized by relatively low barriers to entry. As a result, the market is highly competitive, with numerous established players and potential new entrants continually vying for market share. The presence of both local and international competitors, including new entrants who may be able to issue similar products at competitive prices, poses a risk to our ability to maintain or grow our market position.

If we are unable to effectively differentiate our products, maintain cost efficiency, and respond to industry trends and customer demands, we may face increased pricing pressure and reduced profitability. The competitive dynamics of this industry may also result in a decrease in customer loyalty and market share, which could adversely impact our business, financial condition, results of operations, and prospects.

Moreover, our ability to effectively compete will depend on our ability to leverage technological advancements, innovation, and marketing strategies to attract and retain customers. There can be no assurance that we will be able to successfully compete in such a competitive environment, which may significantly affect our long-term growth and success.

6. ***Our Promoters, Directors, related entities, subsidiary companies and other ventures promoted by our promoters are engaged in a similar line of business and we do not have a non-compete agreement or contract with any of these entities, and hence a potential conflict of interest may arise.***

Our Subsidiary companies, Gabion Technologies BD Limited and Gabion Technology Nepal Private Limited are involved in similar line of business that is being carried out by our company, as specified below. Also, our Company has entered into various transactions with our subsidiary companies and will continue to do so in future. For detailed information for our transaction with Subsidiary Company, please refer to Restated financial Statement beginning on page no. 207 respectively of this Prospectus. Further, we have not entered into any non-compete agreement with our said entity. We cannot assure you that our Promoters, Promoter's Group or Directors who have common interest in said entities may not favour the interest of the said entity. Any such present and future conflicts could have a material effect on our reputation, business, results of operations and financial condition which may affect our profitability and results of operations.

7. ***Our business is manpower intensive and is dependent on our ability to attract, retain and train skilled and semi-skilled workers. High attrition rates, labour shortages or work stoppages could adversely affect our operations.***

   Our operations rely heavily on both skilled and semi-skilled workers, particularly in the manufacturing and assembly of gabions, which require technical precision and consistent workmanship. The success of our business depends on the availability of labour, maintaining a stable workforce, and ensuring good relationships with our employees and contractual staff.

   We have experienced consistently high attrition rates in recent periods. As on November 30, 2025, our attrition rate stood at 36.42% as compared to March 31, 2025 at 55 %, compared to 45% as on March 31, 2024 and 39 % as on March 31, 2023. The increasing trend in attrition indicates challenges in retaining skilled labour in a physically demanding manufacturing environment. Contributing factors to this attrition include limited career growth opportunities within a niche industry, the labour-intensive nature of our operations, and competition from other manufacturing and construction companies that may offer better remuneration or working conditions.

   As on November 30, 2025, we had 159 full-time employees on our payroll and also engage contractual employees on an as-needed basis, aligned with project and site requirements. For November 30, 2025, our employee benefits expense was ₹759.23 lakhs (12.57% of revenue from operations). Any significant increase in employee costs, including due to increased minimum wage requirements across states or higher wage demands from our employees, may adversely impact our profitability.

   High attrition rates, labour shortages, work stoppages, or disputes with our workforce could disrupt our production processes, reduce operational efficiency, and cause delays in fulfilling customer orders. This may also result in increased recruitment and training costs, loss of experienced personnel, a decline in product quality, and pressure on our human resource capabilities. Although we are undertaking initiatives to improve employee retention and engagement, there can be no assurance that such efforts will be successful in mitigating the adverse effects of labour-related challenges on our operations, business, financial condition and results of operations.

8. ***We require certain approvals and licenses in the ordinary course of business and are required to comply with certain rules and regulations to operate our business, any failure to obtain, retain and renew such approvals and licences or comply with such rules and regulations may adversely affect our operations.***

   We require several statutory and regulatory permits, licenses and approvals to operate our business, some of which are either received or applied for. Many of these approvals are subject to periodical renewal. Further, we are yet to apply for Government Purchase Enlistment Certificate. Any failure to renew the approvals that may expire, or to apply for the required approvals,

licences, registrations or permits, or any suspension or revocation of any of the approvals, licences, registrations and permits that have been or may be issued to us, could result in delaying the operations of our business, which may adversely affect our business, financial condition, results of operations and prospects.

Additionally, some of our permits, licenses and approvals are subject to several conditions and we cannot provide any assurance that we will be able to continuously meet such conditions or be able to prove compliance with such conditions to the statutory authorities, which may lead to the cancellation, revocation or suspension of relevant permits, licenses or approvals which may result in the interruption of our operations and may have a material adverse effect on our business, financial condition, cash flows and results of operations. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change, we may incur increased costs, be subject to penalties or suffer a disruption in our business activities, any of which could adversely affect our results of operations. For further details, see "***Key Industry Regulations and Policies"*** and ***"Government and Other Approvals***" for permits/licenses required for the business on pages 174 and 246, respectively.

9. ***Our Company and our Directors are party to certain legal proceeding. Any adverse decision in such proceedings may have a material adverse effect on our business, results of operations and financial condition.***

Our Company and our Directors are party to certain legal proceedings. These legal proceedings are pending at different levels of adjudication before various courts and legal forums. A summary of outstanding litigation proceedings involving our Company, as on the date of this Prospectus as disclosed in "Outstanding Litigations and Material Developments" on page 240240, in terms of the SEBI ICDR Regulations and the Materiality Policy is provided below:

The aggregate amounts involved in the litigations have also been provided, namely: (i) material civil litigation against Company amounting to ₹191.51 lakh; (ii) material civil litigation by Company amounting to ₹109.80 lakh; and (iii) direct and indirect tax proceedings amounting to ₹4.37 lakh.

There can be no assurance that litigations involving our Company and our Directors will be decided in favour of our Company or our Directors it may divert the attention of our management and Promoters and consume our corporate resources and we may incur significant expenses in such proceedings and we may have to make provisions in our financial statements, which could increase our expenses and liabilities. If such claims are determined against Company, there could be a material adverse effect on our reputation, business, financial condition and results of operations, which could adversely affect the trading price of our Equity Shares.

Furthermore, we may not be able to quantify all the claims in which we are involved. Failure to successfully defend these or other claims or if our current provisions prove to be inadequate, our business and results of operations could be adversely affected. Even if we are successful in defending such cases, we will be subjected to legal and other costs relating to defending

such litigation, and such costs could be substantial. In addition, we cannot assure that similar proceedings will not be initiated in the future. This could adversely affect our business, cash flows, financial condition, and results of operation. For further details, pertaining to material pending outstanding litigations involving our Company, see "***Outstanding Litigations and Material Developments***" on page240.

10. A Suit has been filed alleging supply of Non-Satisfactory Product. Any disruption in the quality of products could have a material adverse effect on our business operations and financial conditions.

A civil suit for recovery bearing Civil Suit (COMM.) No. 358 of 2022 has been filed by Swatik Polyvinyls Private Limited ("Plaintiff") before the Hon'ble Court of District Judge (Commercial), South, Saket Courts, New Delhi, against our Company. The Plaintiff has alleged that the PVC compounds supplied to our Company were not satisfactory and that our Company did not make payment for the said supplies. Based on these allegations, the Plaintiff has sought a decree for ₹30,01,213 along with pendentelite interest of ₹10,00,000 and other reliefs as the Hon'ble Court may deem fit. For further details please see "Outstanding Litigation and Material Developments" on page 240of Prospectus.

Moreover, an adverse outcome in this matter may require our Company to make payments as may be determined by the court and could adversely impact our financial condition, cash flows and results of operations.

11. High Debt-Equity Ratio may adversely impact our financial flexibility and growth prospects of our company.

We are currently operating in the manufacturing and construction industry, which is highly capital-intensive and requires significant operating funds. A key challenge we face is the need to extend long credit periods to clients to foster and maintain strong business relationships. To cover the working capital required during these extended credit terms, we have secured debt financing from banks. As of November 30, 2025 our Company had a total debt of ₹ 5,205.06 lakhs, resulting in a debt-equity ratio of 1.98 This indicates a relatively high reliance on debt financing for our operations and growth initiatives. A higher debt-equity ratio increases our fixed financial commitments, particularly interest and principal repayments, which may impact our liquidity position. In the event of lower-than-expected cash flows or delays in receivables, our ability to service debt could be adversely affected. Additionally, high leverage may limit our capacity to raise further capital on favorable terms and could restrict our strategic and operational flexibility. Any deterioration in market conditions or an increase in interest rates may further exacerbate these risks, potentially affecting our financial stability and growth trajectory.

12. There have been certain lapses and discrepancies and/or typographical errors in Statutory filings. We cannot assure you that no regulatory action will be initiated against us and that no penalties will be imposed on us on account of these lapses.

In the past, there have been certain instances of delays in filing statutory forms which have been subsequently filed by payment of an additional fee as specified by RoC. Further, there are some clerical errors in filling of forms and mismatch in board meeting as per minutes and E-form MGT-7. No show cause notice in respect to the above has been received by the Company till date and no penalty or fine has been imposed by any regulatory authority in respect to the same. It cannot be assured, that there will not be such instances in the future or the Company will not commit any further delays in relation to its reporting requirements, or any penalty or fine will not be imposed by any regulatory authority in respect to the same. The happening of such events may cause a material effect on results of operations and financial position.

Further, the Company inadvertently failed to file Form CHG-1 in respect of the charge created on V-CROSS 4WD MT Z (30107) in favour of ICICI Bank Limited, CHG-1 for the Modification of Charge created on Construction Equipment(s) in favour of ICICI Bank Limited and Form CHG-4 for satisfaction of charges in favour of ICICI Bank Limited, for which the company has initiated the process of filing and same is under process. The Company acknowledges the delay in filing and has initiated corrective measures by filing an application for cancellation of Form AOC-4 CFS with the Registrar of Companies, Delhi, through Form GNL-1, for which the status of the form is approved and the same is under process.

Further, the Company failed to mention the details of Gabion Technologies Nepal Private Limited as "Subsidiary" of Gabion Technologies India Private Limited in Board Report and Form AOC-4 for the financial year 2021-22 and Form AOC-4 CFS 2021-22 and the consolidated balance sheet for the financial year 2021-22 were prepared without consolidating the financials of Gabion Technologies Nepal Private Limited. The company has taken steps to rectify the non-compliance by filing an application for cancellation of such form with the Registrar of Companies, Delhi, using Form GNL-1, which is currently under process.

No show cause notice in respect to the above has been received by Company till date and no penalty or fine has been imposed by any regulatory authority in respect to the same. Further, the details of the discrepancies have been specified as below:

13. We may be unable to sufficiently obtain, maintain, protect, or enforce our intellectual property and other proprietary rights.

As on date of this Prospectus, we have registered the trademark for our wordmark "GABION" and "GTI" and our logo "

" under class 6 of the Trademarks Act, 1999. If we are unable to renew our trademarks for various reasons including our inability to remove objections to any trademark application, or if any of our unregistered trademark are registered in favour of or used by a third party in India or abroad, we may not be able to claim registered ownership of such trademark and consequently, we may not be able to seek remedies for infringement of those trademarks by third parties other than relief against passing off by other entities, causing damage to our business prospects, reputation and goodwill in India and abroad. Apart from this, any failure to register or renew registration of our registered trademark may affect our right to use such trademark in future. Further, our efforts to protect our intellectual property in India and abroad may not be adequate and any third-party claim on any of our unprotected intellectual property may lead to erosion of our business value and our reputation, which could adversely affect our operations. Third parties may also infringe or copy our registered brand name in India and abroad which has been registered by us in India. We may not be able to detect any unauthorized use or take appropriate and timely steps to enforce or protect our trademarks in India and abroad. Further, if do not maintain our brand name and identity, which we believe is one of

the factors that differentiates us from our competitors, we may not be able to maintain our competitive edge in India and abroad. If we are unable to compete successfully, we could lose our customers, which would negatively affect our financial performance and profitability. Moreover, our ability to protect, enforce or utilize our brand name is subject to risks, including general litigation risks. Furthermore, we cannot assure you that such brand name will not be adversely affected in the future by actions that are beyond our control, including customer complaints or adverse publicity from any other source in India and abroad. Any damage to our brand name, if not immediately and sufficiently remedied, could have an adverse effect on our business and competitive position in India and abroad. For further details, please refer "***Government and Other Approvals***" and "***Our Business***" on pages 246And 117, respectively.

14. ***We appoint contract labour through Independent Contractor for carrying out certain of our ancillary operations and we may be held responsible for paying the wages of such workers, if the independent contractors through whom such workers are hired default on their obligations, and such obligations could have an adverse effect on our results of operations, cash flows and financial condition.***

In order to retain flexibility and control costs, we appoint independent contractors who in turn engage on-site contract labour for performing certain of our ancillary operations, including, assisting in loading/ unloading works, site work and housekeeping activities etc. The numbers of contract labourers vary from time to time based on the nature and extent of work contracted to independent contractors. As of November 30, 2025, we had 12 Independent Contractors. All contract labourers engaged at our facilities are assured minimum wages that are fixed by the state government from time to time.

Set forth below are details of our independent contractors expense in each of the corresponding periods:

Particulars	For period ended on November 30, 2025		Fiscal 2025		Fiscal 2024		Fiscal 2023	
	(₹ Lakhs)	Percentage of revenue from operations (%)	(₹ Lakhs)	Percentage of revenue from operations (%)	(₹ Lakhs)	Percentage of revenue from operations (%)	(₹ Lakhs)	Percentage of revenue from operations (%)
Contractors	284.18	4.70%	416.33	4.15%	349.59	3.34 %	145.25	1.84 %

Although, we have not faced any challenges in past, However, any upward revision of wages that may be required by the state government to be paid to such contract laborers, or issue of permanent employment or the unavailability of the required number of contract laborers, may adversely affect the business and future results of our operations.

15. ***Any negative cash flows in the future would adversely affect our cash flow requirements, which may adversely affect our ability to operate our business and implement our growth plans, thereby affecting our financial condition.***

Any negative cash flows in the future would adversely affect our cash flow requirements, which may adversely affect our ability to operate our business and implement our growth plans, thereby affecting our financial condition. We have in the past experienced, and may in the future, experience negative operating cash flows. The following table sets forth certain information relating to our cash flows on a consolidated basis for the year indicated:

Particulars	For period ended on November 30, 2025	Fiscal Year Ended		
		March 31, 2025	March 31, 2024	March 31, 2023
Net cash flow from/ (used in) Operating Activities	(21.68)	(362.56)	(184.73)	(431.37)

In November 30, 2025, cash flow from operation was negative due to increase in working capital. The primary factor was the inventory. This was followed by Trade receivable and Loan and Advances. Partially offsetting these outflows were higher trade payable and other current liability and provisions.

In March 31, 2025, cash flow from operations was negative due to increase in working capital. The primary factor was the increase in inventory. This was followed by increases in trade receivables and loans and advances. Partially offsetting these outflows were higher trade payables and other current liabilities and provisions, which helped moderate the overall impact on operational cash flow. For, further information, please refer "Restated Consolidated Financial Statements" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" on pages 207 and 224.

Further In Fiscal 2024, cash flow from operations was negatively impacted primarily due to the significant increase in trade receivables, which was the main driver. Additional contributions came from increases in inventory and loans and advances. Partially mitigating these outflows were higher trade payables and other current liabilities and provisions, which helped reduce the overall cash outflow from operations. For, further information, please refer "Restated

Consolidated Financial Statements" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" on pages 207 and 224.

16. ***Our operations at our manufacturing facility could be adversely affected by strikes, work stoppages or increased wage demands by our employees or any other kind of disputes with our employees.***

India has stringent labour legislations that protect the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal, and legislation that imposes certain financial obligations on employers upon retrenchment. Our company, does not have, or had, in past, any labour unions within the organisation. However, in the event that employees/labour seeks to unionise, it may become difficult for us to maintain flexible labour policies, which may increase our costs and adversely affect our business. We believe our employees and personnel are critical to maintain our competitive position. Although, we have not experienced any material labour unrest, we cannot assure you that we will not experience disruptions in work or our operations due to disputes or other problems with our work force, which may adversely affect our ability to continue our business operations. Any labour unrest directed against us, could directly or indirectly prevent or hinder our normal operating activities, and, if not resolved in a timely manner, could lead to disruptions in our operations These actions are very difficult for us to predict or control and any such event could adversely affect our business, results of operations and financial condition. A potential increase in the salary scale of our employees or amounts paid to our contract manufacturers as a result of renegotiation or unrest, or a disruption in services from our employees or contract manufacturers due to potential strikes, could adversely affect our business operations and financial condition.

17. Adverse Political and Social Developments in Nepal May Materially Impact Our Business and Operations.

Our Company has a subsidiary in Nepal and is also engaged in import and export of goods from Nepal. Any adverse developments in Nepal may have a direct and significant impact on our business. Recently, there have been incidents of riots and political unrest in Nepal, which may cause disruption in transportation, supply chain, and cross-border trade. Such events could adversely impact our ability to carry on business operations smoothly, delay deliveries, increase costs, or even result in temporary suspension of operations in the affected regions.

Further, prolonged political instability, imposition of trade restrictions, curfews, or other regulatory actions by the Nepalese or Indian government in response to such unrest could materially and adversely affect our subsidiary's business and consequently our consolidated financial condition and results of operations. While we take measures to mitigate these risks, we cannot assure that such events will not occur in the future or that their impact will not be material.

18. Our business is working capital intensive involving relatively long implementation periods. We require substantial financing for our business operations. Our indebtedness and the conditions and restrictions imposed on by our financing arrangements could adversely affect our ability to conduct our business.

Typically, projects in the sector which we undertake are working capital intensive in nature and involve long implementation periods. Majority of the working capital funds of our Company are blocked due to providing margin money for Bank Guarantee, Earnest Money Deposit, Performance Deposit and Security deposit (for our Projects) on which the banks are not providing finance. As on November 30, 2025, our Company's net working capital requirement was ₹ 4,723.97 Lakhs. Further, as on March 31, 2025 our Company's net working capital requirement was ₹ 3,716.98 Lakhs as against ₹ 2,260.49 Lakhs as on March 31, 2024 and ₹ 1,231.70 Lakhs as on March 31, 2023. As on the date of this Prospectus, we meet our working capital requirements in the ordinary course of its business from capital, internal accruals, unsecured loans, working capital loans, from the Banks etc. This requires us to obtain financing through various means. As on November 30, 2025, our total borrowings (on standalone basis) stood at ₹ 4,899.88 Lakhs. We may incur additional indebtedness in the future. Additional debt financing could increase our interest costs and require us to comply with additional restrictive covenants in our financing agreements. Additional equity financing could dilute our earnings per Equity Share and investors interest in the Company and could adversely impact our Equity Share price.

Furthermore, the objects of the Issue include funding working capital requirements of our Company and Capital expenditure. For more information in relation to such management estimates and assumptions, please see "***Objects of the Issue***" on page 79. Our working capital requirements may be affected due to factors beyond our control including force majeure conditions, delay or default of payment by our clients, non-availability of funding from banks or financial institutions. Accordingly, such working capital requirements may not be indicative of the actual requirements of our Company in the future and investors are advised to not place undue reliance on such estimates of future working capital requirements.

The Working Capital requirement and sources of working capital for Period ended November 30, 2025 and for financial year ended 2023, 2024 and 2025 are mentioned as follows:

(₹ in lakhs)

21. Our Promoters have issued personal guarantees in relation to debt facilities availed by us, which if revoked, may require alternative guarantees, repayment of amounts due or termination of the facilities.

Our Promoters have provided their personal guarantees in relation to our secured debt facilities availed from our bankers. In the event any of these guarantees are revoked then the lenders for such facilities may require alternate guarantees, repayment of amounts outstanding under such facilities, or may even terminate such facilities. While we have not faced any revocation of such guarantees in the past, if any of these guarantees are revoked, our lenders may require alternative guarantees or collateral or cancellation of such facilities, entailing repayment of amounts outstanding under such facilities. Further we may not be successful in procuring alternative guarantees satisfactory to the lenders and as a result, may need to repay outstanding amounts under such facilities or seek additional sources of capital, which may not be available on acceptable terms or at all and any such failure to raise additional capital could affect our operations and our financial condition. For further details, see Financial Indebtedness" on page 210.

22. Our Non-Executive Director, Ms. Priyanandini Sarda has limited work experience in the field of Gabion Industry as on the date of this Prospectus.

Our Non-Executive Director, Ms. Priyanandini Sarda, was appointed in our company dated November 11, 2024. She has limited work experience of about 1 year and such lack of experience may pose as potential risk to the company's governance and strategic decision-making. As, she may require additional time to familiarize herself with industry-specific practices and company operations, there is a risk of delayed or less informed decision-making in key areas. This could affect the company's ability to respond effectively to market challenges or opportunities. However, her strong analytical abilities, commitment to continuous learning, and hands-on exposure during this period have enabled her to contribute meaningfully to various assignments. The Company has also benefitted from her fresh perspective, adaptability, and the energy that young professionals

bring to dynamic and growing organization.

23. All of our directors lack prior experience as Directors in Listed Companies.

All of our Directors do not have prior experience serving on the board of directors of any other listed company in India. As a result, they may initially require time to fully familiarize themselves with the additional regulatory, compliance, governance, and disclosure obligations applicable to listed entities under Indian law. While they bring relevant industry expertise and professional qualifications, the absence of prior listed company board experience may pose a potential risk to the effectiveness and efficiency of board oversight, decision-making, and compliance in the initial phases following the listing. This could affect our ability to respond swiftly to regulatory changes or best practices in corporate governance, potentially impacting investor confidence.

24. We are required to comply with lender's charge over properties in respect of financial facilities under applicable sections of Companies Act, 2013, any failure to such compliance may result into penalties which may adversely impact our business operations.

Certain of our properties are charged in favour of our lenders as security for financial facilities provided to us. There has been certain lapses and delay in filing of statutory forms with the ROC, and such delay or default in repaying these facilities, the lenders may have the right to take possession of and sell the charged properties to recover their dues. The imposition of such charges may limit our ability to use these properties for other purposes or obtain additional financing. Any failure to meet our repayment obligations could materially and adversely affect our business, financial condition, and results of operations.

25. Our insurance coverage may not be adequate to protect us against certain operating hazards and this may have a material adverse effect on our business.

Our Company has obtained insurance coverage in respect of certain risks. While we believe that we maintain insurance coverage in adequate amounts consistent with size of our business, our insurance policies do not cover all risks. Long periods of business disruption could result in a loss of customers. Although we take precautions to minimize the risk of any significant operational problems at our operations, and we have not experienced any such material incidents in the past, there can be no assurance that we will not face such disruptions in the future.

We may be exposed to various risks which we may not be able to foresee or may not have adequate insurance coverage. Our insurance coverage may not be adequate to cover such loss or damage to life and property, and any consequential losses arising due to such events will affect our operations and financial condition. Further, in addition to the above, any such fatal accident or incident causing damage or loss to life and property, even if we are fully insured or held not to be liable, could negatively affect our reputation, thereby making it more difficult for us to conduct our business operations effectively, and could significantly affect our business, availability of insurance coverage in the future and our results of operations.

While we believe that the insurance coverage that we maintain is in accordance with industry standards, there can be no assurance that any claim under the insurance policies maintained by us will be honored filly, in part or on time, or that we have taken out sufficient insurance to cover all material losses. To the extent that we suffer loss or damage for which we did not obtain or maintain insurance, that is not covered by insurance or exceeds our insurance coverage, the loss would have to be borne by us and our cash flows, results of operations and financial performance could be adversely affected. In the event that our Company files a claim under the applicable insurance policy, there is no assurance that we will be able to recover all, or part of the losses incurred.

26. If we fail to deliver our products or services in accordance with contractual requirements, we could be subject to significant costs or liability and our reputation could be harmed.

We contract with infrastructure companies to perform a wide range of services and provide variety of products. If we fail to deliver services or products in accordance with such requirements and standards, our client may bring claims against us for breach of contract. Further, clients are typically permitted under our master service agreements with them to seek indemnity claims for various matters, including: (i) failure to comply with applicable laws; (ii) breach of any covenants, obligations, representations or warranties under the master service agreements; (iii) negligence or wilful misconduct by us or our representatives in provision of services and (iv) failure of our company's representatives to obtain the appropriate informed consent. Additionally, in case of any deficiency in the solutions we provide, our clients our contractually permitted to require us to correct such deficiency at no additional cost to them. While we have not been subject to any indemnity claims for period ended November 30, 2025 and financial year ended 2025, 2024 and 2023 we cannot assure you that we will not be subject to such indemnity claims in the future.

27. Company may be not be able to procure Equipment/Machineries at costs specified in "Objects to Issue Chapter" of the Prospectus.

There can be no assurance that we would be able to procure equipment at the estimated costs. The procurement of necessary equipment constitutes a critical component of our operations. However, various factors, including market fluctuations, supply chain disruptions, and unforeseen regulatory requirements, may lead to significant deviations from our projected equipment procurement costs.

These uncertainties could arise from changes in supplier pricing, availability of raw materials, transportation costs, or geopolitical events affecting trade relations. Additionally, unforeseen technical challenges or modifications to equipment specifications may necessitate costly adjustments to procurement plans.

As a result, any inability to procure equipment within anticipated cost parameters could adversely affect our financial performance, operational efficiency, and ability to execute strategic initiatives. Investors should recognize the inherent risks associated with uncertainties in equipment procurement costs and carefully consider these factors before making investment decisions.

28. We are required to furnish financial and performance bank guarantees and letter of credits as part of our business. Our inability to arrange such guarantees and/or letters of credit may adversely affect our cash flows and financial condition.

We are typically required to provide financial and performance bank guarantees in favor of our clients, for the projects undertaken by us, to secure our financial/performance obligations under the respective contracts. As on November 30, 2025 we have issued bank guarantee (including letter of credit) amounting to ₹ 349.97 lakhs, towards securing our financial/ performance obligations under our ongoing projects. In past our company has been able to furnish bank guarantee and letter of credit as and when the need has arisen. However, we may be unable to obtain financial and performance bank guarantees and letter or credit required to commensurate with our business operations in future. If we are unable to provide sufficient collateral to secure the financial bank guarantee, performance bank guarantee or letter of credit to financial institutions, our ability to bid for new projects, execute existing projects or obtain adequate materials could be limited and it could have a material adverse effect on our business, results of operations and our financial condition.

29. We have incurred indebtedness, and an inability to comply with repayment and other covenants in our financing agreements could adversely affect our business and financial condition.

Our company has incurred a substantial level of indebtedness, which could pose challenges if we fail to meet repayment obligations or adhere to the terms outlined in our financing agreements. As of November 30, 2025, our outstanding borrowings amounted to ₹ 5205.06 Lakhs.

We maintain agreements with various banks and financial institutions for both short-term and long-term borrowings. These agreements typically entail restrictive covenants, necessitating prior consent from lenders for certain actions such as modifications to our capital structure, alterations in shareholding patterns, or seeking additional resources through debt or equity offerings in the capital market. Additionally, these agreements often require collateral in the form of charges on our fixed and current assets, mortgages on immovable properties, and hypothecation of movable assets. Further, we have obtained a NOC from lenders wherever mandated.

The fluctuation of interest rates also presents a direct impact on the interest costs of our loans, potentially affecting our financial stability. Our ability to service and refinance our debts relies heavily on generating cash flow from our operations. Although we have not faced any instance in the past, however, there is a possibility that we may not generate sufficient cash flow or secure adequate capital to meet our debt obligations. The level of leverage we carry can significantly influence our shareholders and future financial performance. It could increase our vulnerability to economic downturns, hinder our growth initiatives, and limit our flexibility in responding to industry changes. Moreover, it may reduce our ability to allocate funds towards capital expenditures, working capital requirements, and other corporate purposes, including dividend pay outs. This situation could also place us at a competitive disadvantage compared to less leveraged competitors

30. Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Additionally, under some of our loan agreements, we may not be permitted to declare any dividends, if there is a default under such loan agreements or unless our Company has paid all the dues to the lender up to the date on which the dividend is declared or paid or has made satisfactory provisions thereof. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, please refer "Dividend Policy" on page no. 206 of this Prospectus.

31. Our actual cost in executing a work order or in constructing a project may vary substantially from the assumptions underlying our bid. We may be unable to recover all or some of the additional expenses, which may have a material adverse effect on our results of operations, cash flows and financial condition.

Under the terms of work order with our clients for projects, we generally agree to pay to, or receive from the client awarding the concession an agreed sum of money, subject to contract variations covering changes in the client's project requirements. In spite there not being any past instances, Our actual expense in executing a project under construction may vary substantially from the assumptions underlying our bid for various reasons, including, unanticipated increases in the cost of construction materials, fuel, labour or other inputs, unforeseen construction conditions, including the inability of the client to obtain requisite environmental and other approvals resulting in delays and increased costs, delays caused by local weather conditions and `suppliers' failures to perform.

Our ability to pass on increases in the purchase price or manufacturing cost of raw materials and other inputs may be limited in the case of contracts with limited or no price escalation provisions, and we cannot assure you that these variations in cost will not lead to financial losses to us. Further, other risks generally inherent to the development and construction industry may result in our profits from a project being less than as originally estimated or may result in us experiencing losses due to cost and time

overruns, which could have a material adverse effect on our cash flows, business, financial condition and results of operations.

32. ***Our business is significantly dependent on the expertise, experience, and continued involvement of our directors, senior management, and key managerial personnel.***

Our business is significantly dependent on the expertise, experience, and continued involvement of our directors, senior management, and key managerial personnel. In past there has been instances of resignations in the post of Chief Financial Officer. The loss of any of these individuals or their inability to perform their duties effectively could disrupt our operations, hinder strategic decision-making, and negatively impact business performance. Although we have succession plans in place, any such loss could have a material adverse effect on our business, financial condition, and results of operations.

33. ***We own a large fleet of equipment and vehicles, resulting in fixed costs to our Company. Moreover, our Company is subject to operational risks on account of obsolescence, destruction, breakdown of our equipment and vehicles or failure to repair or maintain such equipment and vehicles. Further, if we do not continually enhance our business with the most recent equipment and technology, our ability to maintain and expand our markets may be adversely affected.***

We own a large number of modern construction equipment, machinery and vehicles which are used in our operations and resulting in increased fixed costs to our Company. As on November 30, 2025, we own and maintain 177 equipment and machineries and vehicles. For details, please refer "***Our Business***" Chapter on page no 98.

Moreover, to maintain our capability to undertake projects, we may have to purchase machines and equipment, built with the latest technologies and knowhow and keep them readily available for our construction activities through careful and comprehensive repairs and maintenance. We cannot assure you that we will be immune from the associated operational risks such as the obsolescence of our plants or equipment, destruction, theft or major equipment breakdowns or failures to repair our major plants or equipment. These operational risks may result in project delays, cost overruns and even defaults under our construction contracts. The latest technologies used in newer models of construction equipment may improve productivity significantly, however they may render our older equipment obsolete.

Further, we may experience significant price increases due to supply shortages, inflation, transportation difficulties or unavailability of bulk discounts. Such obsolescence, destruction, theft breakdowns, repair or maintenance failures or price increases may not be adequately covered by the insurance policies availed by our Company and may have an adverse effect on our business, cash flows, financial condition and results of operations. Although we have not faced any such instance of material nature in the last three (3) financial years and stub period, in the event we are unable to generate or maintain adequate revenues by successfully bidding for projects or recover payments from our clients in a timely manner or at all, we may not be able to keep our equipment and vehicles fully utilized and it could also have a material adverse effect on our financial condition and result of operations.

34. ***Increases in the prices of construction materials, fuel, labour and equipment could have an adverse effect on our business, results of operations and financial condition.***

The cost of construction materials, fuel, labour and equipment maintenance constitutes a significant part of our operating expenses. We are vulnerable to the risk of rising and fluctuating steel prices, which are determined by demand and supply conditions in the global and Indian markets as well as government policies. In spite there not being any past instances. Any unexpected price fluctuations after placement of orders, shortage, delay in delivery, quality defects, or any factors beyond our control may result in an interruption in the supply of such materials and adversely affect our business, financial performance and cash flows.

Our contracts to provide our services are mostly on the basis of a fixed price or a lump sum for the project as a whole, which may not always include escalation clauses covering any increased costs we may incur. As a result, our ability to pass on increased costs may be limited and we may have to absorb such increases which may adversely affect our business, financial condition and results of operations. We may also suffer significant cost overruns or even losses in these projects due to unanticipated cost increases resulted from a number of factors such as changes in assumptions underlying our contracts, unavailability or unanticipated increases in the cost of construction materials, fuel, labour and equipment, changes in applicable taxation structures or the scope of work, delays in obtaining requisite statutory clearances and approvals, delays in acquisition of land, procuring right of way, disruptions of the supply of raw materials due to factors beyond our control, unforeseen design or engineering challenges, inaccurate drawings or technical information provided by clients, severe weather conditions or force majeure events. This would result in us being required to absorb the additional cost, which may have a material adverse impact on our profitability.

35. ***The average cost of acquisition of Equity Shares by our Promoters is lower than the Issue Price.***

Our Promoters average cost of acquisition of Equity Shares in our Company is lower than the Issue Price of the shares proposed to be offered though this Prospectus. For details regarding average cost of acquisition of Equity Shares by our Promoters in our Company, please refer the table below:

Name of Promoter	No. of Equity Shares held	Average cost of Acquisition per Equity Share (in ₹) *
Mr. Madhusudan Sarda	56,04,390	1.89
Mrs. Urvashi Sarda	7,02,840	2.28
Ms. Priyanandini Sarda	18,68,130	0
M/s. ARS Merchants Private Limited	17,98,500	2.33

36. We are exposed to Foreign Currency Exchange Rate Fluctuations.

We are exposed to foreign currency exchange rate fluctuations due to our international transactions, revenues, and obligations denominated in currencies other than the Indian Rupee. Although we may employ hedging mechanisms and there being no such past instances, there is no assurance that such strategies will fully mitigate the impact of adverse currency movements. Volatility in exchange rates may lead to foreign exchange losses, affecting our profitability, cash flows, and overall financial condition.

37. We are subject to various safety, health, environmental, labour, and workplace-related laws and regulations in the jurisdictions in which we operate. Non-compliance to any of such losses may adversely impact our business operations.

We are subject to various safety, health, environmental, labour, and workplace-related laws and regulations in the Jurisdictions in which we operate. Compliance with existing requirements, as well as any future changes or more stringent enforcement of such laws, may result in increased operational and compliance costs. Any failure to comply with these laws may also lead to penalties, litigation, reputational harm, or disruption of our operations. There have been past instances of fire and compound wall breakage. Any such future events may affect our business, financial condition, and results of operations could be materially and adversely affected.

38. Any Variation or changes in the Utilization of the Net Proceeds shall be subject to certain compliance requirements.

We propose to utilise the Net Proceeds from this Issue for the purposes described under the section titled "Objects of the Issue" in this Prospectus. However, any variation in the utilisation of the Net Proceeds shall be subject to compliance with applicable regulatory requirements, including the prior approval of our shareholders by way of a special resolution, in accordance with the Companies Act, 2013 and the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended. Additionally, in the event of such variation, dissenting shareholders shall be provided an exit opportunity by the promoters or controlling shareholders, as prescribed under applicable law.

While we do not currently foresee any change in the proposed Utilization, there can be no assurance that our funding requirements will not change due to unforeseen circumstances or changes in market conditions. Any delay in obtaining the necessary approvals for such variation, or any resulting postponement in deploying the Net Proceeds, could adversely impact our business strategies, financial condition, and results of operations.

39. Our inability to establish and maintain effective Internal Controls and Compliance Systems may result in errors or misstatements in our financial statements, regulatory non-compliance, operational inefficiencies, or losses in revenues.

Our ability to ensure the reliability of our financial reporting, compliance with applicable laws and regulations, and efficient operations depends on the effectiveness of our internal control and compliance systems. There have been certain lapses in terms of delay in statutory filings in past and any failure to design, implement, or maintain adequate internal controls, including those over financial reporting, information technology systems, and regulatory compliance, could result in errors or misstatements in our financial statements, regulatory noncompliance, operational inefficiencies, or reputational harm. In addition, undetected control deficiencies could adversely affect our ability to prevent fraud or misconduct. Any such failures could materially and adversely affect our business, financial condition, results of operations, and investor confidence.

40. Any shortage or unavailability of Electricity or Water may adversely affect our manufacturing operations.

Our manufacturing operations depend significantly on the continuous and adequate supply of essential utilities such as electricity and water. In spite there being no such past instances, any disruption or shortage in the availability of these resources—whether due to infrastructure limitations, regulatory restrictions, natural calamities, or other unforeseen circumstances—could lead to production delays, reduced capacity Utilization, or temporary shutdowns. Such interruptions may adversely affect our operational efficiency, increase costs, and negatively impact our business, financial condition, and results of operations.

41. We are prone to risks associated with malfunctions or disruptions in Basic Information Technology Systems. Any failure in association with malfunctions or disruptions in IT system may adversely impact the business operations.

While our operations are not heavily reliant on advanced technology systems, we do use basic information technology infrastructure for essential functions such as accounting, inventory management, and communication. There have been no past instances of lapses, any malfunction, disruption, or failure in these systems—due to software or hardware issues, cyber threats, or network outages—could disrupt routine administrative processes, delay information flow, or result in data loss. Although such risks are limited given our operational profile, any significant disruption may still adversely affect our efficiency, compliance obligations, and business continuity.

42. Due to inaccurate forecasting and inventory management, our company may lead to operational inefficiencies and revenue losses.

Our business requires careful forecasting and management of inventory, including raw materials, equipment, and manpower, to ensure uninterrupted operations. There have been no past instances of lapses, any failure to accurately anticipate demand or manage inventory levels could result in shortages that disrupt production or excess stock that increases holding costs and working capital requirements. Inaccurate planning may also lead to underutilization or over deployment of manpower, impacting operational efficiency and profitability. Such inefficiencies could adversely affect our business operations, financial condition, and results of operations.

43. The Objects of the Issue for which funds are being raised have not been appraised by any bank or financial institution. The deployment of funds is entirely at the discretion of our management and as per the details mentioned in the section titled "Objects of the Issue". Any revision in the estimates may require us to reschedule our expenditure and may have a bearing on our expected revenues and earnings.

Our funding requirements and the deployment of the proceeds of the Issue are purely based on our management's estimates and have not been appraised by any bank or financial institution. Our Company may have to revise such estimates from time to time on account of various factors such as our financial and market condition, business and strategy, which may not be within the control of our management. Our estimates may exceed the value and may require us to reschedule our expenditure which may have a bearing on our expected revenues and earnings. Further, the deployment of the funds towards the Objects of the Issue is entirely at the discretion of our management. However, monitoring the utilization of the Net Proceeds and the Board after consideration and approval by the Audit Committee will disclose the utilization of Net Proceeds under separate head in our balance sheet along with relevant details for all sum amounts that have not been utilized. Our Company will issue a disclosure to the Stock Exchanges on a half-yearly basis, deviations, if any, in the Use of Proceeds of the Issue as per Objects of the Issue stated in this Prospectus or by way of an explanatory statement to the notice for a general meeting.

44. We are required to obtain consents under environmental laws for operating our manufacturing facility. However, any failure obtains such consents may adversely impact our business operations.

Our manufacturing operations are subject to various environmental laws and regulations, and we are required to obtain and maintain necessary consents, approvals, and permits under these laws to operate our manufacturing facility. There have been no past instances of lapses, any failure to obtain or renew these environmental consents, or delays in the approval process, could disrupt our ability to continue operations or result in penalties, fines, or other legal consequences. Changes in environmental regulations or stricter enforcement of existing laws could also impose additional compliance costs or operational restrictions, potentially affecting our business, financial condition, and results of operations.

45. We are required to effectively utilize our manufacturing capacity to maximize operational efficiency, any underutilization may result into under manufacturing and resulting into adverse impact on business operations.

Our manufacturing facilities may face the risk of under-utilization of existing capacity or may be unable to effectively utilize expanded manufacturing capacities. Factors such as fluctuating demand, inefficiencies in production planning, or delays in ramping up new facilities could lead to suboptimal capacity utilization. Any under-utilization or failure to effectively leverage our manufacturing capacity could result in higher per-unit costs, lower profitability, and reduced operational efficiency, which may adversely impact our business, financial condition, and results of operations. For further details, please refer "Capacity Utilization" under "Our Business" Chapter on page 117 of this Prospectus.

46. We are required to address contingent liabilities not provided for.

We have contingent liabilities that are provided in our financial statements, which could arise from pending litigation, regulatory actions, or other potential obligations. While we believe that such liabilities, will not materially affect our financial condition, there can be no assurance that these contingent liabilities will not crystallize or exceed our estimates. Any such liabilities, if realized, could have a material adverse effect on our business, financial condition, and results of operations.

47. Our Company has in the past entered into related party transactions and may continue to do so in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operations.

Our Company has entered into related party transactions with our Promoter, Relatives, and Promoter Group Entities amounting to ₹ 227.78, ₹ 334.32, ₹ 1343.17 Lakhs and ₹ 860.79 Lakhs in November 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023 respectively which is 3.77%, 3.33 %, 12.82 % and 10.93% respectively. While our Company believes that all such transactions have been conducted on an arm's length basis and we confirm that the related party transactions entered into by the company are in compliance with the relevant provisions of Companies Act and other applicable laws and are accounted as per AS 18, however there can be no assurance that we could not have achieved more favorable terms had such transactions not been entered into with related parties. Furthermore, it is likely that we may enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operations.

For further information, relating to our related party transactions, please refer "***Restated Financial Information***" beginning on pages 207 respectively of this Prospectus.

48. Inadvertently infringe upon the intellectual property rights of others.

In the course of our operations, we may inadvertently infringe upon the intellectual property rights of third parties, including patents, trademarks, copyrights, or trade secrets. There has been no past instance of such incidents. However, any such infringement, whether intentional or unintentional, could lead to legal disputes, claims for damages, or the need to cease using certain technologies or products. Defending against such claims could result in significant legal costs, potential settlements, or operational disruptions, which may adversely impact our business, financial condition, and results of operations.

49. Our agreements with banks and financial institutions for financial arrangements contain restrictive covenants for certain activities and if we are unable to get their approval, it might restrict our scope of activities and impede our growth plans.

We have entered into agreements for short term and long-term borrowings with certain banks and financial institutions. These agreements include restrictive covenants which mandate certain restrictions in terms of our business operations such as to obtain either the prior written consent of such financial institutions or require us to give prior written intimation to such lenders, prior to, amongst other circumstances, prepayment of the outstanding principal amounts of the facilities availed by our Company; any amalgamation, demerger, merger, acquisition, corporate or debt restructuring; undertake any project, implementation of any scheme of expansion/ diversification or capital expenditure; invest by way of share capital or lend/ advance funds or place deposits with any other entity; undertake any guarantee obligation on behalf of any other company; any change in the constitution or remuneration of management, control, ownership, shareholding pattern, capital structure, profit sharing and/or management of our Company; and declaration or payment of dividend. Our ability to execute business plans, including our ability to obtain additional financing on terms and conditions acceptable to us, could be negatively impacted as a result of these restrictions and limitations. In the event of breach of a restrictive covenant, our lender could deem us to be in default and seek early repayment of loans. An event of default would also affect our ability to raise new funds or renew borrowings as needed for the smooth conduct of our operations and pursue our growth initiatives. Although we have received consent from our lender for the Issue, we cannot assure you that we will be able to receive such consents in future for other growth plans. For further details, see 'Financial Indebtedness' beginning on page 210 of this Prospectus.

50. Bidding for a tender involves various management activities such as detailed project study and cost estimations. Inability to accurately estimate the cost may lead to a reduction in the expected rate of return and profitability estimates.

We enter into contracts primarily through a competitive bidding process. Our clients typically advertise for potential projects on government portal such as e-procurement /e-tenders/ defence procurement/GEM and in leading national newspapers. Prior to making a bid for a particular project and participating in a tender, we undertake various activities such as discussion on the scope of work, geographic location of the project, the degree of complexity in executing the project in such location, evaluation of eligibility, our current and projected workload, the likelihood of additional work, the project cost and profitability estimates and our competitive advantage relative to other likely bidders. For details, please see ***"Our Business"*** on page 98.

Accordingly, all of the bid amounts are based on estimates of the project cost, the fluctuation of which, either marginally or substantially, may impact our margins adversely. Further, we may incorrectly or inadequately estimate the project cost leading

to lower bid amount affecting our profitability in case the project is awarded to us. Excess estimation of costs may lead to higher bid amount by us owing to which, we may not be awarded a contract which may substantially impact our results of operations and financials. Although we strive to achieve success for every bid we make, there is no guarantee that we would be successful in winning all the projects that we bid for. Further, as most of the projects involve long implementation periods (i.e., are spread over a longer period of time), cost escalation in our industry is a frequent issue although most of the agreements includes clauses relating to cost escalations. Therefore, any sudden fluctuations in costs or material availability or any other unanticipated costs will substantially impact the business operations, cash flows and financial condition.

51. ***Inherent risk for expanding our business internationally which may potentially impact our financial standing and operational performance.***

Sustaining in the markets requires substantial investment, and we may encounter higher-than-anticipated costs during the establishment phase. Moreover, competition in these regions could be intense, adding another layer of complexity to our expansion efforts.

Operating internationally brings forth a myriad of challenges such as language barriers, cultural differences, and logistical hurdles in staffing and managing overseas operations. Additionally, navigating foreign legal systems poses inherent difficulties, particularly concerning contract enforcement and receivables collection. We must also contend with non-tariff barriers, trade restrictions, and compliance with diverse foreign regulations, which could impact our operational efficiency.

Furthermore, our reliance on third-party dealers and distributors in certain regions introduces a level of vulnerability, as their actions could potentially affect our brand reputation and business performance.

52. ***Being a listed company may strain our resources.***

As a listed company, we will be required to comply with various regulatory and reporting obligations under the applicable laws, including the Companies Act, 2013, SEBI regulations, and stock exchange listing requirements. These requirements include regular financial disclosures, corporate governance norms, and adherence to accounting standards, which may demand significant time, effort, and financial resources. The costs associated with compliance, audit requirements, and governance processes may strain our resources and divert management attention from our core operations, potentially impacting our operational efficiency and profitability.

53. ***We may not be successful in implementing our business strategies.***

The success of our business depends substantially on our ability to implement our business strategies effectively. Even though we have successfully executed our business strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward or that we can implement the same on time and within the estimated budget going forward or that we will be to meet the expectations of our targeted clients. Change in regulations applicable to us may also make it difficult to implement our business strategies. Failure to implement our business strategies would have a material adverse effect on our business and results of operations.

54. ***Excessive dependence on Punjab National Bank and ICICI Bank Limited in respect of loan facilities obtained by our company.***

Our company has been sanctioned credit facilities by Punjab National Bank and ICICI Bank Limited. The company is dependent on such facility for its term loan, working capital facility and other funding requirement and any default under such arrangement with such lender may create problem for operation of the company, which may affect the financial stability of the company. At the same time this may result into difficulty in arranging for funds for re-payment and may also adversely affect the financial position of the company.

55. ***We may require further equity issuance, which will lead to dilution of equity and may affect the market price of our Equity Shares or additional funds through incurring debt to satisfy our capital needs, which we may not be able to procure and any future equity offerings by us.***

Our growth is dependent on having a strong balance sheet to support our activities. In addition to the IPO Proceeds and our internally generated cash flow, we may need other sources of financing to meet our capital needs which may include entering into new debt facilities with lending institutions or raising additional equity in the capital markets. We may need to raise additional capital from time to time, dependent on business conditions. The factors that would require us to raise additional capital could be business growth beyond what the current balance sheet can sustain; additional capital requirements imposed due to changes in regulatory regime or significant depletion in our existing capital base due to unusual operating losses. Any fresh issue of shares or convertible securities would dilute existing holders, and such issuance may not be done at terms and conditions, which are favorable to the then existing shareholders of our Company. If our Company decides to raise additional funds through the incurrence of debt, our interest obligations will increase, and we may be subject to additional covenants, which could further limit our ability to access cash flows from our operations. Such financings could cause our debt-to-equity ratio to increase or require us to create charges or liens on our assets in Favor of lenders. We cannot assure you that we will be able to secure adequate financing in the future on acceptable terms, in time, or at all. Our failure to obtain sufficient financing could result in the delay or abandonment of our expansion plans. Our business and future results of operations may be affected if we are unable to implement our expansion strategy.

Any future issuance of Equity Shares by our Company may dilute shareholding of investors in our Company; and hence affect the trading price of our Company's Equity Shares and its ability to raise capital through an issue of its securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Company's Equity Shares. Additionally, the disposal, pledge or encumbrance of Equity Shares by any of our Company's major shareholders, or the

perception that such transactions may occur may affect the trading price of the Equity Shares. No assurance may be given that our Company will not issue Equity Shares or that such shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

56. Information relating to our production capacities and the historical capacity utilization of our production facilities included in this Prospectus is based on certain assumptions and has been subjected to rounding off, and future production and capacity utilization may vary.

Information relating to our production capacities and the historical capacity utilization of our production facilities included in this Prospectus is based on various assumptions and estimates of our management, including proposed operations, assumptions relating to availability and quality of raw materials and assumptions relating to operational efficiencies. Actual production levels and utilization rates may differ significantly from the estimated production capacities or historical estimated capacity utilization information of our facilities. Undue reliance should therefore not be placed on our production capacity or historical estimated capacity utilization information for our existing facilities included in this Prospectus. For further information, please refer the section titled "Our Business" on page 98 of this Prospectus.

57. The activities carried out at our manufacturing facilities can cause injury to people or property in certain circumstances.

In spite there being no previous instances of such occurrences in past, the activities carried out at our manufacturing facilities may be potentially dangerous to our employees. While we employ safety procedures in the operation of our manufacturing facilities and maintain what we believe to be adequate insurance, there is a risk that an accident may occur at any of our manufacturing facilities. An accident may result in personal injury to our employees, or the deployed at our facilities, destruction of property or equipment, manufacturing or delivery delays, environmental damage, or may lead to suspension of our operations and/or imposition of liabilities. Any such accident may result in litigation, the outcome of which is difficult to assess or quantify, and the cost to defend such litigation can be significant. As a result, the costs to defend any action or the potential liability resulting from any such accident or death or arising out of any other litigation, and any negative publicity associated therewith, may have a negative effect on our business, financial condition, results of operations, cash flows and prospects.

58. Fraud, theft, employee negligence or similar incidents may adversely affect our results of operations and financial condition.

In past there have been the incidents of fire and compound wall breakage due to which our operations were hindered. Also, Our operations may be subject to incidents of theft or damage to inventory. The business may also encounter some inventory loss on account of employee theft, vendor fraud and general administrative error. While we have not experienced any such instance in the past, there can be no assurance that we will not experience any fraud, theft, employee negligence, security lapse or similar incidents in the future, which could adversely affect our results of operations and financial condition. Though we have insurance, losses due to theft, fire, breakage or damage caused by other casualties, could adversely affect our results of operations and financial condition.

59. The deployment of funds raised through this Issue shall not be subject to any Monitoring Agency and shall be purely dependent on the discretion of the management of our Company.

Since the Issue is for an amount not exceeding ₹5,000 lakhs, in terms of SEBI ICDR Regulations, our Company is not required to appoint an Independent Monitoring Agency for overseeing the deployment of utilization of funds raised through this Issue. The deployment of these funds raised through this Issue, is hence, at the discretion of the management and the Board of Directors of our Company and will not be subject to monitoring by any independent agency. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our finances.

60. Certain data mentioned in this Prospectus has not been independently verified.

We have not independently verified data from industry publications contained herein and although we believe these sources to be reliable, we cannot assure that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regard to other countries. Therefore, discussions of matters relating to India and its economy are subject to the limitation that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete or unreliable.

61. Any Penalty or demand raised by statutory authorities in future will affect our financial position of the Company.

We are currently engaged in the manufacturing, designing, trading and installation of services of Gabions, Rockfall Protection Nettings, and Geosynthetic Materials which attracts tax liability such as Goods and Service tax and Income tax as per the applicable provisions of Law. There have been no past instances on non-compliances. Any demand or penalty raised by the concerned authority in future for any previous years or current year will affect the financial position of the Company.

62. There is no guarantee that the Equity Shares issued pursuant to the Issue will be listed on the BSE SME Platform in a timely manner or at all.

In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Issue will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the BSE SME platform. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

63. The Equity Shares have never been publicly traded, and, after the Issue, the Equity Shares may experience price and volume fluctuations, and an active trading market for the Equity Shares may not develop. Further, the price of the Equity Shares may be volatile, and you may be unable to resell the Equity Shares at or above the Issue Price, or at all.

Prior to the Issue, there has been no public market for the Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Issue. Listing and quotation do not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. The Issue Price of the Equity Shares is proposed to be determined in accordance with the SEBI ICDR Regulations and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors.

EXTERNAL RISK FACTORS

64. Natural calamities and force majeure events may have an adverse impact on our business.

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war in India or globally may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

65. The Indian tax regime is currently undergoing substantial changes which could adversely affect our business.

The goods and service tax ("GST") that has been implemented with effect from July 1, 2017 combines taxes and levies by the GoI and state governments into a unified rate structure, and replaces indirect taxes on goods and services such as central excise duty, service tax, customs duty, central sales tax, state VAT, cess and surcharge and excise that were being collected by the GoI and state governments.

As regards the General Anti-Avoidance Rules ("GAAR"), The general anti avoidance rules ("GAAR") provisions have been made effective from assessment year 2018-19 onwards, i.e.; financial Year 2017-18. The GAAR provisions intend to declare an arrangement as an "impermissible avoidance arrangement", if the main purpose or one of the main purposes of such arrangement is to obtain a tax benefit, and satisfies at least one of the following tests (i) creates rights, or obligations, which are not ordinarily created between persons dealing at arm's length; (ii) results, directly or indirectly, in misuse, or abuse, of the provisions of the Income Tax Act, 1961; (iii) lacks commercial substance or is deemed to lack commercial substance, in whole or in part; or (iv) is entered into, or carried out, by means, or in a manner, that is not ordinarily engaged for bona fide purposes. If GAAR provisions are invoked, the tax authorities will have wider powers, including denial of tax benefit or a benefit under a tax treaty. In the absence of any precedents on the subject, the application of these provisions is uncertain. As the taxation regime in India is undergoing a significant overhaul, its consequent effects on economy cannot be determined at present and there can be no assurance that such effects would not adversely affect our business, future financial performance and the trading price of the Equity Shares.

66. A slowdown in economic growth in India may adversely affect our business, financial condition, cash flows, results of operations and prospects.

The performance and growth of our business are necessarily dependent on economic conditions prevalent in India, which may be materially and adversely affected by Centre or state political instability or regional conflicts, a general rise in interest rates, inflation, and economic slowdown elsewhere in the world or otherwise. Further, there have been periods of slowdown in the economic growth of India. India's economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports (oil and oil products), global economic uncertainty and liquidity crisis, volatility in exchange currency rates and annual rainfall which affects agricultural production. Any continued or future slowdown in the Indian economy or a further increase in inflation could have a material adverse effect on the price of our raw materials and demand for our products and, as a result, on our business and financial results. The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the U.S. and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability, including the financial crisis and fluctuations in the stock markets in China and further deterioration of credit conditions in the U.S. or European markets, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business and financial results.

67. Our business and results of operations could be adversely affected by disruptions in global economic and geo political conditions.

As substantially all of our operations are dependent on our customers who have their head offices or parent companies situated outside India, our financial performance and growth are necessarily dependent on economic conditions prevalent globally. The global economy may be materially and adversely affected by political instability or regional conflicts; a general rise in interest rates; inflation; exchange rate fluctuations; changes in tax, trade, and monetary policies; occurrence of natural or manmade

disasters; downgrade in debt rating; and adverse economic conditions occurring elsewhere in the world, such as a slowdown in economic growth in China, the repercussions of the United Kingdom exit from the European Union and other matters. While the Indian economy has grown significantly in recent years, it has experienced economic slowdowns in the past due to global economic and geo political conditions. The Indian economy in particular could be adversely impacted by inflationary pressures, currency depreciation, the poor performance of its large agricultural and manufacturing sectors, trade deficits, recent initiatives by the Indian government and other factors. Unfavourable changes in the above factors or in other business and economic conditions affecting our customers could result in a corresponding decline in our business.

68. Our performance is linked to the stability of policies and the political situation in India.

The Government of India has traditionally exercised, and continues to exercise, a significant influence over many aspects of the economy. Our business, and the market price and liquidity of our Equity Shares, may be affected by interest rates, changes in government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. Any political instability in India may adversely affect the Indian securities markets in general, which could also adversely affect the trading price of our Equity Shares. Any political instability could delay the reform of the Indian economy and could have a material adverse effect on the market for our Equity Shares. There can be no assurance to the investors that these liberalization policies will continue under the newly elected government. Protests against privatization could slow down the pace of liberalization and deregulation. The rate of economic liberalization could change, and specific laws and policies affecting companies in the industrial equipment manufacturing sectors, foreign investment, currency exchange rates and other matters affecting investment in our securities could change as well. A significant change in India's economic liberalization and deregulation policies could disrupt business and economic conditions in India and thereby affect our business.

69. If certain labour laws become applicable to us, our profitability may be adversely affected.

India has stringent labour legislations that protect the interests of workers, including legislation that sets forth detailed procedures for dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. Any change or modification in the existing labour laws may affect our flexibility in formulating labour related policies.

70. Government regulation of foreign ownership of Indian securities may have an adverse effect on the price of the Equity Shares.

Foreign ownership of Indian securities is subject to government regulation. Under foreign exchange regulations currently in affect in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the rupees proceeds from the sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the Income Tax authorities. There can be no assurance that any approval required from the RBI or any other government agency can be obtained.

71. A third party could be prevented from acquiring control of us because of the anti-takeover provisions under Indian law.

There are provisions in Indian law that may discourage a third party from attempting to take control over us, even if a change in control would result in the purchase of your Equity Shares at a premium to the market price or would otherwise be beneficial to you. Under the Takeover Regulations an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. These provisions may discourage or prevent certain types of transactions involving an actual or threatened change in control of us.

72. Our ability to raise foreign capital may be constrained by Indian law.

As an Indian company, we are subject to exchange controls that regulate borrowing in foreign currencies. Regulatory restrictions may limit our financing sources for our projects under development and hence could constrain our ability to obtain financings on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that an adverse effect on our ability to raise foreign capital, which in turn may affect our business, prospects, financial condition and results of operation.

73. Holders of Equity Shares may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby suffer future dilution of their ownership position.

A public limited company incorporated in India must issue its equity shareholders pre-emptive rights to subscribe to a proportionate number of equities shares to maintain their existing ownership, prior to issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by a three-fourths majority of the equity shareholders voting on such resolution.

If you are a foreign investor and the law of the foreign jurisdiction that you are in does not permit the exercise of such pre-emptive rights without our filing an offering document or registration statement with the applicable authority in such foreign jurisdiction, you will be unable to exercise such pre-emptive rights, unless we make such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for your benefit. The value such custodian receives on the sale of any such securities and the related transaction costs cannot be predicted. To the extent that you are unable to exercise pre-emptive rights granted in respect of our Equity Shares, your proportional interests in our Company would be diluted.

74. Any downgrading of India's debt rating by an independent agency may harm our ability to raise financing.

Any adverse revisions to India's credit ratings international debt by international rating agencies may adversely affect our ability to raise additional overseas financing and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our ability to fund our growth on favourable terms or at all, and consequently adversely affect our business and financial performance and the price of our Equity Shares.

75. We are subject to risks arising from interest rate fluctuations, which could adversely impact our business, financial condition and operating results.

Changes in interest rates could significantly affect our financial condition and results of operations. If the interest rates for future borrowings increase significantly, our cost of servicing such debt will increase. This may negatively impact our results of operations, planned capital expenditures and cash flows.

76. Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.

Under the foreign exchange regulations currently in force in India, transfer of shares between non- residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

BOOK BUILDING PROCESS

Book Building, with reference to the Issue, refers to the process of collection of Bids on the basis of the Prospectus within the Price Band. The Price Band shall be determined by our Company in consultation with the Book Running Lead Manager in accordance with the Book Building Process and advertised in all editions of the English national newspaper and all editions of Hindi national newspaper at least two working days prior to the Bid/Issue Opening date. The Issue Price shall be determined by our Company in consultation with the Book Running Lead Manager in accordance with the Book Building Process after the Bid/Issue Closing Date.

Principal parties involved in the Book Building Process are-

- Our Company;
- The Book Running Lead Manager, in this case being GYR Capital Advisors Private Limited;
- The Syndicate Member(s) who are intermediaries registered with SEBI / registered as brokers with BSE Limited and eligible to act as Underwriters. The Syndicate Member(s) was appointed by the Book Running Lead Manager;
- The Registrar to the Issue;
- The Escrow Collection Banks/ Bankers to the Issue and
- The Designated Intermediaries and Sponsor bank

The SEBI ICDR Regulations have permitted the Issue of securities to the public through the Book Building Process, wherein allocation to the public shall be made as per Regulation 253 of the SEBI ICDR Regulations.

The Issue is being made through the Book Building Process wherein 50% of the Net Issue shall be available for allocation on a proportionate basis to QIBs, provided that our Company may in consultation with the BRLM allocate upto 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI (ICDR) Regulations (the "Anchor Investor Portion"), out of which one third shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds

at or above the Anchor Investor Issue Price. 5% of the QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the QIB Portion shall be available for allocation on a proportionate basis to all QIB Bidders, including Mutual Funds, subject to valid Bids being received at or above the Issue Price.

Further, not less than 15% of the Net Issue shall be available for allocation on a proportionate basis to Non-Institutional Bidders and not less than 35 % of the Net Issue shall be available for allocation to Individual Investors who applies for minimum application size, in accordance with the SEBI Regulations, subject to valid Bids being received at or above the Issue Price.

In an issue made through book building process, the allocation in the non-institutional investors' category shall be as follows:

(a) one third of the portion available to non-institutional investors shall be reserved for applicants with application size of more than two lots and up to such lots equivalent to not more than ₹10 lakhs;

(b) two third of the portion available to non-institutional investors shall be reserved for applicants with application size of more than ₹10 lakhs:

Provided that the unsubscribed portion in either of the sub-categories specified in clauses (a) or (b), may be allocated to applicants in the other sub-category of non-institutional investors."

All potential Bidders may participate in the Issue through an ASBA process by providing details of their respective bank account which were blocked by the SCSBs. All Bidders are mandatorily required to utilize the ASBA process to participate in the Issue. Under-subscription if any, in any category, except in the QIB Category, would be allowed to be met with spill over from any other category or a combination of categories at the discretion of our Company in consultation with the BRLM and the Designated Stock Exchange.

All Bidders, other than Anchor Investors are mandatorily required to use the ASBA process by providing the details of their respective ASBA Account in which the corresponding Bid Amount was blocked by the SCSBs or, in the case of UPI Bidders, by using the UPI Mechanism. Anchor Investors are not permitted to participate in the issue through the ASBA process.

In accordance with the SEBI ICDR Regulations, QIB and Non-Institutional Bidders are not allowed to withdraw or lower the size of their Bids (in terms of the quantity of the Equity Shares or the Bid Amount) at any stage. Anchor Investors are not allowed to revise and withdraw their Bids after the Anchor Investor Bidding Date. Individual Investors who applies for minimum application size could revise their Bid(s) during the Bid/Offer Period and withdraw their Bid(s) until Bid/Offer Closing Date.

Subject to valid Bids being received at or above the Issue Price, allocation to all categories in the Net Issue, shall be made on a proportionate basis, except for Individual Investors Portion where allotment to each Individual Bidders shall not be less than the minimum bid lot, subject to availability of Equity Shares in Individual Investors Portion, and the remaining available Equity Shares, if any, shall be allotted on a proportionate basis. Under – subscription, if any, in any category, would be allowed to be met with spill – over from any other category or a combination of categories at the discretion of our Company in consultation with the Book Running Lead Manager and the Stock Exchange. However, under – subscription, if any, in the QIB Portion will not be allowed to be met with spill over from other categories or a combination of categories.

In terms of SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 and the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, all the investors applying in a public Issue shall use only Application Supported by Blocked Amount (ASBA) process for application providing details of the bank account which was blocked by the Self Certified Syndicate Banks (SCSBs) for the same. Further, pursuant to SEBI Circular No. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 01, 2018, Individual Investors who applies for minimum application size applying in public Issue may use either Application Supported by Blocked Amount (ASBA) facility for making application or also can use UPI as a payment mechanism with Application Supported by Blocked Amount for making application. For details in this regards, specific attention is invited to the chapter titled "*issue Procedure*" beginning on page 275 of the Prospectus.

The process of Book building under the SEBI ICDR Regulations is subject to change from time to time and the investors are advised to make their own judgment about investment through this process prior to making a Bid or application in the Issue.

For further details on the method and procedure for Bidding, please see section entitled "*Issue Procedure*" on page 275 of this Prospectus.

Illustration of the Book Building and Price Discovery Process: Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Company in consultation

with the BRLM, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

Steps to be taken by the Bidders for Bidding:

- Check eligibility for making a Bid (see section titled "*Issue Procedure*" on page 275 of this Prospectus);
- Ensure that you have a demat account and the demat account details are correctly mentioned in the Bid cum Application Form;
- Ensure correctness of your PAN, DP ID and Client ID mentioned in the Bid cum Application Form. Based on these parameters, the Registrar to the Issue will obtain the Demographic Details of the Bidders from the Depositories.
- Except for Bids on behalf of the Central or State Government officials, residents of Sikkim and the officials appointed by the courts, who may be exempt from specifying their PAN for transacting in the securities market, for Bids of all values ensure that you have mentioned your PAN allotted under the Income Tax Act in the Bid cum Application Form. The exemption for Central or State Governments and officials appointed by the courts and for investors residing in Sikkim is subject to the Depositary Participant's verification of the veracity of such claims of the investors by collecting sufficient documentary evidence in support of their claims.
- Ensure that the Bid cum Application Form is duly completed as per instructions given in this Prospectus and in the Bid cum Application Form;

Bid/Issue Program:

Event	Indicative Dates
Anchor Portion issue Opened/Closed On	Monday, January 05, 2026
Bid/Issue Opened Date	Tuesday, January 06, 2026
Bid/Issue Closed Date	Thursday, January 08, 2026
Finalization of Basis of Allotment with the Designated Stock Exchange	On or before Friday, January 09, 2026

Credit of Equity Shares to Demat accounts of Allottees	On or before Monday, January 12, 2026
Commencement of trading of the Equity Shares on the Stock Exchange	On or before Tuesday, January 13, 2026

The above timetable is indicative and does not constitute any obligation on our Company or the Book Running Lead Manager. Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchange are taken within 3 Working Days of the Bid/Issue Closing Date, the timetable may change due to various factors, such as extension of the Bid/ Issue Period by our Company, revision of the Price Band or any delays in receiving the final listing and trading approval from the Stock Exchange. The Commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws.

Bid Cum Application Forms and any revisions to the same were accepted only between 10.00 a.m. to 5.00 p.m. (IST) during the Issue Period (except for the Bid/Issue Closing Date). On the Bid/ Issue Closing Date, the Bid Cum Application Forms were accepted only between 10.00 a.m. to 3.00 p.m. (IST) for Individual Bidders and non-Individual Bidders. The time for applying for Individual Investor Applicant on Bid/ Issue Closing Date maybe extended in consultation with the BRLM, RTA and BSE Limited taking into account the total number of applications received up to the closure of timings.

Due to the limitation of time available for uploading the Bid Cum Application Forms on the Bid/ Issue Closing Date, Bidders are advised to submit their applications one (1) day prior to the Bid/ Issue Closing Date and, in any case, not later than 3.00 p.m. (IST) on the Bid/ Issue Closing Date. Any time mentioned in this Prospectus is IST. Bidders are cautioned that, in the event a large number of Bid Cum Application Forms are received on the Bid/Issue Closing Date, as is typically experienced in public Issue, some Bid Cum Application Forms may not get uploaded due to the lack of sufficient time. Such Bid Cum Application Forms that cannot be uploaded will not be considered for allocation under this Issue. Applications were accepted only on Working Days, i.e., Monday to Friday (excluding any public holidays). Neither our Company nor the BRLM is liable for any failure in uploading the Bid Cum Application Forms due to faults in any software/hardware system or otherwise.

In accordance with SEBI ICDR Regulations, QIBs and Non-Institutional Applicants are not allowed to withdraw or lower the size of their application (in terms of the quantity of the Equity Shares or the Application amount) at any stage. Individual Investors Applicants can revise or withdraw their Bid Cum Application Forms prior to the Bid/ Issue Closing Date. Allocation to Individual Investors Applicants, in this Issue will be on a proportionate basis.

In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Bid Cum Application Form, for a particular Applicant, the details as per the file received from Stock Exchange may be taken as the final data for the purpose of Allotment. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or electronic Bid Cum Application Form, for a particular ASBA Applicant, the Registrar to the Issue shall ask the relevant SCSBs / RTAs / DPs / stock brokers, as the case may be, for the rectified data.

WITHDRAWAL OF THE ISSUE

Our Company in consultation with the BRLM, reserve the right not to proceed with the Issue at any time before the Bid/Issue Opening Date without assigning any reason thereof.

If our Company withdraw the Issue any time after the Issue Opening Date but before the allotment of Equity Shares, a public notice within 2 (two) working days of the Issue Closing Date, providing reasons for not proceeding with the Issue shall be issued by our Company. The notice of withdrawal will be issued in the same newspapers where the pre-Issue advertisements have appeared and the Stock Exchange will also be informed promptly. The BRLM, through the Registrar to the Issue, will instruct the SCSBs to unblock the ASBA Accounts within 1 (one) working Day from the day of receipt of such instruction.

If our Company withdraw the Issue after the Bid/Issue Closing Date and subsequently decides to proceed with an Issue of the Equity Shares, our Company will have to file a fresh Prospectus with the stock exchange where the Equity Shares may be proposed to be listed.

Notwithstanding the foregoing, the Issue is subject to obtaining (i) the final listing and trading approval of the Stock Exchange with respect to the Equity Shares Issued through the Prospectus, which our Company will apply for only after Allotment;

DETAILS OF THE MARKET MAKING ARRANGEMENT FOR THIS ISSUE

Our Company has entered into a Market Making Agreement dated December 18, 2025 with the following Market Maker for fulfilling the Market Making obligations under this Issue:

Name, address, telephone number and e-mail address of the Market Maker	Indicative Number of shares	Amount (₹ in lakhs)	% of the total Issue size
Giriraj Stock Broking Private Limited Address: Shantiniketan Building, 8 Camac Street, 15th Floor, Suite No. 1501, Kolkata-700017 **Tel No.:** 9547473969 **Email:**giriraj@girirajstock.com **Website:** www.girirajstock.com **Contact Person:** Mr. Kuntal Laha **SEBI Registration No:** INZ000212638	1,80,800	₹ 146.45	5.02%

Market Maker Registration No.: 6551			

In accordance with Regulation 261 of the SEBI ICDR Regulations, we have entered into an agreement with the Book Running Lead Manager and the Market Maker (duly registered with BSE Limited to fulfil the obligations of Market Making) dated December 18, 2025 to ensure compulsory Market Making for a minimum period of three years from the date of listing of equity shares offered in this Issuer.

Giriraj Stock Broking Private Limited, registered with SME Platform of BSE Limited will act as the Market Maker and has agreed to receive or deliver of the specified securities in the market making process for a period of three years from the date of listing of our Equity Shares or for a period as may be notified by any amendment to SEBI ICDR Regulations.

The Market Maker shall fulfil the applicable obligations and conditions as specified in the SEBI ICDR Regulations, as amended from time to time and the circulars issued by BSE Limited and SEBI in this matter from time to time.

Following is a summary of the key details pertaining to the Market Making Arrangement:

1. The Market Maker shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the Stock Exchange. Further, the Market Maker shall inform the Stock Exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker.
2. The minimum depth of the quote shall be ₹ 1,00,000. However, the Investors with holdings of value less than ₹ 1,00,000 shall be allowed to issue their holding to the Market Maker in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker.
3. Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker, for the quotes given by him.
4. After a period of three (3) months from the market making period, the market maker would be exempted to provide quote if the Shares of market maker in our Company reaches to 25% of Issue Size (Including 1,80,800 Equity Shares ought to be allotted under this Issue). Any Equity Shares allotted to Market Maker under this Issue over and above 1,80,800 Equity Shares would not be taken into consideration of computing the threshold of 25% of Issue Size. As soon as the Shares of market maker in our Company reduce to 24% of Issue Size, the market maker will resume providing 2-way quotes.
5. There shall be no exemption/threshold on downside. However, in the event the Market Maker exhausts his inventory through market making process, BSE Limited may intimate the same to SEBI after due verification.
6. There would not be more than five Market Maker for the Company's Equity Shares at any point of time and the Market Maker may compete with other Market Maker for better quotes to the investors.
7. On the first day of the listing, there was pre-opening session (call auction) and there after the trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction. In case equilibrium price is not discovered the price band in the normal trading session shall be based on Issue price.
8. The Marker Maker may also be present in the opening call auction, but there is no obligation on him to do so.
9. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily / fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while force-majeure will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.
10. The Market Maker shall have the right to terminate said arrangement by giving one month notice or on mutually acceptable terms to the Lead Managers, who shall then be responsible to appoint a replacement Market Maker.
11. In case of termination of the above mentioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Book Running Lead Manager to arrange for another Market Maker(s) in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of Regulation 261 of the SEBI (ICDR) Regulations. Further the Company and the Lead Manager reserve the right to appoint other Market Maker(s) either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed 5 (five) or as specified by the relevant laws and regulations applicable at that particular point of time.
12. **Risk containment measures and monitoring for Market Maker**: SME Platform of BSE Limited will have all margins which are applicable on the BSE Limited Main Board viz., Mark-to-Market, Value-At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. BSE Limited can impose any other margins as deemed necessary from time-to-time.
13. **Punitive Action in case of default by Market Maker**: SME Platform of BSE Limited will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and / or non-compliances. Penalties / fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties / fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker in case he is not present in the market (offering two way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership.
14. The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties / fines / suspension for any type of misconduct / manipulation / other irregularities by the Market Maker from time to time.

15. Price Band and Spreads: SEBI Circular bearing reference no: CIR/MRD/DP/ 02/2012 dated January 20, 2012, has laid down that for Issue size up to ₹ 250 crores, the applicable price bands for the first day shall be:

a. In case equilibrium price is discovered in the Call Auction, the price band in the normal trading session shall be 5% of the equilibrium price.

b. In case equilibrium price is not discovered in the Call Auction, the price band in the normal trading session shall be 5% of the Issue price.

16. Additionally, the securities of the Company will be placed in SPOS and would remain in Trade for Trade settlement for first 10 days from commencement of trading. The following spread will be applicable on the SME platform.

S. No.	Market Price Slab (in Rs.)	Proposed Spread (in % to sale price)
1.	Up to 50	9
2.	50 to 75	8
3.	75 to 100	6
4.	Above 100	5

All the above-mentioned conditions and systems regarding the Market Making Arrangement are subject to change based on changes or additional regulations and guidelines from SEBI and Stock Exchange from time to time.

17. Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side for market makers during market making process has been made applicable, based on the Issue size and as follows:

Issue Size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Issue size)	Re-Entry threshold for buy quote (including mandatory initial inventory of 5% of the Issue size)
Up to ₹20 Crore	25%	24%
₹20 Crore to ₹50 Crore	20%	19%
₹50 Crore to ₹80 Crore	15%	14%
Above ₹80 Crore	12%	11%

The Market Making arrangement, trading and other related aspects including all those specified above shall be subject to the applicable provisions of law and / or norms issued by SEBI / BSE Limited from time to time.

In terms of Regulation 243 of the SEBI (ICDR) Regulations, the Equity Shares held by persons other than the Promoters prior to the Issue may be transferred to any other person holding the Equity Shares which are locked-in as per Regulation 239 of the SEBI (ICDR) Regulations, subject to continuation of the lock-in in the hands of the transferees for the remaining period and compliance with the Takeover Code as applicable.

In terms of Regulation 243 of the SEBI (ICDR) Regulations, the Equity Shares held by our Promoters which are locked in as per the provisions of Regulation 238 of the SEBI (ICDR) Regulations, may be transferred to and amongst Promoters / members of the Promoter Group or to a new promoter or persons in control of our Company, subject to continuation of lock-in in the hands of transferees for the remaining period and compliance of Takeover Code, as applicable.

In terms of Regulation 242(a) of the SEBI (ICDR) Regulations, the locked-in Equity Shares held by our Promoters can be pledged

only with any scheduled commercial banks or public financial institutions or a systemically important non-banking finance company or a housing finance company as collateral security for loans granted by such banks or financial institutions, provided that such loans have been granted for the purpose of financing one or more of the objects of the Issue and pledge of the Equity Shares is a term of sanction of such loans.

In terms of Regulation 242(b) of the SEBI ICDR Regulations, the Equity Shares held by the Promoters which are locked-in for a period of one year from the date of allotment may be pledged only with scheduled commercial banks, public financial institutions, systemically important non-banking finance companies or housing finance companies as collateral security for loans granted by such entities, provided that such pledge of the Equity Shares is one of the terms of the sanction of such loans.

20) Our Company, our Promoters, our Directors and the Book Running Lead Manager have no existing buyback arrangements or any other similar arrangements for the purchase of Equity Shares being offered through the Issue.

21) The post-Issue paid up Equity Share Capital of our Company shall not exceed the authorised Equity Share Capital of our Company.

22) There have been no financing arrangements whereby our directors or any of their relatives have financed the purchase by any other person of securities of our Company during the six months immediately preceding the date of filing of this Prospectus.

23) No person connected with the Issue, including, but not limited to, our Company, the members of the Syndicate, or our Directors, shall offer any incentive, whether direct or indirect, in any manner, whether in cash or kind or services or otherwise to any Bidder for making a Bid, except for fees or commission for services rendered in relation to the Issue.

24) There neither have been and there will be no further issue of Equity Shares whether by way of issue of bonus shares, preferential allotment, rights issue or in any other manner during the period commencing from the date of filing of the Prospectus until the Equity Shares have been listed on the Stock Exchange or all application monies have been refunded, as the case may be.

25) Our Company has no outstanding warrants, options to be issued or rights to convert debentures, loans or other convertible instruments into Equity Shares as on the date of this Prospectus.

26) There shall be only one denomination of the Equity Shares, unless otherwise permitted by law. Our Company will comply with such disclosure and accounting norms as may be specified by SEBI from time to time.

27) Our Company shall ensure that any transactions in Equity Shares by our Promoters and the Promoter Group during the period between the date of filing the Prospectus and the date of closure of the Issue, shall be reported to the Stock Exchanges within 24 hours of the transaction.

28) All Equity Shares issued pursuant to the Issue shall be fully paid-up at the time of Allotment and there are no partly paid-up Equity Shares as on the date of this Prospectus.

29) As on the date of this Prospectus, the Book Running Lead Manager and their respective associates (as defined under the Securities and Exchange Board of India (Merchant Bankers) Regulations, 1992) do not hold any Equity Shares of our Company. The BRLM and their affiliates may engage in the transactions with and perform services for our Company in the ordinary course of business or may in the future engage in commercial banking and investment banking transactions with our Company for which they may in the future receive customary compensation.

30) Our Promoters and the members of our Promoter Group would not participate in the Issue.

31) Following are the details of Equity Shares of our Company held by our Directors, Key Management Personnel:

Sr. No.	Name of Director	Number of Equity Shares	% of the pre-Issue Equity Share Capital
1)	Mr. Madhusudan Sarda	56,04,390	56.17%
2)	Mrs. Urvashi Sarda	7,02,840	7.04%
3)	Ms. Priyanandini Sarda	18,68,130	18.73%

32) Our Company has not raised any bridge loans which are proposed to be repaid from the proceeds of the Issue.

33) Investors may note that in case of over-subscription, allotment will be on proportionate basis as detailed under "Basis of Allotment" in the chapter titled "*Issue Procedure*" beginning on Page No. 275 of this Prospectus. In case of over-subscription in all categories the allocation in the Issue shall be as per the requirements of Regulation 253 (1) of SEBI (ICDR) Regulations, as amended from time to time.

34) An investor cannot make an application for more than the number of Equity Shares offered in this Issue, subject to the maximum limit of investment prescribed under relevant laws applicable to each category of investor.

35) An over-subscription to the extent of 10% of the Issue can be retained for the purpose of rounding off to the nearest integer during finalizing the allotment, subject to minimum allotment, which is the minimum application size in this Issue. Consequently, the actual allotment may go up by a maximum of 10% of the Issue, as a result of which, the post-issue paid up capital after the Issue would also increase by the excess amount of allotment so made. In such an event, the Equity

Shares held by the Promoters and subject to lock- in shall be suitably increased; so as to ensure that 20% of the post Issue paid-up capital is locked in.

36) Under subscription, if any, in any of the categories, would be allowed to be met with spill-over from any of the other categories or a combination of categories at the discretion of our Company in consultation with the BRLM and Designated Stock Exchange. Such inter-se spill over, if any, would be effected in accordance with applicable laws, rules, regulations and guidelines

37) No payment, direct, indirect in the nature of discount, commission, and allowance, or otherwise shall be made either by us or by our Promoters to the persons who receive allotments, if any, in this Issue.

38) As on date of this Prospectus, there are no outstanding financial instruments or any other rights that would entitle the existing Promoters or shareholders or any other person any option to receive Equity Shares after the Issue.

OBJECTS OF THE ISSUE

Our Company proposes to utilize the funds which are being raised towards funding the following objects and achieve the benefits of listing on the SME Platform of BSE Limited.

The objects of the Issue are: -

1. Funding working capital requirements of our Company;
2. To meet Capex Requirement for purchasing plant and machinery and
3. To meet General Corporate Purposes.

Our Company believes that listing will enhance our Company's corporate image, brand name and create a public market for its Equity Shares in India. The main objects clause of our Memorandum enables our Company to undertake the activities for which funds are being raised in the Issue. The existing activities of our Company are within the objects clause of our Memorandum. The fund requirement and deployment are based on internal management estimates and has not been appraised by any bank or financial institution.

Fund Requirements: -

Our funding requirements are dependent on several factors which may not be in the control of our management, changes in our financial condition and current commercial conditions. Such factors may entail re-scheduling and / or revising the planned expenditure and funding requirement and increasing or decreasing the expenditure for a particular purpose from the planned expenditure.

We intend to utilize the proceeds of the Fresh Issue, in the manner set forth below:

Issue Proceeds & Net Proceeds

The details of the proceeds of the Issue are set out in the following table:

(₹ in lakhs)

Particulars	Amount
Gross Proceeds of the Issue	2,916.00

^ *The amount utilized for general corporate purposes shall not exceed 15% of the amount being raised by the issuer or 10 Crores whichever is lower.*

The requirements of the objects detailed above are intended to be funded from the proceeds of the Issue. Accordingly, we confirm that there is no requirement for us to make firm arrangements of finance through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised from the proposed Issue.

The fund requirement and deployment are based on internal management estimates and have not been appraised by any bank or financial institution. These are based on current conditions and are subject to change in light of changes in external circumstances or costs, other financial conditions, business or strategy, as discussed further below.

In case of variations in the actual utilization of funds allocated for the purposes set forth above, increased fund requirements for a particular purpose may be financed by surplus funds, if any, available in respect of the other purposes for which funds are being raised in this Issue. If surplus funds are unavailable, the required financing will be through our internal accruals and/or debt.

We may have to revise our fund requirements and deployment as a result of changes in commercial and other external factors, which may not be within the control of our management. This may entail rescheduling, revising or cancelling the fund requirements and increasing or decreasing the fund requirements for a particular purpose from its fund requirements mentioned below, at the discretion of our management. In case of any shortfall or cost overruns, we intend to meet our estimated expenditure from internal accruals and/or debt. In case of any such re-scheduling, it shall be made by compliance of the relevant provisions of the Companies Act, 2013.

MEANS OF FINANCE

Sr. No.	Particulars	Amount Required (Rupees in lakhs) (Excluding Taxes)	Amount to be utilized from IPO Proceeds
1.	Working Capital Requirements	2,211.00	2,211.00
2.	Capital Expenditure Requirements for purchasing of plant and machinery	105.67	105.67

4.	Public Issue Expenses	299.61	299.61
Total		**2,916.00**	**2,916.00**

The fund requirement and deployment are based on internal management estimates and has not been appraised by any bank or financial institution. These are based on current conditions and are subject to change in the light of changes in Internal / External circumstances or costs or other financial conditions and other factors. In case of any increase in the actual utilization of funds earmarked for the Objects, such additional funds for a particular activity will be met by way of means available to our Company, including from internal accruals. If the actual utilization towards any of the Objects is lower than the proposed deployment such balance will be used for future growth opportunities including funding existing objects, subject to regulatory approval required under applicable law. In case of delays in raising funds from the Issue, our Company may deploy certain amounts towards any of the above-mentioned Objects through a combination of Internal Accruals or Unsecured Loans (Bridge Financing) and in such case the Funds raised shall be utilized towards repayment of such Unsecured Loans or recouping of Internal Accruals. However, we confirm that no bridge financing has been availed as on date, which is subject to being repaid from the Issue Proceeds.

We further confirm that, no part proceeds of the Issue shall be utilized for repayment of any Part of unsecured loan outstanding as on date of Prospectus. As we operate in competitive environment, our Company may have to revise its business plan from time to time and consequently our fund requirements may also change. Our Company's historical expenditure may not be reflective of our future expenditure plans. Our Company may have to revise its estimated costs, fund allocation and fund requirements owing to various factors such as economic and business conditions, increased competition and other external factors which may not be within the control of our management. This may entail rescheduling or revising the planned expenditure and funding requirements, including the expenditure for a particular purpose at the discretion of the Company's management. For further details on the risks involved in our business plans and executing our business strategies, please refer section titled "Risk Factors" beginning on Page No. 26 of this Prospectus.

Proposed schedule of implementation and deployment of Net Proceeds

We propose to deploy the Net Proceeds towards the Objects in accordance with the estimated schedule of implementation and deployment of Issue as follows:

(in ₹ lakhs)

Sr. No.	*Particulars*	*Amount to be funded from Net Proceeds*	*Estimated Utilisation of Net Proceeds (F.Y. 2025-26)*	*Estimated Utilisation of Net Proceeds (F.Y. 2026-27)*

[(1)] The amount to be Utilization for general corporate purposes shall not exceed 15% of the amount being raised by the issuer or 10 crores whichever is lower.

The fund requirements, deployment of funds and the intended use of the Net Proceeds as described in this Prospectus are based on our current business plan, management estimates, prevailing market conditions and other commercial considerations. However, such fund requirements and deployment of funds have not been appraised by any external agency or any bank or financial institution or any other independent agency. We may have to revise our funding requirements and deployment on account of a variety of factors such as our financial and market condition, our business and growth strategies, competitive landscape, general factors affecting our results of operations, financial condition and access to capital and other external factors such as changes in the business environment or regulatory climate and interest or exchange rate fluctuations, which may not be within the control of our management. This may entail rescheduling the proposed utilization of the Net Proceeds and changing the allocation of funds from its planned allocation at the discretion of our management, subject to compliance with applicable law.

Our Company proposes to deploy the entire Net Proceeds towards the Objects as per the schedule provided above. In the event that the estimated utilization is not completed as per the aforementioned schedule, due to the reasons stated above, such funds shall be utilised in the next fiscal year, as may be determined by our Company, in accordance with applicable law. Depending upon such factors, we may have to reduce or extend the Utilization period for any of the stated Objects beyond the estimated time period, at

the discretion of our management, in accordance with applicable law. Further, such factors could also require us to advance the Utilization before the scheduled deployment as disclosed above towards any particular or all Objects. Subject to compliance with applicable laws.

DETAILS OF UTILIZATION OF ISSUE PROCEEDS

Our Company is growing and expects to achieve approximately Rs. 120 crore in terms of revenue for the financial year 2025-26. As of Period ended 30, December 2025, we have confirmed service work orders worth Rs. 172.47 crore, of which about Rs. 40.50 crore are planned to be completed by March 2026. We have already earned Rs. 19.98 crore from service work up to September, 2025 and expect an addition of approximately Rs. 45.00 crore in the remaining months, bringing total service revenue approximately up to Rs.64.98 crore. In addition, our supply of goods division has already achieved Rs. 25.12 crore in revenue up to September, 2025. We expect earnings of approximately Rs. 29.90 crore by year ended on 31st March, 2026, resulting in total supply of goods revenue of up to Rs. 55.02 crore. Overall, combining both services and supply of goods, the Company anticipates total revenue of approximately Rs.120.00 crore for FY 2025-26.

The rationale for such increase in Working capital requirement of the company can be substantiated with increased revenue projection, WCG as % of sales broadly remains stable, holding period remains majorly unchanged, Cash conversion cycle remains stable, Expansion in Operations and Strong Order Pipeline, execution of large value and long-duration projects.

Following is the table that specifies the Working Capital Requirement:

Particulars	Fiscal 2023 (Restated)	Fiscal 2024 (Restated)	Fiscal 2025 (Restated)	Fiscal 2026 (Estimated)	Fiscal 2027 (Estimated)
Total Working Capital (₹ in lakhs)	1,232.02	2,262.23	3,686.74	4,384.24	6,141.17
Working Capital Gap (₹ in lakhs)	N.A.	1,030.21	1,425.51	697.50	1,756.93
Trade Receivable as percentage of Sales (%)	16.14%	19.88%	25.32%	29.00%	27.26%
Working Capital as percentage of Sales (%)	15.62%	21.62%	36.84%	36.54%	40.94%
Cash Conversion Cycle (Days)	57	78	137	141	141

The Company's Working Capital requirement has increased from ₹1,232.02 lakh in Fiscal 2023 to ₹3,686.74 lakh in Fiscal 2025, and is projected to further increase to ₹4,384.24 lakh in Fiscal 2026 and ₹6,141.17 lakh in Fiscal 2027. This increase reflects the growth in operations and scale of business where advance stocking of raw materials and maintenance of finished inventory are necessary to ensure timely execution of customer orders.

Between Fiscal 2023 and Fiscal 2025, the Working Capital requirement had increased in line with rising business volumes, higher inventory levels, and an increase in trade receivables driven by scale of operations. Inventory levels increased from ₹734.15 lakh in Fiscal 2023 to ₹2,074.26 lakh in Fiscal 2025, while trade receivables increased from ₹1,273.16 lakh in Fiscal 2023 to ₹2,534.54 lakh in Fiscal 2025. Trade receivables as a percentage of sales stood at 25.32% in Fiscal 2025 and are projected to remain in the range of 27% to 29% in Fiscal 2026 and Fiscal 2027, reflecting higher sales volumes and longer project execution cycles. The projected increase in the Working Capital Gap by ₹697.50 lakh in Fiscal 2026 and by ₹1,756.93 lakh in Fiscal 2027 continues this trend and is aligned with the expected turnover growth from ₹10,008.48 lakh in Fiscal 2025 to ₹15,000 lakh in Fiscal 2027.

Despite the increase in absolute working capital, efficiency metrics remain stable. Working Capital as a percentage of sales stood at 36.84% in Fiscal 2025 and is projected at 36.54% in Fiscal 2026, with a moderate rise to 40.94% in Fiscal 2027. This movement remains proportionate to expected scale expansion and reflects operational requirements rather than inefficiency. Similarly, the Cash Conversion Cycle remains stable at 137 days in Fiscal 2025 and 141 days in Fiscal 2026 and Fiscal 2027, while holding periods for inventory, receivables, and payables remain largely unchanged, indicating efficient working capital management.

A portion of the IPO proceeds is proposed to be deployed towards funding working capital, which will support the Company's growth strategy, reduce reliance on external borrowings, improve liquidity, and enhance operational flexibility.

The table below sets forth the details of holding levels (in days) as of period ended November 30, 2025 and for the financial year ended March 31, 2025, 2024, 2023 on the basis of restated financial statements and the holding levels (in days) for the Fiscal 2026 and Fiscal 2027 for provisional and estimated basis:

Particulars	Holding levels

	Fiscal 2023 (Restated)	Fiscal 2024 (Restated)	Fiscal 2025 (Restated)	Period ended November 30, 2025 (Restated)	Fiscal 2026 (Estimated)	Fiscal 2027 (Estimated)
	(in Days)	(in Days)	(in Days)	(in Days)	(in Days)	(in Days)
Inventories	30	47	90	156	91	91
Trade Receivables	50	58	84	110	91	92
Trade Payables	23	27	38	56	42	42

Inventory Type	Period ended November 30, 2025	FY 2024-25	FY 2023-24	FY 2022-23
Raw Material	695.48	437.91	323.56	190.91
Work In Progress	28.23	27.36	28.72	45.27
Finished Goods	1,303.10	1,117.29	710.07	363.41
Stock-In Trade	873.00	635.56	229.14	153.29
Total	**2,899.81**	**2,218.12**	**1,291.49**	**752.88**

The table below sets forth the key justifications for holding levels:

S. No.	Particulars	Details
1.	Inventories	Inventory days increased from 30 in Fiscal 2023 to 47 in Fiscal 2024, mainly due to higher stock accumulation to support sales growth and ensure product availability. In Fiscal 2025, inventory days rose significantly to 90 and 156 days in November 30, 2025, reflecting a deliberate buildup of stock to meet expanded demand and manage longer lead times. For Fiscal 2026, inventory days are projected at 91, as the Company continues to carry elevated inventory levels to support its growing operations. A similar level is expected in Fiscal 2027, indicating a stable inventory strategy aimed at balancing product availability with operational efficiency.
2.	Trade receivables	The receivable holding period stood at 50 days in Fiscal 2023 and increased to 58 days in Fiscal 2024, in line with higher sales volumes. In Fiscal 2025, receivable days further stretched to 84 and 110 days in November 30, 2025, reflecting greater credit exposure from business expansion. For Fiscal 2026, receivable days are projected to rise to 91, as the Company continues to support revenue growth through extended credit terms. A similar level is expected in Fiscal 2027, indicating a stable collection cycle while maintaining customer relationships and ensuring consistent business growth.
3.	Trade payables	The payables cycle stood at 23 days in Fiscal 2023 and increased to 27 days in Fiscal 2024, reflecting higher purchase volumes. In Fiscal 2025, it further extended to 38 days and 56 days in November 30, 2025, providing greater support to liquidity and working capital. For Fiscal 2026, the payables cycle is projected to increase to 42 days as the Company continues to leverage supplier credit to manage its growing operations. A similar level is expected in Fiscal 2027, indicating a stable credit cycle while balancing supplier commitments and working capital efficiency.

**This Working Capital has been certified by Chartered Accountant M/s SVJ & Company dt. December 24, 2025.*

The table below sets forth the details of Trade Receivables as a % to revenue from operations for the financial years ending on March 31, 2023, 2024 and 2025 along with the projections for Financial year ending on 2026 and 2027:

Particulars	Fiscal 2023 (Restated)	Fiscal 2024 (Restated)	Fiscal 2025 (Restated)	Fiscal 2026 (Estimated)	Fiscal 2027 (Estimated)
Trade Receivables	1,273.16	2,080.83	2,534.54	3,480.32	4,088.40
Turnover	7,888.58	10,465.23	10,008.48	12,000.00	15,000.00
Trade Receivables as a % of T/O	16.14%	19.88%	25.32%	29.00%	27.26%

(in %)					

For Financial year ended 2023:
Receivable levels were at a moderate and efficient level, with collections occurring in a timely manner. Short billing cycles, balanced credit terms, and a healthy mix of quick-turnaround projects contributed to lower receivable days (50 days). This reflects strong financial discipline and prudent client management during the early stage of scaling operations.

For Financial year ended 2024:
Receivables increased slightly, in line with a conscious strategic choice to extend credit terms to select large enterprise clients for securing multi-year engagements. Revenue growth from the services segment contributed to higher receivable amounts, requiring more client-friendly credit terms. This phase was aimed at building strong relationships with enterprise accounts, creating a foundation for recurring revenue and long-term strategic contracts. Receivable days increased to 58 days.

For Financial year ended 2025:
The increase in receivable days (84 days) reflects a deliberate transformation in the Company's business model towards larger, long-duration contracts. Key factors include:

- **Enterprise & Large-Value Deals:** The company had signed multiple big contracts with the Government companies or institution like South Western Railway and some private sector clients like H.G. Infra, where customary credit cycles range between 70–90 days. These contracts significantly enhance revenue scale and profitability but extends the receivable period.
- **Milestone-Based Billing:** Billing is increasingly tied to project milestones, which naturally extends receivable days. While collections take longer, this approach secures higher-value contracts and provides visibility on future cash flows.

Projected Financials

For Financial year ended 2025 (29.00%):
Receivable days are projected to increase to 91 days, reflecting the Company's growing focus on long-term contracts and milestone-linked billing. Despite higher receivable levels, the Company maintains robust monitoring and proactive follow-up on collections to ensure timely cash inflows. This is expected to keep receivables within an optimal range while supporting sustained revenue growth.

FY 2026-27 (27.26%):
Receivable levels are projected to stabilize around the FY 2025-26 level. This reflects continued emphasis on milestone-based, high-value projects. The Company maintains strict follow-up on collections to optimize credit periods and ensure efficient cash flow management, while supporting long-term growth and larger deal execution.

2. Funding Capital Expenditure for purchasing of plant and machinery

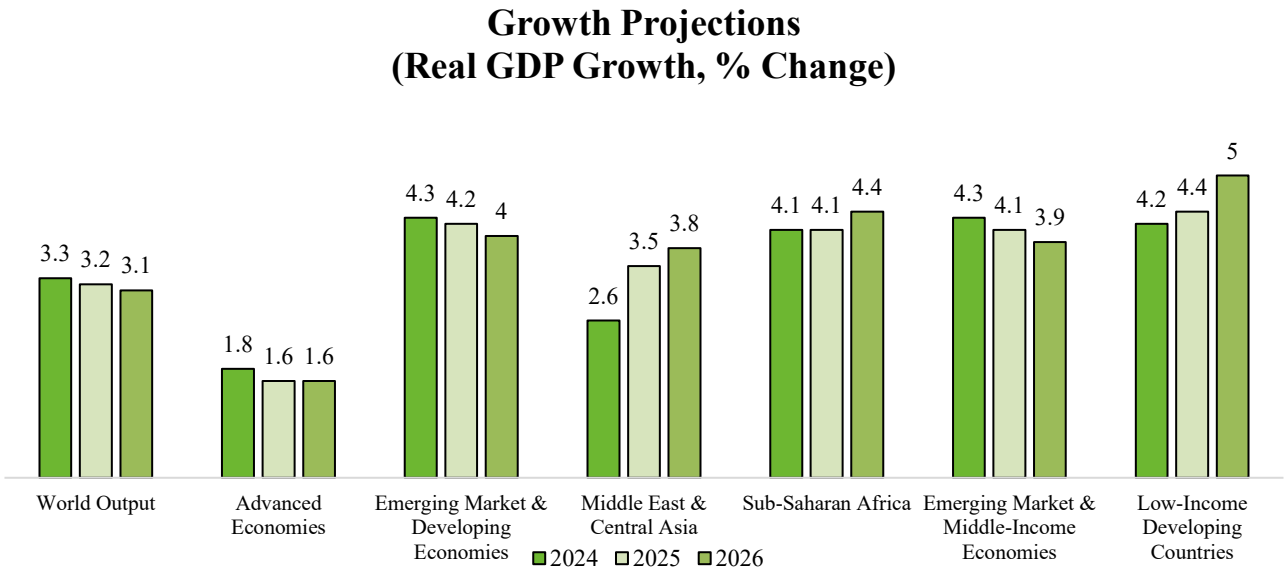
GLOBAL ECONOMY

Macroeconomic Environment

Global growth is projected to slow from 3.3 percent in 2024 to 3.2 percent in 2025 and to 3.1 percent in 2026. This is an improvement relative to the July WEO Update—but cumulatively 0.2 percentage point below forecasts made before the policy shifts in the October 2024 WEO, with the slowdown reflecting headwinds from uncertainty and protectionism, even though the tariff shock is smaller than originally announced. On an end-of-year basis, global growth is projected to slow down from 3.6 percent in 2024 to 2.6 percent in 2025. Advanced economies are forecast to grow about 1½ percent in 2025–26, with the United States slowing to 2.0 percent. Emerging market and developing economies are projected to moderate to just above 4.0 percent. Inflation is expected to decline to 4.2 percent globally in 2025 and to 3.7 percent in 2026, with notable variation: above-target inflation in the United States—with risks tilted to the upside— and subdued inflation in much of the rest of the world. World trade volume is forecast to grow at an average rate of 2.9 percent in 2025–26—boosted by front-loading in 2025 yet still much slower than the 3.5 percent growth rate in 2024—with persistent trade fragmentation limiting gains.



(Source: https://www.imf.org/en/Publications/WEO/Issues/2025/10/14/world-economic-outlook-october-2025)

The growth forecast is little changed from the July 2025 WEO Update, reflecting gradual adaptation to trade tensions, but is decisively below the pre-pandemic average of 3.7 percent. Looking at sequential growth from the second half of 2025 into 2026 gives a clearer picture by removing the distortion from front-loading in the first half of 2025: The global economy is projected to grow at an annualized average rate of 3.0 percent over these six quarters, a slowdown of 0.6 percentage point from the 3.6 percent average rate in 2024. The forecast for 2025–26 is also lower, by a cumulative 0.2 percentage point, than projected in the October 2024 WEO, before the major shifts in policy stances in key jurisdictions. Given the fluidity of trade policy assumptions during 2025, comparisons of current forecasts with those in the April 2025 WEO or in the July 2025 WEO Update may obscure the direction the world economy has travelled.

Inflation Forecast

Under the baseline, global headline inflation is projected to decline to 4.2 percent in 2025 and to 3.7 percent in 2026. This path is virtually the same as depicted in the previous projections, but there is variation across countries and regions.

Inflation forecasts are revised upward in quite a few economies, relative to the October 2024 WEO, which serves as a pre-policy-shift benchmark. Among advanced economies, the most notable cases are the United Kingdom and the United States. In the United Kingdom, headline inflation, which started picking up in 2024, is expected to continue rising in 2025 partly because of changes in regulated prices. This is projected to be temporary, with a loosening labor market and moderating wage growth eventually helping inflation return to target at the end of 2026.

In the United States, inflation is expected to pick up beginning in the second half of 2025, as the impact of tariffs is no longer absorbed within supply chains and instead passed on to consumers. Inflation then is expected to return to the Federal Reserve's 2 percent target during 2027. This forecast assumes only modest second-round effects, implying potential upside risks to US inflation in the baseline amid downside risks to employment.

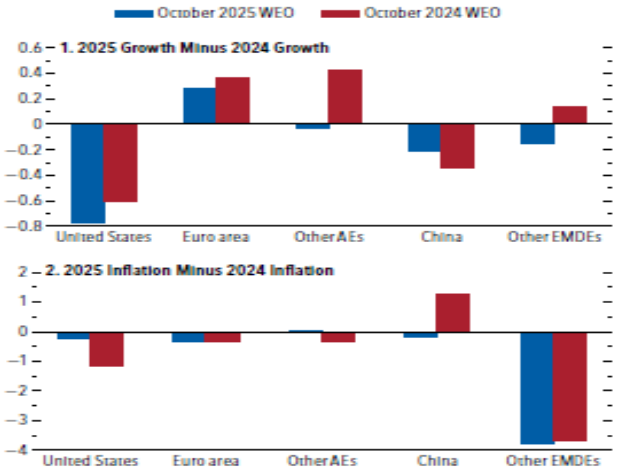
Among emerging market and developing economies, inflation forecasts for Brazil and Mexico are revised upward. For Brazil, the revision is more pronounced and in part reflects the stabilization of inflation expectations above target rates, reflecting credibility challenges associated with fiscal policy uncertainties last year, although relief from more recent currency appreciation is expected to arrive in late 2025 and in 2026. For Mexico, volatile categories such as food and more-persistent-than-expected services inflation contribute to the upward revision.

For several other economies, inflation forecasts are revised downward, compared with the October 2024 WEO. In much of emerging and developing Asia, that is the case. This is largely a reflection of lower-than-expected outturns, with food, energy, and administrative prices playing a significant role (for example, in China, India, and Thailand).

Taken together with the GDP growth forecasts, the picture varies across countries. US growth in 2025, forecast at 2.0 percent, is lower than the 2.2 percent projected in the October 2024 WEO. Inflation in 2025, forecast at 2.7 percent, is higher than the 1.9 percent projected in the October 2024 WEO. Relative to forecasts prior to the policy shifts, the US economy is expected to slow more sharply in 2025 than was projected a year ago. Meanwhile, inflation is expected to remain largely unchanged and elevated, compared with the notable decline projected in October 2024.

This combination of a sharper growth slowdown and a slower pace in disinflation in the United States contrasts with the less sharp growth slowdown and muted inflation in China. Elsewhere, in most cases, a pickup in growth is no longer expected or is projected to be much weaker, while inflation is still expected to decline at about the same pace as before. This is broadly in line with what would be anticipated from the introduction of higher US tariffs, with small deviations in the inflation outlook attributable to idiosyncratic offsetting factors.

Changes in GDP Growth and Inflation
(Percentage points)

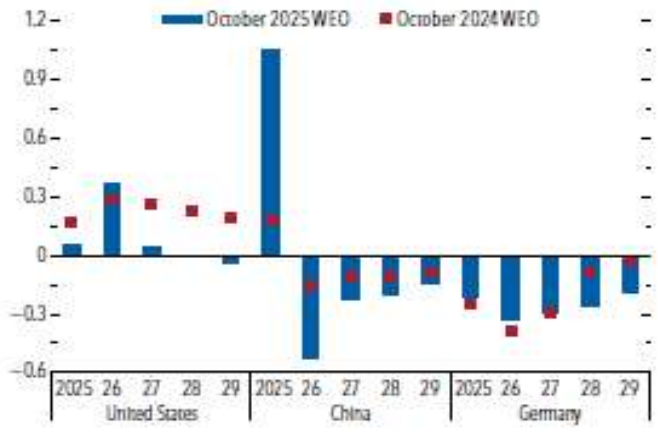


Source: IMF staff calculations.
Note: AEs = advanced economies; EMDEs = emerging market and developing economies; WEO = *World Economic Outlook*.

World trade is expected to decline modestly over the five-year forecast horizon. Compared with the April 2025 WEO, world trade volume is expected to grow faster in 2025 but more slowly in 2026. This reflects the front-loading patterns observed. Trade volume growth at an average rate of 2.9 percent in 2025–26, even with the temporary boost from front-loading in 2025, is lower than projected in the October 2024 WEO, which envisioned an average growth rate of 3.3 percent.

Global current account imbalances in 2025 are expected to exceed those in the October 2024 WEO and to narrow thereafter Among the three largest contributors to the overall balance (China, Germany, United States), preemptive trade ahead of prospective tariffs widens the US deficit and the surplus for China, before unwinding as pull-forward behavior dissipates.

Projected Change in Current Account Balance
(Percentage points)



Source: IMF staff calculations.
Note: Each data point shows difference from previous year of current account balance in percent of GDP series in respective WEOs. WEO = World Economic Outlook.

The narrowing of global imbalances works through three main channels. The first is trade policy shifts. In the United States, the rise in import costs and greater uncertainty dampen investment, softening import demand. At the same time, tariffs on intermediate inputs act as a tax on US manufacturers, raising production costs for exports of final products and US products that compete against imports—leaving the net effects on the current account ambiguous.

Further, even as higher tariff receipts are likely to lift public savings, decreasing private savings are likely to offset this increase. Overall, the impact on the current account of this channel is likely to be limited, consistent with both model-based and empirical analysis (2025 *External Sector Report*).

Second, exchange rate movements are an additional channel of external adjustment. Higher unilateral tariffs would normally be associated with a stronger currency for the tariffing country, helping with the absorption of the tariff shock. The recent depreciation of the US dollar, instead, enhances export price competitiveness and restrains import-intensive consumption possibly helping to narrow US external deficits.

A weaker dollar also tends to ease global financial conditions, providing some near-term global demand, but this is likely to be eroded by higher inflation in the United States relative to the rest of the world and the associated adjustment in the real effective exchange
rate. Last but not least, fiscal changes have accompanied trade developments. China and Germany have recently announced and expanded spending measures to boost domestic demand, which will lower net savings and reduce external surpluses. In the United States, the OBBBA is expected to widen the fiscal deficit over the medium term relative to projections in previous WEO reports, despite back-loaded spending cuts and sizable tariff receipts. This weighs on public saving and so tends to widen the current account deficit—or at least temper any narrowing from other channels.

Trade Reallocation in Response to Tariffs: Will This Time Be Different?

The shift in US trade policy in 2025 differs notably from the changes during 2018–19. For instance, whereas the previous round of tariff increases was directed primarily at a single trading partner—China—the current period is characterized by broader-based tariff hikes affecting a wider range of countries, alongside a marked rise in trade policy uncertainty. This raises an important question: Has the distinct nature of the 2025 tariff shock led to different patterns of adjustment in bilateral trade between the United States and China, both with each other and with third-party countries, relative to the aftermath of 2018–19 tariff hikes? This box sheds some preliminary light on this question based on bilateral monthly trade flow data.

There is ample evidence of changes in international trade, foreign direct investment, and global value chains in response to the tariff increases of 2018–19 and the rise in trade tensions (see, for example, Fajgelbaum and others 2024; Freund and others 2024; Gopinath and others 2025; Graziano and others 2024). The bilateral US-China decoupling was accompanied by increased trade and investment ties with third countries. China's exports to the United States fell by about 6 percent within two years. This was accompanied by a steady increase in exports to China's substitutes (based on the degree of substitutability between that country's products and Chinese varieties) and less of an increase in China's complements.

Preliminary trade data for 2025 (marked in dashed lines) reveal early signs of further decoupling between the United States and China, both with each other and with third-party countries, relative to the aftermath of 2018–19 tariff hikes? This box sheds some preliminary light on this question based on bilateral monthly trade flow data.

Looking at the trade patterns through a geographic lens rather than through structural similarities between different countries reveals

some of the underlying differences between the two tariff episodes so far. In 2018–19, Asian and USMCA (U.S.-Mexico-Canada Agreement) countries—many of which fall into the China's substitutes category—absorbed China's falling exports to the United States. Meanwhile, falling US exports to China were accompanied by increases in other destinations, such as the European Union, together with stable exports to Canada and Mexico.

Early signals from the latest trade data point to potentially faster trade shifts this time. For example, Chinese exports to third-country markets—especially in Asia and Europe—increased more in February–April 2025 than in February–April 2018. At the same time, Canada and Mexico have accounted for a small share of China's change in exports since February 2025 and have made a negative contribution to US export growth, in contrast to 2018–19. High tariffs on non-USMCA-compliant products and on steel and aluminum content on a value-added basis, combined with further tightening and enforcement of rules of origin, may be partially responsible, along with other factors.

It is too soon to assess the magnitude of a longer-term reallocation—which in 2018–19 picked up speed only after about 12 months. The extent of shifts may be different this time because threats of higher tariffs on exports to the United States have affected most countries since January 2025—unlike the China-specific changes to the US trade policy in the 2018 episode—and overall policy uncertainty is high, complicating firms' reallocation decisions. In addition, further actions are being taken to reduce reallocation, including tighter rules of origin, customs enforcement of transshipment, duties applied on value-added content, and extended screening procedures for foreign direct investment.

Such shifts observed in gross trade data can also be induced by other factors, many of which are unrelated to trade policy, including broader changes in the countries' competitiveness. At the aggregate level, the observed increase in Chinese exports to third countries is also not necessarily for the same products whose exports to the United States dropped. In addition, movements in exchange rates and relative prices may affect the degree of reallocation in real terms. This preliminary analysis is, hence, illustrative, and will require further analysis to isolate the role of different factors once sufficient data become available. The pace and geography of reallocation will also depend on frictions, including policy choices by third countries.

Model simulations of long-term reallocation (Rotunno and Ruta 2025) suggest that, once uncertainty is resolved, China's exports to non-US markets could increase by 4–6 percent in the baseline, with the extent and direction of diversion depending crucially on the distribution of tariffs and third-country policies.

While similar caveats apply to trends observed at the sectoral level, early evidence suggests that trade flows are already being redirected to Asia in several important sectors targeted by tariff increases, including automobiles and parts, and to Europe in steel

and aluminium. In addition, there is some evidence that changes in third countries' imports from China in a given sector, including to Asia, are correlated with the change in their exports in the same sector to other regions, including the United States and Europe.

This may suggest that trade diversion to other markets is larger than what is captured in gross trade data and could be consistent with either trade reallocation, trade rerouting, or a combination of the two.

INDIA MACROECONOMIC

OVERVIEW

India's GDP was at US$ 3,732b In CY23 and is estimated to reach US$ 5,944b in CY28, growing at a CAGR of 9.8% from CY23 To CY28

India is the fifth largest economy in CY23 and is expected to be the third largest by CY30. India's GDP (at current prices) grew from US$ 2,651B to US$ 3,732B between CY17 and CY23. The increase can be attributed to the robust reforms like GST, corporate tax revision, revised FDI limit, and growth across sectors. The real GDP growth is expected to reach 5.9% Y-o-Y growth in CY23, and eventually stabilize and maintain a growth rate of 6% till CY28.

Over the next 10-15 years, India is anticipated to be among the top economies of the world on the back of rising demand, robust growth in various manufacturing and infrastructure sectors, and an increase in private consumption. India's manufacturing sector is on a robust growth trajectory, with output surging to its highest levels in nearly three years, with the Manufacturing Purchasing Managers' Index reaching an impressive 58.6 in August CY23. Key economic indicators such as steel production, cement production, and vehicle sales continue to show strong growth, indicating positive momentum in the manufacturing sector.

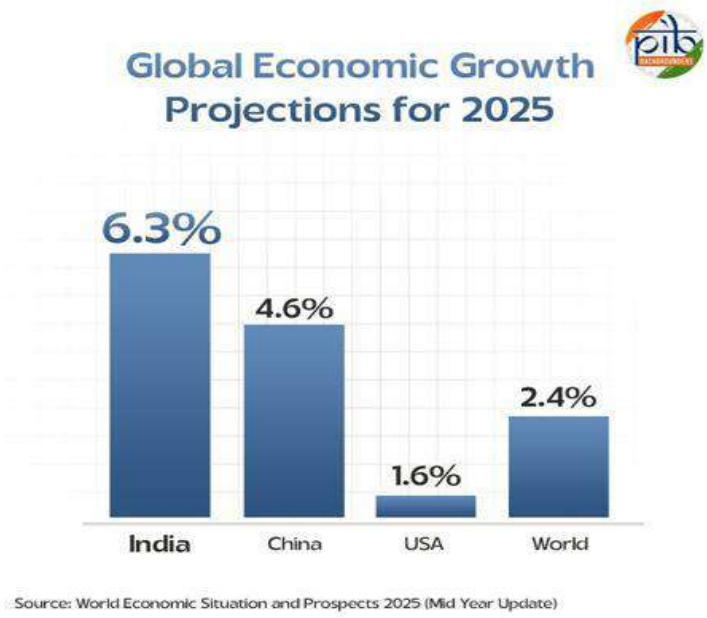
Robust GDP Growth

India's growth story continues to draw global attention, backed by strong fundamentals and consistent performance. Real GDP, which measures the economy's output after removing the effects of inflation, expanded by 6.5 per cent in 2024–25. The Reserve Bank of India expects this pace to continue into 2025–26. Other projections echo this optimism, with the United Nations forecasting growth of 6.3 per cent this year and 6.4 per cent next year, while the Confederation of Indian Industry places its estimate slightly higher at 6.40 to 6.70 per cent.



This sustained performance is being driven by strong domestic demand. Rural consumption has picked up, city spending is rising, and private investment is on the upswing. Businesses are expanding capacity, with many operating near their maximum output levels. At the same time, public investment remains high, especially in infrastructure, while stable borrowing conditions are helping firms and consumers make forward-looking decisions.

Global conditions, by contrast, remain fragile. The United Nations has described the world economy as being in a "precarious moment," citing trade tensions, policy uncertainties, and declining cross-border investments. Amid this, India continues to stand out as a bright spot, with global institutions and industry bodies expressing confidence in its growth prospects.

Over the past decade, India's economic size has expanded sharply. In 2014–15, the GDP at current prices was ₹106.57 lakh crore. This figure is expected to rise to ₹331.03 lakh crore in 2024–25, nearly tripling in ten years. In the past year alone, nominal GDP increased by 9.9 per cent, while real GDP rose by 6.5 per cent, underscoring the economy's continued resilience and vigour.

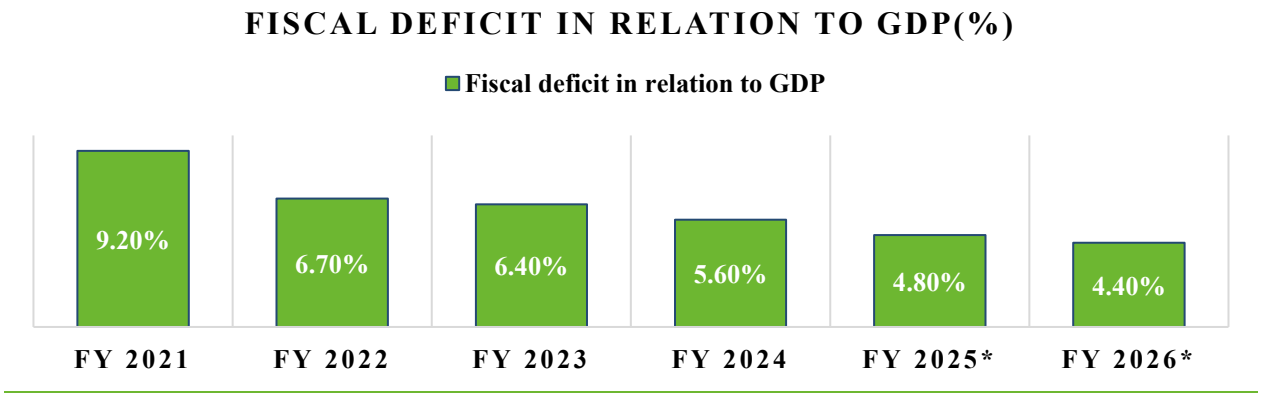
India's economy in 2025 is poised for substantial growth, supported by strategic policy reforms, strong domestic demand, and increasing foreign investment. The Union Budget 2025-26, presented by Finance Minister Nirmala Sitharaman, introduced significant reforms, including a new Income Tax Bill aimed at simplifying compliance and providing relief to middle-class taxpayers. Additionally, the budget focused on boosting manufacturing, consumption, and the startup ecosystem, with enhanced credit access for MSMEs and incentives for innovation.

Economic growth projections remain optimistic, with the International Monetary Fund (IMF) forecasting a 6.5% GDP growth rate for both 2025 and 2026, while the United Nations expects a 6.6% expansion. Deloitte estimates growth between 6.5% and 6.8%, driven by rising domestic demand and increased government spending. Meanwhile, India's retail inflation eased to a five-month low of 4.31% in January 2025, primarily due to declining food prices, potentially allowing the Reserve Bank of India (RBI) to implement rate cuts to further stimulate the economy.

Corporate performance in the December quarter showed mixed results. A sample of 3,400 companies reported an aggregate revenue increase of 6.9%, while net profit grew by 12.6% year-on-year. Sectors such as banking, finance, IT, healthcare, and real estate witnessed positive earnings growth, whereas the automobile, cement, consumer goods, and oil and gas industries experienced declines.

India is also taking significant steps in energy and international trade. The government is pushing for nuclear energy expansion by amending liability laws to attract private and foreign investment, with long-term plans to scale up nuclear power production. On the global stage, Prime Minister Narendra Modi recently met with U.S. President Donald Trump to discuss strengthening military and trade ties, including potential defense deals and efforts to double bilateral trade to $500 billion by 2030.



(Source: India: gross fiscal deficit in relation to GDP 2014-2024 | Statista)

Despite these positive developments, Indian stock markets have faced recent downturns due to high valuations, modest corporate earnings, and global trade uncertainties. Both the Nifty 50 and BSE Sensex indices experienced declines, and market analysts project a cautious outlook for the near future. Nonetheless, India's overall economic trajectory remains strong, with continued policy support and structural reforms expected to sustain growth momentum in the coming years.

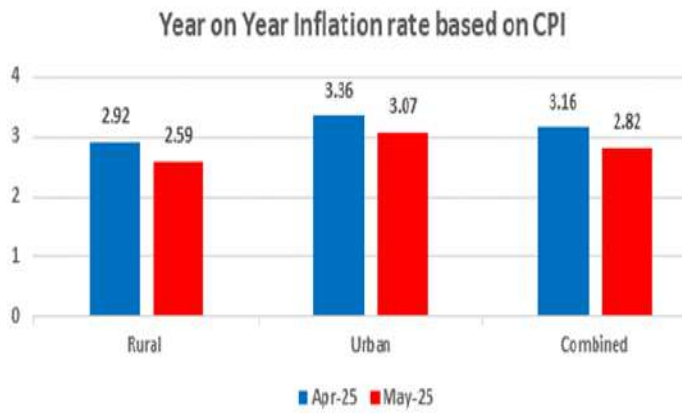
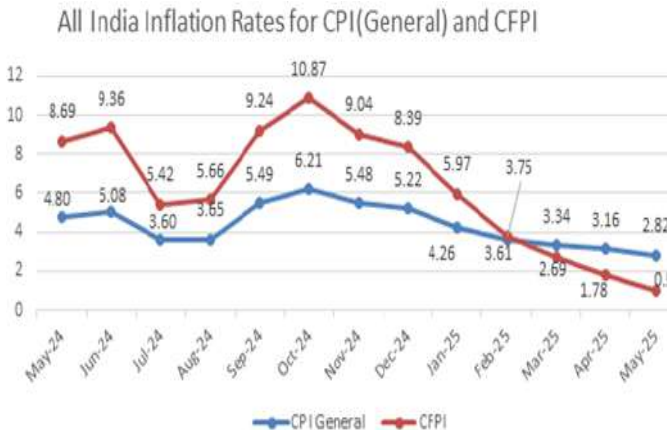
These figures indicate a consistent increase in capital expenditure relative to GDP, reflecting the government's focus on infrastructure development and economic growth.

Additionally, the Financial Express reports that the government's capital expenditure has seen a significant boost, with the budget allocation for FY25 around Rs 15 lakh crore, approximately 3.4% of GDP.

Inflation Under Control

Inflation in India has eased sharply, offering relief to both households and businesses. In May 2025, the year-on-year inflation rate based on the Consumer Price Index (CPI) stood at 2.82 per cent. This marks the lowest level since February 2019. It also reflects a drop of 34 basis points from the previous month.





Food prices, which often have a big impact on overall inflation, have also cooled. The Consumer Food Price Index (CFPI) recorded an inflation rate of just 0.99 per cent in May 2025. This is the lowest food inflation seen since October 2021. Rural and urban food inflation were almost identical, at 0.95 per cent and 0.96 per cent, respectively. Compared to April 2025, food inflation declined by 79 basis points, showing a clear downward trend in essential items like vegetables and grains.

According to the Reserve Bank of India's Financial Stability Report released in June 2025, the outlook for inflation remains favourable. Food prices are expected to stay stable due to robust crop production. On the global front, the risk of imported inflation appears low for now. A slowdown in global demand is likely to keep prices of crude oil and other commodities in check. However, recent tensions in the Middle East have added some uncertainty to this picture.

Overall, the Reserve Bank believes that inflation will stay aligned with its medium-term target of 4 per cent. In fact, it may even fall slightly below that level in the coming months. This easing trend gives confidence that the current price stability is not temporary, but part of a broader pattern of economic stability.

Forex reserves as of the end of March 2024 were sufficient to cover 11 months of projected imports. The Survey underscores that the Indian Rupee has also been one of the least volatile currencies among its emerging market peers in FY24. India's external debt vulnerability indicators also continued to be benign. External debt as a ratio to GDP stood at a low level of 18.7 per cent as of end-March 2024.

The ratio of foreign exchange reserves to total debt stood at 97.4 per cent as of March 2024 as per the Economic Survey 2023- 24. The Direct Benefit Transfer (DBT) scheme and Jan Dhan Yojana-Aadhaar-Mobile trinity have been boosters of fiscal efficiency and minimization of leakages, with ₹36.9 lakh crore having been transferred via DBT since its inception in 2013.

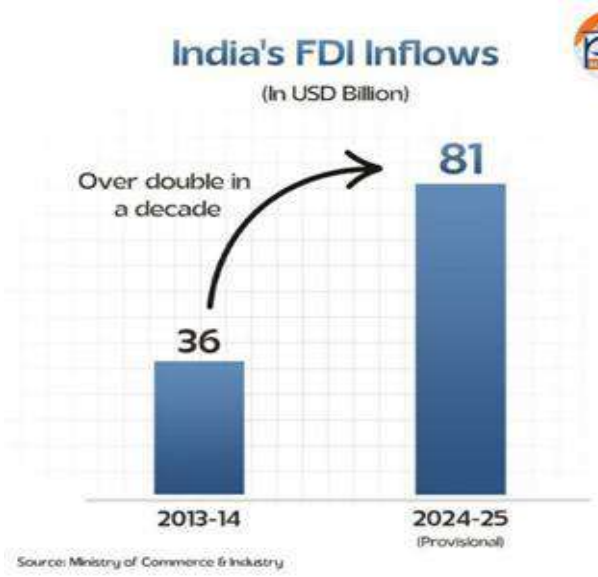
Foreign Direct Investment

India continues to be a top choice for global investors. The country has an investor-friendly FDI policy, allowing 100 per cent foreign ownership in most sectors through the automatic route. As a result, FDI inflows rose to a USD 81.04 billion (provisional) in FY 2024–25, marking a 14 per cent increase from USD 71.28 billion in FY 2023–24. This is more than double the USD 36.05 billion received in FY 2013–14, showing long-term progress.



The services sector led the inflow of equity investments, attracting 19 per cent of total FDI in FY 2024–25. This was followed by computer software and hardware at 16 per cent, and trading at 8 per cent. FDI into the services sector grew by 40.77 per cent, reaching USD 9.35 billion, compared to USD 6.64 billion the previous year. In the manufacturing segment, FDI grew by 18 per cent, from USD 16.12 billion in FY 2023–24 to USD 19.04 billion in FY 2024–25.

Road ahead for the Indian Economy

In the second quarter of FY24, the growth momentum of the first quarter was sustained, and High-Frequency Indicators (HFIs) performed well in July and August of 2023. India's comparatively strong position in the external sector reflects the country's positive outlook for economic growth and rising employment rates. India ranked 5th in foreign direct investment inflows among the developed and developing nations listed for the first quarter of 2022.

India's economic story during the first half of FY24 highlighted the unwavering support the government gave to its capital expenditure, which, in FY24, stood 37.4% higher than the same period last year. In the Union Budget of 2024-25, capital expenditure took lead by steeply increasing the capital expenditure outlay by 17.1 % to Rs. 11 lakh crore (US$ 133.51 billion) over Rs. 9.48 lakh crore (US$ 113.91 billion) in 2023-24. Stronger revenue generation because of improved tax compliance, increased profitability of the company, and increasing economic activity also contributed to rising capital spending levels.

The outlook for 2025 depends on how effectively India addresses its economic challenges.

Key priorities include:

- Boosting Consumption: Wage growth, employment initiatives, and targeted welfare programs are essential to reviving domestic demand.
- Encouraging Private Investment: Streamlined policies, reduced tariffs, and greater ease of doing business can attract both domestic and foreign investors.
- Expanding Global Trade: Lowering trade barriers and enhancing export competitiveness are crucial to capturing a larger share of global markets.
- Sustaining Reforms: Addressing inefficiencies in the informal sector, agriculture, and traditional industries will ensure more balanced growth.
- Monetary Policy Adjustments: While rate cuts may provide short-term relief, they must be complemented by structural measures to stimulate demand and investment.

GLOBAL INFRASTRUCTURE CONSTRUCTION

The Infrastructure Sector Market size is estimated at USD 2.89 trillion in 2025, and is expected to reach USD 3.92 trillion by 2030, at a CAGR of 6.27% during the forecast period (2025-2030).

The infrastructure industry is witnessing a fundamental shift toward sustainable infrastructure development and environmental consciousness, driven by increasing global climate commitments. Over 30 regions and 700 cities worldwide have joined the United Nations' Race to Zero campaign, demonstrating a strong commitment to reducing carbon emissions to zero by 2050. This transition is particularly crucial as infrastructure construction and operations account for approximately 70% of all carbon emissions, primarily through energy and transport sectors and the production of materials like cement and steel. The industry is responding through increased adoption of cleaner infrastructure technology in public infrastructure projects and a growing focus on renewable energy integration.

Technology adoption is revolutionizing infrastructure development, with artificial intelligence, robotics, and drone technology emerging as key enablers of operational efficiency. The industry is experiencing accelerated digitalization, particularly in preventative maintenance, inspections, and repair assessments. Cloud-based technologies and digital infrastructure have become essential components, driving demand for robust data transmission and storage assets, including fiber networks, edge data centers, and telecommunication towers. This digital transformation is fundamentally changing how infrastructure assets are designed, built, and maintained.
The modernization of existing infrastructure while developing new sustainable infrastructure assets has become a critical focus area for governments and private investors alike. In the Middle East and North Africa (MENA) region alone, experts estimate that spending of at least 8.2% of GDP will be needed to meet infrastructure goals by 2030. This modernization drive encompasses various sectors, from traditional transportation and energy infrastructure to advanced digital infrastructure networks and smart city initiatives. The industry is witnessing a shift toward more resilient and adaptable infrastructure designs that can accommodate future technological advancements and changing environmental conditions.

Infrastructure Construction Market Trends

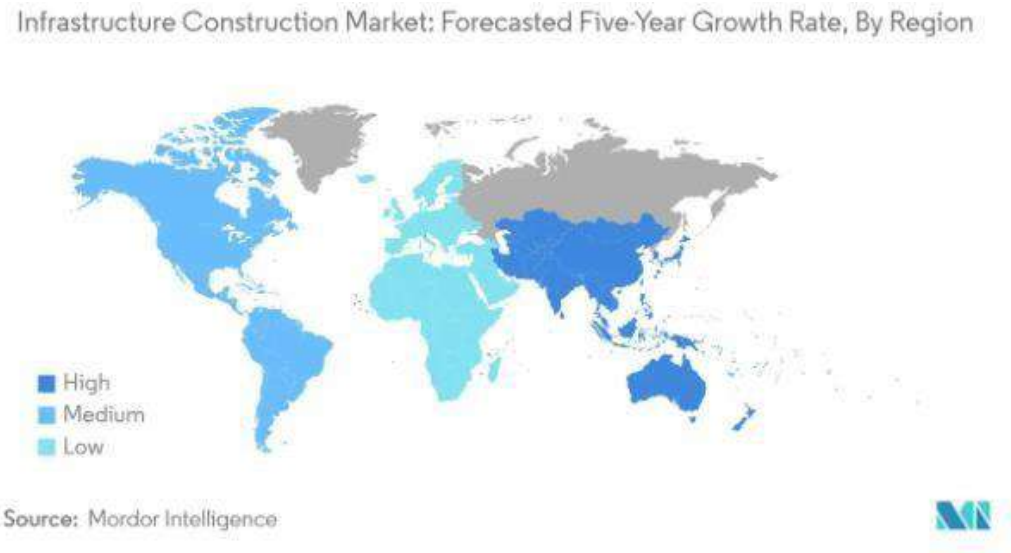
Rising Infrastructure Development and Government Initiatives

Governments worldwide are implementing ambitious infrastructure development programs to boost economic growth and enhance connectivity. The scale of infrastructure investment required globally is massive, with estimates indicating that more than USD 2 trillion worth of investments in transportation infrastructure alone will be needed annually until 2040 to fuel economic development. This unprecedented level of investment is being channelled through various government initiatives and development programs designed to modernize existing infrastructure and create new assets. For instance, the Indian government has expanded its National Infrastructure Pipeline (NIP) to include 7,400 projects, focusing on critical sectors such as roads, housing, urban development, railroads, and renewable energy.

The commitment to infrastructure development is evident in the substantial budgetary allocations by various governments. The Philippines government has demonstrated this through a significant infrastructure push, allocating USD 6.5 billion specifically for bridge construction, flood management, asset preservation, and transportation network development. Additionally, a separate allocation of USD 1.3 billion has been dedicated to rail transportation, land public transportation, and maritime infrastructure development. These initiatives reflect the growing recognition among policymakers that robust public infrastructure is fundamental to achieving sustainable economic growth and improving the quality of life for citizens.

Rapid Urbanization and Economic Growth

The accelerating pace of urbanization across the globe has emerged as a significant driver for urban infrastructure development, particularly in emerging economies. This demographic shift is creating unprecedented demand for new and improved infrastructure facilities, from transportation networks to utility systems. The impact is particularly visible in the aviation sector, where countries are rapidly expanding their airport infrastructure to meet growing urban mobility needs. For example, China has demonstrated remarkable progress in airport infrastructure development, increasing its number of certified transport airports to 241, with 114 airport construction projects either initiated or continued during recent years.



The economic implications of urbanization are compelling governments and private sector entities to invest in infrastructure development. This is evidenced by initiatives such as the Federal Aviation Administration's (FAA) allocation of more than USD 479 million for airport infrastructure improvements across 123 projects in the United States. The focus extends beyond aviation to include comprehensive urban infrastructure development, encompassing public transportation systems, smart city initiatives, and sustainable urban planning projects. These investments are crucial for maintaining economic competitiveness and ensuring the efficient movement of goods and people in increasingly densified urban environments.

Growing Foreign Direct Investment and Private Sector Participation

The infrastructure sector is witnessing increased participation from foreign investors and private sector entities, driven by favorable government policies and improved investment frameworks. Countries across Asia-Pacific have maintained steady foreign direct investment (FDI) inflows, particularly in infrastructure development projects, despite global economic uncertainties. This trend is supported by government initiatives to streamline bureaucratic processes, simplify land acquisition procedures, and enhance transparency in project implementation, making infrastructure investments more attractive to international investors.

The evolution of infrastructure financing models has played a crucial role in attracting private infrastructure sector participation. Governments are increasingly adopting public-private partnership (PPP) models and creating specialized infrastructure investment vehicles to facilitate private sector engagement. This is complemented by efforts to reduce implementation delays and bureaucratic hurdles, which have historically been major deterrents to private investment in infrastructure projects. The focus on creating transparent and efficient project execution frameworks has helped build investor confidence and enabled the mobilization of significant private capital for infrastructure development. These developments are particularly significant in emerging economies where public resources alone are insufficient to meet the growing infrastructure needs.

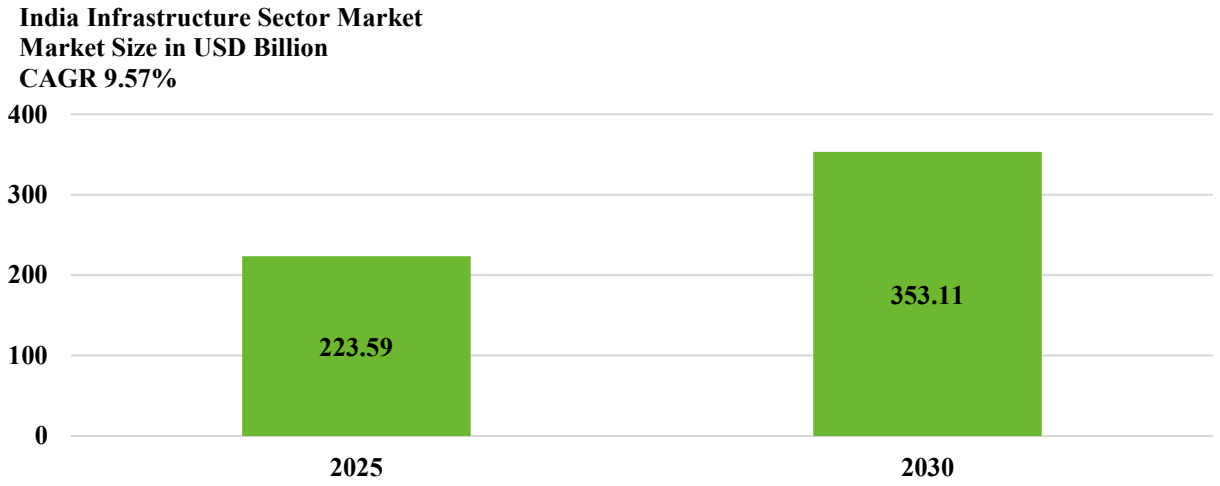
INDIA INFRASTRUCTURE SECTOR

The India Infrastructure Sector Market size is estimated at USD 223.59 billion in 2025, and is expected to reach USD 353.11

billion by 2030, at a CAGR of 9.57% during the forecast period (2025-2030).

India's aspirations to attain developed nation status by 2047 heavily rely on bolstering its infrastructure, a pivotal driver for creating livable, climate-resilient, and inclusive cities that fuel economic growth. This commitment is evident in the government's allocation of 3.3% of GDP to the infrastructure sector in FY2024, with a notable emphasis on transport and logistics.



Within the transport sector, roads and highways claim the lion's share, trailed by railways and urban public transport. The government has set ambitious goals, aiming to construct a 2 lakh-km national highway network by 2025, expand airports to 220, operationalize 23 waterways by 2030, and establish 35 Multi-Modal Logistics Parks (MMLPs).

GLOBAL GABION MARKET

Market Scenario

Global gabion market was valued at US$ 4366.6 million in 2022 and is projected to hit the market valuation of US$ 6247.96 million by 2030 at a CAGR of 4.56% during the forecast period 2022-2030.

Gabions are wire mesh containers filled with rocks, concrete, or sometimes sand and soil, used in civil engineering, road building, military applications, and landscaping. They provide an eco-friendly solution for erosion control, retaining walls, and other applications where structural integrity and permeability are key. The demand for gabions is rising steadily, driven by their versatility, cost-effectiveness, and sustainability. As of 2023, the global market for gabions reached a volume of approximately 23 million cubic meters, a significant increase attributed to growing infrastructure projects worldwide. This surge is also fuelled by increased awareness and adoption of environmentally friendly construction practices, particularly in countries focusing on sustainable urban development.

Several factors contribute to the growth of the gabion market. Wherein, the increased frequency of natural disasters, such as floods and landslides, has prompted government and private sectors to invest in more resilient and adaptable infrastructure solutions. In the United States alone, the use of gabions in flood-prone areas has expanded to over 5,000 kilometers of riverbank fortifications. Additionally, the rise of aesthetic landscaping in urban areas has bolstered the demand, with gabions being used creatively in parks, gardens, and even as artistic installations. In Asia, where urbanization is rapid, gabion-based retaining walls now account for a growing share of the $1 trillion infrastructure development projects. The versatility of gabions, which can be used in various forms and sizes, allows them to meet specific project needs, further driving demand.

Major end users of gabion market include the construction industry, government bodies, and landscaping companies. The construction sector, in particular, plays a pivotal role in the increased demand, as gabions are employed in a wide range of projects from highway construction to residential developments. The construction industry has seen a notable integration of gabioris, with companies incorporating them into over 40% of new projects in eco-sensitive zones. This integration is not only due to gabions functional benefits but also their ability to blend harmoniously with natural surroundings. Additionally, the growing emphasis on sustainable infrastructure has led to the adoption of gabions in green building certifications, highlighting their impact on reducing the carbon footprint of construction activities.

Driver: Rising Urbanization and Infrastructure Development in Emerging Economies Worldwide

As global urbanization accelerates, the demand for efficient and sustainable infrastructure solutions is witnessing significant growth in the gabion market. Emerging economies, particularly in Asia and Africa, are at the forefront of this trend. According to the United Nations, by 2030, urban areas in developing regions are expected to house an additional 1.2 billion people. This urban sprawl necessitates extensive infrastructure development, including roads, bridges, and flood control systems. The World Bank has projected that developing countries will require infrastructure investments totaling $1.3 trillion annually to sustain economic growth and meet urban demands. in India, for instance, the government has allocated over $750 billion for infrastructure projects by 2025, with a significant portion earmarked for sustainable solutions like gabions.

Gabions are increasingly being adopted as a cost-effective and environmentally friendly alternative to traditional construction materials. China's Belt and Road Initiative, a global development strategy involving infrastructure investments in nearly 70 countries, underscores the growing demand for gabions. The initiative has already seen gabion installations in over 10,000 kilometers of infrastructure projects. In Africa, the African Development Bank has committed $208 billion to infrastructure, including eco-friendly solutions. Furthermore, the Asian Infrastructure Investment Bank has funded over 100 projects with a focus on sustainable materials. As a result, the global gabion market is projected to reach $8 billion by 2026, driven by these burgeoning infrastructure needs.

Trend: Growing Adoption of Gabions in Landscaping and Aesthetic Architectural Applications

The use of gabions in landscaping and aesthetic architectural applications is gaining momentum as designers seek sustainable and visually appealing solutions. Gabions offer versatility and durability, making them ideal for modem architectural designs. The Landscape Institute reports that gabions are now featured in over 50% of urban parks in major cities worldwide. In the United States, the National Association of Landscape Professionals notes that gabions are included in the designs of more than 2,000 public and private projects annually This trend is also evident in Europe, where the European Federation for Landscape Architecture highlights gabion usage in over 1,500 projects annually.

Gabions provide a natural aesthetic that blends seamlessly with the environment, appealing to architects and landscape designers. In Australia, gabion market has seen a 30% increase in gabion use in residential landscaping projects in the last five years. The British Association of Landscape Industries has documented over 500 projects incorporating gabions for decorative purposes. Similarly, in Canada, gabions are now a staple in over 300 urban renewal projects. This growing trend is further supported by the rise of sustainable architecture, with the United Nations Environment Programme stating that the global green building market will reach $24 trillion by 2030. Consequently, gabions are becoming a preferred choice for architects who prioritize sustainability.

Challenge: Fluctuating Raw Material Prices Affecting Overall Production Costs and Profitability

The gabion market faces a significant challenge in the form of fluctuating raw material prices, which can impact production costs and profitability. Steel wire, a primary component in gabions, has experienced volatile price changes due to global supply chain disruptions. The World Steel Association reported that steel production decreased by 5% in 2023 due to geopolitical tensions, causing supply shortages, in the first quarter of 2024, steel prices surged by $100 per ton, affecting the cost structure for gabion manufacturers Additionally, the International Monetary Fund notes that transportation and logistics costs have increased by $200 billion globally, further exacerbating production expenses

These challenges are compounded by the rising cost of zinc, used for coating gabion wires. The London Metal Exchange recorded a $500 per metric ton rise in zinc prices in 2024, adding pressure on manufacturers. As a result, some companies have faced a 15% decline in profit margins, leading to strategic shifts in sourcing and production.

According to the International Trade Administration, over 300 gabion manufacturers worldwide have reported increased operational costs. To mitigate these impacts, industry players ate exploring alternative materials and local sourcing options. Despite these efforts, the global gabion market's growth rate has slowed, with projections adjusted from $8.5 billion to $8 billion by 2026.

Segmental Analysis

- **By Type**

Gabion baskets accounted for the largest market share of 42.59% in 2023, with a market value of US$ 1,271.05 million and is projected to grow at the highest CAGR of 6.02% during the forecast period. Gabion baskets are currently at the forefront of the gabion market, primarily due to their versatility, durability, and eco-friendliness.

One of the key drivers behind their dominance is their application in infrastructure development, which has seen a significant increase with over 12,000 kilometers of roads utilizing gabion baskets for erosion control worldwide in 2023.

The construction industry, which accounts for 15 million cubic meters of gabion installations annually, heavily relies on these structures for retaining walls, embankment stabilization, and riverbank protection. The cost-effectiveness and easy installation process of gabion baskets make them a preferred choice for contractors and engineers, as they require minimal maintenance and adapt well to various environmental conditions. Additionally, an estimated 3,000 projects in urban landscaping have integrated gabion baskets as aesthetic and functional elements, highlighting their growing popularity in architectural designs.

The primary end-users of gabion baskets in the gabion market include governments, municipal authorities, and private construction companies who are increasingly focusing on sustainable building practices.

- **By Application**

Retaining walls in the gabion market accounted for the largest market share of 41.1% in 2023, with a market value of US$ 1,225.77 Million and is projected to grow at the highest CAGR of 6.10% during the forecast period. Protect channels and River beds accounted for the second-largest market. The retaining walls market is experiencing robust growth, driven by infrastructure development and urbanization across the globe.

The global construction industry is on track to complete over 13,000 new infrastructure projects by 2030, with retaining walls as a critical component for soil stabilization. In 2023, over 60% of new urban development projects incorporated eco-friendly construction methods, highlighting the increasing use of sustainable materials in retaining walls. This trend is particularly evident in

the Asia Pacific region, which initiated more than 1,500 smart city projects this year, many featuring retaining walls for essential structural support

Regional Analysis

The Asia Pacific region's leadership in the gabion market is largely driven by its expansive infrastructure development and urbanization. In 2023, China earmarked over US$ 1.3 trillion for infrastructure projects, many of which incorporate gabions for flood control and road construction. The Belt and Road Initiative alone has facilitated the construction of over 2,000 kilometers of roads, with gabions playing a crucial role in these developments.

India, aiming to improve rural connectivity, has planned over 83,000 kilometers of road construction projects, using gabions extensively for slope stabilization, Japan, with over 20% of its land prone to natural disasters, invests heavily in disaster management solutions, including gabions. The region's construction industry, valued at over USS 5 trillion, dedicates a significant portion to infrastructure and disaster prevention. Moreover, Asia Pacific's susceptibility to natural disasters, experiencing over 100 significant events annually, necessitates the use of gabions for erosion control and landscape stabilization.

Europe's position as the second-largest gabion market is holstered by its commitment to sustainable construction and environmental protection. Germany's construction industry, valued at approximately US$ 500 billion, emphasizes green infrastructure, with gabions being a preferred choice for eco-friendly projects. The UK, implementing over 200 sustainable urban drainage systems, frequently uses gabions for erosion control and water management. France, with its rich tradition of blending functionality with aesthetics, employs gabions in urban planning and landscape architecture.

The European Union's environmental regulations, which aim to cut carbon emissions by 55% by 2030, encourage the use of sustainable materials like gabions. Additionally, Europe's extensive river networks, spanning over 1.3 million kilometers, require gabions for bank stabilization particularly in countries like the Netherlands and Italy, where over 25% of the land is below sea level

The continent's high urbanization rate with over 75% of its population residing in cities, necessitates innovative solutions for landscape architecture. Countries like Italy and Spain, facing significant coastal erosion, protect over
500 kilometers of coastline using gabions. Additionally, the growing popularity of gabions in residential landscaping, with sales increasing by 15% annually, highlights their versatility and aesthetic appeal, further driving their adoption across these regions.

INDIA GABION MARKET

India gabion market is projected to witness a CAGR of 11.18% during the forecast period FY2025-FY2032, growing from USD 16.23 million in FY2024 to USD 37.89 million in FY2032. India gabion market is expected to witness significant growth with the rising level of urbanization and infrastructural development.

Gabions, which are wire mesh containers filled with natural materials, are gaining popularity for their efficiency in erosion control, slope stabilization, and aesthetic landscaping. The demand for these structures is highest in regions undergoing rapid construction activities, such as urban centres and modernizing rural areas.

Government initiatives for improving infrastructure resilience, especially in flood-prone areas, fuel the adoption of gabion solutions. India is positioned as a prominent region in the Asia-Pacific due to its high infrastructure investment and growing interest in sustainable construction practices.

Landslides in India Bolster the Demand for Gabions

Landslides have significantly increased the demand for gabions in the Indian market, especially in landslide-prone areas such as the Himalayas and the Western Ghats. Climate change has enhanced weather conditions, and landslides have become more frequent, which requires effective mitigation measures.

Gabion structures are highly flexible and permeable and are increasingly used as retaining walls to stabilize slopes and prevent soil erosion. They absorb and diffuse water flow, thus preventing the risk of landslides by maintaining soil integrity.

Projects such as those undertaken by Maccaferri in Uttarakhand have demonstrated the effectiveness of gabions in protecting infrastructure along vulnerable roads. Their cost-effectiveness and ease of installation further enhance their appeal as a practical solution for landslide-prone areas, ensuring safety and sustainability in civil engineering practices.

Road Construction Drives the India Gabion Market Growth

Road construction drives the market for gabions, which are in high demand due to their efficiency in stabilizing slopes and preventing soil erosion. Gabion baskets are used in large quantities in infrastructure projects, such as highways and rural roads, where they offer essential support to embankments and retaining walls. They are adaptable to various geotechnical conditions, making them suitable for challenging terrains commonly encountered in road construction.

For instance, in December 2024, a tender was issued for the construction of the gabion/retaining wall at Parshuram Ghat along with the rehabilitation and upgradation of NH-66 (Old NH-17) from 161.6 Km to 205.400 Km (Kashedi - Parshuram Ghat section) to four lanes in the State of Maharashtra.

Gabion Baskets Dominate India Gabion Market

Gabion baskets have a significant market share because of their versatility and eco-friendliness. The segment has gained dominance as it is widely used for erosion control, retaining walls, and landscaping applications. Because of their adaptability to the needs of construction, they are often favoured in the development of infrastructure. The upsurge for sustainable construction practices has further fueled demand, as filled gabion baskets are usually made up of local materials that save transport costs and render minimal ecological impact. Additionally, further innovation in manufacturing technology improves their strength and performance, thereby making them more applicable to varied applications.

Southern India Acquires the Highest Market Demand

Southern India accounts for the most significant share in the gabion market, influenced by strong infrastructure development and rapid urbanization. Tamil Nadu and Karnataka are in the lead; they use a lot of gabions for road building, erosion control, and flood management projects. The region also emphasizes sustainable construction practices, thus increasing the demand for gabions, as it is an environmentally friendly solution and can be merged with natural backgrounds.

Future Market Scenario (FY2025 – FY2032F)

- The growing emphasis on eco-friendly construction practices drives the gabion market, as these structures provide effective solutions for erosion control in urban and rural developments.

- Innovations such as smart gabions equipped with monitoring sensors are set to revolutionize industry, enhancing functionality and attracting investments in new infrastructure projects.

- Rapid urbanization in emerging economies is expected to increase the demand for gabions, particularly in road construction and landscape architecture, as cities seek resilient solutions to environmental challenges.

- Strategic alliances between manufacturers, government bodies, and urban planners are likely to expand the market reach, facilitating the integration of gabions into large-scale infrastructure projects and public- private partnerships.

Key Players Landscape and Outlook

The competitive landscape of the India gabions market is characterized by a mix of established players and emerging companies, all striving to capitalize on the growing demand driven by infrastructure development and environmental sustainability. Key companies are recognized for their innovative product offerings in gabion boxes.

The market is witnessing significant investments in research and development to enhance product performance and sustainability. Government initiatives, such as the Bharatmala Pariyojana, further stimulate competition by creating opportunities for gabion applications in large-scale projects. As construction activities expand across various sectors, companies are focusing on new

product launches, strategic partnerships and technological advancements to strengthen their market position and meet the evolving needs of clients.

Effectiveness of Gabions Dams on Sediment Retention

Gabions weirs are porous hydraulic structures, which have been successfully used in watershed management to control erosion and flow. They are structures with minimal adverse impact on the water environment and are considered to be more environmentally friendly than most impermeable weirs.

These structures are semi-permanent rock barriers, which are built across the section of the channel, reducing upstream flow velocity, retaining sediments and promoting water infiltration. They are considered elastic structures, which can easily be adapted to the geometric conditions in a natural channel. However, their efficiency and effectiveness on sediments retention regarding their location has not been determined accurately.

Few studies have focused on determining efficiency and effectiveness of gabion dams in sediments retention, and most have focused on investigating the flow over gabions and their influence on the energy loss and flow velocity. The main objective of this work is to determine the efficiency and effectiveness of gabions weirs on sediment retention with respect to masonry dams, so useful information for the government and private institutions about the benefits of implementing such structures can be generated. The data can be used in planning and making decisions in the management and monitoring of watersheds.

Benefits of Gabions

Gabions are often seen as a practical way of containing nature, from protecting from landslides to creating fencing and barriers. This traditional technology containing nature has a modern resurgence with clear environmental benefits. Gabions, cages filled with rocks, can help maintain the integrity of slopes and surfaces against natural impacts or changes in weather conditions.

This helps maintain a consistent, secure environment for both humans and wildlife. They also act as a form of natural filtration and water capture, helping to reduce runoff and improve water quality. Furthermore, they can provide habitat for wildlife such as reptiles and help maintain biodiversity. Gabions help to protect and support the environment in a variety of ways, such as:

1. Reduce CO2 Emissions

One of the major environmental benefits of gabions is their ability to reduce CO2 emissions. Gabions are great for reducing CO2 emissions due to their ability to store carbon and absorb pollutants from the air, such as methane and carbon dioxide. This process is known as carbon sequestration, as it helps to absorb and store carbon in the atmosphere, preventing it from entering the environment directly. When rocks are placed in the gabion, they can absorb and store these gasses, reducing emissions. Furthermore, the gabion itself also absorbs some of these gasses, further contributing to the emission reduction.

Gabions also aid in water filtration and capture processes, reducing carbon emissions by capturing and recycling rainwater. This can be especially useful in preventing silting caused by built-up water. Through this process, the gabions can filter and capture pollutants, preventing them from entering the environment and aiding in reducing the number of pollutants and, consequently, CO2 emissions.

If vegetation is allowed to grow within a gabion wall, it can further contribute to the carbon removal of the solution. Plant life in a gabion wall will actively take in CO2 during photosynthesis. This forms an incredibly beneficial cycle as the plants take in CO2, releasing oxygen into the atmosphere. Furthermore, the oxygen released can help clean the air and encourage plant growth, further absorbing CO2.

In addition, gabions can also reduce CO2 emissions by reducing fossil fuel consumption. Gabions are made of sustainable and durable materials, such as stone, which is abundant and can last for many years. As a result, they require less energy to manufacture and distribute, resulting in a reduced carbon and energy footprint for any given application. Therefore, using gabions not only helps to reduce emissions but also helps to create a more efficient system for reducing energy use and waste.

2. Uses Natural Resources

Gabions are made of natural resources, which helps to make them an eco-friendly choice for many applications. Gabions are made of rocks, which are plentiful and renewable; there is no need for costly construction materials, as rocks can be taken from areas nearby. As such, gabions are more cost-effective when compared to alternative methods of construction and more sustainable than timber or cement construction.

The abundance of gabion materials can help reduce energy consumption. Tractors and excavators require energy and fuel to operate, and the transportation of materials is also a heavy polluter. By doing all of these tasks with natural resources, less energy is needed to complete them, which helps reduce emissions and energy costs associated with manufacturing and transport.

Moreover, gabions use the natural environment to their advantage by relying on nature's filtration process. The rocks within the cages act as a natural filter system, helping to capture pollutants, chemical contaminants, and debris. This helps keep nature clean, improving the wildlife habitat of the surrounding area and protecting water sources.

The cage is also made of natural resources, such as steel mesh, which is durable and long-lasting. This helps increase the system's sustainability while protecting against the elements. In addition, steel is recyclable and can be reused, helping to minimize waste usage and any potential environmental damage.

3. Erosion Control

Gabions can reduce erosion, helping protect the land from nature's forces. This benefits many applications, such as working roads, homes, parks, valuable land, and coastal areas. Gabions act as a form of armor against rapid disintegration, helping to prevent soil loss and protecting any settlements that may be nearby. If loose soil, rocks or other materials are placed within the gabion, this can help hold it in place and reduce the chance of it sliding away or becoming entirely washed away.

Additionally, gabions protect against landslides and floods, which can cause considerable damage and disruption to communities. Providing a secure barrier, typically much stronger than other alternatives such as timber or metal fences, significantly reduces the risk of events like these. Furthermore, they can be placed along coastlines, reefs, and other vulnerable habitats, helping to protect these areas from damaging weather and wave conditions.

Erosion control is important for development projects. Gabions can provide an efficient and cost-effective solution for controlling disintegration around infrastructure, providing long-term protection against the elements. Gabions are also becoming popular for protecting slopes due to their strength and sturdiness. By providing a stable, secure environment, developers can safely begin their projects while helping to prevent any negative environmental impacts.

4. No concrete foundation is needed

Gabions do not require a concrete foundation, often needed for other protection methods. This is because they are filled with rocks, which are heavy enough to provide the required stability and tension when in place. This eliminates the need to prepare a concrete foundation, which often disrupts terrain and uses large amounts of energy in its preparation. There is also less risk of contaminating nearby areas with concrete when using gabions.

Furthermore, gabions can be disassembled and reused easily, unlike a concrete foundation that needs demolishing. This makes gabions a great alternative for temporary prevention methods. Gabions are often the best choice for mitigating a natural disaster or a temporary fix as they require less energy and resources. Reusing and moving them to another location is often much easier than preparing a concrete foundation or breaking it down, and is highly beneficial to the environment.

Gabions provide an aesthetically pleasing and natural look, often used in parks and open recreational spaces. In this regard, gabions add to the beauty of nature and can help bring out the hidden potential of certain areas. This is beneficial for humans and animals, as it can provide much-needed recreational spaces and habitats.

5. Noise Barriers

Gabions are also an effective tool for noise reduction. They are composed of densely packed stone and mesh, which helps to dissipate sound, creating a natural protective shield. Therefore, they are often used as noise barriers in urban areas and gardens to reduce noise from busy roads or nearby houses.

The mass and density of gabions can absorb sound waves, cutting down the sonic footprint of an area. This helps preserve any given space's peace and quiet, making them ideal for outdoor recreational areas, schools, gardens, and other places where noise levels can impact the quality of life or productivity.

Gabions can also help reduce wall vibration and associated noise in buildings like railways and motorways. They are designed to absorb vibrations, creating a more peaceful environment and reducing noise pollution effectively. Moreover, with their naturally

aesthetically pleasing design, gabions are a great addition to any garden; they help block out unwanted sounds and create a soothing ambiance.

The mesh also helps to filter wind, helping to buffer wind pressure and create a protective environment. This can be especially useful when dealing with coastal areas, where storms can cause considerable damage. Gabions are often used in such areas, where their mass and protective qualities help prevent the serious risks of coastal weather.

6. Retaining Walls

Gabions are also a cost-effective and sustainable way to create retaining walls, helping support the earth embankments and preventing soil movement and potential structural failures. Gabions can help to hold the earth in place, reducing landslides and soil movement, which can have devastating effects in vulnerable areas.

When filled with soil, they act like a living retaining wall, providing a growing environment for plant life and nutritious ground to help species thrive. This is an incredible environmental benefit, as it can help boost biodiversity and preserve wildlife habitats. Furthermore, their hygroscopic properties can help with soil moisture balance, ensuring a healthy and consistent environment for any species.

When reinforced, gabion walls can also make excellent retention for any structure, providing protection and increased stability. They are often used in retaining sites, where they help to protect buildings from potential erosive strategies, such as waves and soil disintegration.

7. Cost effective

One of the most rewarding benefits of using gabion walls is their cost-effectiveness. Gabions are made with natural resources, such as stone, and can be easily sourced in various ways, reducing the cost of acquiring them. Additionally, gabions are reusable and can be easily moved from site to site as needed, reducing the cost of making changes.

They are easier to install and quicker to construct than most other building sites, reducing the effort and resources needed. Furthermore, they are incredibly durable and will last many years without maintenance. This helps to reduce long-term costs and increases savings for any given application.

Gabions are also easy to maintain, helping to reduce both the monetary and environmental costs of upkeep. Their steel mesh cladding helps to protect against the elements and maintain the structure for years without needing to be replaced. Furthermore, they can be quickly dismantled and moved elsewhere, making them an incredibly cost-effective solution for most applications.

8. Natural beauty

Gabions also add a natural and aesthetic beauty to any setting. This is an incredible benefit in many applications, as it helps to boost the outdoor environment and create a more enjoyable ambiance. Gabions can often be found in city parks or gardens, where they help to separate a grassy or wooded area from cluttered, busy streets.

The aesthetic element gabions bring to a space is very important for promoting environmental stewardship, as it helps to inspire people to appreciate and care for nature. Furthermore, they can be designed to fit any aesthetic and theme desired, such as a classical French style or a rustic countryside look.

Gabions look great around bodies of water, such as lakes and rivers, where they help to reduce wave disturbance and maintain the natural, serene atmosphere. This is an incredibly beneficial benefit for any recreational area, as their natural beauty attracts more visitors.

Gabions can also make wonderful additions to homes, gardens, and commercial centers. Whether for a front yard, backyard, or garden, gabions help create a natural, open space that helps illustrate nature's beauty. This can benefit the local environment as people learn to appreciate the nature around them, helping to promote environmental stewardship.

BUSINESS OVERVIEW

Our Company was incorporated on February 18, 2008, by our Promoter, Mr. Madhusudan Sarda and are engaged in the manufacturing, designing, trading and installation of services of Gabions, Rockfall Protection Nettings, and Geosynthetic Materials, tailored to meet the diverse requirements of civil engineering, infrastructure development, and environmental protection projects. There are three verticals to our business as follows:

Manufacturing and supply of mechanically woven Double Twisted Hexagonal Steel Wire Mesh Gabions, Defence Gabions, PP Rope Gabions, Hi-tensile Rockfall Protection Nettings, Rockfall Fence/Barrier Reinforced Geomat, and High Strength Flexible Geogrid.

Service of Design and Constructing Gabion Structures, Slope Stabilization by Anchor-Mesh system and other types of structures in the fields of Geosynthetics, Geotechnical Engineering, and Ground Improvement Techniques.

Trading of auxiliary products not manufactured by us but required by our target customers, the product portfolio is listed in detail later in the chapter.

Our company is working with the vision to provide products, services and technology to Government entities, contractors, private customers, consultants, and authorities in the fields of Geosynthetics, Geotechnical Engineering, and Ground Improvement Techniques. To this end, we are manufacturing several products of which the primary product is Steel Gabions. We are trading various other products so that our target customers can avail a wide range of products from us. Apart from the supply of products, we are also a works contractor ourselves. So, we construct the structures that our customers require. We have the capability to engineer and design structures in our field. So, we are a technology provider in our field and have the capability of turnkey execution of projects. We undertake construction projects for both government and private sector clients.

Our products, services and technologies are extensively utilized across a wide range of sectors including infrastructure projects such as roads, railways, airports, irrigation and water resources sector, energy, mining, defence, real estate developments of resorts, commercial building complexes, IIT's for applications such as road and railway embankments formation, protection of roads and railway tracks from landslides, airport runway developments, protection of hydro power projects, river channelization and river front developments, mining and thermal power plant waste disposal, energy pipelines protection, beach protection etc. The solutions we provide are retaining walls, reinforced soil walls and slopes, slope erosion control, vegetation growth, rockfall protection, slope stabilization, flood protection wall, river training, scour protection, land reclamation, ground improvement, and ash pond formation.

We are continuously developing new capabilities exemplified by our knowledge in the design and turnkey execution of Ash Pond Geomembrane lining and leachate and storm water drainage systems in the mining sector. We have been associated with one of our customers, since 2019 when we were awarded the 'Service order for Development of Gabion wall of 700 mtr length, average height 20-25 mtr on east side of East Cell red mud pond (RMP) including design, vetting and SPCB approval., and the work was successfully completed in 2021. Such Client has another plant in Jharsuguda, Odisha. Here, they generate Ash waste which needs to be disposed-off in large pond like formations. The Ash contains chemicals which need to be prevented from leaching into the ground as they can be hazardous in nature. They awarded us the work of 'Upgrading Ash Pond 3 Kurebaga' in 2024. We are currently executing this work which entails profiling and lining of ash ponds with an impervious Geosynthetic membrane, constructing drainage systems for leachate and storm water, strengthening the dykes of the pond by anchor mesh system and auxiliary works.

We are accredited with IS 16014:2018 (From Bureau of Indian Standards), ISO 14001:2015 (From International Certification & Inspection UK Ltd), ISO 45001:2018 (From International Certification & Inspection UK Ltd) and ISO 9001:2015 (From DNV Business Assurance) and OHSAS 18001:2007 (From RBS Quality Certification Pvt Ltd) for Quality Management System, and IS 16014:2012 Bhutan Standard Bureau.

Since incorporation, our company has executed many projects which include provision of Services and/or supply of goods manufactured by us. Our company has independently completed 76 (Seventy Six) work contracts having an aggregate contract value of ₹12760.59 lakhs which includes 36 (Thirty Six) projects in road sector, 12 (Twelve) projects in Railway sector, 8 projects (Eight) in Private Commercial sector, 9 (Nine) projects in Energy sector, 3 (Three) projects in Mining sector, 3 (Three) Projects in Airport sector, 3 (Three) projects in Defence sector and 2 (Two) projects in Water Resources sector. As on the date of Prospectus, our work order book consists ₹ 17,247.44 lakhs. For information in respect of our ongoing projects, please refer "Our Works Order Book" in "Business Chapter" on page 117.

We are pre-qualified to bid independently on projects, tendered by departments of Government Authorities and other entities funded by GOI, we have tendered till now is for contract value up to ₹ 2558.79 lakhs. We have gradually increased our execution capabilities in terms of size of projects that we are now bidding for and executing. For instance, we were awarded a Government Project by one of the Public Sector Undertaking (PSU) under the ownership of the Ministry of Power and the Government of India in the month of July 2019 for Slope Protection with the project cost of ₹ 182.18 lakhs. The other projects awarded to us was by one of the division of South Western Railway (SWR), in the month of February, 2023 for Protection of vulnerable cutting between Kadur-Sakharayapatna stations, Kadur-Chikamangalur stations with project cost of ₹ 544.75 lakhs, & the recently in month of March, 2025 by South Western Railway (SWR), for ADEN/SKLR Sub Division:- Rebuilding of side slope and side drain construction at Land slip at Km.40/300-400 and slope protection works on vulnerable cutting at Km 39/835 - 40/450 between BLLT and SKLR stations (Phase II) with project cost of ₹ 947.09 lakhs and recently we have bid in the month of February, 2025 a tender of East Coast Railway (CONST HQ) for Koraput-Jagdalpur Doubling Project for Execution of Slope Protection works with project cost ₹ 2558.76 lakhs.

We are currently operating a manufacturing unit situated at Khasra No. 402/114/6 and 402/114/4, Kite 2, admeasuring 11 bighas, located in village of Puruwala, Paonta Sahib, District Sirmaur, Himachal Pradesh. The manufacturing unit covers an area of 9273 square meters. In addition to our manufacturing facility, we have our registered office situated at 38, S/F, Near MCD Park, Mohammadpur, New Delhi, Delhi, India, 110066 and corporate office situated at Ground Floor W-121-A Greater Kailash 1, Greater Kailash, South Delhi, New Delhi, Delhi, India, 110048 and we have marketing offices across Guwahati, Mumbai and Bangalore. Further, apart from this currently we have 6 project offices. These offices contribute significantly to extending our geographical market reach and provide essential customer service, ensuring sale and delivery of our products all-round the year.

We have an in-house team for Geo-technical design and engineering which makes us self-reliant in all aspects of our business including design inputs required by our customers or for the design of our own projects. We have a team of Seven (7) design engineers who works closely with customers, Authority's Engineers, Government clients, and industry personnel for vetting to finalize designs of projects and also design innovative products to meet the project specifications.

We have a project team comprising of over Thirty-Two (32) Civil Engineers in our pay-roll to execute our projects to ensure compliance of quality standards laid down by the industry and government agencies & departments and meeting the project time lines. We are an end-to-end service provider with minimal dependency on third parties. The scope of our service typically includes design, engineering, procurement and construction.

1. *Revenue from operations represents the revenue from sale of service & product & other operating revenue of our Company as recognized in the Restated financial information.*
2. *Total income includes revenue from operations and other income.*
3. *EBITDA means Earnings before interest, taxes, depreciation and amortization expense, which has been arrived at by obtaining the profit for the period/year as adjusted for Minority Interest and adding back Tax expense, interest cost, depreciation, and amortization expense.*
4. *EBITDA margin is calculated as EBITDA as a percentage of total income.*
5. *Restated Profit for the year/period represents the restated profits of the Company after deducting all expenses.*
6. *PAT Margin (%) is calculated as Profit for the year/period as a percentage of Revenue from Operations.*
7. *"Net-worth" means the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, as per the audited balance sheet, but does not include reserves created out of revaluation of assets, write-back of depreciation and amalgamation.*
8. *Return on net worth is calculated as Net profit after tax as restated (attributable to the owners of the Company) for the year/ period divided by Net worth at the end of respective period/year.*
9. *Return on capital employed calculated as Earnings before interest and taxes divided by capital employed as at the end of respective period/year. (Capital employed calculated as the aggregate value of Tangible Net worth, total debt and deferred tax liabilities)*
10. *Debt- equity ratio is calculated by dividing total debt by total equity. Total debt represents long-term and short-term borrowings. Total equity is the sum of share capital and reserves & surplus.*
11. *Total Borrowing is calculated as aggregate of Long Term borrowings and Short Term Borrowings.*

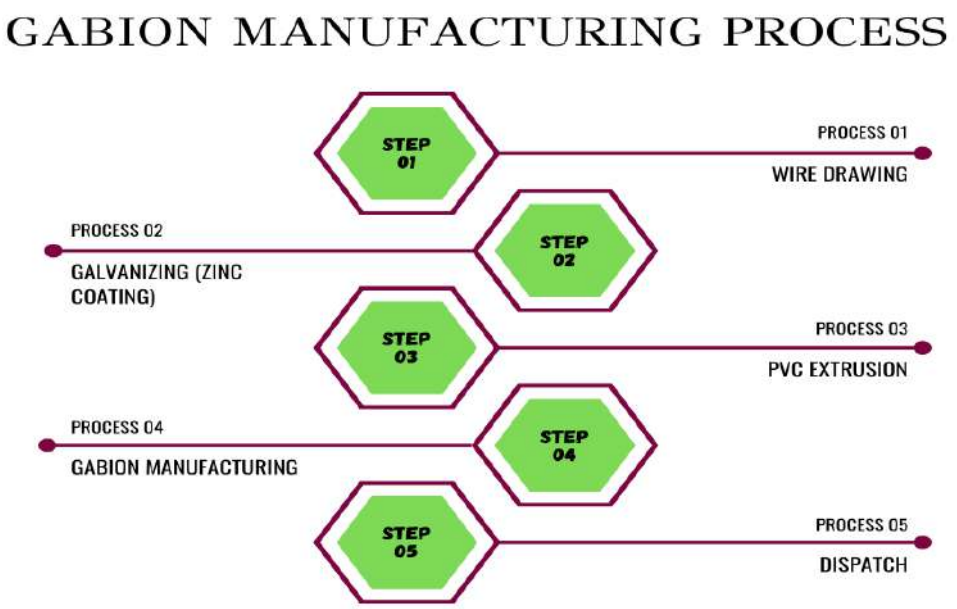
MANUFACTURING PROCESS

Gabions are wire mesh containers, usually filled with stones, used for erosion control, slope stabilization, and retaining walls. Their production involves multiple steps to ensure durability, strength, and corrosion resistance.



---

1. Wire Drawing: To reduce the diameter of raw steel wire to the required size while ensuring mechanical strength and flexibility.
Process:

- ***Raw Material Selection:***
  Low-carbon steel wire (typically with 2.5mm–4.5mm diameter) is used to ensure strength and ductility.
- ***Wire Drawing:***
  The steel wire is passed through a series of drawing dies, which progressively reduce its diameter. Lubrication is applied to minimize friction and prevent overheating.
- ***Annealing (If Required):***
  If soft and flexible wire is required, the drawn wire undergoes an annealing process in a furnace. This helps relieve internal stresses and improve workability.
- ***Winding & Storage:***
  The drawn wire is coiled and stored for further processing.
- ***Quality Control:***
  Wire diameter is checked to ensure uniformity. Tensile strength and elongation properties are tested.

2. Galvanizing (Zinc Coating): To enhance corrosion resistance by applying a protective zinc layer over the wire surface.

Types of Galvanization:

- ***Hot-Dip Galvanizing:***
  The steel wire is cleaned in an acid bath (pickling) to remove rust and oxidation. It is then dipped into molten zinc (around 450°C), forming a thick zinc coating. Excess zinc is removed, and the wire is air-cooled.
- ***Electro-Galvanizing:***
  A thin zinc layer is applied using an electric current. Provides a smooth finish but lower corrosion resistance compared to hot-dip galvanizing.

Galfan Coating:
A special coating containing **95% zinc and 5% aluminum** is applied for **corrosion resistance**.

Quality Control:
Zinc coating thickness is measured (as per ASTM or EN standards). Adhesion and uniformity of the coating are tested.

3. PVC Extrusion (Optional Step for PVC-Coated Gabions): To provide an additional **protective layer** against corrosion, UV radiation, and harsh environmental conditions.
Process:

- ***Wire Pre-Treatment:***
  The galvanized wire is cleaned and preheated.
- **PVC Coating:**
  The wire is fed through an extrusion machine, which applies a uniform PVC or PE (polyethylene) coating. The thickness of the coating is typically 0.5mm to 1.5mm.
- **Cooling & Hardening:**
  The coated wire is cooled rapidly to ensure proper adhesion and prevent defects.
- **Quality Control:**
  PVC adhesion and thickness are checked. UV resistance and flexibility tests are performed.

4. Gabion Manufacturing: To produce hexagonal woven wire mesh panels, which will be assembled into gabion baskets.
Process:

- ***Mesh Weaving:***
  The galvanized or PVC-coated wire is fed into automatic weaving machines, which interlock the wires in a hexagonal pattern (typically 50mm × 70mm or 60mm × 80mm). The weaving ensures high tensile strength and flexibility.
- ***Cutting & Shaping:***
  The woven mesh is cut into required sizes using automatic cutting machines. Panels are formed into rectangular or square shapes.
- ***Edge Reinforcement:***
  Extra selvedge wire or reinforced edges are added for structural integrity. This prevents the gabion from unraveling under stress.
- ***Assembly & Folding:***
  The panels are folded and bundled for transportation. Some manufacturers pre-assemble gabions and ship them in collapsible form.
- ***Packing & Storage:***
  The finished gabions are stacked and packaged for delivery.
- ***Quality Control:***
  Mesh opening size and wire diameter are checked. Tensile and compression tests are performed to ensure load-bearing capacity.

5) Final Quality Inspection & Dispatch: Before shipment, the gabions undergo:

- ***Dimension checks*** For length, width, height.
  Wire & coating verification To meet the specifications.
  Load-bearing tests To ensure strength.
  Packing verification For proper bundling and labeling.

OUR PRODUCTS PORFOLIO AND ITS APPLICATION (MANUFACTURING)

Sr. No	Product	Description	Usages
1	**Gabions**	Gabion is a rectangular wire mesh box comprised of three one half turns (commonly called double twisted) to form hexagonal shaped mesh openings of Zinc galvanized and PVC coated steel wire. These mesh openings are then interconnected with adjacent wires to form hexagonal meshes. Selvedge / Edge wire which is a thicker and heavier wire is used to reinforce the edges and transverse diaphragm. It gives greater rigidity and shape to the gabion/mattresses/ netting.	• Gabion Gravity Wall • Reinforced Earth Wall • River Bank /Canal Protection • Check /Weir dam • Flood Protection • Dikes /Groins • Coastal Erosion Protection
2		GTI® Gabion Revet mattress is a made from mechanically woven double twisted hexagonal steel wire mesh container uniformly partitioned into cells with relatively smaller height in relation to other dimesion, having smaller mesh opening than mesh used for gabion.	• Bridge Scour Protection • River Bank /Canal Protection • Coastal Erosion

Sr. No	Product	Description	Usages
	Gabion Mattress		Protection
3	**Sack Gabions**	Sack gabions are cylindrical wire mesh baskets made up of double twisted galvanized steel or galvanized steel with PVC coating with lateral opening to allow the stone filling or geotextile encased sand filling at site.	• River Bank /Canal Protection • Flood Protection • Coastal Erosion Protection
4	**Tail Mesh Gabions**	Tailmesh Gabion Fascia Units is a 'tail' made of the same hexagonal-shaped double twisted wire mesh (DT mesh) as the body of the gabion box, and the tail is an integral part of the base of the unit, i.e. there is no joint, it is a continuous sheet of DT mesh. Hence the name 'Tailmesh'.	• Reinforced Soil wall
5	**Green Sloping Fascia Unit**	GTI 'Green' sloping fascia structures rely upon the PVC coated wire mesh placed horizontally within the slope with backfill compacted upon it. The inclined fascia panel is reinforced with Weld mesh and with erosion-control bio-degradable GTI Geo-mat (supported with 8 mm struts at intervals).	• Reinforced slope systems (RSS)
6	**Defence Gabion (CWB)**	The welded wire mesh panels are joined together using spiral steel wire and joining pin to form basket should be able to fold/ collapse into one plane which will be easy to package and man carry. Also, CWB has one side openable with locking and fixing arrangement. The CWB are high tensile galvanized frames dual powder coated which makes them durable (protects against corrosion for 20 yrs.) perimeter of crate covered with geotextile lining	• field defences, PDs defence walls, • Fast erection bunkers

Sr. No	Product	Description	Usages
7	**PP** **Rope Gabions**	Polymer rope gabions are prefabricated collapsible cuboids in which ropes are woven in continuous net. Material of rope shall be of polypropylene with adequate UV stabilizer.	• Bridge Scour Protection • River Bank /Canal Protection • Check/Weir dam • Flood Protection • Dikes /Groins • Coastal Erosion Protection
8	**High Strength Flexible Geogrids**	High Strength Flexible geogrids consist of straps having core of high tenacity polyester yarns tendons encased in a polyethylene sheath. They are produced by a unique extrusion-coating process. The single straps are connected by a low strength plastic strip laid out in the cross direction, thus forming a grid.	• Reinforced Gabion Wall (GTI GX wall) • Reinforced RCC Panel Wall (GTI PX wall) • Reinforced slope systems (RSS)
9	**DT** **Mesh Netting**	Mechanically woven double twisted meshes are non raveling and the edges of the mesh are reinforced with a thicker wire called the selvedge/edge wire. These nets are used to prevent small size boulders or rocks from falling in rail or road ways, thus minimizing loss of property or life.	• Rockfall Protection • Slope Protection
10	 **StrongNet**	These are manufactured by combing Steel Wire Ropes of 8 mm-10mm diameter with Mechanically woven Double Twisted Hexagonal with opening Steel Wire netting (IS 16014) to create a product with high tensile strength at low strain and high punch strength with low deformation.	• Rockfall Protection • Slope protection
11	**RockNet**	These are designed and manufactured to reach formidable tensile strengths up to 300kN/M at very low strain. A single continuous length of steel wire rope of 8-10 mm diameter and 1770 N/mm2 grade (tensile strength) is wound around a frame a netting panel of rhomboidal shaped openings. GTI Cross Linked Rhomboidal/ square Mesh steel wire rope panels are typically installed with small aperture secondary DT meshes to enable holding back of small sized debris.	• Rockfall Protection • Slope protection

Sr. No	Product	Description	Usages
12	**Ring Net**	Hi-Tensile Strength Wire Ring Net is a highly flexible and robust protective solution, designed to withstand and absorb high levels of energy. Its unique flexibility and strength make it ideal for a variety of slope protection applications, including as a guiding system for securing slopes and as an essential component in rock fall and debris flow barriers. Engineered to adapt to challenging terrains, GTI's wire ring net ensures optimal safety and durability, providing reliable protection against falling rocks, debris, and other slope-related hazards.	• Rockfall Protection • Slope protection
13	**Rockfall Barrier**	Rigid barriers are structures that act to either contain or deflect rock fall, with the structure being sufficiently stiff to withstand the kinetic energy imparted by the falling rock rigid structures undergo relatively little to no downward deformation when impacted and they can therefore be constructed close to the assets they are protecting. Semi-rigid rockfall protection barriers are steel structures constituted by a principal interception structure made of cables mounted on structural steel posts fully restrained to the ground. Flexible barriers made of wire ring or high strength wire mesh with high energy-absorption capacity, supported by steel posts and anchor ropes with a braking system. Fence is fixed at the bottom to hold rocks. Effective on high- to low energy events.	• Rockfall Protection
14	**Geo composite – Strong mat**	GEO-COMPOSITE STRONGMAT are polypropylene heat bonded synthetic mat reinforced with GTI® Strong Net (double twisted steel wire mesh in combination with steel wire ropes at a nominal spacing of 1.0 m). inserted into the 3D structure during the manufacturing process. The synthetic mat shall be made up of three-dimensional polypropylene mono filament fiber having a shape of biconical cuspate.	• Rockfall Protection • Slope protection

OUR PRODUCT PORTFOLIO (TRADING):

Our company provide trading of geo-synthetic products. These products are widely utilized in the construction and civil engineering industries for a variety of critical applications, including erosion control, retaining walls, and landscape features. With a focus on innovation and durability, we supply geo-synthetics designed to meet the diverse needs of our clients, ensuring performance and long-term reliability across various infrastructure projects.
The followings set out are the category of our Products:

Sr. No.	Product	Description	Usages
1	**Woven Geotextile**	Woven Geotextiles are made from weaving high tenacity PP & polyester and multifilament yarn. Woven geotextile has high dimensional stability which enables to handle very high loads and reduced differential settlement when used for ground improvement application.	• Base separation /Stabilization • Ballast / subgrade reinforcement • Ground Improvement • Land Reclaimation • Geotextile bags, Geotextile tubes
2	**Nonwoven Geotextile**	Nonwoven Geotextiles are made from quality pp fibres to form stable network of staple fibres. Nonwoven Geotextiles are needle punched to form a strong fabric that relates its dimensional stability, specially engineered UV Stabilized and is more resistant to puncture adding years to the life of any road railway land fill, horticulture & civil environmental application.	• Base separation /Stabilization • Ballast / subgrade reinforcement • Ground Improvement • Bridge Scour Protection • Reinforced Concrete wall • Reinforced Gabion Wall (GTI GX wall) • Reinforced RCC Panel Wall (GTI PX wall) • Gabion Gravity Wall • River Bank /Canal Protection • Flood Protection • Dikes /Groins • Land Reclamation • Coastal Erosion Protection • Haul roads / Internal Roads
3	**Geocell**	Geocell is a lightweight, but strong, three-dimensional honeycomb shaped cellular confinement system. Geocell is supplied in collapsed form when expanded forms honeycomb structured mattress as shown below. Perforation on side wall allows water to dissipate and hence reduce pore water pressure.	• Slope Erosion Control • Soil Stabilization / Ground improvement
4	 **PP Geogrids** **Monoaxial PP Geogrid**	GTI® PP geo-grids manufactured 100% from quality polypropylene polymers. These geo-grids are manufactured with a unique extrusion technology. We offer Monoaxial, Biaxial and triaxial Geogrids	• Reinforced Gabion Wall (GTI GX wall) • Reinforced RCC Panel Wall (GTI PX wall) • Reinforced slope systems (RSS) • Base separation /Stabilization • Ballast/ Subgrade reinforcement • Ground Improvement • Land Reclamation

Sr. No.	Product	Description	Usages
	 **Biaxial PP Geogrid**  **Triaxial PP Geogrid**		• Working platform • Haul roads / Internal Roads
5	**PET Geogrids** **Uniaxial PET Geogrid**  **Biaxial PET Geogrid** 	PET GEOGRID quality polyester yarns are formed into a grid structure using a highly sophisticated knitting technology and polymeric coating technology to form a GTI Geogrid. We offer both Uniaxial and biaxial Geogrid.	• Reinforced Gabion Wall (GTI GX wall) • Reinforced RCC Panel Wall (GTI PX wall) • Reinforced slope systems (RSS) • Base separation /Stabilization • Ballast/ Subgrade reinforcement • Ground Improvement • Land Reclamation • Working platform • Haul roads / Internal Roads

Sr. No.	Product	Description	Usages
6	**3D Geocomposite Drain Sheet**	3D Geo-composite DRAIN Sheets are 3 (thermally bonded) layer structures – the middle rigid layer is made of HDPE extrusion molded in a special process. The vertical arrangement of the layers forms a straight-line water draining channel. The two outer layers are made of non-woven polypropylene geo-textile enhancing the drainage system and providing stability. Water enters through the geo-textile and then travels horizontally within the geo-net to a suitable exit.	• Base separation /Stabilization • Ground Improvement • Reinforced Concrete wall • Reinforced Gabion Wall (GTI GX wall) • Reinforced RCC Panel Wall (GTI PX wall) • Gabion Gravity Wall • Land Reclamation • Haul roads / Internal Roads
7	**Jute Geotexitle**	Jute Geotextiles (JGT) is a natural variant of man-made geotextiles loosely called 'Geo-synthetics'. JGT has been used successfully to address a host of geo-technical problems.	• Slope Erosion Control • Bio Engineering Erosion Control Measures
8	**Coir Mat**	Coir Mat is a composite fabric comprising a layer of bio-degradable material placed between and mechanically bonded to two layers of net made of polymer. This can control erosive effects of natural agents like the rain and wind	• Slope Erosion Control • Bio Engineering Erosion Control Measures
9	**Open weave Coir Geotextile**	Open Weave Coir mat is made of machine spun bristle coir twines open weave structure. It helps control soil erosion by acting as a ground cover. As a ground cover, it reduces the flow velocity of runoff water by forming check dams with the help of net structured strands of coir mat in firm contact with the soil, which absorb the impact of water flow and resist washing down keeping the soil intact. Coir mat degrades naturally & forms mulch that fosters quick vegetative growth	• Slope Erosion Control • Bio Engineering Erosion Control Measures
10	**3D Concrete Geomat**	Concrete Geo-mat (CGM) is a fabric which hardens when hydrated to form a thin, durable, water-proof and fire-retardant layer within 24 hrs. It is a 3-dimensional fabric made by a special needle punched process combined with PE Film lamination. The pile fibers between top and bottom layer extend across the space between lower and upper faces. A proprietary settable concrete material is introduced into the space between the upper and lower faces.	• River Bank /Canal Erosion Protection • Channel lining • Slope Protection

Sr. No.	Product	Description	Usages
		It can be caused to set by the addition of water only.	
11	**Fabric Form mattress** 	Fabric Form Mattress is a large-area continuous bag-like material made of two layers of geotextile. It is filled with concrete of cement mortar and solidified to form a whole concrete board, which is suitable for slope protection. The upper and lower layers of the mould bag are connected by a length of nylon rope to control the thickness of filling. The upper and lower of this double layer polyester woven geotextile fabric form mattress are woven separately, then combined with upper and lower layers of the belt, and then ironed, stitched and processed in the double layer polyester woven geotextile fabric form mattress.	• Riverbank Protection
12	**Weldmesh** 	MS bars of 6mm or 8mm dia are welded to form square grid shape panel of different opening sizes 100mm x100mm, 150mmX150mm, 200mmX200mm	• Rockfall Protection • Slope protection
13	**Self Drilling Anchors** 	The Self-drilling Hollow bar Anchor system is comprised of a hollow threaded bar with an attached drilling bit that can perform drilling, anchoring and grouting in a single operation. The hollow bar allows air and water to freely pass through the bar during drilling to remove debris and then allow grout to be injected immediately after drilling is completed. Grout fills the hollow bar and completely covers the entire bolt. Couplers can be used to join hollow bars and extend the bolt length while nuts and plated are used to provide the required tensions.	• Slope Stabilization • Tunnelling • Anchored Fascia Gabion wall
14	**Solid TMT anchors** 	A Solid galvanized steel anchor is a long anchor bolt, for stabilizing rock excavations, which may be used in tunnels or rock cuts. It transfers load from the unstable exterior to the confined (and much stronger) interior of the rock mass.	• Slope Stabilization • Tunnelling • Anchored Fascia Gabion wall
15	**Chainlink mesh**	A chain-link wire netting is a type of woven fence usually made from galvanized or polymer coated steel wire.	• Rockfall Protection • Slope protection

Sr. No.	Product	Description	Usages
		The wires run vertically and are bent into a zig-zag pattern so that each “zig” hooks with the wire immediately on one side and each “zag” with the wire immediately on the other. This forms the characteristic diamond pattern seen in this type of fence.	
16	**PVC drainage pipes** 	GTI Perforated Pipes are made with perforated PVC pipes as per IS 4985:2021 and covered with nonwoven geotextile. Nonwoven covered perforated pipes are used in drainage systems to prevent sand and gravel from blocking the pipe.	• Drainage of water from Reinforced Soil
17	**Connector Rod** 	Connector rod are galvanised steel bars of 16MM Dia and used for positive connection between Geogrid Reinforcement and Gabion Fascia during construction of MSE Wall	• MSE Wall

Geocell is supplied in collapsed form when expanded forms honeycomb structured mattress as shown below. Perforation on side wall allows water to dissipate and hence reduce pore water pressure.	• Slope Erosion Control • Soil Stabilization / Ground improvement
4	 **PP Geogrids** **Monoaxial PP Geogrid**  **Biaxial PP Geogrid**	GTI® PP geo-grids manufactured 100% from quality polypropylene polymers. These geo-grids are manufactured with a unique extrusion technology. We offer Monoaxial, Biaxial and triaxial Geogrids	• Reinforced Gabion Wall (GTI GX wall) • Reinforced RCC Panel Wall (GTI PX wall) • Reinforced slope systems (RSS) • Base separation /Stabilization • Ballast/ Subgrade reinforcement • Ground Improvement • Land Reclamation • Working platform • Haul roads / Internal Roads

5	**PET Geogrids** **Uniaxial PET Geogrid**  **Biaxial PET Geogrid** 	PET GEOGRID quality polyester yarns are formed into a grid structure using a highly sophisticated knitting technology and polymeric coating technology to form a GTI Geogrid. We offer both Uniaxial and biaxial Geogrid.	• Reinforced Gabion Wall (GTI GX wall) • Reinforced RCC Panel Wall (GTI PX wall) • Reinforced slope systems (RSS) • Base separation /Stabilization • Ballast/ Subgrade reinforcement • Ground Improvement • Land Reclamation • Working platform • Haul roads / Internal Roads
6	**3D Geocomposite Drain Sheet** 	3D Geo-composite DRAIN Sheets are 3 (thermally bonded) layer structures – the middle rigid layer is made of HDPE extrusion molded in a special process. The vertical arrangement of the layers forms a straight-line water draining channel. The two outer layers are made of non-woven polypropylene geo-textile enhancing the drainage system and providing stability. Water enters through the geo-textile and then travels horizontally within the geo-net to a suitable exit.	• Base separation /Stabilization • Ground Improvement • Reinforced Concrete wall • Reinforced Gabion Wall (GTI GX wall) • Reinforced RCC Panel Wall (GTI PX wall) • Gabion Gravity Wall • Land Reclamation • Haul roads / Internal Roads
7	**Jute Geotexitle**	Jute Geotextiles (JGT) is a natural variant of man-made geotextiles loosely called 'Geo-synthetics'. JGT has been used successfully to address a host of geo-technical problems.	• Slope Erosion Control • Bio Engineering Erosion Control Measures

This can control erosive effects of natural agents like the rain and wind	• Slope Erosion Control • Bio Engineering Erosion Control Measures
9	**Open weave Coir Geotextile** 	Open Weave Coir mat is made of machine spun bristle coir twines open weave structure. It helps control soil erosion by acting as a ground cover. As a ground cover, it reduces the flow velocity of runoff water by forming check dams with the help of net structured strands of coir mat in firm contact with the soil, which absorb the impact of water flow and resist washing down keeping the soil intact. Coir mat degrades naturally & forms mulch that fosters quick vegetative growth	• Slope Erosion Control • Bio Engineering Erosion Control Measures
10	**3D Concrete Geomat** 	Concrete Geo-mat (CGM) is a fabric which hardens when hydrated to form a thin, durable, water-proof and fire-retardant layer within 24 hrs. It is a 3-dimensional fabric made by a special needle punched process combined with PE Film lamination. The pile fibers between top and bottom layer extend across the space between lower and upper faces. A proprietary settable concrete material is introduced into the space between the upper and lower faces. It can be caused to set by the addition of water only.	• River Bank /Canal Erosion Protection • Channel lining • Slope Protection
11	**Fabric Form mattress**	Fabric Form Mattress is a large-area continuous bag-like material made of two layers of geotextile. It is filled with concrete of cement mortar and solidified to form a whole concrete board, which is suitable for slope protection. The upper and lower layers of the mould bag are connected by a length of nylon rope to control the thickness of filling. 12	**Weldmesh** 	MS bars of 6mm or 8mm dia are welded to form square grid shape panel of different opening sizes 100mm x100mm, 150mmX150mm, 200mmX200mm	• Rockfall Protection • Slope protection
13	**Self Drilling Anchors** 	The Self-drilling Hollow bar Anchor system is comprised of a hollow threaded bar with an attached drilling bit that can perform drilling, anchoring and grouting in a single operation. The hollow bar allows air and water to freely pass through the bar during drilling to remove debris and then allow grout to be injected immediately after drilling is completed. Grout fills the hollow bar and completely covers the entire bolt. Couplers can be used to join hollow bars and extend the bolt length while nuts and plated are used to provide the required tensions.	• Slope Stabilization • Tunnelling • Anchored Fascia Gabion wall
14	**Solid TMT anchors** 	A Solid galvanized steel anchor is a long anchor bolt, for stabilizing rock excavations, which may be used in tunnels or rock cuts. It transfers load from the unstable exterior to the confined (and much stronger) interior of the rock mass.	• Slope Stabilization • Tunnelling • Anchored Fascia Gabion wall
15	**Chainlink mesh**	A chain-link wire netting is a type of woven fence usually made from galvanized or polymer coated steel wire. The wires run vertically and are bent into a zig-zag pattern so that each “zig” hooks with the wire immediately on one side	• Rockfall Protection • Slope protection

16	**PVC drainage pipes** 	GTI Perforated Pipes are made with perforated PVC pipes as per IS 4985:2021 and covered with nonwoven geotextile. Nonwoven covered perforated pipes are used in drainage systems to prevent sand and gravel from blocking the pipe.	• Drainage of water from Reinforced Soil
17	**Connector Rod**	Connector rod are galvanised steel bars of 16MM Dia and used for positive connection between Geogrid Reinforcement and Gabion Fascia during construction of MSE Wall	• MSE Wall

OUR SERVICES:

Our Company is a specialized enterprise offering comprehensive solutions in the field of geosynthetics, with a strong focus on the design, supply, and execution of gabion structures, erosion control systems, slope stabilization, and related infrastructure works. We combine technical expertise, quality products, and sustainable practices to deliver reliable and cost-effective solutions to government bodies, private organizations, and infrastructure developers. By integrating design, engineering, and execution under one roof, Our Company positions itself as a partner for complex infrastructure and environmental protection projects.

Our Company actively participates in competitive bidding processes for supply and works contracts. Opportunities are pursued through formal channels such as tender notices, requests for proposals, and online procurement platforms, as well as through industry networks and direct client invitations. During these bidding processes, Our Company prepares detailed proposals covering technical compliance, product specifications, production capacity, financial stability, and pricing competitiveness. This structured approach ensures that we demonstrate our capability to deliver value while meeting the stringent requirements set by clients. Once awarded, contracts are executed with strict adherence to timelines, quality benchmarks, and contractual commitments, ensuring consistent client satisfaction.

In addition to participating in tenders and public bidding processes, Our Company is also engaged directly by private companies for supply orders and works contracts. Many clients approach us based on our proven expertise, reliable track record, and knowledge of ongoing or upcoming projects. This dual approach through competitive bidding as well as direct engagement enables Our Company to maintain a strong and diversified project pipeline. With a commitment to innovation, sustainability, and operational excellence, we continue to expand our footprint in the infrastructure and geosynthetics sector.

We provide services of design, supply and installation of following types of structures:

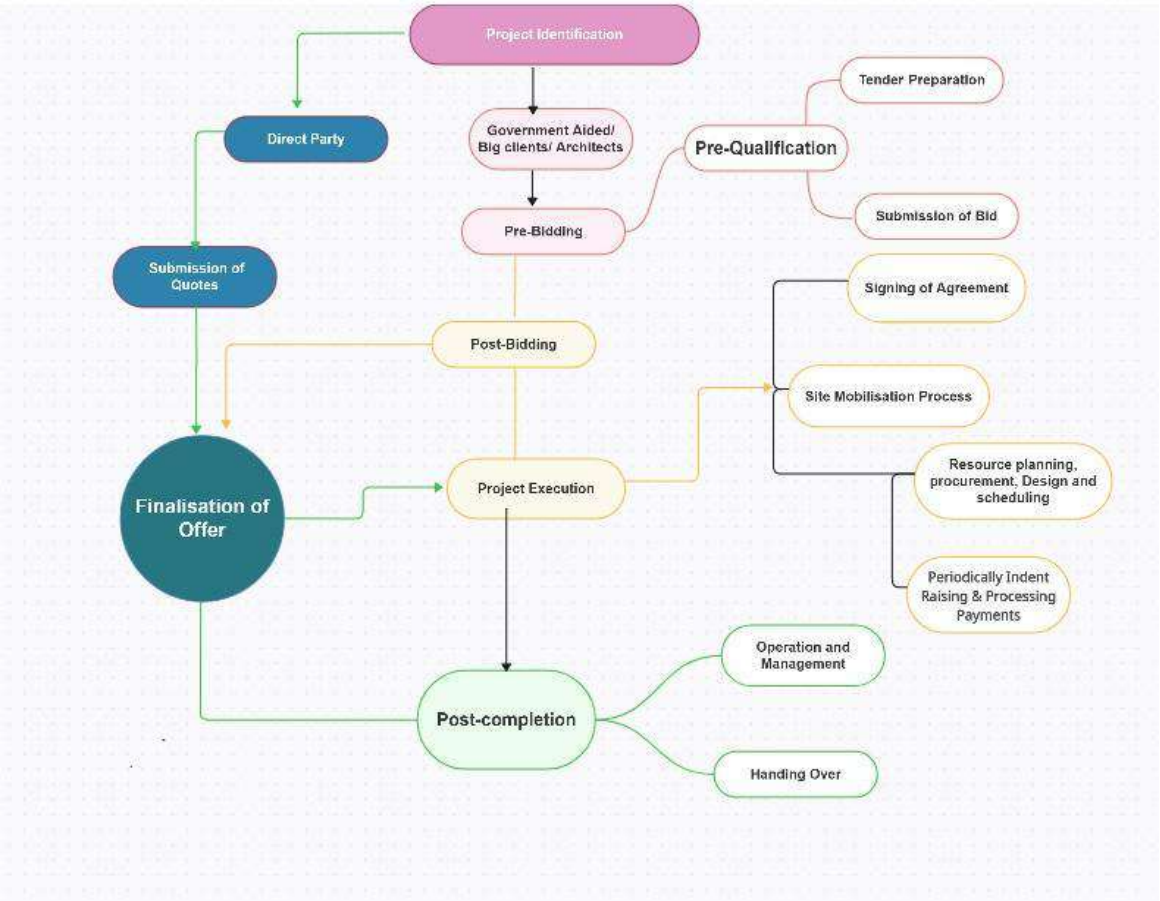
BIDDING PROCESS AND CLIENTELE ACQISITION



1. Bidding Process

The procurement process begins with the issuance of a **Request for Proposal (RFP)** or **Tender Notice**, which is disseminated through official channels, online platforms, and direct invitations to potential suppliers or contractors. The bid documents include comprehensive information such as technical specifications, quantities, delivery timelines, and evaluation criteria.

A **pre-bid meeting** may be conducted to address queries from prospective bidders. Clarifications and any necessary amendments to bid documents are issued to ensure transparency and fairness.

Bidders are required to submit their proposals by the stipulated deadline, in the prescribed format, either in sealed hard copies or electronically. Submissions typically include key documents such as registration certificates, technical and financial proposals, past experience records, and pricing. Non-compliance with submission requirements may lead to disqualification. Upon bid submission closure, an **evaluation committee** reviews proposals based on pre-defined criteria such as technical qualifications, capacity, financial soundness, experience, and cost competitiveness. The most suitable bidder is selected, followed by contract finalization. A formal agreement is then signed, and unsuccessful bidders are informed, if applicable. It is noted that 3rd parties may engage company directly without a formal tender process.

2. Project Execution Process

Upon award of a contract, company undertakes the following steps:

a. Submission of Performance Guarantee
A performance guarantee, typically in the form of a bank guarantee, is submitted to the client as a commitment to execute the project within agreed specifications and timelines.

b. Design and Drawing Validation
Designs and drawings, if provided by the client, are verified against site conditions. Where discrepancies exist, re-engineering is undertaken. Designs are reviewed and vetted by recognized institutions (e.g., IITs). Final approvals are obtained before construction begins.

c. Site Mobilization
Manpower, machinery, and materials are mobilized to the site. Site infrastructure including camps, storage, and logistics are arranged. Company assets are deployed, supplemented by hiring from vendors if required. Materials are sourced from internal manufacturing units and approved vendors.

d. Construction and Quality Control
Construction is carried out in accordance with approved designs. All incoming materials undergo quality testing. Detailed records are maintained and verified during monthly billing cycles. Variations in scope, if any, are managed in consultation with the client.

e. Work Completion and Site Demobilization
Upon completion, the site is cleaned, and a final inspection is conducted by the client. Remaining materials and assets are reallocated or returned. All hired equipment is off-hired, and full settlements are made.

f. Return of Performance Guarantee and Retention Payment
Following successful project completion and issuance of a Completion Certificate by the client, the performance guarantee is returned. The certificate serves as a technical credential for future tenders. After the Defect Liability Period (typically 1–2 years), and subject to no outstanding defects, Retention Money withheld during the project is released by the client.
Private companies can award supply order or works contract without a tender process. They approach the company based on the knowledge gathered about our ongoing projects or existing projects.

OUR STRENGTHS

In-house Experienced Design & Execution Team

Our team is a skilled and experienced group of professionals, capable of designing and engineering a diverse range of complex and innovative infrastructure solutions. We work in the design and construction of high retaining walls, slope stabilization using advanced anchor mesh systems, and numerous other structural projects. Our experience allows us to take on projects of varying complexities, ensuring that each is executed to the standards of quality and safety. Many of our designs undergo rigorous evaluation and approval by renowned institutions such as the Indian Institutes of Technology (IITs) and are further validated by Engineers from the Ministry of Road Transport and Highways (MoRTH). This collaboration with trusted authorities underscores our commitment to adhering to industry practices and regulatory standards, ensuring that our work consistently meets the expectations of our clients and stakeholders.

In addition to traditional engineering solutions, we actively integrate emerging technologies to enhance our capabilities and stay at the forefront of innovation. One such innovation is our proficiency in designing Reinforced Soil Slopes, a modern and sustainable method for stabilizing slopes and improving land use. Furthermore, we have successfully designed and implemented Ash Pond Dyke Stabilization projects, as well as Geomembrane Lining and Drainage Systems, demonstrating our ability to deliver tailored solutions for environmental and structural challenges. Our team's experience in these advanced technologies, combined with a strong track record of successful projects, positions us as a provider of quality, innovative engineering solutions for a wide array of clients.

Manufacturer and Contractor

Our business model is built on a unique combination of manufacturing and contracting, leveraging two complementary strengths. As both a manufacturer and contractor, we produce quality products and utilize them in work contracts. This dual approach allows us to directly supply our products to both government and private sector customers while simultaneously executing projects that incorporate the products we manufacture.

This integrated model not only supports the sale of our products but also enhances our ability to secure specialized work contracts. By using our own manufactured products in these contracts, we gain a competitive advantage, enabling us to deliver tailored solutions that meet the specific needs of our clients. Our ability to seamlessly combine product manufacturing with contract execution strengthens our market position and fosters long-term business growth.

A notable example of this synergy is our successful execution of numerous gabion structure projects, where we have used the products manufactured in our own factories. This approach helps us maintain quality standards, manage costs effectively, and deliver well-aligned solutions to our clients, while also supporting our growth in the market and strengthening our reputation as a dependable and forward-thinking service provider.

Wide Customer base

We have the capability to serve customers across India through our extensive network of marketing and project offices. Our previous technical experience allows us to understand the unique requirements of each project, enabling us to provide comprehensive, single-source solutions for a wide range of technological products. This enables us to offer not only our core products but also various auxiliary items, ensuring we meet all the needs of our clients.

For instance, we are able to supply products like Geogrid, Geotextile, Drainage Geocomposite, and perforated PVC pipes to our gabion customers working on Mechanically Stabilized Earth (MSE) wall projects. Additionally, we offer Anchors and Erosion Control Mats to clients involved in Rockfall Netting and Reinforced GeoMat installations. By providing these products alongside our primary offerings, we streamline the procurement process for our customers, offering them a one-stop solution for all their project needs. This integrated approach strengthens our position in delivering quality, reliable solutions to clients across diverse industries.

Competitive Pricing

We recognize the importance of cost-effectiveness in large-scale infrastructure projects. Through our vertically integrated manufacturing processes, bulk raw material sourcing, and optimized production techniques, we are able to deliver quality gabions and other products at competitive prices. This approach ensures that our clients receive excellent value for their investment while maintaining the standards of quality. By streamlining production and reducing costs, we provide cost-efficient solutions that meet the demands of both budget-conscious and quality-focused clients in the infrastructure sector.

Quality Products

We adhere to stringent quality control protocols at every stage of production, from selecting quality wire and coating materials to the weaving and assembly processes. Each step is carefully monitored to ensure that our gabions and other products meet the high standards of excellence. Our manufacturing process is aligned with international benchmarks, including ASTM, EN, and IS standards, guaranteeing durability, corrosion resistance, and overall structural integrity. By maintaining these rigorous standards, we ensure that our gabions and other products perform reliably in a variety of demanding environments, providing long-lasting solutions for infrastructure projects. This commitment to quality gives our clients confidence in the performance and longevity of our products.

Timely Delivery

In infrastructure and environmental projects, timely delivery is crucial. Through efficient production planning, strong logistics partnerships, and maintaining ready inventory of standard products, we ensure on-time delivery, helping projects stay on track. Our streamlined processes prevent costly delays, enabling smooth project execution. By prioritizing punctuality and reliability, we provide clients with the confidence that their projects will progress as scheduled, minimizing disruptions and ensuring successful outcomes.

One-Stop Solution Provider

We provide a comprehensive solution that includes design consultation, product supply, installation service, and post-project maintenance advice. Our turnkey approach streamlines the entire process, allowing clients to receive a cohesive, all-in-one solution without the need to coordinate with multiple vendors. By offering end-to-end support, we ensure that every aspect of the project is seamlessly managed, delivering both efficiency and quality. This approach simplifies project execution and enhances the overall experience for our clients, ensuring they receive a complete, hassle-free service from start to finish.

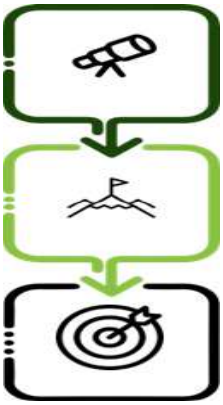
Adoption of New Products & Technologies

We consistently invest in research and development to create innovative gabion systems, such as Sloping Fascia Units with 3D PP Geomat integration to enhance long-term vegetation growth, pre-filled gabions for faster installations, and modular designs for complex structures. By staying in tune with evolving industry needs, we ensure that our clients receive the latest, most efficient solutions. This commitment to innovation enables us to develop reliable, efficient products that address the varied needs of modern infrastructure projects, providing solutions that support improved performance and long-term durability.

SWOT ANALYSIS

Strengths • In-house experienced design and execution team; • Competitive Pricing; • Customized Design solutions; • Major market in close proximity from Factories; • Customer support; • Good quality products; • Timely delivery; • One Stop Solution Provider; • Adoption of new products and technology as per market need.	**Weakness** • Limited financial resources • Limitation in production of allied products • Employing and retaining human resource talent resultant of small size of company
Opportunities • Rising demand for hill slope stabilization solutions; • Widespread adoption of boulder filled gabion boxes in retaining wall construction; • Government initiatives for infrastructure development – Highways, Railways, Dams, River Training works, coastal protection works; • Rising bid capacity and technical qualification of larger and larger tenders; • Production of other major or niche Geosynthetic products; • Capability building in more technological solutions; • Large export potential of our products and services.	**Threats** • Lag in modernization of plant and machinery can reduce competitive edge; • Fluctuations in raw material prices; • Lag in developing products of new specifications that competitors may introduce; • Attrition of talent.

VISION, MISSION AND GOAL



Vision: To bring Ease & Innovation in the field of Geo-synthetics. We are fascinated by the challenges and show courage to exceed limits and break the status quo, which is stepping stone in our success to reinvent ourselves and products. We at GTI maintain harmony with nature while building the country's infrastructure.

Mission: We accept our responsibility for resolving the world's problems, all while providing our customers with engineered solutions that are innovative, advanced and environment-friendly. We are contributing to "SAVE SOIL" and "SAVE PLANET" by continuously improving our manufacturing process and providing geosynthetic products that merge with nature and allow vegetation to grow. We are committed to saving the planet and creating a better future for future generations.

Goal: Our goal is to be a leading provider of high-quality gabion and other geosynthetics products and solutions that enhance infrastructure durability, environmental sustainability, and innovative engineering. We strive to deliver cost-effective, long-lasting, and eco-friendly solutions for constructing high walls and slopes, landslide mitigation, rockfall protection, slope stabilization, slope erosion control, flood protection, and ash pond construction. Through continuous innovation, customer service, and responsible sourcing, we aim to contribute to resilient and sustainable infrastructure development worldwide.

BUSINESS STARTEGY

1. Leveraging Strengths for Growth

- **Expand Market Presence:** Utilize the proximity of major markets to factories to reduce logistics costs and improve delivery efficiency.
- **Enhance Customization & Innovation:** Continue to provide tailored design solutions and integrate new technologies to meet evolving market needs.
- **Strengthen Customer Engagement:** Offer exceptional customer support with after-sales service, technical guidance, and within a week delivery.
- **Ensure Consistent Quality & Timely Delivery:** Maintain strict quality control processes before dispatch, get NABL certification done for In house lab and optimize supply chain management to meet deadlines.
- **Position as a One-Stop Solution Provider:** Expand Geosynthetics product offerings to include complementary geotechnical solutions such as Ground improvement using PVD and Coastal erosion protection using Geotextile Tubes.

2. Addressing Weaknesses for Competitive Advantage

- **Financial Strengthening:** Going for IPO to fund sources to enhance financial stability.
- **Expand Product Line:** Introduce allied products line for example 3D Concrete Geomat to reduce dependency and provide customers with a comprehensive range of solutions.
- **Talent Acquisition & Retention:** Develop internal training programs, collaborate with universities for internships, and offer performance-based incentives to attract and retain top talent.
- **Optimize Production Costs:** Invest in process automation, strategic procurement, and waste reduction measures to lower production costs.
- **Reduce Lead Time:** Implement lean manufacturing and just-in-time (JIT) inventory strategies to improve efficiency.

3. Capitalizing on Market Opportunities

- **Tap into Growing Infrastructure Projects:** Actively participate in subcontracting works related to highways, railways, dams, and coastal protection projects.
- **Expand into Emerging Markets:** Strengthen presence in high-growth regions like Gujarat and Kerala while exploring export opportunities.
- **Develop Eco-Friendly Solutions:** Invest in research for green infrastructure solutions like bio-engineering applications and environmentally sustainable solutions.
- **Collaboration & Technology Integration:** Partner with technology providers to incorporate early warning systems for landslides and digital monitoring solutions.
- **Increase Bid Capacity & Technical Qualifications:** Work towards acquiring higher-level certifications and pre-qualifications to bid for larger projects.

4. Mitigating Threats & Ensuring Long-Term Sustainability

- **Stay Ahead of Competition:** Continuously upgrade machinery and production techniques to maintain a competitive edge over local and international players.

- **Manage Raw Material Costs:** Diversify supplier base, negotiate long-term contracts, and explore alternative materials to counter price fluctuations.
- **Compliance & Regulatory Adaptation:** Proactively stay updated on regulatory changes and adjust production standards to meet new compliance requirements.
- **Develop New Product Variants:** Invest in R&D to introduce CE-marked and ETAG-compliant products to match evolving customer preferences.
- **Expand Product Portfolio to Reduce Market Saturation Risks:** Focus on diversifying offerings to mitigate the impact of saturation in certain product segments.
- **Retain First-Mover Advantage:** Accelerate product development cycles to introduce innovative solutions before competitors.
- **Talent Retention Strategies:** Build a strong organizational culture, provide skill development opportunities, and implement retention incentives to reduce attrition.

5. Implementation Plan & Roadmap

- **Short-Term (0-6Months)**
  - Identify and develop partnerships for funding and technological collaborations.
  - Strengthen supply chain management to reduce lead time and production costs.
  - Initiate skill development and employee engagement programs.

- **Medium-Term (6-18 Months)**
  - Expand product offerings to include allied geosynthetic solutions.
  - Upgrade plant and machinery to improve efficiency and competitiveness.
  - Increase participation in larger tenders and government projects.
  - Enter new geographical markets (e.g., Gujarat, Kerala).

- **Long-Term (18+ Months)**
  - Develop in-house R&D capabilities to drive innovation in eco-friendly infrastructure.
  - Establish an export-oriented business model for global expansion.
  - Focus on automation and digital transformation for future-ready manufacturing.

RESEARCH AND DEVELOPMENT

Our Product Research & Development (R&D) division is committed to advancing the technology of gabions and allied products through innovation, sustainability, and performance-driven solutions. We focus on enhancing the durability, efficiency, and adaptability of gabions and DT Mesh Netting, Hi Tensile Rockfall Netting, 3D PP Geomat, Reinforced Geomat etc. to meet the evolving demands of modern infrastructure. Our research emphasizes material innovation by developing high-strength, corrosion-resistant coatings and exploring eco-friendly materials for increased longevity. We continuously optimize our product designs to improve tensile strength and flexibility, utilizing computational modeling and real-world testing to ensure structural integrity under extreme conditions.

Sustainability remains at the core of our R&D efforts, where we explore materials with lower carbon footprint to create environmentally responsible solutions. We develop products that will enhance growth of vegetation after installation in the project and help in the integration with nature to improve ecological impact while maintaining structural performance. Additionally, we are integrating smart technology and automation into our designs for precision engineering and cost efficiency. The development of modular and prefabricated gabion systems ensures faster and more reliable installations.

By developing hybrid gabion solutions for architectural and infrastructure applications, the company is exploring new possibilities beyond traditional engineering practices. For example, traditionally boundary walls were made on concrete foundations. But the company has designed and built a gabion retaining wall on top of which a boundary wall of modular concrete structure is built. This has been implemented at one of our customer sites, at Haryoli.

These hybrid systems combine the structural reliability of conventional gabions with modern materials and design approaches, allowing for greater flexibility in both function and form. In architectural contexts, hybrid gabions can serve not only as structural elements but also as visually appealing design features that blend seamlessly into natural or urban landscapes. The company has built a gabion façade wall at one of of our customer sites, at Jamnagar.

For infrastructure projects, they offer enhanced performance in terms of stability, drainage, and environmental integration. This approach allows the company to address complex project requirements such as load-bearing capacity, erosion control, and aesthetic appeal within a single, adaptable solution. By adopting this innovative direction, they contribute to more sustainable and context-sensitive developments, aligned with evolving industry needs.

Our innovations extend to application-specific solutions, customizing gabion systems for riverbank protection, slope stabilization, retaining walls, and urban landscaping. By pioneering hybrid gabion solutions for architectural and infrastructure applications, we push the boundaries of conventional engineering. Through continuous research and technological advancements, our company is achieving higher standards of engineering in gabion structures, ensuring sustainable and resilient infrastructure that harmonizes

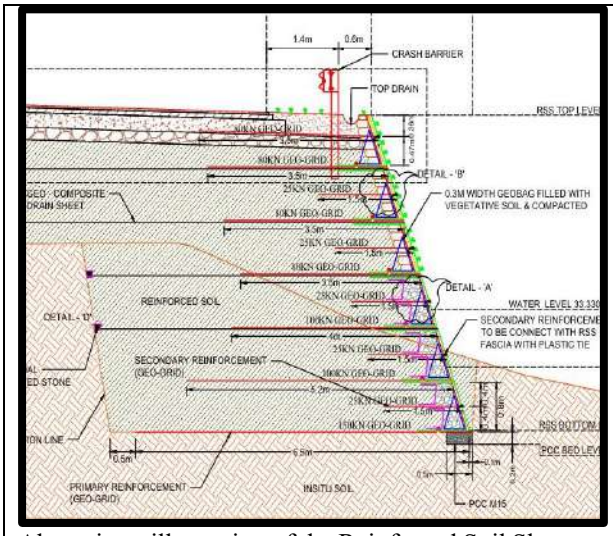
with nature while exceeding industry standards ensuring sustainable and resilient infrastructure that harmonizes with nature and aligns with recognized industry practices. Following are the details of expenses incurred by company in past three financial years in research and development:

(Amount in Lakhs)

Particulars	As at November 30, 2025	As on March 31, 2025	As on March 31, 2024	As on March 31, 2023
Research and Development Expenses	4.40	4.09	10.02	10.46

The Company has incurred an expenditure of Rs. 2.18 lakhs towards website development and product testing. It is important to clarify that this expenditure does not pertain to routine website maintenance but is directly related to the development of new features and functionalities that were not previously available. The upgrade involved transitioning from a static HTML-based website to a dynamic platform built on WordPress. This shift was necessitated by the evolving needs of the business, particularly the requirement for a user-friendly content management system that supports frequent content updates, scalability, and enhanced user experience across various devices. WordPress also offers access to a broad ecosystem of plugins and themes, contributing to a more versatile and mobile-responsive website.

Apart from the Product R&D of our manufacturing, we also have a division for R&D of allied products, technologies and designs. We continuously research the structures we design with our products to innovate and improve. Every time we execute a new project, we bring one or another innovation in the previously implemented system. For instance, we are bringing innovation in the bodkin joint of our Gabion fascia Geogrid Reinforced Earth Wall system. We have innovated new systems like our Sloping Fascia Reinforced Soil Slope. Further, we work with reputed institutions like IIT's and CRRI to conduct lab testing and field trials of various products to understand their interaction with soil and with each other, and we use the results to improve the input data of our designs.



Above is an illustration of the Reinforced Soil Slope we are uniquely designing for the road embankment of Birpur - Bihpur section of NH-106 in the state of Bihar. Design is with the inputs from CRRI.

ATTRITION RATE AND TRAINING

In comparison of average attrition rate our company's attrition rate for the period ended on November 30, 2025 was 26.19% in comparison of FY 2024-25 was 55%, for FY 2023-24 was 45% and in the FY 2022-23 was 39%. We have established robust recruitment policies and primarily hire individuals with engineering or management qualifications to ensure high workforce quality. In order to retain talent and enhance employee motivation, we offer performance-linked incentives. Additionally, we provide structured training programs tailored to employees' qualifications and specific job requirements, supporting their professional development and aligning their skills with organizational needs.

RAW MATERIALS

Gabion manufacturing requires high-quality raw materials to ensure durability, strength, and resistance to environmental conditions. The primary material is steel wire, which is commonly galvanized to prevent corrosion. Depending on the application, manufacturers use hot-dip galvanized, PVC-coated, or zinc-aluminum (Galfan) coated wire to enhance longevity. The wire is then woven into hexagonal mesh or welded into rigid panels, depending on the structural requirements.

For structural reinforcement and stability, fastening accessories such as lacing wire, C-rings, U-clips, and spirals are used to assemble gabion baskets securely. Gabions are also made from Poly Propylene rope. These ropes are made from PP threads. These are specified for underwater applications due to immunity against corrosion.

The final gabion product is designed to be filled with natural stone or recycled concrete aggregates, sand or soil filled Geotextile bags depending on availability of fill material and project requirements. Our defence Gabions are manufactured with a non-woven plastic geotextile for the confinement of the sand fill used and the application is by India Army in erecting bullet protection walls in frontier locations. The selection of high-quality raw materials in gabion manufacturing directly impacts the lifespan and performance of the structure in civil engineering, erosion control, defence, and landscaping applications.

The hi-tensile Rockfall Protection Nettings are made from Steel Wire Ropes of high tensile strength. The Steel Wires Ropes are made from Steel wires and a PP fibre or a Steel core. The individual steel wire is hot-dip galvanized, or zinc-aluminium coated to enhance longevity. The Steel Wire ropes are formed into nets of rectangular or rhomboidal shaped apertures. The structural integrity is maintained by clipping together wire rope intersections hydraulically.

UTILITIES

Water - Water requirement for each of our project is fulfilled from the nearby local area. If water is not readily available in nearby local area, we arrange to get the same from borewells or we hire water tankers to meet the water requirements of our project.

Power - Power requirement for our business is sourced from their respective state grids or normal power distribution channel to meet the power requirements. Additionally, to ensure uninterrupted power supply, we also use diesel generators as back-up.

MARKETING & DISTRIBUTION

We execute projects taken through bidding / tendering process and/or through the relationship developed by our Promoters aptly supported by Senior Management team with renowned public / government / private companies. The efficiency of the marketing and sales network is critical to the success of our Company. Our backbone of the business is the strength of relationship driven by our Promoters with customers/stakeholders that are associated with our Company. Our team through their experience and traditional word of mouth / reference based marketing, owing to timely and quality delivery of work orders, plays an instrumental role in creating and expanding a platform for our Company. Government and other clients typically advertise potential projects in leading national newspapers or on their websites. Our team regularly scans through emails, related newspapers and websites to identify projects that could be of interest to us. We evaluate bid opportunities and decides whether we should pursue a particular project based on various factors, including the client's reputation and financial strength, the geographic location of the project and the degree of difficulty in executing the project in such location, our current and projected workload, the likelihood of additional work, the project's cost and profitability estimates and our competitive advantage relative to other likely bidders.

INFORMATION TECHNOLOGY

Our resources, personnel, equipment and finances are efficiently and optimally utilized. We use information technology systems to enhance our performance and efficiency. We use third party software Tally, ERP and other related to project management to enable us utilize the resources efficiently and effectively. We believe that this system allows us to streamline our processes while enhancing our monitoring and control functions.

QUALITY MANAGEMENT

We strive to ensure that quality standard is maintained at all stages of our project and at the same time reduce cost through effective and efficient use of resources. In executing the projects, we monitor and test all materials for conformity, track non- conformities

and make rectifications to ensure clients satisfaction. COMPETITION

We operate in a competitive atmosphere where we face competition from other construction companies and Gabion and geosynthetics products manufacturers. Our competition depends on various factors, such as the type of project, total contract value, potential margins, the complexity, location of the projects and risks relating to revenue generation. While service quality, technical ability, performance record, experience, health and safety records and the availability of skilled personnel are key factors in client decisions among competitors, price often is the deciding factor in most tender awards. Some of our competitors may have greater resources than those available to us. We believe that we majorly face competition from other construction companies which operate in the same geographies as us. KEY REGULATIONS AND POLICIES IN INDIA

*In carrying on our business as described in the section titled "**Our Business**" on page 117, our Company is regulated by the following legislations in India. The following description is a summary of the relevant regulations and policies as prescribed by the Government of India and other regulatory bodies that are applicable to our business. The information detailed in this chapter has been obtained from the various legislations, including rules and regulations promulgated by the regulatory bodies and the bye laws of the local authorities that are available in the public domain. The regulations and policies set out below may not be exhaustive and are only intended to provide general information to the investors and are neither designed nor intended to be a substitute for professional legal advice. For details of Government Approvals obtained by the Company in compliance with these regulations, see "**Government and Other Statutory Approvals**" on page 246.*

Our business is governed by various central and state legislations that regulate the substantive and procedural aspects of our Company's businesses. Our Company is required to obtain and regularly renew certain licenses/ registrations and/or permissions required statutorily under the provisions of various Central and State Government regulations, rules, bye-laws, acts and policies.

Given below is a brief description of the certain relevant legislations that are currently applicable to the business carried on by our Company:

A. Industry Related Laws

The Factories Act of 1948 ("Factories Act")

The Factories Act was enacted to protect the welfare of workers in a factory by regulating employment conditions, working conditions, the working environment, and other welfare requirements of specific industries. The Factories Act lays out guidelines and safety measures for using machinery, and with its strict compliance, it also provides owners with instructions. When factory workers were taken advantage of and exploited by paying them low wages, the Factories Act was passed.

Electricity Act, 2003

The Electricity Act, 2003 has been recently introduced with a view to rationalize electricity tariff; and to bring about transparent policies in the sector. The Act provides for private sector participation in generation, transmission and distribution of electricity, and provides for the corporatization of the state electricity boards. The related Electricity Regulatory Commissions Act, 1998 has been enacted with a view to confer on these statutory Commissions the responsibility of regulating this sector.

The Central Electricity Authority (Measures Relating to Safety & Electric Supply) Regulation, 2010 and amendments thereto (the "Regulations")

These regulations were framed with the aim to regulate the process and mechanism of installation of electrical grids, transmission lines, distribution lines and other infrastructural set ups for production, transmission and distribution of electricity and to ensure safety measures of the contractors and public. These regulations regulate the mechanism of granting of Licenses to electrical service providers i.e. turnkey project operators, contractors engineers and like for infrastructure developers and other projects. Central Electricity Authority (Measures relating to Safety and Electric Supply) Regulations, 2010 and Rajasthan Electrical Inspectorate (Formation of Technical Committee and Grant of competency certificate to work and permit to work) Rules, 2016 (the "Rules") The Rules were framed under regulation 29 of the Central Electricity Authority (Measures relating to Safety and Electric Supply) Regulations, 2010 for granting license to work as Electrical Contractor, Supervisor, Wireman, and Chartered Electrical Safety Engineer for Electrical Installation Works on the fulfilment of eligibility conditions. It also covers the electrical installation works that can be undertaken by the contractor in the State of Rajasthan along with the application procedure.

National Steel Policy, 2017 ("NSP")

The NSP 2017, notified on May 8, 2017, seeks to enhance domestic steel consumption, ensure high quality steel production, and create a technologically advanced and globally competitive steel industry in India. As per the NSP 2017, the Ministry of Steel will facilitate research and development in the sector, through the establishment of the Steel Research and Technology Mission of India (SRTMI). The initiative is aimed to spearhead research and development of national importance in the iron and steel sector, by utilizing tripartite synergy amongst industry, national research and development laboratories and academic institutes. The NSP 2017 covers, inter alia, steel demand, steel capacity, raw materials, including iron ore, iron ore pellets, manganese ore, chromite ore, ferro-alloys, land, water, power, infrastructure and logistics, and environmental management. Through policy measures the Ministry of Steel will ensure availability of raw materials such as iron ore, coking coal, natural gas, etc. at competitive rates. The NSP 2017 envisions that in the steel industry, an environment will be created to promote domestic steel and thereby create a scenario where production meets the anticipated pace of growth in consumption, through technologically advanced and globally competitive steel industry.

Bureau of Indian Standards Act, 2016("BIS Act")

The BIS Act provides for the establishment of the Bureau of Indian Standards ("BIS") for the harmonious development of the activities of standardisation, conformity assessment and quality assurance of goods, articles, processes, systems and services. The BIS Act for the functions of the BIS which includes, among others, (a) recognizing as an Indian standard,

any standard established for any article or process by any other institution in India or elsewhere; (b) specifying a standard mark which shall be of such design and contain such particulars as may be prescribed to represent a particular Indian standard; and (c) undertake testing of samples for purposes other than for conformity assessment and (d) undertake activities related to legal metrology. The BIS Act empowers the Central Government in consultation with the BIS to order compulsory use of standard mark for any goods or process if it finds it expedient to do so in public interest. The BIS Act also provides the penalties in case there is a contravention of the provisions of the BIS Act.

Steel and Steel Products (Quality Control) Order, 2024 ("QC Order")

The QOC Order was notified by the Ministry of Steel, Government of India, vide Gazette Notification No. S.0 574(E) dated February 5, 2024 to bring certain steel products under mandatory BIS certification. All manufacturers of steel and steel products are required to apply for certification and ensure compliance with the OC Order. The OC Order further provides that every steel and steel product stated therein shall bear the standard mark under a license from BIS, as provided in the Bureau of Indian Standards (Conformity Assessment) Regulations, 2018.

B. Laws Relating to Employment

The various labour and employment related legislation that may apply to our operations, from the perspective of protecting the workers' rights and specifying registration, reporting and other compliances, and the requirements that may apply to us as an employer, would include, among others, the following: (i) Contract Labour (Regulation and Abolition) Act, 1970; (ii) Relevant state specific shops and commercial establishment legislations; (iii) Employees' Provident Funds and Miscellaneous Provisions Act, 1952; (iv) Employees' State Insurance Act, 1948; (v) Minimum Wages Act, 1948; (vi) Payment of Bonus Act, 1965; (vii) Payment of Gratuity Act, 1972; (viii) Payment of Wages Act, 1936; (ix) Maternity Benefit Act, 1961; (x) Apprenticeship Act, 1961; (xi) Equal Remuneration Act, 1976; (xii) Employees' Compensation Act, 1923; and (xiii) Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 In order to rationalize and reform labour laws in India, the Government has enacted the following codes, which will be brought into force on a date to be notified by the Central Government:

Code on Wages, 2019

The Code on Wages regulates and amalgamates wage and bonus payments and subsumes four existing laws namely –the Payment of Wages Act, 1936, the Minimum Wages Act, 1948, the Payment of Bonus Act, 1965 and the Equal Remuneration Act, 1976. It regulates, inter alia, the minimum wages payable to employees, the manner of payment and calculation of wages and the payment of bonus to employee. The Central Government has notified certain provisions of the Code on Wages, mainly in relation to the constitution of the central advisory board.

The Occupational Safety, Health and Working Conditions Code, 2020

The Occupational Safety, Health and Working Conditions Code consolidates and amends the laws regulating the occupational safety and health and working conditions of the persons employed in an establishment. It replaces 13 old central labour laws including the Factories Act, 1948, Contract Labour (Regulation and Abolition) Act, 1970, the Building and Other Construction Workers (Regulation of Employment and Conditions of Service) Act, 1996 and the Inter-State Migrant Workmen (Regulation of Employment and Conditions of Service) Act, 1979.

The Code on Social Security, 2020

This Code received the assent of President of India on September 28, 2020, though the implementation of the same is yet to be notified. The Code aims to provide better social security benefits such as provident fund, insurance, and gratuity to workers. It extends the reach of the Employees' State Insurance Corporation and the Employees' Provident Fund Organization (which regulate benefits such as provident fund, insurance, pension, etc.) to the workers in the unorganized sector and the platform and gig workers. The Code further stipulates gratuity benefit for fixed term employees without any condition for a minimum service period as envisaged under the current regime. The Code subsumes nine (9) labour laws relating to social security, namely, the Employees' Compensation Act, 1923, the Employees' State Insurance Act, 1948, the Employees' Provident Funds and Miscellaneous Provisions Act, 1952, the Employment Exchanges (Compulsory Notification of Vacancies) Act, 1959, the Maternity Benefit Act, 1961, the Payment of Gratuity Act, 1972, the Cine-Workers Welfare Fund Act, 1981, the Building and Other Construction Workers' Welfare Cess Act, 1996 and the Unorganized Workers Social Security Act, 2008.

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 ("SHWW Act")

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 provides for the protection of women at workplace and prevention of sexual harassment at workplace. The Act also provides for a redressal mechanism to manage complaints in this regard. Sexual harassment includes one or more of the following acts or behaviour namely, physical contact and advances or a demand or request for sexual favours or making sexually colored remarks, showing pornography or any other unwelcome physical, verbal, or non-verbal conduct of sexual nature. The Act makes it mandatory for every employer of a workplace to constitute an Internal Complaints Committee which shall always be presided upon by a woman. It also provides for the manner and time period within which a complaint shall be made to the Internal Complaints Committee i.e., a written complaint is to be made within a period of 3 (three) months from the date of the last incident. If the establishment has less than 10 (ten) employees, then the complaints from employees of such

establishments as also complaints made against the employer himself shall be received by the Local Complaints Committee. The penalty for non-compliance with any provision of the SHWW Act shall be punishable with a fine extending to Rs. 50,000/- (Rupees Fifty Thousand Only).

C. Environmental Laws

The Environment (Protection) Act, 1986 (the "EPA")

The EPA has been enacted with the objective of protecting and improving the environment and for matters connected therewith. As per the EPA, the Central Government has been given the power to take all such measures for the purpose of protecting and improving the quality of the environment and to prevent environmental pollution. Further, the Central Government has been given the power to give directions in writing to any person or officer or any authority for any of the purposes of the EPA, including the power to direct the closure, prohibition or regulation of any industry, operation or process.

The Environmental Impact Assessment Notification, 2006 (the "Notification")

As per the Notification, any construction of new projects or activities or the expansion or modernisation of existing projects or activities as listed in the Schedule attached to the notification entailing capacity addition with change in process and or technology can be undertaken only after the prior environmental clearance from the Central government or as the case may be, by the State Level Environment Impact Assessment Authority, duly constituted by the Central government under the provisions of the Environment (Protection) Act, 1986, in accordance with the procedure specified in the notification. The environmental clearance process for new projects comprises of four stages viz. screening, scoping, public consultation and appraisal. However, in 2016, MoEF issued a notification for integrating standard and objectively monitorable environmental conditions with building permissions for buildings of different sizes with rigorous monitoring mechanism for implementation of environmental concerns and obligations in building projects. This is in line with the objective of the Central government to streamline the permissions for buildings and construction sector so that affordable housing can be provided to weaker sections in urban area under the scheme 'Housing for All by 2022'and is proposing to remove the requirement of seeking a separate environment clearance from the MoEF for individual buildings having a total build up area between 5,000 square metre and 150,000 square metre, apart from adhering to the relevant bye-laws of the concerned State authorities.

The Water (Prevention and Control of Pollution) Act, 1974 (the "Water Act") and Air (Prevention and Control of Pollution) Act, 1981 ("Air Act")

The Water Act prohibits the use of any stream or well for the disposal of polluting matter, in violation of the standards set out by the concerned PCB. The Water Act also provides that the consent of the concerned PCB must be obtained prior to opening of any new outlets or discharges, which are likely to discharge sewage or effluent. Air (Prevention and Control of Pollution) Act, 1981 (the "**Air Act**") The Air Act requires that any industry or institution emitting smoke or gases must apply in a prescribed form and obtain consent from the state PCB prior to commencing any activity. The state PCB is required to grant, or refuse, consent within four months of receipt of the application. The consent may contain conditions relating to specifications of pollution control equipment to be installed.

Municipal Solid Wastes (Management and Handling) Rules, 2000 ("Waste Management Rules, 2000") as superseded by Solid Waste Management Rules, 2016 ("Waste Management Rules, 2016")

The Waste Management Rules, 2000 applied to every municipal authority responsible for collection, segregation, storage, transportation, processing and disposal of municipal solid wastes. Any municipal solid waste generated in a city or a town was required to be managed and handled in accordance with the compliance criteria and the procedure laid down in Schedule II of the Waste Management Rules, 2000. The Waste Management Rules, 2000 made the persons or establishments generating municipal solid wastes responsible for ensuring delivery of wastes in accordance with the collection and segregation system as notified by the municipal authority. The Waste Management Rules, 2000 have been superseded by the Waste Management Rules, 2016 which stipulate various duties of waste generators which, inter alia, include segregation and storage of waste generated by them in the manner prescribed in the Waste Management Rules, 2016; separate storage of construction and demolition waste and payment of user fee for solid waste management as specified in the bye-laws of the local bodies.

D. Intellectual Property Laws

The Trademarks Act, 1999 ("Trademarks Act")

Under the Trademarks Act, a trademark is a mark capable of being represented graphically and which is capable of distinguishing the goods or services of one person from those of others used in relation to goods and services to indicate a connection in the course of trade between the goods and some person having the right as proprietor to use the mark. Section 18 of the Trademarks Act requires that any person claiming to be the proprietor of a trademark used or proposed to be used by him, must apply for registration in writing to the registrar of trademarks. The right to use the mark can be exercised either by the registered proprietor or a registered user. E. Foreign Investment Regulations

The foreign investment in India is governed, among others, by the Foreign Exchange Management Act, 1999, the Foreign Exchange Management (Non-debt Instruments) Rules, 2019 ("FEMA Rules") and the consolidated FDI policy (effective from October 15, 2020) issued by the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (earlier known as the Department of Industrial Policy and Promotion ("**FDI Policy**"), each as amended. Further, the Reserve Bank of India has enacted the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 on October 17, 2019 which regulates mode of payment and remittance of sale proceeds, among others. The FDI Policy and the FEMA Rules prescribe inter alia the method of calculation of total foreign investment (i.e. direct foreign investment and indirect foreign investment) in an Indian company.

Foreign Trade (Development and Regulation) Act, 1992 ("FTDRA"), the Foreign Trade (Regulation) Rules, 1993 ("FTRR") and the Foreign Trade Policy 2015-2020 ("Foreign Trade Policy")

The FTDRA provides for the development and regulation of foreign trade by facilitating imports into, and augmenting exports from, India. The FTDRA empowers the Central Government to formulate and amend the foreign trade policy. The FTDRA prohibits any person from making an import or export except under an Importer-exporter Code Number ("**IEC**") granted by the director general or any other authorised person in accordance with the specified procedure. The IEC may be suspended or cancelled if the person who has been granted such IEC contravenes, amongst others, any of the provisions of the FTDRA, or any rules or orders made thereunder, or the foreign policy or any other law pertaining to central excise or customs or foreign exchange. The FTDRA also prescribes the imposition of penalties on any person violating its provisions. The FTRR prescribes the procedure to make an application for grant of a license to import or export goods in accordance with the foreign trade policy, the conditions of such license, and the grounds for refusal of a license. The FTDRA empowers the Central Government to, from time to time, formulate and announce the foreign trade policy. The Foreign Trade Policy came into effect in 2017 and requires all importers and exporters to obtain an IEC. Further, pursuant to the policy, the Director General of Foreign Trade may impose prohibitions or restrictions on the import or export of certain goods, for reasons including the protection of public morals, protection of human, animal or plant life or health, and the conservation of national resources. The Foreign Trade Policy also prescribes restrictions on imports or exports in relation to specific countries, organisations, groups, individuals or products. The Foreign Trade Policy also provides for various schemes, including the export promotions capital goods scheme and duty exemption/remission schemes. India's current Foreign Trade Policy (2015-20) (as extended until September 30, 2022 and thereafter, extended till March 31, 2023) envisages helping exporters leverage benefits of GST, closely monitoring export performances, increasing ease of trading across borders, increasing realization from India's agriculture-based exports and promoting exports from MSMEs and labour-intensive sectors.

Foreign Exchange Management Act, 1999 ("the FEMA") and Rules and Regulations thereunder

Export of goods and services outside India is governed by the provisions of the Foreign Exchange Management Act, 1999, read with the applicable regulations. The Foreign Exchange Management (Export of goods and services) Regulations, 2000 have been superseded by the Foreign Exchange Management (Export of Goods and Services) Regulations, 2015 ("**Export of Goods and Services Regulations 2015**") issued by the RBI on January 12, 2016 (last amended on June 23, 2017). The RBI has also issued a Master Circular on Export of Goods and Services. The export is governed by these Regulations which make various provisions such as declaration of exports, procedure of exports as well as exemptions.

F. Other Applicable Laws

The Micro, Small and Medium Enterprises Development Act, 2006 ("MSMED Act")

The MSMED Act, was enacted to promote and enhance the competitiveness of Micro, Small and Medium Enterprise ("**MSME**"). 2. SIGNIFICANT ACCOUNTING POLICIES

2.01 BASIS OF ACCOUNTING AND PREPARATION OF CONSOLIDATED RESTATED FINANCIAL STATEMENTS

The restated summary statement of consolidated assets and liabilities of the Company as at November 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023 and the related restated summary statement of consolidated profits and loss and cash flows for the period/year ended November 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023 (herein collectively referred to as ("Restated Summary Statements") have been compiled by the management from the audited consolidated Financial Statements of the Company for the period/year ended on November 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023 approved by the Board of Directors of the Company. Restated Summary Statements have been prepared to comply in all material respects with the provisions of Part I of Chapter III of the Companies Act, 2013 (the "Act") read with Companies (Prospectus and Allotment of Securities) Rules, 2014, Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 ("ICDR Regulations") issued by SEBI and Guidance note on Reports in Companies Prospectuses (Revised 2019) ("Guidance Note"). Restated Summary Statements have been prepared specifically for inclusion in the offer document to be filed by the Company with the BSE in connection with its proposed SME IPO. The Company's management has recast the Financial Statements in the form required by Schedule III of the Companies Act, 2013 for the purpose of restated Summary Statements.

The financial statements of the Company have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards specified under Section 133 of the Companies Act, 2013 and the relevant provisions of the Companies Act, 2013 ("the 2013 Act"), as applicable. The financial statements have been prepared on accrual basis under the historical cost convention. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

Accounting policies not specifically referred to otherwise are consistent and in consonance with generally accepted accounting principles in India.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has determined its operating cycle as twelve months for the purpose of current – non-current classification of assets and liabilities.

The financial statements of the Company and its subsidiary companies have been combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after fully eliminating intra- group balances and intra-group transactions resulting in unrealized profits or losses as per Accounting Standard 21 – "Consolidated Financial Statements" notified by Companies (Accounting Standards) Rules, 2021.

Minority Interest in the net assets of consolidated subsidiaries is identified and presented in the Consolidated Balance Sheet separately from liabilities and equity of the Company's shareholders. Minority interest in the net assets of consolidated subsidiaries consists of:
a. The amount of equity attributable to minority at the date on which investment in a subsidiary is made; and b. The minority share of movements in equity since the date the parent subsidiary relationship came into existence. Minority's share of net profit for the year of consolidated subsidiaries is identified and adjusted against the Profit After Tax of the Group

ANNEXURE IV: CORPORATE INFORMATION, SIGNIFICANT ACCOUNTING POLICIES, RECONCILIATION OF NET PROFIT/(LOSS) AND RECONCILIATION OF NETWORTH

2.02 USE OF ESTIMATES

The preparation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialise.

2.03 PROPERTY, PLANT & EQUIPMENT AND INTANGIBLE ASSETS

(i) Property, Plant & Equipment

All Property, Plant & Equipment are recorded at cost including taxes(Excluding recoverable in nature), duties, freight and other incidental expenses incurred in relation to their acquisition and bringing the asset to its intended use.

(ii) Intangible Assets

Intangible Assets are stated at acquisition cost, net of accumulated amortization and accumulated impairment losses, if any.

2.04 DEPRECIATION / AMORTISATION

Depreciation on fixed assets is calculated on a Straight line method using the rates arrived at based on the useful lives estimated by the management, or those prescribed under the Schedule II to the Companies Act, 2013.

Intangible assets including internally developed intangible assets are amortised over the year for which the company expects the benefits to accrue.

Intangible assets are amortized on straight line method basis over 6 years in pursuance of provisions of AS-26.

In case of Nepal subsidiary company , depreciation on fixed assets and Amortisation of intangible assets is calculated on a Straight line method using the rates arrived at based on the useful lives estimated by the management, as stated below :

Asset Category	**Useful Life**
Building	20 Years
Plant & Machinery	7 Years
Furniture & Fixtures	4 Years
Office Equipments	4 Years
Vehicle	5 Years
Intangible Assets	5 Years

2.05 INVENTORIES

Inventories of raw materials, components, stores and spares are valued at lower of cost (net of recoverable taxes) and net realizable value. Cost for the purpose of valuation of such inventories is determined using the first-in, first-out (FIFO) method. Net realizable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated cost necessary to make the sale.

Finished goods and work-in-progress are valued at lower of cost and net realizable value. The cost of finished goods and work-in-progress includes raw material costs (net of recoverable taxes), direct cost of conversion and proportionate allocation of indirect costs incurred in bringing the inventories to their present location and condition.

Stock-in-trade are valued at lower of cost (net of recoverable taxes) and net realizable value. The provision for inventory obsolescence is assessed regularly based on estimated usage and shelf life of inventory

2.06 IMPAIRMENT OF ASSETS

An asset is treated as impaired when the carrying cost of asset exceeds its recoverable value. Recoverable amount is the higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of the asset and from its disposal at the end of its useful life. Net selling price is the amount obtainable from sale of the asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting periods is reversed if there has been a change in the estimate of the recoverable value.

ANNEXURE IV: CORPORATE INFORMATION, SIGNIFICANT ACCOUNTING POLICIES, RECONCILIATION OF NET PROFIT/(LOSS) AND RECONCILIATION OF NETWORTH

2.07 INVESTMENTS:

Non-current investments are carried at cost less any other-than-temporary diminution in value, determined on the specific identification basis. Profit or loss on sale of investments is determined as the difference between the sale price and carrying value of investment, determined individually for each investment. Cost of investments sold is arrived using average method.

Current Investments are carried at cost or fair value whichever is lower. The Company has followed category-wise evaluation of cost vs fair value of investments. Provision for diminution in the value of investments has been recorded wherever there is a decline in fair-value of investments. Profit or loss on sale of investments is determined as the difference between the sale price and carrying value of investment, determined individually for each investment. Cost of investments sold is arrived using average method.

2.08 FOREIGN CURRENCY TRANSLATIONS

Income and expense in foreign currencies are converted at exchange rates prevailing on the date of the transaction. Any income or expense on account of exchange difference either on settlement or on translation at the balance sheet date is recognized in Profit & Loss Account in the year in which it arises.

2.09 BORROWING COSTS

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are recognised in Statement of Profit and Loss in the period in which they are incurred.

2.10 PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

Provision involving substantial degree of estimation in measurement is recognized when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent liabilities are not recognized but are disclosed in the notes. Contingent assets are neither recognized nor disclosed in the financial statements.

2.11 REVENUE RECOGNITION

Revenue from sale of goods is recognised when the goods are dispatched to the customer which coincides with the transfer of risk and rewards in the goods. The sales are recorded at invoice value, net of taxes.
Revenue from services is recognised proportionately by reference to the performance of each act. Revenue is only recognized when it can be reasonably measurable and at the time of rendering of the services it would not be unreasonable to expect ultimate collection.

2.12 OTHER INCOME

Interest Income on fixed deposit is recognized on time proportion basis. Other Income is accounted for when right to receive such income is established.

2.13 TAXES ON INCOME

Income taxes are accounted for in accordance with Accounting Standard (AS-22) – "Accounting for taxes on income", notified under Companies (Accounting Standards) Rules, 2021. Income tax comprises of both current and deferred tax.
Current tax is measured on the basis of estimated taxable income and tax credits computed in accordance with the provisions of the Income Tax Act, 1961.

Income taxes of the subsidiaries are accounted for in accordance with Accounting Standard (AS-22) – "Accounting for Taxes on Income", notified under the Companies (Accounting Standards) Rules, 2021. Current tax expense of each subsidiary has been recognized as per the income tax laws applicable in the country of the entity.

The tax effect of the timing differences that result between taxable income and accounting income and are capable of reversal in one or more subsequent periods are recorded as a deferred tax asset or deferred tax liability. They are measured using substantially enacted tax rates and tax regulations as of the Balance Sheet date.

Deferred tax assets arising mainly on account of brought forward losses and unabsorbed depreciation under tax laws, are recognized, only if there is virtual certainty of its realization, supported by convincing evidence. Deferred tax assets on account of other timing differences are recognized only to the extent there is a reasonable certainty of its realization.

ANNEXURE IV: CORPORATE INFORMATION, SIGNIFICANT ACCOUNTING POLICIES, RECONCILIATION OF NET PROFIT/(LOSS) AND RECONCILIATION OF NETWORTH

2.14 LEASES

Leases, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased items, are classified as operating leases. Operating lease payments are recognized as an expense in the statement of Profit and Loss on systematic basis over the lease term.

2.15 CASH AND BANK BALANCES

Cash and cash equivalents comprises Cash-in-hand, Current Accounts, Fixed Deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value. Other Bank Balances are short-term balance (with original maturity is more than three months but less than twelve months).

2.16 EARNINGS PER SHARE

Basic earning per share is computed by dividing the profit/ (loss) after tax (including the post tax effect of extraordinary items, if any) by the weighted average number of equity share outstanding during the year. Diluted earning per share is computed by dividing the profit/ (loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

2.17 EMPLOYEE BENEFITS

Defined Contribution Plan:

Contributions payable to the recognised provident fund, which is a defined contribution scheme, are charged to the statement of profit and loss.

Defined Benefit Plan:

The Company has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. The plan provides for lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15 days salary payable for each completed year of service without any monetary limit. Vesting occurs upon completion of five years of service. Provision for gratuity has been made in the books as per actuarial valuation done as at the end of the year.

2.18 SEGMENT REPORTING

The accounting policies adopted for segment reporting are in line with the accounting policies of the Company. Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment. Inter-segment revenue is accounted on the basis of transactions which are primarily determined based on market / fair value factors. Revenue and expenses have been identified to segments on the basis of their relationship to the operating activities of the segment.

Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocable to segments on reasonable basis have been included under “unallocated revenue / expenses / assets / liabilities”.

Net Profit/ (Loss) After Tax as Restated	**429.91**	**661.97**	**576.37**	**341.25**

Explanatory notes to the above restatements to profits made in the audited Financial Statements of the Company for the respective years:

a. Prior period items : All the restated adjustment such as gratuity, depreciation, MSME Interest, change in valuation of closing stock, Interest expenses pertaining to prior years were recorded in form of Prior period item and such the effects are now reversed and restated in their respective years.

b. Depreciation and Amortization Expense: The Company has inappropriately calculated depreciation using SLM method and useful life as per Schedule II of Companies Act, 2013 which has now been restated.

c. Gratuity Expense: The Company undervalued its provision for gratuity as per Applicable accounting Standard - 15 with incorrect estimates of employee head counts , Hence the is now recognised and restated in respective years.

d. MSME Interest Expenses : The Company has not recognised the MSME Interest liability as per section 16 of MSME Act, 2006. Hence such interest expense has been now restated in respective year / periods**.**

e. Change in valuation of closing Stock : The company follows the FIFO (First-In, First-Out) method as per its accounting policies. However, stock was inadvertently valued using the standard cost method, leading to a difference in the closing stock valuation. This unintentional deviation has impacted the financial statements, affecting the reported profitability and inventory balances.

f. Goodwill Asset Written off : The subsidiaries were acquired at the time of incorporation; hence, no goodwill on acquisition should have arisen. The goodwill earlier recognized and written off has now been corrected in the audited financial statements, and the written-off amount has been reversed and restated in the respective years.

g. Foreign exchanage fluctuation reserve : The Foreign Exchange Fluctuation Reserve has been restated to reflect adjustments arising from differences in the application of closing and average exchange rates in the financial statements.

h. Minority interest : Changes in minority interest arise from restated adjustments made in the respective years together with the impact of restatement in foreign currency translation rates.

i. Income Tax Expense: The Company has inappropriately calculated income tax liability alongwith some missed effect of permanent disallowances which has now been restated in the respective financial years. Further, the restatement arises as the opening written down value (WDV) of depreciable assets considered for income-tax computation for AY 2023-24 was incorrect and the same was carried forward in subsequent periods. In the Restated Financial Statements, the correct opening WDV has been considered for computing current tax, resulting in a corresponding restatement of income tax expense.

j. Deferred Tax: The Company has not calculated the deferred tax over some temporary items, hence such impact which has now been restated.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis of financial condition and results of operations together with our financial statements included in this Prospectus. The following discussion relates to our Company and is based on our restated financial statements. Our financial statements have been prepared in accordance with Indian GAAP, the accounting standards and other applicable provisions of the Companies Act.

Note: Statement in the Management Discussion and Analysis Report describing our objectives, outlook, estimates, expectations or prediction may be "Forward looking statement" within the meaning of applicable securities laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to our operations include, among others, economic conditions affecting demand/supply and price conditions in domestic and overseas market in which we operate, changes in Government Regulations, Tax Laws and other Statutes and incidental factors.

BUSINESS OVERVIEW

Our Company was incorporated on February 18, 2008, by our Promoter, Mr. Madhusudan Sarda and are engaged in the manufacturing, designing, trading and installation of services of Gabions, Rockfall Protection Nettings, and Geosynthetic Materials, tailored to meet the diverse requirements of civil engineering, infrastructure development, and environmental protection projects. There are three verticals to our business as follows:

Manufacturing and supply of mechanically woven Double Twisted Hexagonal Steel Wire Mesh Gabions, Defence Gabions, PP Rope Gabions, Hi-tensile Rockfall Protection Nettings, Rockfall Fence/Barrier Reinforced Geomat, and High Strength Flexible Geogrid.

Service of Design and Constructing Gabion Structures, Slope Stabilization by Anchor-Mesh system and other types of structures in the fields of Geosynthetics, Geotechnical Engineering, and Ground Improvement Techniques.

Trading of auxiliary products not manufactured by us but required by our target customers, the product portfolio is listed in detail later in the chapter.

Our company is working with the vision to provide products, services and technology to Government entities, contractors, private customers, consultants, and authorities in the fields of Geosynthetics, Geotechnical Engineering, and Ground Improvement Techniques. To this end, we are manufacturing several products of which the primary product is Steel Gabions. We are trading various other products so that our target customers can avail a wide range of products from us. Apart from the supply of products, we are also a works contractor ourselves. So, we construct the structures that our customers require. We have the capability to engineer and design structures in our field. So, we are a technology provider in our field and have the capability of turnkey execution of projects. We undertake construction projects for both government and private sector clients.

Our products, services and technologies are extensively utilized across a wide range of sectors including infrastructure projects such as roads, railways, airports, irrigation and water resources sector, energy, mining, defence, real estate developments of resorts, commercial building complexes, IIT's for applications such as road and railway embankments formation, protection of roads and railway tracks from landslides, airport runway developments, protection of hydro power projects, river channelization and river front developments, mining and thermal power plant waste disposal, energy pipelines protection, beach protection etc. The solutions we provide are retaining walls, reinforced soil walls and slopes, slope erosion control, vegetation growth, rockfall protection, slope stabilization, flood protection wall, river training, scour protection, land reclamation, ground improvement, and ash pond formation.

We are continuously developing new capabilities exemplified by our knowledge in the design and turnkey execution of Ash Pond Geomembrane lining and leachate and storm water drainage systems in the mining sector. We have been associated with one of our customers, since 2019 when we were awarded the 'Service order for Development of Gabion wall of 700 mtr length, average height 20-25 mtr on east side of East Cell redmud pond (RMP) including design, vetting and SPCB approval., and the work was successfully completed in 2021. Such Client has another plant in Jharsuguda, Odisha. Here, they generate Ash waste which needs to be disposed-off in large pond like formations. The Ash contains chemicals which need to be prevented from leaching into the ground as they can be hazardous in nature. They awarded us the work of 'Upgrading Ash Pond 3 Kurebaga' in 2024. We are currently executing this work which entails profiling and lining of ash ponds with an impervious Geosynthetic membrane, constructing drainage systems for leachate and storm water, strengthening the dykes of the pond by anchor mesh system and auxiliary works.

We are currently operating a manufacturing unit situated at Khasra No. 402/114/6 and 402/114/4, Kite 2, admeasuring 11 bighas, located in village of Puruwala, Paonta Sahib, District Sirmaur, Himachal Pradesh. The manufacturing unit covers an area of 9273 square meters. In addition to our manufacturing facility, we have our registered office situated at 38, S/F, Near MCD Park, Mohammadpur, New Delhi, Delhi, India, 110066 and corporate office situated at Ground Floor W-121-A Greater Kailash 1, Greater Kailash, South Delhi, New Delhi, Delhi, India, 110048 and we have marketing offices across Guwahati, Mumbai and Bangalore. Further, apart from this currently we have 6 project offices. These offices contribute significantly to extending our geographical market reach and provide essential customer service, ensuring sale and delivery of our products all-round the year.

We have an in-house team for Geo-technical design and engineering which makes us self-reliant in all aspects of our business including design inputs required by our customers or for the design of our own projects. We have a team of seven (7) design engineers who works closely with customers, Authority's Engineers, Government clients, and industry personnel for vetting to finalize designs of projects and also design innovative products to meet the project specifications.

We have a project team comprising of over Thirty-Two (32) Civil Engineers in our pay-roll to execute our projects to ensure compliance of quality standards laid down by the industry and government agencies & departments and meeting the project time lines. We are an end to end service provider with minimal dependency on third parties. The scope of our service typically includes design, engineering, procurement and construction.

FACTORS CONTRIBUTING TO THE GROWTH OF OUR REVENUE

1. Key products Market Growth – Gabion and Rockfall Nettings have increasingly become mainstream products for the applications of retaining walls and slope protection. More and more projects are now designed with these technological products rather than conventional concrete structures. We have increased our production and improved our marketing to increase our sale of manufactured products.
2. Specialized Construction Growth – Being specialized in design and execution of Gabion structures and Slope Stabilization, we are awarded works in infrastructure projects for these jobs. And Government has also started tendering these specialized execution works on their own. Our eligibility to bid is increasing in terms of size of tenders we are able to qualify in, so our government contract sizes are increasing.
3. Growth in Trading – The market for Geosynthetics is increasing rapidly owing to acceptance as mainstream products. We are able to supply auxiliary products to the customers of our manufactured products. We have the technical capability to identify the technological products properly and help customers and so gain their trust for supply orders.

SIGNIFICANT ACCOUNTING POLICY

BASIS OF ACCOUNTING AND PREPARATION OF FINANCIAL STATEMENTS

The restated summary statement of consolidated assets and liabilities of the Company as at November 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023 and the related restated summary statement of consolidated profits and loss and cash flows for the period/year ended November 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023 (herein collectively referred to as ("Restated Summary Statements") have been compiled by the management from the audited consolidated Financial Statements of the Company for the period/year ended on November 30, 2025, March 31, 2025, March 31, 2024 and March 31, 2023 approved by the Board of Directors of the Company. Restated Summary Statements have been prepared to comply in all material respects with the provisions of Part I of Chapter III of the Companies Act, 2013 (the "Act") read with Companies (Prospectus and Allotment of Securities) Rules, 2014, Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 ("ICDR Regulations") issued by SEBI and Guidance note on Reports in Companies Prospectuses (Revised 2019) ("Guidance Note"). Restated Summary Statements have been prepared specifically for inclusion in the offer document to be filed by the

Company with the BSE in connection with its proposed SME IPO. The Company's management has recast the Financial Statements in the form required by Schedule III of the Companies Act, 2013 for the purpose of restated Summary Statements.

The financial statements of the Company have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards specified under Section 133 of the Companies Act, 2013 and the relevant provisions of the Companies Act, 2013 ("the 2013 Act"), as applicable. The financial statements have been prepared on accrual basis under the historical cost convention. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

Accounting policies not specifically referred to otherwise are consistent and in consonance with generally accepted accounting principles in India.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has determined its operating cycle as twelve months for the purpose of current – non-current classification of assets and liabilities.

The financial statements of the Company and its subsidiary companies have been combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after fully eliminating intra- group balances and intra-group transactions resulting in unrealized profits or losses as per Accounting Standard 21 – "Consolidated Financial Statements" notified by Companies (Accounting Standards) Rules, 2021.
"Minority Interest in the net assets of consolidated subsidiaries is identified and presented in the Consolidated Balance Sheet separately from liabilities and equity of the Company's shareholders. Minority interest in the net assets of consolidated subsidiaries consists of:

The amount of equity attributable to minority at the date on which investment in a subsidiary is made; and b. The minority share of movements in equity since the date the parent subsidiary relationship came into existence. Minority's share of net profit for the year of consolidated subsidiaries is identified and adjusted against the Profit After Tax of the Group

USE OF ESTIMATES

The preparation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialise.

PROPERTY, PLANT & EQUIPMENT AND INTANGIBLE ASSETS

(i) Property, Plant & Equipment

All Property, Plant & Equipment are recorded at cost including taxes (Excluding recoverable in nature), duties, freight and other incidental expenses incurred in relation to their acquisition and bringing the asset to its intended use.

(ii) Intangible Assets

Intangible Assets are stated at acquisition cost, net of accumulated amortization and accumulated impairment losses, if any.

DEPRECIATION / AMORTISATION

"Depreciation on fixed assets is calculated on a Straight-line method using the rates arrived at based on the useful lives estimated by the management, or those prescribed under the Schedule II to the Companies Act, 2013.

Intangible assets including internally developed intangible assets are amortised over the year for which the company expects the benefits to accrue.
Intangible assets are amortized on straight line method basis over 6 years in pursuance of provisions of AS-26.

In case of Nepal subsidiary company, depreciation on fixed assets and Amortisation of intangible assets is calculated on a Straight-line method using the rates arrived at based on the useful lives estimated by the management, as stated below:

Asset Category	Useful Life
Building	20 Years
Plant & Machinery	7 Years

Furniture & Fixtures	4 Years
Office Equipment's	4 Years
Intangible Assets	5 Years
Vehicle	5 Years

INVENTORIES

Inventories of raw materials, components, stores and spares are valued at lower of cost (net of recoverable taxes) and net realizable value. Cost for the purpose of valuation of such inventories is determined using the first-in, first-out (FIFO) method. Net realizable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated cost necessary to make the sale.

Finished goods and work-in-progress are valued at lower of cost and net realizable value. The cost of finished goods and work-in-progress includes raw material costs (net of recoverable taxes), direct cost of conversion and proportionate allocation of indirect costs incurred in bringing the inventories to their present location and condition.

Stock-in-trade are valued at lower of cost (net of recoverable taxes) and net realizable value. The provision for inventory obsolescence is assessed regularly based on estimated usage and shelf life of inventory

IMPAIRMENT OF ASSETS

An asset is treated as impaired when the carrying cost of asset exceeds its recoverable value. Recoverable amount is the higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of the asset and from its disposal at the end of its useful life. Net selling price is the amount obtainable from sale of the asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting periods is reversed if there has been a change in the estimate of the recoverable value.

INVESTMENTS

Non-current investments are carried at cost less any other-than-temporary diminution in value, determined on the specific identification basis.
Profit or loss on sale of investments is determined as the difference between the sale price and carrying value of investment, determined individually for each investment. Cost of investments sold is arrived using average method.

Current Investments are carried at cost or fair value whichever is lower. The Company has followed category-wise evaluation of cost vs fair value of investments. Provision for diminution in the value of investments has been recorded wherever there is a decline in fair-value of investments. Profit or loss on sale of investments is determined as the difference between the sale price and carrying value of investment, determined individually for each investment. Cost of investments sold is arrived using average method.

FOREIGN CURRENCY TRANSLATIONS

Income and expense in foreign currencies are converted at exchange rates prevailing on the date of the transaction. Any income or expense on account of exchange difference either on settlement or on translation at the balance sheet date is recognized in Profit & Loss Account in the year in which it arises.

BORROWING COSTS

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are recognised in Statement of Profit and Loss in the period in which they are incurred.

PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

Provision involving substantial degree of estimation in measurement is recognized when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent liabilities are not recognized but are disclosed in the notes. Contingent assets are neither recognized nor disclosed in the financial statements.

REVENUE RECOGNITION

"Revenue from sale of goods is recognised when the goods are dispatched to the customer which coincides with the transfer of risk and rewards in the goods. The sales are recorded at invoice value, net of taxes.

Revenue from services is recognised proportionately by reference to the performance of each act. Revenue is only recognized when it can be reasonably measurable and at the time of rendering of the services it would not be unreasonable to expect ultimate collection.

OTHER INCOME

Interest Income on fixed deposit is recognized on time proportion basis. Other Income is accounted for when right to receive such income is established.

TAXES ON INCOME

Income taxes are accounted for in accordance with Accounting Standard (AS-22) – "Accounting for taxes on income", notified under Companies (Accounting Standards) Rules, 2021. Income tax comprises of both current and deferred tax.
Current tax is measured on the basis of estimated taxable income and tax credits computed in accordance with the provisions of the Income Tax Act, 1961.

Income taxes of the subsidiaries are accounted for in accordance with Accounting Standard (AS-22) – "Accounting for Taxes on Income", notified under the Companies (Accounting Standards) Rules, 2021. Current tax expense of each subsidiary has been recognized as per the income tax laws applicable in the country of the entity.

The tax effect of the timing differences that result between taxable income and accounting income and are capable of reversal in one or more subsequent periods are recorded as a deferred tax asset or deferred tax liability. They are measured using substantially enacted tax rates and tax regulations as of the Balance Sheet date.

Deferred tax assets arising mainly on account of brought forward losses and unabsorbed depreciation under tax laws, are recognized, only if there is virtual certainty of its realization, supported by convincing evidence. Deferred tax assets on account of other timing differences are recognized only to the extent there is a reasonable certainty of its realization.

LEASES

Leases, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased items, are classified as operating leases. Operating lease payments are recognized as an expense in the statement of Profit and Loss on systematic basis over the lease term.

CASH AND BANK BALANCES

Cash and cash equivalents comprises Cash-in-hand, Current Accounts, Fixed Deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value. Other Bank Balances are short-term balance (with original maturity is more than three months but less than twelve months).

EARNINGS PER SHARE

Basic earning per share is computed by dividing the profit/ (loss) after tax (including the post tax effect of extraordinary items, if any) by the weighted average number of equity share outstanding during the year. Diluted earning per share is computed by dividing the profit/ (loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

EMPLOYEE BENEFITS

Defined Contribution Plan:
Contributions payable to the recognised provident fund, which is a defined contribution scheme, are charged to the statement of profit and loss.

Defined Benefit Plan:
The Company has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. The plan provides for lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15 days salary payable for each completed year of service without any monetary limit. Vesting occurs upon completion of five years of service. Provision for gratuity has been made in the books as per actuarial valuation done as at the end of the year.

SEGMENT REPORTING

"The accounting policies adopted for segment reporting are in line with the accounting policies of the Company. Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment. Inter-segment revenue is accounted on the basis of transactions which are primarily determined based on market / fair value factors. Revenue and expenses have been identified to segments on the basis of their relationship to the operating activities of the segment.
Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocable to segments on reasonable basis have been included under "unallocated revenue / expenses / assets / liabilities".

Fiscal 2025 compared with fiscal 2024

Revenue from Operations

The revenue from operations for Fiscal 2025 stood at ₹10,036.38 lakhs as compared to ₹10,476.44 lakhs in Fiscal 2024, reflecting a decline of 4.20%.

The Company's revenue has demonstrated a consistent growth trajectory over the past three fiscal years. Revenue increased from ₹7,875.79 lakh in FY 2022-23 to ₹10,476.44 lakh in FY 2023-24 and stood at ₹10,036.38 lakh in FY 2024–25. Over this period, the Company achieved a healthy CAGR of approximately 12.89%. The overall growth has been supported by the Company's continued success in securing and executing high-value work contracts from both private and government clients, which has contributed meaningfully to its revenue performance.

(b) Revenue from Sales of Service across the last three financial years:

Financial Year	Revenue from Services (Lakhs)	Approx Growth compared to previous Financial Year
2022-23	1,557.31	NA
2023-24	3,582.19	130.02%
2024-25	3,361.71	(6.15%)

Revenue for Fiscal 2024-25 stood at ₹10,036.38 lakh, compared to ₹10,476.44 lakh in Fiscal 2023-24, reflecting a marginal decline. This negative growth was not due to a reduction in demand or loss of business, but primarily due to delays in execution and billing caused by client-side project constraints. Despite having already procured raw materials, stocked inventory, and completed preparatory work to execute the projected order volumes, billing could not be recognised as per expectations because work progress and material lifting were deferred at the customer end.
The main reasons for the shortfall were:

- **Postponement of Material Lifting by Key Customers:**
  Two major customers postponed scheduled procurement due to delays in their project timelines:
  • **Customer 1.** - Billing was expected to exceed approx. ₹420.00 lakh; however, only ₹238.85 lakh was billed as the client's project did not progress as per planned execution milestones.
  •**Customer 2** - Billing was expected to exceed approx. ₹400.00 lakh; actual billing stood at ₹213.83 lakh due to similar delays in project readiness.

  In both cases, the Company had already procured materials for the full anticipated quantities based on the initial commitment, resulting in inventory being stocked but billing deferred.

- **Execution-Linked Dependencies on Subcontract Work:**
  Certain service-based contracts could not progress as scheduled due to external constraints beyond the Company's control:

  • **Customer 3:** The main contractor was unable to procure soil required for filling embankments, which was a prerequisite activity before the Company could construct the facia structure. As responsibilities in such projects are interdependent, this delay directly impacted the Company's ability to execute and bill work. Expected billing was approx. ₹500.00 lakh, while actual billing stood at ₹384.72 lakh.
  • **Customer 4:** Due to on-ground unrest and restricted accessibility at the project location, planned execution activities were temporarily suspended. Billing expected to exceed approx. ₹500.00 lakh could not be realised and stood at ₹377.80 lakh for the year.

Overall, the decline in revenue during Fiscal 2025 was timing-driven rather than performance-driven.

Other Income

The other income of our company for Fiscal 2025 was ₹ 80.76 Lakhs against ₹ 20.56 Lakhs other income for Fiscal 2024. An increase of 292.80% in other income was primarily due to there are a party whose balance is written back by us for ₹ 56.82 Lakhs and increase in Interest income from FD of ₹ 7.05 Lakh.

Total Income

The total income of our company for Fiscal 2025 was ₹ 10,117.14 Lakhs against ₹ 10,497.00 Lakhs total income for Fiscal 2024. A decrease of 3.62% in total income was primarily due to decrease in revenue from operation of 4.20%.

Expenditure

Cost of Material Consumed

The cost of material consumed by our company for Fiscal 2025 was ₹3,521.39 lakhs as compared to ₹4,826.05 lakhs for Fiscal 2024, representing a decrease of 27.03%. The decrease was primarily on account of a reduction in the purchase price of certain raw materials during the year.

Purchases of Stock-in-Trade

The purchases of stock-in-trade for Fiscal 2025 amounted to ₹1,777.68 lakhs, as compared to ₹953.33 lakhs for Fiscal 2024, representing an increase of 86.47%. The increase was primarily on account of higher procurement to meet business requirements and support operational needs during the year.

Direct Expenses

The direct expenses for Fiscal 2025 were ₹2,082.22 lakhs, compared to ₹2,045.16 lakhs in Fiscal 2024, an increase of 1.81%, mainly due to higher production and expenses of the service division.

EBITDA Margin And PAT Margin

EBITDA for FY 2024-25 stood at 1,504.84 lakh as compared to ₹1,310.47 lakh in FY 2023-24, reflecting an increase of ₹194.37 lakh. This improvement was primarily driven by the contribution of higher-margin contracts, including those from the Directorate of Construction, Services and Estate Management (194.74 lakh), Afcons Infrastructure Limited (2384.72 lakh), Swarnaa Techno Construction Private Limited (142.80 lakh), and Vedanta Limited (306.09 lakh).

Typically, the Company earns a margin of around 20% to 25% on service-based revenues. However, in these specific contracts, company had achieved an additional margin of approximately 15%, resulting in a noticeably stronger profitability profile. Increased participation in private sector contracts, along with continued revenue from government sub-contracts, further strengthened the overall revenue mix and supported the improvement in EBITDA and PAT margins during FY 2024-25.

In total, revenue from these high-margin contracts amounted to ₹1,028.35 lakh, from which the Company generated an additional profit of approximately 154.25 lakh.

Additionally, improved product-level profitability and a reduction in key input costs during FY 2024-25 further supported margin expansion.

Fiscal 2024 compared with fiscal 2023

Revenue from Operations

  Sales of services increased substantially from ₹1,557.31 lakh in Fiscal 2023 to ₹3,582.19 lakh in Fiscal 2024, reflecting a strong growth of 130.02%. This increase was driven by higher execution volume and seamless billing progress across major contracts.
- **Execution of Large-Scale Projects:**
  Several major contracts contributed substantially to the revenue base during the year, including:
  • **Ministry of South Western Railway:** Approx. ₹1,040.74 lakh
  • **Afcons Infrastructure Limited:** Approx. ₹778.45 lakh
  • **Hindustan Construction Company Limited:** Approx. ₹598.20 lakh
  These contracts were executed at scale, significantly strengthening year-on-year growth.
- **Increased Order Intake and Improved Conversion of Work Orders into Billing:**
  The Company successfully secured and executed high-value government and private sector assignments, demonstrating its capability in project execution and strengthening its presence across key markets.
- **Operational Preparedness and Seamless Execution:**
  Timely procurement of raw materials, deployment of labour and equipment, and coordinated project management ensured uninterrupted execution cycles and enabled the Company to bill planned volumes efficiently.
- **Strengthening of Customer Relationships and Repeat Business:**
  Continued engagement with existing clients and proven execution capabilities helped the Company secure repeat orders, supporting sustainable volume growth and improved revenue visibility.

Overall, the strong revenue growth in Fiscal 2024 reflects scale expansion, operational efficiency, and successful execution of awarded projects.

SECTION VII: LEGAL AND OTHER INFORMATION
OUTSTANDING LITIGATION AND MATERIAL DEVELOPMENTS

*Except as stated in this section, there are no outstanding: (a) criminal proceedings; (b) actions by statutory or regulatory authorities; (c) claims relating to direct and indirect taxes; or (d) Material Litigation (as defined below); involving our Company, its Directors, the Promoters and the Group Companies ("**Relevant Parties**"). Further, there are no disciplinary actions (including penalties) imposed by SEBI or the Stock Exchanges against our Promoters in the last five (5) FYs, including any outstanding action.*

*For the purpose of material litigation in (d) above, our Board in its meeting held on August 25, 2025 has considered and adopted the following policy on materiality for identification of material outstanding litigation involving the Relevant Parties ("**Materiality Policy**"). In accordance with the Materiality Policy, all outstanding litigation, including any litigation involving the Relevant Parties, other than criminal proceedings and actions by regulatory authorities and statutory authorities, will be considered material if:*

(i) the omission of an event or information, whose value or the expected impact in terms of value exceeds the limits as prescribed under the SEBI Listing Regulations (as amended from time to time) i.e.:

a) two percent of turnover, as per the last annual restated financial statements of the Company; or

b) two percent of net worth, except in case of the arithmetic value of the networth is negative, as per the last annual restated financial statements of the Company; or

c) five percent of the average of absolute value of profit or loss after tax, as per the last three annual restated financial statements of the Company.

Accordingly, any transaction exceeding the lower of a, b or c above will be considered for the above purpose; or

(ii) where the decision in one case is likely to affect the decision in similar cases, even though the amount involved in individual litigation does not exceed the amount determined as per clause (i) above, and the amount involved in all of such cases taken together exceeds the amount determined as per clause (i) above; and

(iii) any such litigation which does not meet the criteria set out in (i) above and an adverse outcome in which would materially and adversely affect the operations or financial position of the Company.

In terms of the materiality policy above any litigations (apart from (a) criminal proceedings; (b) actions by statutory or regulatory authorities and (c) claims relating to direct and indirect taxes), the monetary value of which or the adverse impact resulting from such litigation exceeds 26.50 Lakh shall be considered Material Litigation

It is clarified that for the above purposes, pre-litigation notices received by Relevant Parties, unless otherwise decided by our Board, are not evaluated for materiality until such time that the Relevant Parties are impleaded as defendants in litigation proceedings before any judicial forum.

Except as stated in this Section, there are no outstanding material dues to creditors of our Company. For this purpose, our Board has considered and adopted a policy of materiality for identification of material outstanding dues to creditors by way of its resolution dated January 10, 2025. The above timetable, other than the Bid/Issue Closing Date, is indicative and does not constitute any obligation on our Company the BRLM.

While our Company shall ensure that all steps for the completion of the necessary formalities for the listing and commencement of trading of the Equity Shares on the Stock Exchange are taken within Three Working Days of the Bid/Issue Closing Date or such other period as may be prescribed by the SEBI, the timetable may be extended due to various factors, such as extension of the Bid/Issue Period by our Company in consultation with the BRLM, revision of the Price Band or any delay in receiving the final listing and trading approval from the Stock Exchange. The commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws.

The SEBI is in the process of streamlining and reducing the post Issue timeline for initial public offerings. Any circulars or notifications from the SEBI after the date of the Prospectus may result in changes to the above- mentioned timelines. Further, the Issue procedure is subject to change to any revised circulars issued by the SEBI to this effect.

The BRLM will be required to submit reports of compliance with listing timelines and activities, identifying non- adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

In terms of the UPI Circulars, in relation to the Issue, the BRLM will submit report of compliance with T+3 listing timelines and activities, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

Submission of Bids

Bid/Issue Period (except the Bid/Issue Closing Date)

Submission and Revision in Bids: Only between 10.00 a.m. and 5.00 p.m. (Indian Standard Time ("IST")

Bid/Issue Closing Date

Submission and Revision in Bids: Only between 10.00 a.m. and 3.00 p.m. IST

On the Bid/Issue Closing Date, the Bids shall be uploaded until:

i. 4.00 p.m. IST in case of Bids by QIBs and Non-Institutional Bidders, and

ii. until 5.00 p.m. IST or such extended time as permitted by the Stock Exchange, in case of Bids by Individual Bidders.

On Bid/ Issue Closing Date, extension of time would have been granted by Stock Exchanges only for uploading Bids received by Individual Investors and Eligible Employees Bidding in the Employee Reservation Portion after taking into account the total number of Bids received up to closure of timings for acceptance of Bid cum Application Forms as stated herein and as reported by the BRLMs to the Stock Exchanges.

The Registrar to the Issue shall submit the details of cancelled/ withdrawn/ deleted applications to the SCSBs on a daily basis within 60 minutes of the Bid closure time from the Bid/ Issue Opening Date till the Bid/ Issue Closing Date by obtaining the same from the Stock Exchanges. The SCSBs shall unblock such applications by the closing hours of the Working Day and submit the confirmation to the BRLM and the RTA on a daily basis.

To avoid duplication, the facility of re-initiation provided to Syndicate Members, if any shall preferably be allowed only once per Bid/batch and as deemed fit by the Stock Exchange, after closure of the time for uploading Bids.

It is clarified that Bids not uploaded on the electronic bidding system or in respect of which the full Bid Amount is not blocked by SCSBs or not blocked under the UPI Mechanism in the relevant ASBA Account, as the case may be, would be rejected.

Due to limitation of time available for uploading the Bids on the Bid/Issue Closing Date, Bidders are advised to submit their Bids one day prior to the Bid/Issue Closing Date. Any time mentioned in this Prospectus is Indian Standard Time. Bidders are cautioned that, in the event, large number of Bids are received on the Bid/Issue Closing Date, as is typically experienced in public offerings, some Bids may not get uploaded due to lack of sufficient time. Such Bids that cannot be uploaded will not be considered for allocation under the Issue. Bids will be accepted only during Monday to Friday (excluding any public holiday). None among our Company or any Member of the Syndicate shall be liable for any failure in (i) uploading the Bids due to faults in any software/ hardware system or blocking of application amount by the SCSBs on receipt of instructions from the Sponsor Bank on account of any errors, omissions or non-compliance by various parties involved in, or any other fault, malfunctioning or breakdown in, or otherwise, in the UPI Mechanism.

In case of any discrepancy in the data entered in the electronic book *vis-a-vis* data contained in the physical Bid cum Application Form, for a particular Bidder, the details of the Bid file received from the Stock Exchanges may be taken. Our Company in consultation with the BRLM, reserve the right to revise the Price Band during the Bid/Issue Period, provided that the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the face value of the Equity Shares. The revision in the Price Band shall not exceed 20% on either side, i.e. the Floor Price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly. The Floor Price shall not be less than the face value of the Equity Shares.

In case of any revision to the Price Band, the Bid/Issue Period will be extended by at least three additional Working Days following such revision of the Price Band, subject to the Bid/Issue Period not exceeding a total of 10 Working Days. In cases of force majeure, banking strike or similar circumstances, our Company in consultation with the BRLM, for reasons to be recorded in writing, extend the Bid/Issue Period for a minimum of three Working Days, subject to the Bid/ Issue Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid/Issue Period, if applicable, will be widely disseminated by notification to the Stock Exchange, by issuing a public notice, and also by indicating the change on the respective websites of the BRLM and the terminals of the Syndicate Members, if any and by intimation to SCSBs, other Designated Intermediaries and the Sponsor Bank, as applicable. In case of revision of Price Band, the Bid Lot shall remain the same.

Minimum Subscription

This Issue is not restricted to any minimum subscription level and is 100% underwritten. As per Section 39 of the Companies Act, 2013, if the ―stated minimum amount has not been subscribed and the sum payable on application is not received within a period of 30 days from the date of the Prospectus, the application money has to be returned within such period as may be prescribed. If our Company does not receive the 100% subscription of the issue through the Issue Document including devolvement of Underwriters, if any, within sixty (60) days from the date of closure of the issue, our Company shall forthwith refund the entire subscription amount received. If there is a delay beyond four days after our Company becomes liable to pay the amount, our Company and every officer in default will, on and from the expiry of this period, be jointly and severally liable to repay the money, with interest or other penalty as prescribed under the SEBI Regulations, the Companies Act 2013 and applicable law.

In accordance with Regulation 260 of the SEBI (ICDR) Regulations, our Issue shall be hundred percent underwritten. Thus, the underwriting obligations shall be for the entire hundred percent of the issue through the Prospectus and shall not be restricted to the minimum subscription level.

Further, in accordance with Regulation 268(1) of the SEBI (ICDR) Regulations, our Company shall ensure that the number of prospective allottees to whom the Equity Shares will allotted will not be less than 200 (Two Hundred).

SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, has introduced an alternate payment mechanism using Unified Payments Interface **("UPI")** and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI Mechanism for RIBs applying through Designated Intermediaries was made effective along with the erstwhile process and erstwhile timeline of T+6 days. **("UPI Phase I")**. The UPI Phase I was effective till June 30, 2019.

With effect from July 1, 2019, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, read with circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 with respect to Bids by RIBs through Designated Intermediaries (other than SCSBs), the existing process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism for such Bids with erstwhile timeline of T+6 days was mandated for a period of three months or launch of five main board public issues, whichever is later **("UPI Phase II")**. Subsequently, however, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice. The final reduced timeline will be made effective using the UPI Mechanism for applications by RIBs **("UPI Phase III")**, as may be prescribed by SEBI. The Issue has been undertaken pursuant to the processes and procedures under UPI Phase II, subject to any circulars, clarification or notification issued by the SEBI from time to time. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, has introduced certain additional measures for streamlining the process of initial public Issues and redressing investor grievances. This circular shall come into force for initial public Issues opening on or after May 1, 2021 and the provisions of this circular are deemed to form part of this Prospectus. Subsequently, SEBI vide its circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 modifying the process timelines and extending the implementation timelines for certain measures introduced by the March 16 Circular. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all UPI Bidders in initial public offerings (opening on or after May 1, 2022) whose application sizes are up to ₹ 5,00,000/- shall use the UPI Mechanism. This circular shall come into force for initial public offers opening on/or after May 1, 2022, and the provisions of this circular are deemed to form part of this Prospectus. Pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, applications made using the ASBA facility in initial public offerings shall be processed only after application monies are blocked in the bank accounts of investors (all categories).

Further, SEBI has vide its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 reduced the time taken for listing of specified securities after the closure of a public issue to three Working Days. This shall be applicable voluntarily for all public Offers opening on or after September 01, 2023 and shall be mandatory for all public Offers opening on or after December 01, 2023. The Prospectus has been drafted in accordance with phase II of the UPI framework, and also reflects additional measures for streamlining the process of initial public offers. Please note that we may need to make appropriate changes in the Prospectus and the Prospectus depending upon the prevailing conditions at the time of the opening of the Issue.

The processing fees for applications made by Individual Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI Circular No: SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 02, 2021, read with SEBI Circular No: SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

Our Company, the Promoter/s and the BRLM do not accept any responsibility for the completeness and accuracy of the information stated in this section and General Information Document and are not liable for any amendment, modification or change in the applicable law which may occur after the date of this Prospectus. Bidders are advised to make their independent investigations and ensure that their Bids are submitted in accordance with applicable laws and do not exceed the investment limits or maximum number of the Equity Shares that can be held by them under applicable law or as specified in the Prospectus.

Further, our Company, the Promoter/s and the Members of the Syndicate are not liable for any adverse occurrences consequent to the implementation of the UPI Mechanism for application in the Issue.

Phased implementation of Unified Payments Interface

SEBI has issued the UPI Circulars in relation to streamlining the process of public Issue of, inter alia, equity shares. Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by UPI Bidders through Designated Intermediaries with the objective to reduce the time duration from public Issue closure to listing from six Working Days to up to three Working Days. The SEBI in its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023, has reduced the time period for listing of equity shares pursuant to a public Issue from six Working Days to three Working Days. The timeline was applicable on a voluntary basis for public offers opening on or after September 01, 2023 and has been made applicable on a mandatory basis for public offers opening on or after December 1, 2023. Considering the time required for making necessary changes

to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars have introduced the UPI Mechanism in three phases in the following manner:

a) **Phase I**: This phase was applicable from January 01, 2019 and lasted till June 30, 2019. Under this phase, a Individual Bidder, besides the modes of Bidding available prior to the UPI Circulars, also had the option to submit the Bid cum Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

Phase II: This phase has become applicable from July 1, 2019 and was to initially continued for a period of three months or floating of five main board public issues, whichever is later. SEBI pursuant to its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019, had decided to extend the timeline for implementation of UPI Phase II until March 31, 2020. Subsequently, SEBI pursuant to its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice. Under this phase, submission of the ASBA Form by Individual Investor through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds was discontinued and replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continued to be six Working Days during this phase.

b) **Phase III**: This phase has become applicable on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023, vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 ("T+3 Notification"). In this phase, the time duration from public issue closure to listing has been reduced to three Working Days. The Issue shall be undertaken pursuant to the processes and procedures as notified in the T+3 Notification as applicable, subject to any circulars, clarification or notification issued by SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

Pursuant to the UPI Circular, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked not later than one day from the date on which the Basis of Allotment is finalized. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors complaints in this regard, the relevant SCSB as well as the post – Issue BRLM will be required to compensate the concerned investor.

All SCSBs offering the facility of making applications in public issues shall also provide the facility to make application using UPI. The Company will be required to appoint one of the SCSBs as a Sponsor Bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and/ or payment instructions of the Individual Bidders using the UPI.

The processing fees for applications made by Individual Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI Circular No: SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI Circular No: SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

All SCSBs offering facility of making application in public Offers shall also provide facility to make application using UPI. Our Company will be required to appoint one of the SCSBs as the Sponsor Bank(s) to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the UPI Bidders.

Pursuant to the SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and SEBI circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 ("UPI Streamlining Circular"), SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Streamlining Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one Working Day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Further, in terms of the UPI Circulars, the payment of processing fees to the SCSBs shall be undertaken pursuant to an application made by the SCSBs to the BRLM, and such application shall be made only after (i) unblocking of application amounts for each application received by the SCSB has been fully completed, and (ii) applicable compensation relating to investor complaints has been paid by the SCSB.

The processing fees for applications made by UPI Bidders may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI Circular No. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 read with SEBI Circular No: SEBI/HO/CFD/DIL2/CIR/P/2021/570 dated June 2, 2021 read with SEBI Circular No: SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 NPCI vide circular reference no. NPCI/UPI/OC No. 127/ 2021-22 dated December 09, 2021, inter alia, has enhanced the per transaction limit in UPI from more than ₹200,000 to ₹500,000 for UPI based ASBA in initial public offerings.

All SCSBs offering facility of making application in public Offers shall also provide facility to make application using UPI. Our Company will be required to appoint Sponsor Banks to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and/or payment instructions of the UPI Bidders using the UPI.

For further details, refer to the General Information Document available on the websites of the Stock Exchanges and the BRLM. Additionally, if there is any delay in the redressal of investors' complaints, the relevant SCSB as well as the BRLM will be required to compensate the concerned investor. For further details, refer to the "General Information Document" available on the websites of the Stock Exchange and the BRLM.

Designated Intermediaries (other than SCSBs) after accepting Bid Cum Application Form submitted by Individual Investor (without using UPI for payment), NIIs and QIBs shall capture and upload the relevant details in the electronic bidding system of stock exchange(s) and shall submit/deliver the Bid Cum Application Forms to respective SCSBs where the Bidders has a bank account and shall not submit it to any non-SCSB Bank.

Further, for applications submitted to designated intermediaries (other than SCSBs), with use of UPI for payment, after accepting the Bid Cum Application Form, respective intermediary shall capture and upload the relevant application details, including UPI ID, in the electronic bidding system of stock exchange(s).

Bidders shall only use the specified Bid Cum Application Form for making an Application in terms of this Prospectus.

The Bid Cum Application Form shall contain information about the Bidder and the price and the number of Equity Shares that the Bidders wish to apply for. Bid Cum Application Forms downloaded and printed from the websites of the Stock Exchange shall bear a system generated unique application number. Bidders are required to ensure that the ASBA Account has sufficient credit balance as an amount equivalent to the full Application Amount can be blocked by the SCSB or Sponsor Bank at the time of submitting the Application.

An Investor, intending to subscribe to this Issue, shall submit a completed Bid Cum Application Form to any of the following intermediaries (Collectively called – Designated Intermediaries")

Sr. No.	Designated Intermediaries
1.	An SCSB, with whom the bank account to be blocked, is maintained
2.	A syndicate member (or sub-syndicate member)

3.	A stock broker registered with a recognized stock exchange (and whose name is mentioned on the website of the stock exchange as eligible for this activity) ('broker')
4.	A depository participant ('DP') (whose name is mentioned on the website of the stock exchange as eligible for this activity)
5.	A registrar to an Issue and share transfer agent ('RTA') (whose name is mentioned on the website of the stock exchange as eligible for this activity)

Individual Investors who applies for minimum application size submitting application with any of the entities at (ii) to (v) above (hereinafter referred as "Intermediaries"), and intending to use UPI, shall also enter their UPI ID in the Bid Cum Application Form.

The aforesaid intermediary shall, at the time of receipt of application, give an acknowledgement to investor, by giving the counter foil or specifying the application number to the investor, as a proof of having accepted the Bid Cum Application Form, in physical or electronic mode, respectively.

The upload of the details in the electronic bidding system of stock exchange will be done by:

For Applications submitted by Investors to SCSB:	After accepting the form, SCSB shall capture and upload the relevant details in the electronic bidding system as specified by the stock exchange and may begin blocking funds available in the bank account specified in the form, to the extent of the application money specified.
For applications submitted by investors to intermediaries other than SCSBs:	After accepting the Bid Cum Application Form, respective Intermediary shall capture and upload the relevant details in the electronic bidding system of the stock exchange. Post uploading, they shall forward a schedule as per prescribed format along with the Bid Cum Application Forms to designated branches of the respective SCSBs for blocking of funds within one day of closure of Issue.
For applications submitted by investors to intermediaries other than SCSBs with use of UPI for payment:	After accepting the Bid Cum Application Form, respective intermediary shall capture and upload the relevant application details, including UPI ID, in the electronic bidding system of stock exchange. Stock exchange shall share application details including the UPI ID with sponsor bank on a continuous basis, to enable sponsor bank to initiate mandate request on investors for blocking of funds. Sponsor bank shall initiate request for blocking of funds through NPCI to investor. Investor to accept mandate request for blocking of funds, on his/her mobile application, associated with UPI ID linked bank account.

Stock exchange shall validate the electronic bid details with depository's records for DP ID/Client ID and PAN, on a real-time basis and bring the inconsistencies to the notice of intermediaries concerned, for rectification and re- submission within the time specified by stock exchange.

Stock exchange shall allow modification of selected fields viz. DP ID/Client ID or Pan ID (Either DP ID/Client ID or Pan ID can be modified but not BOTH), Bank code and Location code, in the bid details already uploaded.

Upon completion and submission of the Bid Cum Application Form to Application Collecting intermediaries, the Bidders are deemed to have authorized our Company to make the necessary changes in the Prospectus, without prior or subsequent notice of such changes to the Bidders.

For RIBs using UPI Mechanism, the Stock Exchange shall share the Bid details (including UPI ID) with the Sponsor Bank on a continuous basis to enable the Sponsor Bank to initiate UPI Mandate Request to RIBs for blocking of funds. The Sponsor Bank shall initiate request for blocking of funds through NPCI to RIBs, who shall accept the UPI Mandate Request for blocking of funds on their respective mobile applications associated with UPI ID linked bank account. For all pending UPI Mandate Requests, the Sponsor Bank shall initiate requests for blocking of funds in the ASBA Accounts of relevant Bidders with a confirmation cut-off time of 12:00 pm on the first Working Day after the Bid/ Issue Closing Date ("Cut- Off Time"). Accordingly, RIBs should accept UPI Mandate Requests for blocking off funds prior to the Cut- off Time and all pending UPI Mandate Requests at the Cut-Off Time shall lapse. The NPCI shall maintain an audit trail for every bid entered in the Stock Exchange bidding platform, and the liability to compensate RIBs (using the UPI Mechanism) in case of failed transactions shall be with the concerned entity (i.e. the Sponsor Bank, NPCI or the bankers to an issue) at whose end the lifecycle of the transaction has come to a halt. The NPCI shall share the audit trail of all disputed transactions/ investor complaints to the Sponsor Banks and the bankers to an issue. The BRLM shall also be required to obtain the audit trail from the Sponsor Banks and the Bankers to the Issue for analyzing the same and fixing liability.

As per the existing regulations, OCBs are not eligible to participate in this Issue. The RBI has however clarified in its circular, A.P. (DIR Series) Circular No. 44, dated December 8, 2003 that OCBs which are incorporated and are not under the adverse notice of the RBI are permitted to undertake fresh investments as 138 incorporated non- resident entities in terms of Regulation 5(1) of RBI Notification No.20/2000-RB dated May 3, 2000 under FDI Scheme with the prior approval of Government if the investment is through Government Route and with the prior approval of RBI if the investment is through Automatic Route on case by case basis. OCBs may invest in this Issue provided it obtains a prior approval from the RBI. On submission of such approval along with the Bid Cum Application Form, the OCB shall be eligible to be

considered for share allocation.

MAXIMUM AND MINIMUM APPLICATION SIZE

1. **For Individual Bidders who applies for minimum application size**

   The Application must be for a minimum of 3200 Equity Shares and in multiples of 1600 Equity Shares thereafter, so as to ensure that the Application Price payable by the Bidder exceeds ₹ 2,00,000. In case of revision of Applications, the Individual Bidders have to ensure that the Application Price exceeds ₹ 2,00,000.

2. **For Other than Individual Bidders (Non-Institutional Applicants and QIBs):**

   The Application must be for a minimum of such number of Equity Shares that the Application Amount exceeds ₹ 2,00,000 and in multiples of 1600 Equity Shares thereafter. An Application cannot be submitted for more than the Net Issue Size. However, the maximum Application by a QIB investor should not exceed the investment limits prescribed for them by applicable laws. Under existing SEBI Regulations, a QIB Bidder cannot withdraw its Application after the Issue Closing Date and is required to pay 100% QIB Margin upon submission of Application.

   In case of revision in Applications, the Non-Institutional Bidders, who are individuals, have to ensure that the Application Amount is greater than ₹ 2,00,000 for being considered for allocation in the Non-Institutional Portion.

Bidders are advised to ensure that any single Application from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in this Prospectus.

The above information is given for the benefit of the Bidders. The Company and the BRLM are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Prospectus. Bidders are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.

METHOD OF BIDDING PROCESS

Our Company, in consultation with the BRLM have decided the Price Band and the minimum Bid lot size for the Issue and the same was advertised in all editions Financial Express, an English national daily newspaper, all editions of Jansatta, a Hindi national daily newspaper each with wide circulation, at least two Working Days prior to the Bid / Issue Opening Date. The BRLM and the SCSBs shall accept Bids from the Bidders during the Bid / Issue Period.

a) The Bid / Issue Period was for a minimum of three Working Days and did not exceed 10 Working Days.

b) Each Bid cum Application Form gave the Bidder the choice to Bid for up to three optional prices (for details refer to the paragraph titled "Bids at Different Price Levels and Revision of Bids" below) within the Price Band and specify the demand (i.e., the number of Equity Shares Bid for) in each option. The price and demand options submitted by the Bidder in the Bid cum Application Form were treated as optional demands from the Bidder and were be cumulated. After determination of the Issue Price, the maximum number of Equity Shares Bid for by a Bidder/Applicant at or above the Issue Price were considered for allocation/Allotment and the rest of the Bid(s), irrespective of the Bid Amount, were automatically invalid.

c) The Bidder / Applicant could not Bid through another Bid cum Application Form after Bids through one Bid cum Application Form were submitted to a BRLM or the SCSBs. Submission of a second Bid cum Application Form to either the same or to another BRLM or SCSB were treated as multiple Bid and were liable to be rejected either before entering the Bid into the electronic bidding system, or at any point of time prior to the allocation or Allotment of Equity Shares in this Issue. However, the Bidder could revise the Bid through the Revision Form, the procedure for which is detailed under the paragraph "Buildup of the Book and Revision of Bids".

d) The BRLM/the SCSBs entered each Bid option into the electronic bidding system as a separate Bid and generate a Transaction Registration Slip, ("TRS"), for each price and demand option and give the same to the Bidder. Therefore, a Bidder could receive up to three TRSs for each Bid cum Application Form.

e) Upon receipt of the Bid cum Application Form, submitted whether in physical or electronic mode, the Designated Branch of the SCSB verified if sufficient funds equal to the Bid Amount are available in the ASBA Account, as mentioned in the Bid cum Application Form, prior to uploading such Bids with the Stock Exchange.

f) If sufficient funds were not available in the ASBA Account, the Designated Branch of the SCSB rejected such Bids and shall not upload such Bids with the Stock Exchange.

g) If sufficient funds were available in the ASBA Account, the SCSB blocked an amount equivalent to the Bid Amount mentioned in the Bid cum Application Form and entered each Bid option into the electronic bidding system as a separate Bid and generated a TRS for each price and demand option. The TRS was be furnished to the ASBA Bidder on request.

h) The Bid Amount remained blocked in the aforesaid ASBA Account until finalization of the Basis of Allotment and consequent transfer of the Bid Amount against the Allotted Equity Shares to the Public Issue Account, or until withdrawal/failure of the Issue or until withdrawal/rejection of the Bid cum Application Form, as the case may be. Once the Basis of Allotment is finalized, the Registrar to the Issue shall send an appropriate request to the SCSB for unblocking the relevant ASBA Accounts

and for transferring the amount allocable to the successful Bidders to the Public Issue Account. In case of withdrawal/failure of the Issue, the blocked amount shall be unblocked on receipt of such information from the Registrar to the Issue.

BIDS AT DIFFERENT PRICE LEVELS AND REVISION OF BIDS

a. Our Company in consultation with the BRLM, finalized the Issue Price within the Price Band without the prior approval of, or intimation, to the Bidders.

b. The Bidders could Bid at any price within the Price Band. The Bidder had to Bid for the desired number of Equity Shares at a specific price. Individual Bidders could Bid at the Cut-off Price. However, bidding at the Cut-off Price is prohibited for QIB and Non-Institutional Bidders and such Bids from QIB and Non-Institutional Bidders were rejected.

c. Individual Bidders, who Bid at Cut-off Price agreed that they would purchase the Equity Shares at any price within the Price Band. Individual Bidders were require to submit the Bid cum Application Form along with a cheque/demand draft for the Bid Amount based on the Cap Price with the Syndicate. In case of ASBA Bidders (excluding Non-Institutional Bidders and QIB Bidders) bidding at Cut-off Price, the ASBA Bidders were required too instruct the SCSBs to block an amount based on the Cap Price.

Participation by Associates /Affiliates of BRLM and the Syndicate Members

The BRLM and the Syndicate Members, if any, shall not be allowed to purchase in this Issue in any manner, except towards fulfilling their underwriting obligations. However, the associates and affiliates of the BRLM and the Syndicate Members, if any, may subscribe the Equity Shares in the Issue, either in the QIB Category or in the Non- Institutional Category as may be applicable to such Bidders, where the allocation is on a proportionate basis and such subscription may be on their own account or on behalf of their clients.

Option to Subscribe in the Issue

a. As per Section 29(1) of the Companies Act 2013, allotment of Equity Shares shall be made in dematerialized form only. Investors will not have the option of getting allotment of specified securities in physical form.

b. The Equity Shares, on allotment, shall be traded on the Stock Exchange in demat segment only.

c. A single application from any investor shall not exceed the investment limit/minimum number of Equity Shares that can be held by him/her/it under the relevant regulations/statutory guidelines and applicable law.

Bids/Applications by HUFs will be considered at par with Bids/Applications from individuals.

BIDS BY MUTUAL FUNDS

With respect to Bids by Mutual Funds, a certified copy of their SEBI registration certificate must be lodged along with the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserve the right to reject any Bid without assigning any reason thereof.

Bids made by asset management companies or custodians of Mutual Funds were require to specifically state names of the concerned schemes for which such Bids were made.

In case of a Mutual Fund, a separate Bid could be made in respect of each scheme of the Mutual Fund registered with SEBI and such Bids in respect of more than one scheme of the Mutual Fund were not treated as multiple Bids provided that the Bids clearly indicate the scheme concerned for which the Bid has been made.

No Mutual Fund scheme were required to invest more than 10.00% of its net asset value in equity shares or equity related instruments of any single company provided that the limit of 10.00% shall not be applicable for investments in case of index funds or sector or industry specific schemes. No Mutual Fund under all its schemes should own more than 10.00% of any company's paid-up share capital carrying voting rights.

BIDS BY ELIGIBLE NRIS

Eligible NRIs could obtain copies of Bid cum Application Form from the Designated Intermediaries. Only Bids accompanied by payment in Indian Rupees or freely convertible foreign exchange will be considered for Allotment. Eligible NRI Bidders bidding on a repatriation basis by using the Non-Resident Forms were required to authorize their SCSB (if they are Bidding directly through the SCSB) or confirm or accept the UPI Mandate Request (in case of Bidding through the UPI Mechanism) to block their Non-Resident External ("NRE") accounts, or Foreign Currency Non-Resident ("FCNR") Accounts, and eligible NRI Bidders bidding on a non- repatriation basis by using Resident Forms should authorize their SCSB (if they are Bidding directly through SCSB) or confirm or accept the UPI Mandate Request (in case of Bidding through the UPI Mechanism) to block their Non-Resident Ordinary ("NRO") accounts for the full Bid Amount, at the time of the submission of the Bid cum Application Form. Participation of Eligible NRIs in the Issue shall be subject to the FEMA Rules.

In accordance with the Consolidated FDI Policy, the total holding by any individual NRI, on a repatriation or non- repatriation basis, did not exceed 5.00% of the total paid-up equity capital on a fully diluted basis or did not exceed 5.00% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together, on a repatriation or non- repatriation basis, shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrant. Provided that the aggregate ceiling of 10.00% may be raised to 24.00% if a special resolution to that effect is passed by the general body of the Indian company.

NRIs were permitted to apply in the Issue through Channel I or Channel II (as specified in the UPI Circular). Further, subject to applicable law, NRIs may use Channel IV (as specified in the UPI Circular) to apply in the Issue, provided the UPI facility was enabled for their NRE/ NRO accounts.

NRIs applying in the Issue using UPI Mechanism were advised to enquire with the relevant bank whether their bank account is UPI linked prior to making such application. For details of investment by NRIs, see **"***Restrictions on Foreign Ownership of Indian Securities*" beginning on page 300 Participation of eligible NRIs shall be subject to FEMA NDI Rules.

BIDS BY FPIS

In terms of the SEBI FPI Regulations, the issue of Equity Shares to a single FPI or an investor group (which means the same multiple entities having common ownership directly or indirectly of more than 50% or common control) were required to be below 10% of our post-Issue Equity Share capital. Further, in terms of the FEMA NDI Rules, with effect from April 1, 2020, the aggregate FPI investment limit is the sectoral cap applicable to an Indian company as prescribed in the FEMA NDI Rules with respect to its paid-up equity capital on a fully diluted basis. Currently, the sectoral cap for retail trading of food products

manufactured and/ or produced in India is 100% under automatic route.

FPIs were permitted to participate in the Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time. In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations was required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason. FPIs who wished to participate in the Issue are advised to use the Bid cum Application Form for Non-Residents.

In terms of the FEMA, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs would be included.

The FEMA NDI Rules were enacted on October 17, 2019 in supersession of the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2017, except as respects things done or omitted to be done before such supersession. **FPIs were permitted to participate in the Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time.**

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI, may issue, subscribe to or otherwise deal in offshore derivative instruments(as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by a FPI against securities held by it in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only by persons registered as Category I FPIs; (ii) such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs; (iii) such offshore derivative instruments are issued after compliance with 'know your client' norms; and (iv) such other conditions as may be specified by SEBI from time to time.

An FPI issuing off-shore derivate instruments is also required to ensure that any transfer of off-shore derivative instruments issued by, or on behalf of it subject to, inter alia, the following conditions:

(i). such offshore derivative instruments are transferred to person subject to fulfilment of SEBI FPI Regulations; and

(ii). prior consent of the FPI is obtained for such transfer, except when the persons to whom the offshore derivative instruments are to be transferred are pre-approved by the FPI.

Bids by FPIs which utilize the multi-investment manager structure in accordance with the Operational Guidelines for Foreign Portfolio Investors and Designated Depository Participants issued to facilitate implementation of the SEBI FPI Regulations ("Operational FPI Guidelines"), submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs shall not be treated as multiple Bids ("MIM Bids"). It was hereby clarified that FPIs bearing the same PAN would be treated as multiple Bids by a Bidder and would be rejected, except for Bids from FPIs that utilize the multi- investment manager structure in accordance with the Operational FPI Guidelines (such structure referred to as "MIM Structure"). In order to ensure valid Bids, FPIs making MIM Bids using the same PAN and with different beneficiary account numbers, Client IDs and DP IDs, were required to submit a confirmation that their Bids are under the MIM Structure and indicate the name of their investment managers in such confirmation which were submitted along with each of their Bid cum Application Forms. In the absence of such confirmation from the relevant FPIs, such MIM Bids were rejected.

BIDS BY SEBI-REGISTERED AIFS, VCFS AND FVCIS

The SEBI FVCI Regulations, SEBI VCF Regulations and the SEBI AIF Regulations prescribe, inter alia, the investment restrictions on the FVCIs, VCFs and AIFs registered with SEBI respectively. FVCIs could invest only up to 33.33% of the investible funds by way of subscription to an initial public offering. Category I AIF and Category II AIF could not invest more than 25% of the investible funds in one investee company directly or through investment in the units of other AIFs. A Category III AIF cannot invest more than 10% of the investible funds in one investee company directly or through investment in the units of other AIFs. AIFs which are authorized under the fund documents to invest in units of AIFs are prohibited from offering their units for subscription to other AIFs. A VCF registered as a Category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than 1/3rd of its investible funds by way of subscription to an initial public offering of a venture capital undertaking. Additionally, a VCF that has not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the SEBI VCF Regulations (and accordingly shall not be allowed to participate in the Issue) until the existing fund or scheme managed by the fund is wound up and such funds shall not launch any new scheme after the notification of the SEBI AIF Regulations.

There is no reservation for Eligible NRIs, FPIs and FVCIs and all Bidders will be treated on the same basis with other categories for the purpose of allocation.

Further, the shareholding of VCFs, category I AIFs or category II AIFs and FVCIs holding Equity Shares prior to Issue, shall be locked-in for a period of at least one year from the date of purchase of such Equity Shares.

All non-resident investors should note that refunds, dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission.

The Company or the BRLM will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

BIDS BY LIMITED LIABILITY PARTNERSHIPS

In case of Bids made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified

copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserve the right to reject any Bid without assigning any reason thereof.

BIDS BY BANKING COMPANIES

In case of Bids made by banking companies registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, and (ii) the approval of such banking company's investment committee were required to be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserved the right to reject any Bid without assigning any reason thereof. The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended and Master Circular on Basel III Capital Regulations dated July 1, 2014, as amended, is 10.00% of the paid up share capital of the investee company, not being its subsidiary engaged in non-financial services, or 10.00% of the bank's own paid-up share capital and reserves, whichever is lower.

However, a banking company would be permitted to invest in excess of 10% but not exceeding 30% of the paid up share capital of such investee company, subject to prior approval of the RBI if (i) the investee company is engaged in non- financial activities permitted for banking companies in terms of Section 6(1) of the Banking Regulation Act; or (ii) the additional acquisition is through restructuring of debt, or to protect the banking company's interest on loans/investments made to a company. The bank is required to submit a time bound action plan to the RBI for the disposal of such shares within a specified period. The aggregate investment by a banking company along with its subsidiaries, associates or joint ventures or entities directly or indirectly controlled by the bank; and mutual funds managed by asset management companies controlled by the bank, more than 20% of the investee company's paid up share capital engaged in non-financial services. However, this cap doesn't apply to the cases mentioned in (i) and (ii) above. The aggregate equity investments made by a banking company in all subsidiaries and other entities engaged in financial services and non-financial services, including overseas investments shall not exceed 20% of the bank's paid-up share capital and reserves.

In terms of the Master Circular on Basel III Capital Regulations dated July 1, 2014, as amended (i) a bank's investment in the capital instruments issued by banking, financial and insurance entities should not exceed 10% of its capital funds; (ii) banks should not acquire any fresh stake in a bank's equity shares, if by such acquisition, the investing bank's holding exceeds 5% of the investee bank's equity capital; (iii) equity investment by a bank in a subsidiary company, financial services company, financial institution, stock and other exchanges should not exceed 10% of the bank's paid-up share capital and reserves; (iv) equity investment by a bank in companies engaged in non-financial services activities would be subject to a limit of 10% of the investee company's paid-up share capital or 10% of the bank's paid-up share capital and reserves, whichever is less; and (v) a banking company is restricted from holding shares in any company, whether as pledgee, mortgagee or absolute owner, of an amount exceeding 30% of the paid-up share capital of that company or 30% of its own paid-up share capital and reserves, whichever is less. For details in relation to the investment limits under Master Direction – Ownership in Private Sector Banks, Directions, 2016, see *"Key Regulations and Policies"* beginning on page 174.

BIDS BY SCSBS

SCSBs participating in the Issue are required to comply with the terms of the circulars issued by the SEBI dated September 13, 2012 and January 2, 2013. Such SCSBs are required to ensure that for making applications on their own account using ASBA, they should have a separate account in their own name with any other SEBI registered SCSBs. Further, such account shall be used solely for the purpose of making application in public issues and clear demarcated funds should be available in such account for such applications.

BIDS BY SYSTEMICALLY IMPORTANT NBFCS

In case of Bids made by Systemically Important NBFCs registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, (ii) the last audited financial statements on a standalone basis, (iii) a net worth certificate from its statutory auditors, and (iv) such other approval as may be required by the Systemically Important NBFCs are required to be attached to the Bid cum Application Form. Build of the Book

a) Bids received from various Bidders through the Designated Intermediaries may be electronically uploaded on the Bidding Platform of the Stock Exchange on a regular basis. The book gets built up at various price levels. This information may be

available with the BRLM at the end of the Bid/ Issue Period.

b) Based on the aggregate demand and price for Bids registered on the Stock Exchange Platform, a graphical representation of consolidated demand and price as available on the websites of the Stock Exchange may be made available at the Bidding centers during the Bid/ Issue Period.

Price Discovery and Allocation

a) Based on the demand generated at various price levels, our Company in consultation with the BRLM, shall finalize the Issue Price.

b) The SEBI ICDR Regulations, 2018 specify the allocation or Allotment that may be made to various categories of Bidders in an Issue depending on compliance with the eligibility conditions. Certain details pertaining to the percentageof Issue size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the Prospectus. For details in relation to allocation, the Bidder may refer to the Prospectus.

c) Under-subscription in any category (except QIB Category) is allowed to be met with spillover from any other categoryor combination of categories at the discretion of the Issuer and the in consultation with the BRLM and the DesignatedStock Exchange and in accordance with the SEBI ICDR Regulations. Unsubscribed portion in QIB Category is not available for subscription to other categories.

d) In case of under subscription in the Issue, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Issue. For allocation in the event of an undersubscription applicable to the Issuer, Bidders may refer to the prospectus.

e) In case if the Individual Investor category is entitled to more than the allocated portion on proportionate basis, the category shall be allotted that higher percentage.

Illustration of the Book Building and Price Discovery Process: Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue**; it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.**

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer, in consultation with the BRLM, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below₹ 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

Anchor Investors are not allowed to withdraw their Bids after Anchor Investors bidding date.

GENERAL INSTRUCTIONS

Please note that QIBs and Non-Institutional Bidders are not permitted to withdraw their Bid(s) or lower the size of their Bid(s) (in terms of quantity of Equity Shares or the Bid Amount) at any stage. Individual Investors and Eligible Employees Bidding under the Employee Reservation Portion could revise their Bid(s) during the Bid/ Issue Period and withdraw or lower the size of their Bid(s) until Bid/ Issue Closing Date. iii. Basis of Allotment for QIBs and NIIs in case of Over Subscribed Issue:

In the event of the Issue being Over-Subscribed, the Issuer may finalize the Basis of Allotment in consultation with the BSE Limited (The Designated Stock Exchange). The allocation may be made in marketable lots on proportionate basis as set forth hereunder:

a) The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the oversubscription ratio (number of Bidders in the category multiplied by number of Shares applied for).

b) The number of Shares to be allocated to the successful Bidders will be arrived at on a proportionate basisin marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).

c) For Bids where the proportionate allotment works out to less than 1600 equity shares the allotment will be made as follows:

- Each successful Bidder shall be allotted 3200 equity shares; and
- The successful Bidder out of the total bidders for that category shall be determined by draw of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Sharesworked out as per (b) above.

d) If the proportionate allotment to a Bidder works out to a number that is not a multiple of 1600 equity shares, the Bidder would be allotted Shares by rounding off to the nearest multiple of 1600 equity shares subject to a minimum allotment of 2400 equity shares.

e) If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the Bidders in that category, the balance available Shares or allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful Bidder in that category, the balance shares, if any, remaining after such adjustment will be added to the category comprising Bidder applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of 1600 Equity Shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the Issue specified

under the Capital Structure mentioned in this Prospectus.

Individual Investor who applies for minimum application size means an investor who applies for shares of value of not more than ₹ 2,00,000/. Investors may note that in case of over subscription, allotment shall be on proportionate basis and will be finalized in consultation with BSE Limited.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the FDI Policy of the Government of India and FEMA and the circulars and notifications issued thereunder. While the FDI Policy prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. The Government has from time to time made policy pronouncements on foreign direct investment ("FDI") through press notes and press releases.

The Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India ("DPIIT"), formerly known as Department of Industrial Policy and Promotion issued the Consolidated FDI Policy Circular of 2020 ("FDI Policy") by way of circular bearing number DPIIT file number 5(2)/2020-FDI Policy dated October 15, 2020, which with effect from October 15, 2020, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The FDI Policy will be valid until the DPIIT issues an updated circular. Up to 100% foreign investment under the automatic route is currently permitted in the "Services" sector. For details, see "*Key Regulations and Policies*" on page 174.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company are under the automatic route under the FDI Policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country ("**Restricted Investors**"), will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA Rules. Each Bidder should seek independent legal advice about its ability to participate in the Issue. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar in writing about such approval along with a copy thereof within the Issue Period.

As per the existing policy of the Government of India, OCBs cannot participate in this Offer and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. Investors are advised to confirm their eligibility under the relevant laws before investing and / or subsequent purchase or sale transaction in the Equity Shares of our Company. Investors will not offer, sell, pledge or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines. Our Company, the Underwriters and their respective directors, officers, agents, affiliates and representatives, as applicable, accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares of our Company.

The Equity Shares have not been and will not be registered under the U.S. Securities Act and may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws.

Accordingly, the Equity Shares are only being offered and sold outside the United States in offshore transactions in reliance on Regulations and the applicable laws of the jurisdiction where those Issues and sales occur. The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Applicants. Our Company and the Book Running Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Prospectus. Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them.

Investment conditions/restrictions for overseas entities

Under the current FDI Policy 2020, the maximum amount of Investment (sectoral cap) by foreign investor in an issuing entity is composite unless it is explicitly provided otherwise including all types of foreign investments, direct and indirect, regardless of whether it has been made for FDI, FPI, NRI/OCI, LLPs, FVCI, Investment Vehicles and DRs under Foreign Exchange Management (Non-debt Instruments) Rules, 2019. Any equity holding by a person resident outside India resulting from conversion of any debt instrument under any arrangement shall be reckoned as foreign investment under the composite cap.

Investment by FPIs under Portfolio Investment Scheme (PIS)

With regards to purchase/sale of capital instruments of an Indian company by an FPI under PIS the total holding by each FPI or an investor group as referred in SEBI (FPI) Regulations, 2014 shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or less than 10% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all FPIs put together shall not exceed 24% of paid-up equity capital on fully diluted basis or paid-up value of each series of debentures or preference shares or share warrants. The said limit of 10% and 24% will be called the

individual and aggregate limit, respectively. However, this limit of 24 % may be increased up to sectoral cap/statutory ceiling, as applicable, by the Indian company concerned by passing a resolution by its Board of Directors followed by passing of a special resolution to that effect by its general body.

Investment by NRI or OCI on repatriation basis:

The purchase/sale of equity shares, debentures, preference shares and share warrants issued by an Indian company (hereinafter referred to as "Capital Instruments") of a listed Indian company on a recognized stock exchange in India by Non-Resident Indian (NRI) or Overseas Citizen of India (OCI) on repatriation basis is allowed subject to certain conditions under Foreign Exchange Management (Non-debt Instruments) Rules, 2019.

The total holding by any individual NRI or OCI shall not exceed 5% of the total paid-up equity capital on a fully diluted basis or should not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrants; provided that the aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the Indian company.

Investment by NRI or OCI on non-repatriation basis

As per current FDI Policy 2020, Foreign Exchange Management (Non-debt Instruments) Rules, 2019, Purchase/ sale of Capital Instruments or convertible notes or units or contribution to the capital of an LLP by a NRI or OCI on non- repatriation basis – will be deemed to be domestic investment at par with the investment made by residents. This is further subject to remittance channel restrictions.

The Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, as amended ("US Securities Act") or any other state securities laws in the United States of America and may not be sold or offered within the United States of America, or to, or for the account or benefit of "US Persons" as defined in Regulation S of the U.S. Securities Act, except pursuant to exemption from, or in a transaction not subject to, the registration requirements of US Securities Act and applicable state securities laws.

Accordingly, the equity shares are being offered and sold only outside the United States of America in an offshore transaction in reliance upon Regulation S under the US Securities Act and the applicable laws of the jurisdiction where those offers and sale occur. Further, no offer to the public (as defined under Directive 20003/71/EC, together with any amendments) and implementing measures thereto, (the "Prospectus Directive") has been or will be made in respect of the Offer in any member State of the European Economic Area which has implemented the Prospectus Directive except for any such Issue made under exemptions available under the Prospectus Directive, provided that no such Issue shall result in a requirement to publish or supplement a prospectus pursuant to the Prospectus Directive, in respect of the Issue.

Any forwarding, distribution or reproduction of this document in whole or in part may be unauthorized. Failure to comply with this directive may result in a violation of the Securities Act or the applicable laws of other jurisdictions. Any investment decision should be made on the basis of the final terms and conditions and the information contained in this Prospectus.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Application may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Applicants. Our Company and the Book Running Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Prospectus. Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them and do not exceed the applicable limits under the laws and regulations.

Every certificate under this Article shall be issued on payment of twenty rupees for each certificate.

(ii) The provisions of Articles (9) and (10) shall mutatis mutandis apply to debentures of the company.

10. Except as required by law, no person shall be recognized by the company as holding any share upon any trust, and the company shall not be bound by, or be compelled in any way to recognize (even when having notice thereof) any equitable, contingent, future or partial interest in any share, or any interest in any fractional part of a share, or (except only as by these regulations or by law otherwise provided) any other rights in respect of any share except an absolute right to the entirety thereof in the registered holder.

11. (i) The company may exercise the powers of paying commissions conferred by sub-section (6) of section 40, provided that the rate per cent or the amount of the commission paid or agreed to be paid shall be disclosed in the manner required by that section and rules made thereunder.

(ii) The rate or amount of the commission shall not exceed the rate or amount prescribed in rules made under sub-section (6) of section 40.

(iii) The commission may be satisfied by the payment of cash or the allotment of fully or partly paid shares or partly in the one way and partly in the other.

12. (i) If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class) may, subject to the provisions of section 48, and whether or not the company is being wound up, be varied with the consent in writing of the holders of three-fourths of the issued shares of that class, or with the sanction of a special resolution passed at a separate meeting of the holders of the shares of that class.

(ii) To every such separate meeting, the provisions of these regulations relating to general meetings shall mutatis mutandis apply, but so that the necessary quorum shall be at least two persons holding at least one third of the issued shares of the class in question.

13. The rights conferred upon the holders of the shares of any class issued with preferred or other rights shall not, unless otherwise expressly provided by the terms of issue of the shares of that class, be deemed to be varied by the creation or issue of further shares ranking pari passu therewith.

14. Subject to the provisions of section 55, any preference shares may, with the sanction of an ordinary resolution, be issued on the terms that they are to be redeemed on such terms and in such manner as the company before the issue of the shares may, by special resolution, determine.

15. Subject to the provisions of the Act, the Board shall have the power to issue or re-issue preference shares of one or more classes which are liable to be redeemed, or converted to equity shares, on such terms and conditions and in such manner as determined by the Board in accordance with the Act.

16. A further issue of shares may be made in any manner whatsoever as the Board may determine including by way of preferential offer or private placement, subject to and in accordance with the Act and the Rules.

LIEN

17. (a) (i) The company shall have a first and paramount lien-

(a) on every share (not being a fully paid share), for all monies (whether presently payable or not) called, or payable at a fixed time, in respect of that share; and

(b) on all shares (not being fully paid shares) standing registered in the name of a single person, for all monies presently payable by him or his estate to the company:

Provided that the Board of directors may at any time declare any share to be wholly or in part exempt from the provisions of this clause.

(ii) The company's lien, if any, on a share shall extend to all dividends payable and bonuses declared from time to time in respect of such shares.

18. The company may sell, in such manner as the Board thinks fit, any shares on which the company has a lien: Provided that no sale shall be made-

(i) unless a sum in respect of which the lien exists is presently payable; or

(ii) until the expiration of fourteen days after a notice in writing stating and demanding payment of such part of the amount in respect of which the lien exists as is presently payable, has been given to the registered holder for the time being of the share or the person entitled thereto by reason of his death or insolvency.

19. (i) To give effect to any such sale, the Board may authorise some person to transfer the shares sold to the purchaser thereof.

(ii) The purchaser shall be registered as the holder of the shares comprised in any such transfer.

(iii) The purchaser shall not be bound to see to the application of the purchase money, nor shall his title to the shares be affected by any irregularity or invalidity in the proceedings in reference to the sale.

20. (i) The proceeds of the sale shall be received by the company and applied in payment of such part of the amount in respect of which the lien exists as is presently payable.

(ii) The residue, if any, shall, subject to a like lien for sums not presently payable as existed upon the shares before the sale, be paid to the person entitled to the shares at the date of the sale.

CALLS ON SHARES AND TRANSFER OF SHARES

21. (a) (i) The Board may, from time to time, make calls upon the members in respect of any monies unpaid on their shares (whether on account of the nominal value of the shares or by way of premium) and not by the conditions of allotment thereof made payable at fixed times:

Provided that no call shall exceed one-fourth of the nominal value of the share or be payable at less than one month from the date fixed for the payment of the last preceding call.

(ii) Each member shall, subject to receiving at least fourteen days' notice specifying the time or times and place of payment, pay to the company, at the time or times and place so specified, the amount called on his shares.

(iii) A call may be revoked or postponed at the discretion of the Board.

22. A call shall be deemed to have been made at the time when the resolution of the Board authorizing the call was passed and may be required to be paid by installments.

23. The joint holders of a share shall be jointly and severally liable to pay all calls in respect thereof.

24. (i) If a sum called in respect of a share is not paid before or on the day appointed for payment thereof, the person from whom the sum is due shall pay interest thereon from the day appointed for payment thereof to the time of actual payment at ten per cent per annum or at such lower rate, if any, as the Board may determine.

(ii) The Board shall be at liberty to waive payment of any such interest wholly or in part.

25. (i) Any sum which by the terms of issue of a share becomes payable on allotment or at any fixed date, whether on account of the nominal value of the share or by way of premium, shall, for the purposes of these regulations, be deemed to be a call duly made and payable on the date on which by the terms of issue such sum becomes payable.

26. In case of non-payment of such sum, all the relevant provisions of these regulations as to payment of interest and expenses, forfeiture or otherwise shall apply as if such sum had become payable by virtue of a call duly made and notified.

27. The Board-

(a) may, if it thinks fit, receive from any member willing to advance the same, all or any part of the monies uncalled and unpaid upon any shares held by him; and

(b) upon all or any of the monies so advanced, may (until the same would, but for such advance, become presently payable) pay interest at such rate not exceeding, unless the company in general meeting shall otherwise direct, twelve per cent per annum, as may be agreed upon between the Board and the member paying the sum in advance.

28. (i) The instrument of transfer of any share in the company shall be executed by or on behalf of both the transferor and transferee.

(ii) The transferor shall be deemed to remain a holder of the share until the name of the transferee is entered in the register of members in respect thereof.

29. The Board may decline to recognize any instrument of transfer unless-

(a) the instrument of transfer is in the form as prescribed in rules made under sub-section (1) of section 56;

(b) the instrument of transfer is accompanied by the certificate of the shares to which it relates, and such other evidence as the Board may reasonably require to show the right of the transferor to make the transfer; and

(c) the instrument of transfer is in respect of only one class of shares.

30. On giving not less than seven days' previous notice in accordance with section 91 and rules made thereunder, the registration of transfers may be suspended at such times and for such periods as the Board may from time to time determine:

Provided that such registration shall not be suspended for more than thirty days at any one time or for more than forty-five days in the aggregate in any year.

31. The Directors may refuse to register any transfer of shares

(1) where the Company has a lien on the shares or

(2) where the shares are not fully paid up shares, subject to Section 58 and 59 of the Companies Act, 2013.

32. Subject to Section 58 and 59 of the Act, the Directors may in their discretion, without assigning any reason, refuse to register the transfer of any shares to any person, whom it shall, in their opinion, be undesirable in the interest of the Company to admit to membership.

33. At the death of any members his or her shares be recognised as the property of his or her heirs upon production of reasonable evidence as may require by the Board of Directors.

34. The instrument of transfer must be accompanied by the certificates of shares.

TRANSMISSION OF SHARES

35. (i) On the death of a member, the survivor or survivors where the member was a joint holder, and his nominee or nominees or legal representatives where he was a sole holder, shall be the only persons recognised by the company as having any title to his interest in the shares.

(ii) Nothing in clause (i) shall release the estate of a deceased joint holder from any liability in respect of any share which had been jointly held by him with other persons.

36. (i) Any person becoming entitled to a share in consequence of the death or insolvency of a member may, upon such evidence being produced as may from time to time properly be required by the Board and subject as hereinafter provided, elect, either-

(a) to be registered himself as holder of the share; or

(b) to make such transfer of the share as the deceased or insolvent member could have made.

(ii) The Board shall, in either case, have the same right to decline or suspend registration as it would have had, if the deceased or insolvent member had transferred the share before his death or insolvency.

37. (i) If the person so becoming entitled shall elect to be registered as holder of the share himself, he shall deliver or send to the company a notice in writing signed by him stating that he so elects.

(ii) If the person aforesaid shall elect to transfer the share, he shall testify his election by executing a transfer of the share.

(iii) All the limitations, restrictions and provisions of these regulations relating to the right to transfer and the registration of transfers of shares shall be applicable to any such notice or transfer as aforesaid as if the death or insolvency of the member had not occurred and the notice or transfer were a transfer signed by that member.

38. A person becoming entitled to a share by reason of the death or insolvency of the holder shall be entitled to the same dividends and other advantages to which he would been titled if he were the registered holder of the share, except that he shall not, before being registered as a member in respect of the share, be entitled in respect of it to exercise any right conferred by membership in relation to meetings of the company:

Provided that the Board may, at any time, give notice requiring any such person to elect either to be registered himself or to transfer the share, and if the notice is not complied with within ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other monies payable in respect of the share, until the requirements of the notice have been complied with.

FORFEITURE OF SHARES

39. If a member fails to pay any call, or installment of a call, on the day appointed for payment thereof, the Board may, at any time thereafter during such time as any part of the call or installment remains unpaid, serve a notice on him requiring payment of so much of the call or installment as is unpaid, together with any interest which may have accrued.

40. The notice aforesaid shall-

(a) name a further day (not being earlier than the expiry of fourteen days from the date of service of the notice) on or before which the payment required by the notice is to be made; and

(b) state that, in the event of non-payment on or before the day so named, the shares in respect of which the call was made shall be liable to be forfeited.

41. If the requirements of any such notice as aforesaid are not complied with, any share in respect of which the notice has been given may, at any time thereafter, before the payment required by the notice has been made, be forfeited by a resolution of the Board to that effect.

42. (i) A forfeited share may be sold or otherwise disposed of on such terms and in such manner as the Board thinks fit.

(ii) At any time before a sale or disposal as aforesaid, the Board may cancel the forfeiture on such terms as it thinks fit.

43. (i) A person whose shares have been forfeited shall cease to be a member in respect of the forfeited shares, but shall, notwithstanding the forfeiture, remain liable to pay to the company all monies which, at the date of forfeiture, were presently payable by him to the company in respect of the shares.

(ii) The liability of such person shall cease if and when the company shall have received payment in full of all such monies in respect of the shares.

44. (i) A duly verified declaration in writing that the declarant is a director, the manager or the secretary, of the company, and that a share in the company has been duly forfeited on a date stated in the declaration, shall be conclusive evidence of the facts therein stated against all persons claiming to be entitled to the share;

(ii) The company may receive the consideration, if any, given for the share on any sale or disposal thereof and may execute a transfer of the share in favour of the person to whom the share is sold or disposed of;

(iii) The transferee shall thereupon be registered as the holder of the share; and

(iv) The transferee shall not be bound to see to the application of the purchase money, if any, nor shall his title to the share be affected by any irregularity or invalidity in the proceedings in reference to the forfeiture, sale or disposal of the share.

45. The provisions of these regulations as to forfeiture shall apply in the case of non-payment of any sum which, by the terms of issue of a share, becomes payable at a fixed time, whether on account of the nominal value of the share or by way of premium, as if the same had been payable by virtue of a call duly made and notified.

ALTERATION OF CAPITAL

46. The company may, from time to time, by ordinary resolution increase the share capital by such sum, to be divided into shares of such amount, as may be specified in the resolution.

47. Subject to the provisions of section 61, the company may, by ordinary resolution,-

(a) Consolidate and divide all or any of its share capital into shares of larger amount than its existing shares;

(b) Convert all or any of its fully paid-up shares into stock, and reconvert that stock into fully paid-up shares of any denomination;

(c) Sub-divide its existing shares or any of them into shares of smaller amount than is fixed by the memorandum;

(d) Cancel any shares which, at the date of the passing of the resolution, have not been taken or agreed to be taken by any person.

48. Where shares are converted into stock,-

(a) the holders of stock may transfer the same or any part thereof in the same manner as, and subject to the same regulations under which, the shares from which the stock arose might before the conversion have been transferred, or as near thereto as circumstances admit:

Provided that the Board may, from time to time, fix the minimum amount of stock transferable, so, however, that such minimum shall not exceed the nominal amount of the shares from which the stock arose.

(b) the holders of stock shall, according to the amount of stock held by them, have the same rights, privileges and advantages as regards dividends, voting at meetings of the company, and other matters, as if they held the shares from which the stock arose; but no such privilege or advantage (except participation in the dividends and profits of the company and in the assets on winding up) shall be conferred by an amount of stock which would not, if existing in shares, have conferred that privilege or advantage.

(c) Such of the regulations of the company as are applicable to paid-up shares shall apply to stock and the words “share” and “shareholder” in those regulations shall include “stock” and “stock-holder” respectively.

49. The company may, by special resolution, reduce in any manner and with, and subject to, any incident authorised and consent required by law,-

(a) its share capital;

(b) any capital redemption reserve account; or

(c) any share premium account.

CAPITALISATION OF PROFITS

50. (i) The company in general meeting may, upon the recommendation of the Board, resolve-

(a) that it is desirable to capitalize any part of the amount for the time being standing to the credit of any of the company’s reserve accounts, or to the credit of the profit and loss account, or otherwise available for distribution; and

(b) that such sum be accordingly set free for distribution in the manner specified in clause (ii) amongst the members who would have been entitled thereto, if distributed by way of dividend and in the same proportions.

(ii) The sum aforesaid shall not be paid in cash but shall be applied, subject to the provision contained in clause (iii), either in or towards-

(A) paying up any amounts for the time being unpaid on any shares held by such members respectively;

(B) paying up in full, unissued shares of the company to be allotted and distributed, credited as fully paid-up, to and amongst such members in the proportions aforesaid;

(C) partly in the way specified in sub-clause (A) and partly in that specified in sub-clause (B);

(D) A securities premium account and a capital redemption reserve account may, for the purposes of this regulation, be applied in the paying up of unissued shares to be issued to members of the company as fully paid bonus shares;

(E) The Board shall give effect to the resolution passed by the company in pursuance of this regulation.

51. (i) Whenever such a resolution as aforesaid shall have been passed, the Board shall-

(a) make all appropriations and applications of the undivided profits resolved to be capitalised thereby, and all allotments and issues of fully paid shares if any; and

(b) generally do all acts and things required to give effect thereto.

(ii) The Board shall have power-

(a) to make such provisions, by the issue of fractional certificates or by payment in cash or otherwise as it thinks fit, for the case of shares becoming distributable infractions; and

(b) to authorise any person to enter, on behalf of all the members entitled thereto, into an agreement with the company providing for the allotment to them respectively credited as fully paid-up, of any further shares to which they may be entitled upon such capitalisation, or as the case may require, for the payment by the company on their behalf, by the application thereto of their respective proportions of profits resolved to be capitalised, of the amount or any part of the amounts remaining unpaid on their existing shares;

(iii) Any agreement made under such authority shall be effective and binding on such members.

BUY-BACK OF SHARES

52. Notwithstanding anything contained in these articles but subject to the provisions of sections 68 to 70 and any other applicable provision of the Act or any other law for the time being in force, the company may purchase its own shares or other specified securities.

GENERAL MEETINGS

53. All general meetings other than annual general meeting shall be called extra ordinary general meeting.

54. (i) The Board may, whenever it thinks fit, call an extraordinary general meeting.

(ii) If at any time directors capable of acting who are sufficient in number to form a quorum are not within India, any director or any two members of the company may call an extra ordinary general meeting in the same manner, as nearly as possible, as that in which such a meeting may be called by the Board.

PROCEEDINGS AT GENERAL MEETINGS

55. (i) No business shall be transacted at any general meeting unless a quorum of members is present at the time when the meeting proceeds to business.

(ii) Save as otherwise provided herein, the quorum for the general meetings shall be as provided in section 103.

56. The chairperson, if any, of the Board shall preside as Chairperson at every general meeting of the company.

57. If there is no such Chairperson, or if he is not present within fifteen minutes after the time appointed for holding the meeting, or is unwilling to act as chairperson of the meeting, the directors present shall elect one of their members to be Chairperson of the meeting.

58. If at any meeting no director is willing to act as Chairperson or if no director is present within fifteen minutes after the time appointed for holding the meeting, the members present shall choose one of their members to be Chairperson of the meeting.

ADJOURNMENT OF MEETING

59. (i) The Chairperson may, with the consent of any meeting at which a quorum is present, and shall, if so directed by the meeting, adjourn the meeting from time to time and from place to place.

(ii) No business shall be transacted at any adjourned meeting other than the business left unfinished at the meeting from which the adjournment took place.

(iii) When a meeting is adjourned for thirty days or more, notice of the adjourned meeting shall be given as in the case of an original meeting.

(iv) Save as aforesaid, and as provided in section 103 of the Act, it shall not be necessary to give any notice of an adjournment or of the business to be transacted at an adjourned meeting.

VOTING RIGHTS AND PROXY

60. Subject to any rights or restrictions for the time being attached to any class or classes of shares,-

(a) on a show of hands, every member present in person shall have one vote; and

(b) on a poll, the voting rights of members shall be in proportion to his share inthe paid-up equity share capital of the company.

61. A member may exercise his vote at a meeting by electronic means in accordance with section 108 and shall vote only once.

62. (i) In the case of joint holders, the vote of the senior who tenders a vote, whether in person or by proxy, shall be accepted to the exclusion of the votes of the other joint holders.

(ii) For this purpose, seniority shall be determined by the order in which the names stand in the register of members.

63. A member of unsound mind, or in respect of whom an order has been made by any court having jurisdiction in lunacy, may vote, whether on a show of hands or on a poll, by his committee or other legal guardian, and any such committee or guardian may, on a poll, vote by proxy.

64. Any business other than that upon which a poll has been demanded may be proceeded with, pending the taking of the poll.

65. No member shall be entitled to vote at any general meeting unless all calls or other sums presently payable by him in respect of shares in the company have been paid.

66. (i) No objection shall be raised to the qualification of any voter except at the meeting or adjourned meeting at which the vote objected to is given or tendered, and every vote not disallowed at such meeting shall be valid for all purposes.

(ii) Any such objection made in due time shall be referred to the Chairperson of the meeting, whose decision shall be final and conclusive.

67. The instrument appointing a proxy and the power-of-attorney or other authority, if any, under which it is signed or a notarised copy of that power or authority, shall be deposited at the registered office of the company not less than 48 hours before the time for holding the meeting or adjourned meeting at which the person named in the instrument proposes to vote, or, in the case of a poll, not less than 24 hours before the time appointed for the taking of the poll; and in default the instrument of proxy shall not be treated as valid.

68. An instrument appointing a proxy shall be in the form as prescribed in the rules made under section 105.

69. A vote given in accordance with the terms of an instrument of proxy shall be valid, notwithstanding the previous death or insanity of the principal or the revocation of the proxy or of the authority under which the proxy was executed, or the transfer of the shares in respect of which the proxy is given:

Provided that no intimation in writing of such death, insanity, revocation or transfer shall have been received by the company at its office before the commencement of the meeting or adjourned meeting at which the proxy is used.

BOARD OF DIRECTORS

70. Unless otherwise determined by the Company in general meeting, the number of directors shall not be less than 3 (three) and shall not be more than 15 (Fifteen).

(ii) A director may, and the manager or secretary on the requisition of a director shall, at any time, summon a meeting of the Board.

84. (i) Save as otherwise expressly provided in the Act, questions arising at any meeting of the Board shall be decided by a majority of votes.

(ii) In case of an equality of votes, the Chairperson of the Board, if any, shall have a second or casting vote.

85. The continuing directors may act notwithstanding any vacancy in the Board; but, if and so long as their number is reduced below the quorum fixed by the Act for a meeting of the Board, the continuing directors or director may act for the purpose of increasing the number of directors to that fixed for the quorum, or of summoning a general meeting of the company, but for no other purpose.

86. (i) The Board may elect a Chairperson of its meetings and determine the period for which he is to hold office.

(ii) If no such Chairperson is elected, or if at any meeting the Chairperson is not present within five minutes after the time appointed for holding the meeting, the directors present may choose one of their number to be Chairperson of the meeting.

87. (i) The Board may, subject to the provisions of the Act, delegate any of its powers to committees consisting of such member or members of its body as it thinks fit.

(ii) Any committee so formed shall, in the exercise of the powers so delegated, conform to any regulations that may be imposed on it by the Board.

88. (i) A committee may elect a Chairperson of its meetings.

(ii) If no such Chairperson is elected, or if at any meeting the Chairperson is not present within five minutes after the time appointed for holding the meeting, the members present may choose one of their members to be Chairperson of the meeting.

89. (i) A committee may meet and adjourn as it thinks fit.

(ii) Questions arising at any meeting of a committee shall be determined by a majority of votes of the members present, and in case of an equality of votes, the Chairperson shall have a second or casting vote.

90. All acts done in any meeting of the Board or of a committee thereof or by any person acting as a director, shall, notwithstanding that it may be afterwards discovered that there was some defect in the appointment of any one or more of such directors or of any person acting as aforesaid, or that they or any of them were disqualified, be as valid as if every such director or such person had been duly appointed and was qualified to be a director.

91. Save as otherwise expressly provided in the Act, a resolution in writing, signed by all the members of the Board or of a committee thereof, for the time being entitled to receive notice of a meeting of the Board or committee, shall be valid and effective as if it had been passed at a meeting of the Board or committee, duly convened and held.

CHIEF EXECUTIVE OFFICER, MANAGER, COMPANY SECRETARY OR CHIEF FINANCIAL OFFICER

92. Subject to the provisions of the Act,-

(i) A chief executive officer, manager, company secretary or chief financial officer may be appointed by the Board for such term, at such remuneration and upon such conditions as it may think fit; and any chief executive officer, manager, company secretary or chief financial officer so appointed may be removed by means of a resolution of the Board;

(ii) A director may be appointed as chief executive officer, manager, company secretary or chief financial officer.

93. A provision of the Act or these regulations requiring or authorising a thing to be done by or to a director and chief executive officer, manager, company secretary or chief financial officer shall not be satisfied by its being done by or to the same person acting both as director and as, or in place of, chief executive officer, manager, company secretary or chief financial officer.

COMMON SEAL

94. (i)The Common Seal of the Company, if any may be made either of metal or of rubber as the directors may decide.

(ii) The Board shall provide for the safe custody of the seal, if any.

(iii) The seal of the company, if any shall not be affixed to any instrument except by the authority of a resolution of the Board or of a committee of the Board authorised by it in that behalf, and except in the presence of at least two directors and of the secretary or such other person as the Board may appoint for the purpose; and those two directors and the secretary or other person aforesaid shall sign every instrument to which the seal of the company, if any is so affixed in their presence.

BORROWING POWERS

95. The Board may, from time to time, and at its discretion, subject to the provisions of the Act and these Articles, accept deposits from Shareholders either in advance of calls or otherwise and generally raise or borrow moneys, either from the Directors, their friends and relatives or from others for the purposes of the Company and/or secure the payment of any such sum or sums of money, provided however, where the moneys to be borrowed together with the moneys already borrowed by the Company (apart from the temporary loans obtained from the Company's bankers in ordinary course of business) and remaining outstanding and undischarged at that time exceed the aggregate of the paid-up capital of the Company and its free reserves (not being reserves set apart for any specific purpose), the Board shall not borrow such money without the consent of the Company in a General Meeting by an ordinary resolution. The Board may raise and secure the payment of such sum or sums in such manner and upon such terms and conditions as it thinks fit, and in particular by receiving deposits, issue of bonds, debentures perpetual, redeemable, debenture stock, or any security of the Company or by mortgage or charge or other security upon all or any part of the property or undertaking of the Company (both present and future), including its uncalled capital for the time being; provided that the Board shall not give any option or right to any person for making calls on the Shareholders in respect of the amount unpaid for the time being on the Shares held by them, without the previous sanction of the Company in a General Meeting.

96. Subject to section 73 and 179 of the Companies Act. 2013, and Regulations made there under and Directions issued by the RBI the directors may, from time to time, raise or borrow any sums of money for and on behalf of the Company from the member or other persons, companies or banks or they may themselves advance money to the company on such interest as may be approved by the Directors.

97. The Directors may, from time to time, secure the payment of such money in such manner and upon such terms and conditions in all respects as they deem fit and in particular by the issue of bonds or debentures or by pledge, mortgage, charge or any other security on all or any properties of the Company (both present and future) including its uncalled capital for the time being.

OPERATION OF BANK ACCOUNTS

98. The Directors shall have the power to open bank accounts to sign cheques on behalf of the Company and to operate all banking accounts of the Company and to receive payments, make endorsements, draw and accept negotiable instruments, hundies and bills or may authorize any other person or persons to exercise such powers.

DIVIDENDS AND RESERVE

99. The company in general meeting may declare dividends, but no dividend shall exceed the amount recommended by the Board.

100. Subject to the provisions of section 123, the Board may from time to time pay to the members such interim dividends as appear to it to be justified by the profits of the company.

101. (i) The Board may, before recommending any dividend, set aside out of the profits of the company such sums as it thinks fit as a reserve or reserves which shall, at the discretion of the Board, be applicable for any purpose to which the profits of the company may be properly applied, including provision for meeting contingencies or for equalizing dividends; and pending such application, may, at the like discretion, either be employed in the business of the company or be invested in such investments (other than shares of the company) as the Board may, from time to time, thinks fit.

(ii) The Board may also carry forward any profits which it may consider necessary not to divide, without setting them aside as a reserve.

102. (i) Subject to the rights of persons, if any, entitled to shares with special rights as to dividends, all dividends shall be declared and paid according to the amounts paid or credited as paid on the shares in respect whereof the dividend is paid, but if and so long as nothing is paid upon any of the shares in the company, dividends may be declared and paid according to the amounts of the shares.

(ii) No amount paid or credited as paid on a share in advance of calls shall be treated for the purposes of this regulation as paid on the share.

(iii) All dividends shall be apportioned and paid proportionately to the amounts paid or credited as paid on the shares during any portion or portions of the period in respect of which the dividend is paid; but if any share is issued on terms providing that it shall rank for dividend as from a particular date such share shall rank for dividend accordingly.

103. The Board may deduct from any dividend payable to any member all sums of money, if any, presently payable by him to the company on account of calls or otherwise in relation to the shares of the company.

104. (i) Any dividend, interest or other monies payable in cash in respect of shares maybe paid by cheque or warrant sent through the post directed to the registered address of the holder or, in the case of joint holders, to the registered address of that one of the joint holders who is first named on the register of members, or to such person and to such address as the holder or joint holders may in writing direct.

(ii) Every such cheque or warrant shall be made payable to the order of the person to whom it is sent.

105. Any one of two or more joint holders of a share may give effective receipts for any dividends, bonuses or other monies payable in respect of such share.

106. Notice of any dividend that may have been declared shall be given to the persons entitled to share therein in the manner mentioned in the Act.

107. No dividend shall bear interest against the company.

ACCOUNTS

108. (i) The Board shall from time to time determine whether and to what extent and at what times and places and under what conditions or regulations, the accounts and books of the company, or any of them, shall be open to the inspection of members not being directors.

(ii) No member (not being a director) shall have any right of inspecting any account or book or document of the company except as conferred by law or authorised by the Board or by the company in general meeting.

109. The Directors shall in all respect comply with the provisions of Section 128,134, 137, 206, 207 and 208, of the Act, and profits and Loss Account, Balance Sheet and Auditors Report and every of the r document required by law to annexed or attached as the case may be, to the Balance Sheet, to be sent to every member and debenture holder of the Company and every trustee for the holders of the debentures issued by the Company at least twenty one days before the date of Annual general meeting of the Company at which they are to be laid, subject to the provisions of section 136 of the Act.

WINDING UP

110. Subject to the provisions of Chapter XX of the Act and rules made thereunder-

(i) If the company shall be wound up, the liquidator may, with the sanction of a special resolution of the company and any other sanction required by the Act, divide amongst the members, in specie or kind, the whole or any part of the assets of the company, whether they shall consist of property of the same kind or not.

(ii) For the purpose aforesaid, the liquidator may set such value as he deems fair upon any property to be divided as aforesaid and may determine how such division shall be carried out as between the members or different classes of members.

(iii) The liquidator may, with the like sanction, vest the whole or any part of such assets in trustees upon such trusts for the benefit of the contributories if he considers necessary, but so that no member shall be compelled to accept any shares or other securities whereon there is any liability.

SECRECY

111. Subject to the provisions of law of land and the act, every manager, auditor trustee, member of a committee, officer servant, agent accountant or other persons employed in the business of the company shall, if so required by the Board of Directors before entering upon his duties, sign, declaration, pledging himself to observe strict secrecy respecting all transactions of the Company with its customers and the state of account with individuals and in matters relating thereto and shall by such declaration pledge himself, not to reveal any of the matters which may come to his knowledge in the discharge of his duties except when required to

do so by the directors or by any court of law and except so far as may be necessary in order to comply with any of the provisions in these presents.

AUDIT

112. (i) Statutory Auditors and Cost Auditors, if any, shall be appointed and their rights and duties regulated in accordance with Sections 139 to 148 of the Act and Applicable Laws. Where applicable, a Secretarial Auditor shall be appointed by the Board and their rights and duties regulated in accordance with Sections 204 of the Act and Applicable Laws.

(ii) Subject to the provisions of Section 139 of the Act and rules made thereunder, the Statutory Auditors of the Company shall be appointed for a period of five consecutive years.

(iii) Provided that the Company may, at a General Meeting, remove any such Auditor or all of such Auditors and appoint in his or their place any other person or persons as may be recommended by the Board, in accordance with Section 140 of the Act or Applicable Laws.

(iv) The remuneration of the Auditors shall be fixed by the Company in Annual general meeting or in such manner as the Company in general meeting may determine.

INDEMNITY AND INSURANCE

113. Every officer of the company shall be indemnified out of the assets of the company against any liability incurred by him in defending any proceedings, whether civil or criminal, in which judgment is given in his favour or in which he is acquitted or in which relief is granted to him by the court or the Tribunal.

114. Subject as aforesaid, every director, managing director, manager, company secretary or other officer of the Company shall be indemnified against any liability incurred by him in defending any proceedings, whether civil or criminal in which judgment is given in his favour or in which he is acquitted or discharged or in connection with any application under applicable provisions of the Act in which relief is given to him by the Court.

115. The Company may take and maintain any insurance as the Board may think fit on behalf of its present and/or former directors and key managerial personnel for indemnifying all or any of them against any liability for any acts in relation to the Company for which they may be liable but have acted honestly and reasonably.

BALANCE SHEET AND PROFIT AND LOSS ACCOUNT

116. Balance sheet and Profit and Loss Account of the company will be audited once in a year by a qualified auditor for certification of correctness as per provisions of the Companies Act, 2013.

GENERAL POWER

117. Wherever in the Act, it has been provided that the Company shall have any right, privilege or authority or that the Company could carry out any transaction only if the Company is so authorized by its articles, then and in that case this Article authorizes and empowers the Company to have such rights, privileges or authorities and to carry such transactions as have been permitted by the Act, without there being any specific Article in that behalf herein provided.
